No. 403—Light Gray

Wardway Sand-Kote Finish

The rough finish this paint produces is the secret of its beauty and has won it instant popularity. It transforms smooth wall-board, plaster-board, plain walls of plaster or wood, to a rough sand-finished plaster effect. Sand-Kote is easy to apply, as the rough substance which it contains is a newly discovered product which remains in suspension. Usually one coat is sufficient—rarely more than two are required—for any kind of wall or ceiling surface.

The tints pictured above are the actual colors worked into the pigment, which gives the effect of the rough plastered wall beautifully tinted. It will not chip or peel and dries with a semi-gloss finish, except when applied over a porous surface, when a flat finish is secured. Plan to decorate with this special Rough Coat Paint. It gives distinction, is sanitary, and may be washed. Comes ready mixed.

NOTE—The colors shown here are accurate—as near the actual paint colors as it is possible to reproduce with printing ink. The paints are clear, beautiful shades and tints. In case you are not fully satisfied with the color of the paint after applying a little of it to your building, you may return the remainder at our expense and we will refund all your money, including transportation charges both ways.

Must Satisfy —or we will furnish New Paint FREE and Pay for putting it on your Buildings

GUARANTEE!

We guarantee COVERALL PAINT to be made according to a reliable time-tested formula, of Pure Linseed Oil and Pure White Lead, Zinc and other necessary ingredients.

We guarantee COVERALL Paint to spread as well, look as well and wear as well as any paint made, regardless of price.

If for any reason you feel dissatisfied with COVERALL Paint while applying it, you may return the unused portion and we will refund the price you paid for the entire amount including all transportation charges.

We will Furnish New Paint Free of Charge and Pay for Putting It on Your Building if COVERALL Paint fails to wear as well as any paint made, provided you have applied it in accordance with our printed instructions on the can and barrel.

Made Under Our Supervision from the VERY BEST Materials Money Can Buy

There is no secret about making good paint—if the proper materials are used and mixed in the right proportions. We know exactly what is in Coverall Paint because we oversee every gallon that is made for our customers, and we use the very best materials that money can buy. Nothing has been "skimped" to get the price down. We've only saved the in between profits.

The quality is there—or we never could make such an ironclad guarantee as the one above. Furthermore, our prices are very much lower than are charged all over the country for paint containing no better materials.

High Quality Material Insures High Quality Paint

More than 60 percent of COVERALL House Paint by volume is pure linseed oil. That means "pure" and it means "linseed" both. The other 40 per cent is made up of the very best pure white lead, a small percentage of japan drier and other materials which insure uniform quality, long wear and great covering capacity.

The Greatest Paint Value In the World

We make the claim that Coverall House Paint is superior to any ready mixed paint you can buy at anywhere near our price. We back up that claim with an ironclad guarantee, which is straight to the point and means every word it says. Why should you pay $1.00 to $2.00 a gallon more for paint elsewhere when you know it won't be any better?

Coverall is true to it's name. It goes farther because of the fine materials that are used in it and the fact that this paint is thoroughly mixed by the most modern machinery, a method far superior to hand mixing.

Every ounce of Coverall Paint, whether in a quart can or a 50-gallon barrel, is uniform, smoothly ground and true to color. ***There is not one drop of water or fish oil in COVERALL House Paint.*** We use Pure Linseed Oil direct from the flaxseed crushers. Your choice of color combinations is almost unlimited. See Page 442 where colors are shown.

$2.05 A Gallon

In 50-Gallon Barrels

Never Used a Better Paint at Any Price

"Coverall Paint brushes on as good or better than any paint I ever used. It also covers well and dries with a fine gloss. I bought it for about ½ of the local prices and never used a better paint at any price."

B. K. Land,
Pine Bluffs, Wyo.

Printed by Permission

Temperature Has No Effect on Coverall

"Your Coverall House Paint has been on our houses some 6 years in all parts of Oklahoma. We have very hot dry winds here but the paint stands up fine."

Clara Hillman,
Okmulgee, Okla.

Printed by Permission

How to Find Out How Much Paint You Need

Find the number of square feet of surface to be painted. Divide this amount by 300, the number of square feet one gallon will cover with two coats, and you have the number of gallons required for the job. If the old paint is badly weather beaten or if the building is new, it will require a priming coat of Coverall. This would require 50 per cent more paint and the necessary linseed oil to mix priming coat.

Freight Charges Are Small Compared to The Saving Made

White Paint that *Stays White*

It *Must* Satisfy

Same Absolute Guarantee as Our Famous COVERALL

$2.18 A Gallon

In 50-Gallon Barrels

Covers Better
Stays White Longer
Spreads Easier

Zinc-White can be applied over the old paint and usually one coat is sufficient. Ordinary paint, if mixed heavy enough to cover in the same way, would not spread as easily or cover the same amount of surface. Special fine grinding machines give this paint its easy flowing qualities and its great spreading capacity. If used as a primer on new work, Zinc-White should be thinned with pure linseed oil the same as other paints. It comes ready for use over old painted or newly primed surfaces. The pigments used are the finest obtainable. Pure linseed oil and zinc add to the long life of this paint. We prepare it only in white but it may be tinted in the usual manner. Positively will not crack, peel or chip.

As its name indicates, Zinc-White has zinc-oxide instead of lead oxide as a base. It was developed several years ago by our paint experts after years of study and experimentation to meet the demand for a white exterior paint that would retain its original snow white beauty even after years of exposure to the elements. Zinc-White is covered by the same iron-clad guarantee as our famous Coverall Paint. It has been used with success on buildings exposed to strong fumes and gases which by their chemical action would discolor any other white paint. It also is used extensively in southern climates or in localities where the salt air near the seashore is destructive to other paints. The excellent finish of Zinc-White has brought it into great favor with practical painters, who realize the advantages of this quality paint product. See "How to Order" and "Estimate Total Freight Charges" on Page 443.

Water-proof Stucco Paint

$2.30 A Gallon

With this high-grade, durable Paint, you can make an old weather stained stucco, stone, brick or cement building look like new. It is a high quality weather-resisting paint for lasting wear. Protects against dampness, seepage and disintegration when used on cement silos, concrete fence posts and basement walls both inside and out. In addition to the beautiful color it gives the house, it also retards decay by protecting the stucco from weather wear. It is easily applied and retains its original color. Surfaces not previously painted should first be given one coat of Seal-Tite Waterproofing listed below. One gallon will cover about 200 square feet, one coat. Read "How to Order" on Page 443. State color wanted.

Choice of four popular colors, also white.
105—Cement Gray 101—White 102—Buff
107—Brick Red 103—Moss Green

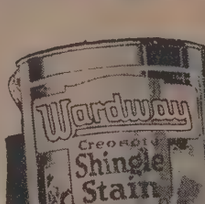
$1.50 A Gallon

Tinners' Red Paint

For Metal Roofs, Gutters and Down Spouts

Protects metal roofs, gutters and down spouts from weather wear. You'll find it much more economical to use than red lead. Used either as a first coat for metal priming before painting or alone as protection against rust. Shipping weights: 52 and 12 pounds.

475 F 7765—5-gallon can. Per gallon $1.50
575 F 7764—1-gallon can. Per gallon 1.55



Shingle Stain Doubles the Life of Shingles

74¢ A Gallon In 50-Gallon Barrels

For Unpainted Shingled Sides or Siding; Also Shingled Roofs, New or Old

GIVES rare beauty and years of protection to shingled roofs and shingled walls. One application is usually sufficient. The deep penetration of creosote oil that Wardway Shingle Stain contains, protects against weather wear.

Easy to apply by brushing on or by dipping the shingles. Four attractive colors permit you to beautify as well as preserve. Varied color effects may be obtained by dipping shingles in different colors and laying them alternately. You see everywhere the beauty of shingles stained in colors. One gallon brushed on will cover 100 square feet, two coats; 2½ gallons will treat 1000 shingles dipped two-thirds their length. Colors are shown on Page 442.

45¢ A Quart

Cold Water Paint

Comes in Powder Form For Interior Work

Sanitary and durable. When mixed with water it makes a suitable finish for offices, factories, pantries, basements, garages, barns, chicken houses, and many other places where an inexpensive interior paint is desired. Dries hard and firm, will not chalk, peel or rub off. Can be easily and quickly applied with a regular paint brush or by spraying. (See Page 587 for sprayer.) Also has fire resisting qualities. Approved by the Fire Underwriters Laboratories, Inc. Mix 1 gallon of water to every 5 pounds of paint powder. Five pounds will cover about 400 square feet. See "Estimated Total Freight Charges" on Page 443.

Not intended to take the place of an oil paint.

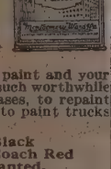
Wagon and Implement Paint



$2.53 A Gallon

A coat or two of this protective paint will add many years to the life of your wagons and implements. It will make them look better, prevent the wood from checking and warping and all metal parts from rusting. The cost of the paint and your spare time make a small amount to pay for such worthwhile results. One gallon is sufficient, in most cases, to repaint every implement on your farm. Also used to paint trucks and automobiles.

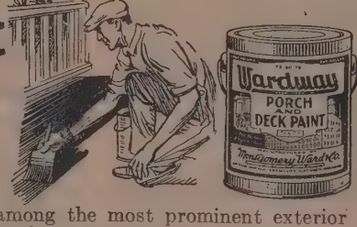
Porch and Deck Paint

$2.18 A Gallon

Weather and Wear Resisting Porch Paint



Your porch floor and steps are among the most prominent exterior features of your house. It is the place where guests never fail to gain their first impressions of your home. Keep them attractive and protected from the weather wear by painting them with our Wardway Porch and Deck Paint. We make it in our own factory for this particular purpose. It forms a tough elastic finish that will resist the hardest wear, sun, rain or snow and still retain its beautiful glossy finish for an unusually long time. We believe it to be one of the best paints on the market for this particular purpose. You will find Porch and Deck Paint the equal of many paints which sell for considerably more money. One gallon covers 250 to 300 square feet, two coats.

Choice of six popular colors. Make your selection from the list below or refer to Page 442 where colors are shown.

Inside Floor Paint

$2.10 A Gallon

A Durable Attractive Floor Finish

You want an extremely hard wearing Paint for use on floors, especially kitchen and hall floors that receive such constant wear. Wardway Inside Floor Paint forms a durable granite-like surface that resists the hardest wear and tear. It not only brightens and renews floors but protects and keeps them from showing wear. Unlike ordinary paints, it contains a tough elastic varnish that gives it this hard wearing quality so necessary to inside floor paints.

You can wash and scrub it repeatedly without the slightest injury to the beautiful finish. Use a mild soap. Avoid use of strong alkali soaps as they are actually paint removers. One gallon covers 250 square feet, two coats.

COVERALL *The Lasting Barn Paint*
It *Must* Satisfy

"I painted my barn eight years ago with COVERALL Paint. It looks well and stays on good."
A. Hampel, Kingman, Kansas
Printed by Permission

Read Our Guarantee on Page 443

True worth in a Barn Paint is the length of time it will last. We have thoroughly convinced something like a million customers that it is possible to sell barn paint at $1.28 a gallon that will give all the service that any barn paint will give. The quality of COVERALL Barn Paint is kept constant year after year because we make it in our own factory of the finest quality mineral pigments, oxides, linseed oil and other necessary materials essential to good paint. It is perfectly mixed and ground together by the most modern paint grinding machinery under the watchful eyes of expert paint makers. COVERALL Barn Paint must give absolute satisfaction as it is covered by our famous Coverall Paint guarantee.

Especially made for hard service and will stand constant exposure to the elements. It flows evenly, smoothly and freely giving a perfect paint job. The average covering capacity is 250 square feet, per gallon, two coats. This unusually large covering capacity means fewer gallons needed for the job and more money saved in proportion. To paint or trim your barn white, use No. 11 Outside White COVERALL House Paint listed on Page 443.

Read "How to Order" and "Estimated Total Freight Charges" on Page 443. Make your selection from the list below, or refer to Page 442 where the colors are shown.

Painters' Materials

100% Pure White Lead In Oil

It is very difficult for the average person to mix paints and get them the right consistency. For this reason we always recommend the use of our ready mixed paints. However, if you prefer to mix your own paints, we can save you money on the highest quality paint materials. White Lead in Oil is guaranteed 100 per cent pure. It is ground in the finest pure Linseed Oil. Shipping weights: 106, 55, 27, 15, 6 and 1¼ pounds. See "Estimated Total Freight Charges" on Page 443. Prices subject to market changes.

30¢ Ward-Set

Ideal for Lacquering Varnishing or Painting

$1.65 Ward-Set

Shasta Varnish Brush

A brush that has won universal recognition among Ward's customers as an outstanding bargain. Wooden pegs on handle are driven into the select Chinese bristles and clamped firmly by nickeled steel ferrule. (See illustration above.) Now we have made further improvements by putting the bristles in a Bakelite setting. This double grip makes it absolutely impossible for the bristles to come out.

Article No.	Width	Bristles	Ship. Wt.	Each
75 F 959	1 in.	2 in.	4 oz.	$ .30
75 F 960	1½ in.	2½ in.	5 oz.	.44
75 F 961	2 in.	2⅞ in.	6 oz.	.65
75 F 962	3 in.	3⅛ in.	8 oz.	1.10

Shasta Wall Brush

A brush that you can use for lacquering, painting varnishing or enameling and always be sure of a first grade job. Sleek, springy, black Chinese bristles are set in solid Bakelite and then pressed firmly together in a solid nickeled plated steel ferrule. Makes it absolutely impossible for the bristles to come out. This brush has a solid mass of bristles—no wooden block in the center. Nothing can destroy the Bakelite setting that would not also destroy the bristles. Shipping weight: 7 and 8 ounces.

Number	Width	Bristles	Each
75 F 963	3½ inches	3½ inches	$1.65
75 F 964	4 inches	3¾ inches	2.15

Millions of American Families say Their First Order was Only a Test

TAKES WARD'S QUALITY FOR GRANTED

There can be no greater confidence than this.

Smyrna, Wash.—"The Coverall Barn Paint has been on two months. It spread evenly and smoothly, has a good color and looks well. I do not know how much I saved as I did not price paint locally. We have a habit of taking much for granted in dealing with Ward's, and do not shop around to compare prices and quality. The paint is entirely satisfactory, and we expect it to remain so."—O. F. Gilbert.

WARD'S GROCERIES KEEP EXPENSES DOWN

"What we save on sug pays the freight" says W. R. Gay.

Gives Overalls Hard Wear

"Ward-Wear" suits him fine and he saves 50¢ to 75¢ a pair.

New Plymouth, O.—"I am glad of the opportunity to tell you how I like the Overalls I bought of you. The quality of denim is the best. They are made to fit and are comfortable to work in. I believe I give overalls as hard service as any man, and find that "Ward-Wear" suits me fine. Especially when they save me 50¢ to 75¢ per pair."—Edward L. Clewell.

Mrs. Beaumont Saves $2.50 to $4.50 on Blankets

Better than she expected, so she is more than pleased.

Chillicothe, Ill.—"I think got very good Blankets for money. If I bought them f

Everyone Admires Her Beautiful Rooms

Hanging Ward's wall paper is fascinating work and easy to do.

Antioch, Tenn.—"My rooms are grand; everyone admires them, and I feel very grateful for what you saved me.

"I hung my own wall paper and it is easy to do by following Ward's instructions. I had thought I couldn't do it, but with Ward's help I did and am well pleased. One reason it is so easy to hang is because it is such good quality and does not tear easily."—Mrs. James Thornton.

Mr. Tudor Furnishes Home

Ward's Prices Save Money.

Valparaiso, Ind.—"I will truthfully say that your Upholstered Furniture is far better than I expected. Other sets we priced in the same pattern and material were all the way from $250 to $400, while we got ours from you for a little more than $100. I will recommend Ward's every time I get a chance."—Virgil C. Tudor.

His First Baby Shoes Bought from Ward's by mother fifty years ago.

Bricelyn, Minn.—"The first pair of shoes I ever had," writes Mr. W. W. Salley, "my mother bought of you when I was a baby. I am past fifty years old now so we have known Montgomery Ward & Co. a long time." He also adds, "I have dealt with you ever since and always found you more than fair."

Twelve Years of Hardest Kind of Wear

Proves Ward's rug values to Mrs. Eickholt's Satisfaction.

Chesoning, Mich.—"I want to write you a few words about a Rug I bought from you twelve years ago, size 11¼ by 15 feet, for somewhere around $23. It has seen the hardest kind of wear. I must say that I certainly got my money's worth. Your goods, especially gingham, are the best for the price that can be bought anywhere."—Mrs. William Eickholt, Route No. 5.

Still Carrying On Mr. Ward's High Grade Policies

Customer for thirty years ome to commend

Saved $8.65 on One Grocery Order

Mt. Pleasant, Iowa—"I received the order of Groceries today from the depot and I sure am well pleased with everything. I figure that I saved $8.65 on this order, not counting the freight, which was $1.02. I can say that I have saved as much as $1.00 to $1.50 on one single article. The family sure does enjoy the good things from Montgomery Ward & Co., for we know your groceries are clean and pure."—Clifford R. Thomson.

Real Boy Praises His Coaster Wagon

Ward's toys bring joy to the young folks and savings for their parents.

Clarno, Wis.—"I like my Coaster Wagon very well. I like the bright colors of the wagon. The wagon is about half the price of one around here. It runs so easily that on the cement it nearly runs by itself. One of my friends liked my coaster so well that he sent for one, too. Other children like it too. I will always like my coaster."—Floyd Timm.

Their Continued Orders are proof of Ward's Satisfactory SERVICE

Get Ready for Your Camping Trip Now!

"For My Own Use - I'd Rather Have the New 1927 Kamp King Than Any Other Tourist Tent Made"

"If you were to come to me for my honest opinion of the best Tent you could buy, I would say, 'By all means, select the New 1927 KAMP KING Tourist Tent.' I personally recommend this tent to you because I know that it will give absolute satisfaction. In all my years of using, testing, buying and selling camping equipment, I have never found its equal. Emphatically, I say, 'For my own use, I'd rather have the New 1927 KAMP KING - than any other tourist tent made.'"

EARNWAY EDWARDS,
Manager Sporting Goods Department

The Kamp King is the Best Tent That Money Can Buy

Never have we seen a Tent equal in merit to the **Kamp King**. Nor have we ever offered a tent so worthy of our unqualified guarantee. Built of the finest materials and tailor-made by masters of their craft, the **Kamp King** Tent will please the most exacting camper. Backed by our complete guarantee that it will satisfy as to design, material and workmanship, and that it will shed the hardest rain, the **Kamp King** stands without a peer among tents.

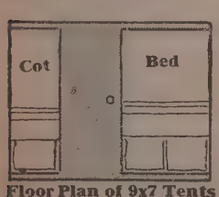
Can Be Set Up in Five Minutes

The **Kamp King Tent** can be set up easier and quicker than any ordinary umbrella tent, as it eliminates the umbrella arms and mechanism. Demountable frame of steel "U" rods, which fold in center, holds the tent rigidly in shape. Rods run through double sewed pockets along the eaves. At the four corners a clever device locks the rods together forming a frame that will not weave or buckle in the strongest wind. No bolts or threads to delay you—nothing to get lost. The sewed on rings for guy ropes at rear eaves are for use in stormy weather. Patented one-piece jointed and adjustable steel center pole with ratchet appliance, automatically adjusts pole to proper height. One person can easily set this tent up in five minutes.

Dry—Strong—Roomy and Cozy

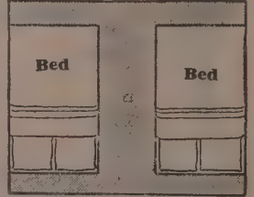
The **Kamp King Tent** affords the utmost in protection from weather and insects. You have plenty of standing room and good ventilation. Withstands the hardest kind of wear. Will not mildew. Occupies a very small space when packed for traveling. The deep forest green tent cloth is thoroughly water-proofed by the most perfect treatment known which sheds the rain and leaves the tent dry to the touch. Heavy water-proof green cloth covers entire floor and is sewed in all around. Large patented storm-proof window at rear is screened with bobinette and has patented flaps on either side making window entirely rain-proof. Tent door, 38 by 60 inches, has bobinette screen door and storm door which makes a tight enclosure with aid of double door laps, 6-inch door riser and snap fasteners. Eaves, 6 feet 2 inches high; center, 7 feet, 6 inches. Awning extends 6 feet and is same width as eaves over the door and widens to 6 feet at outer end. Also equipped with 2½-inch drop edges provided with strong snaps for attaching side curtains.

The **Kamp King Tent** is furnished in two sizes as shown by floor plans below, and can be equipped with side curtains at small additional cost as illustrated and described at the right. Can be shipped by parcel post in zones 1, 2 and 3 only



Floor Plan of 9x7 Tents

Choice of Two Sizes



Floor Plan of 10½x8¼ Tent

460 F 9590—Size at base, 9 by 7 feet; 5-feet square at eaves. Door is on 9 foot side, giving ample space for one double bed and one single cot with 2-foot center passage, as shown in diagram above. $33.95
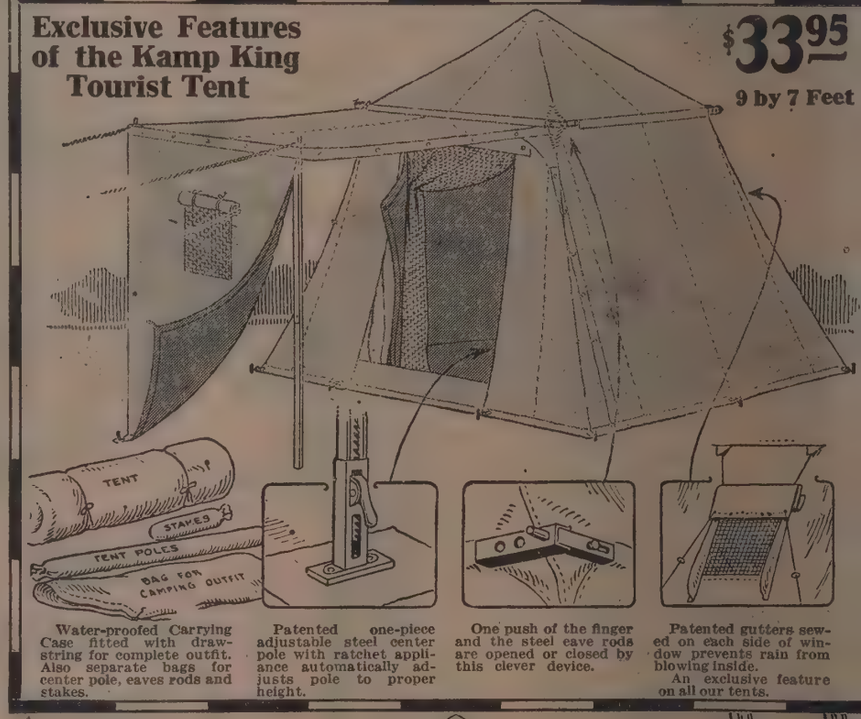
9 by 7 Feet

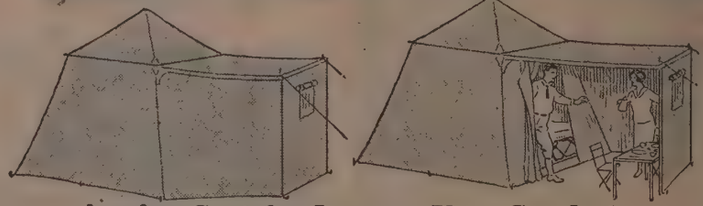


Water-proofed Carrying Case fitted with draw-string for complete outfit. Also separate bags for center pole, eaves rods and stakes.

Patented one-piece adjustable steel center pole with ratchet appliance automatically adjusts pole to proper height.

One push of the finger and the steel eave rods are opened or closed by this clever device.

Patented gutters sewed on each side of window prevents rain from blowing inside.
An exclusive feature on all our tents.



Awning Curtains Increase Your Comfort

The reversible side wings which are made of the same material as the tent give privacy when eating or lounging and serve as a wind-break when cooking. During stormy weather, front curtain No. 60 F 9572 and two side curtains No. 60 F 9570 may be snapped quickly in place, enclosing the awning and forming a complete shelter for cooking, eating or sleeping. All side curtains are interchangeable and snap firmly to awning, tent walls and corners, making tight enclosure. Shipping weight, each, about 3 pounds 8 ounces.

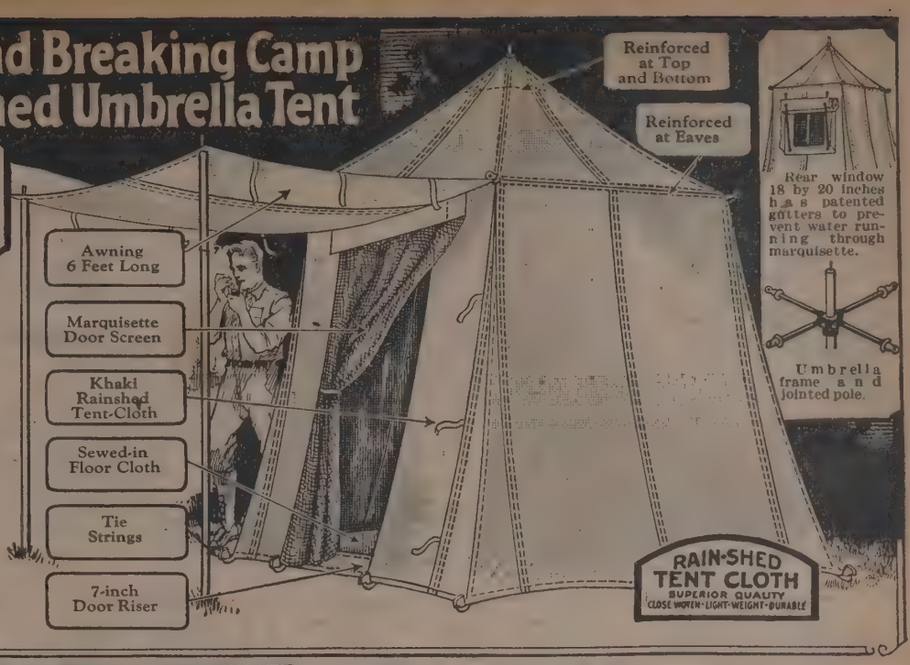
Spend Less Time Making and Breaking Camp With an Auto-Tour Rainshed Umbrella Tent

RAISES and lowers much like an umbrella. Can be set up and ready for use in 5 to 10 minutes—one person can handle it easily. Taken down just as quickly and rolled into a compact bundle. Auto-Tour is one of the most popular Tourist Tents—designed to give the utmost in comfort and is made of durable material guaranteed to shed rain.

$16.98
7 by 7 Feet



Rear window 18 by 20 inches has patented gutters to prevent water running through marquisette.
Umbrella frame and jointed pole.

Patented Gutter on Window Exclusive in Ward Tents

Here is another reason for Ward's leadership in tent sales. The use of water gutters on each window is one of the latest improvements in tent construction and a feature found only on Ward's tents. Tent-cloth flaps are stitched on both sides of the window, opening forming a gutter which prevents water from running off outside walls into the window, insuring a dry, and comfortable interior at all times.

The window, located in rear is screened with marquisette and has a storm curtain and large overlaps, operated from inside.

You will enjoy camp life in an Auto-Tour as it is designed to give many of the comforts of home. Plenty of standing room, complete privacy, excellent ventilation and secure protection from weather and insects. Will withstand a heavy wind storm.

Furnished in three sizes. Height at eaves 6 feet. Full width awning 6 feet long. Complete with two-piece jointed wood center pole 7½ feet high, stakes and guy ropes for awning. Awning poles not included. Can be shipped by parcel post.

460 F 9542—Size at base, 7 by 7 feet, 4½ ft. sq. at eaves. Awning extends 6 feet. Ship. wt., 38 pounds..... **$16.98**

460 F 9545—Size at base, 9 by 7 feet; 4½ feet square at eaves. Door is on 9-foot side. Ample space for one double bed and one cot. Size taken down, 4 feet long by 11 inches in diameter. Shipping weight, 42 pounds..... **$18.95**

460 F 9547—Size at base, 11 by 9 feet; 5 feet square at eaves. Door is on 11-foot side. Space for two double beds with aisle between. Folded size, 4 feet by 12 inches. Can be shipped by parcel post in zones 1, 2 and 3. Shipping weight, 54 pounds. **$23.95**

Ward's Tourist DeLuxe Tent

The Tourist DeLuxe Umbrella tent has plenty of standing room, excellent ventilation and provides ample protection from weather and insects. One person can set it up in five to ten minutes. The reversible side wing, about 57 inches wide, gives privacy when eating or lounging and serves as a windbreak when cooking. It attaches to rings sewed on 4-inch drop edge at either side of awning or over doorway as a storm door with large overlap.

Height, at eaves, 6½ feet; awning extends 6½ feet from eaves. Center is 8 feet high. Tent is of khaki color, superior quality, Rain-Shed tent cloth, woven very closely and given a thorough treatment of water-proofing, weight about 10 ounces. Sewed-in floor cloth of heavy water-proofed duck covers entire floor, with seven-inch door riser. Two large storm-proof windows, 18 by 20 inches with patented gutters—an exclusive feature found on Ward's tents—making them entirely rainproof. They are screened with bobbinet and have storm curtains controlled from inside. Two-piece wood center-pole stained green with steel ferrules.

Umbrella frame is adjustable and tension on tent top may be regulated by means of sleeve on center pole. All seams double stitched with web reinforcements at top, around eaves and from corners to peak giving exceptional strength. Doorway 28 inches wide by 6 feet high, screened with bobinette, which snaps shut between flaps at edge of door. Side wing, metal stakes and awning guy ropes with keys included.

460 F 9530—Size at base 9 by 7 feet deep; 4½ feet square at eaves. Door is on 9-foot side giving ample space for one double bed and one single cot with 2-foot center passage. Size, taken down, 4 feet by 11 inches. Shipping weight, 46 pounds. Can be shipped by parcel post..... **$26.95**

460 F 9531—Size at base 9 by 9 feet; 5 feet square at eaves. Space for two double beds with narrow passageway between. Size, taken down, 4 feet by 11 inches. Shipping weight, 50 pounds. Can be shipped by parcel post. **$28.75**

460 F 9532—Size at base, 11 by 9 feet deep; 5 feet square at eaves. Door is on 11-foot side. Space for 2 double beds with about 2-foot passageway between. Size taken down, 4 feet by 12 inches. Shipping weight, 54 pounds. Can be shipped by parcel post in zones 1, 2 and 3 only. **$31.95**

Ward's Rain-Shed Tourist Tent

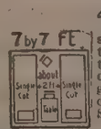
It has many exclusive features found on no other Tent of this type selling anywhere near our low price. Rain-Shed superior quality tent cloth throughout—a closely woven khaki material given one of the best water-proofing treatments we have been able to find. Weight about 10 ounces per yard. Heavy sewed-in canvas floor also sewed-in front wall with center opening to permit access to auto. The extension fly is 7 feet wide by 7½ feet long one foot longer than ordinarily used. This extra length permits it to come well down on opposite side of car, giving privacy when sleeping. Height, at back, 3 feet; at front, 6½ feet.

Added Features for Extra Comfort

A feature of this tent is the additional side door which is very handy when the auto prevents entrance through the front. Both front and side doors are fitted with 3 pairs of double tie strings and 6-inch door riser so tent can be closed up snugly. Also two extra grommets sewed in awning close to ridge so door can be opened when used with sedan.

Double stitched seams make tent strong and durable. Reinforced corners and ridge. Eaves have iron rings sewed in with strong Manila guy ropes, spliced on. Two 12 by 14-inch reinforced screened windows have storm curtains operated from inside. Patented gutters, an exclusive feature found only on Ward's Tents, on each side make windows absolutely water-proof. Complete with stakes. If used without car order poles listed with Tourist DeLuxe Tent above. Can be shipped by parcel post.

This Tent Made in Two Sizes



460 F 9585—The 7 by 7-foot size, as shown by the floor plan at the left, has plenty of room for 2 single size cots, a chair and table. Ship. wt., 31 lbs. **$16.95**

Ideal Khaki Rain-Shed Auto Tent

The only Auto Tent which can be used conveniently with coupes and runabouts without the use of poles. One band of tent cloth 29 inches wide stretches over top of car and fastens on opposite side. Ideal tents may be used with all cars. Side walls taper making a tent with a ridge only 29 inches long.

Rain-Shed Tent cloth, weight about 10 ounces after treatment—a very strong, closely woven khaki material makes this tent light in weight, compact and very durable. Khaki color and thoroughly water-proofed.

Reinforced Doors and Windows

Two screened reinforced windows, 12 by 14 inches, fitted with canvas storm curtains operated from inside. Patented rainproof gutters, an exclusive feature on all Ward's tents. Has 3-foot back wall and sewed-in wall 6½ feet high next to car. Door at side has 6-inch door riser fitted with tie strings for closing tent. Double stitched seams. Eaves have sewed-in rings with spliced-in Manila guy ropes. With guy ropes and stakes. Packs into space 12 by 24 inches. Can be shipped by parcel post.

460 F 9514—Floor size, 7 by 7 feet. With 3-inch sod cloth sewed in. Shipping weight, 25 pounds..... **$11.95**

460 F 9515—Size, 7 by 9 feet. With heavy water-proofed floor cloth sewed in making tent proof against insects. Shipping weight, 30 pounds. **$14.95**

60 F 9804—Water-proofed Floor Cloth. For No. 460 F 9514 Tent Brown canvas, weighing about 12 ounces per square yard after treatment. Size, 7 by 7 feet. Grommets in corner. Can also be used as luggage cover. Shipping weight, 5 pounds 8 ounces. **$2.45**

The Knockabout—Best Low Priced Waterproofed Tent You Can Buy

Compare the Knockabout specifications with those of tents being sold elsewhere, then compare the prices. You will readily see the great advantage of buying your tent from Ward's. Special khaki water-proofed auto tent fabric makes each Knockabout water repellent, lighter in weight and far more serviceable than tents of ordinary tent material. Weight about 8 ounces per yard. When used with car, front flap is placed over top and fastened to wheels or stakes on opposite side. Tent is then stretched and corners staked down. No poles are required when car is used. When set up as an open front tent, use poles No. 460 F 9594 listed above with Tourist DeLuxe Tent. For party of four or more we suggest the use of two tents, one on each side of the car, or with jointed poles having tents facing each other, as shown in small illustration.

Both sizes have 3-foot back wall and are 6½ feet high in front. Extension flap is full 6½ feet long and 7 feet wide. Seams all double stitched. Each tent reinforced at corners and ridge. Sewed-in iron rings on eaves with spliced-in Manila guy ropes. Guy ropes and wooden stakes furnished; poles for front wall or awning not included. Can be shipped by parcel post.

460 F 9512—Size, 7 by 7 feet. Space for two single or one double cot, table and chairs. Shipping weight, 22 pounds..... **$8.98**

460 F 9513—Size, 7 by 9 feet. Space for one single and one double cot, table and chairs. Shipping weight, 36 pounds. **$10.65**

Detachable Water-proofed Floor Cloths. For protection from dampness. Brown canvas, weight about 12 ounces per square yard after treatment. Grommets in corners. Can also be used as luggage cover. Mailable.

Rain-Shed DeLuxe

Stop your car anywhere. Get your Special De Luxe Tent out of its bag, and in ten minutes you will have a very comfortable, roomy camp. Special features and refinements that are found in no other tent make it as compact to carry and as easy to set up as any auto tent. The superior quality khaki color Rain-Shed Tent Cloth is woven unusually tight, will stand hard wear, and is thoroughly waterproofed, weight about 10 ounces per yard.

Quickly Converted into Four-Party Wall Tent

As shown in small illustration it makes a large double slope wall tent, with guy ropes fastened to extra grommets in extension flap and drawn forward at an angle. When set up in this way it has 4-foot, 8-inch front wall 6½ feet high at ridge and accommodates two double beds with passageway between. When used with a car front it closes by auto snap fasteners at top and bottom giving access to car through door which can be closed tightly with tie strings. Extension flap 7 feet wide and 8½ feet long comes far down car side when stretched over top. Side door has 6-inch riser and tie strings. Tent has 4-inch riser across front. Height of front 6½ feet. Two screened reinforced windows, 12 by 14 inches, have canvas roll-up storm curtains operated from inside by drawstrings. Reinforced at corners and ridge. Double stitched seams. Eaves have sewed-in iron rings with spliced-in Manila guy ropes. Jointed poles not included in price, see 460 F 9594 listed above with Tourist DeLuxe Tent. Can be shipped by parcel post.

460 F 9517—Size 7 by 7 feet. Convertible into 7 by 10½-foot tent. Height, back wall, 3½ feet. 1 eight-inch sod cloth sewed in all around. Each in water-proof carrying bag, about 12 by 25 inches. Shipping weight, 38 pounds..... **$18.95**

And This Tent Is One of the Reasons Why All Khaki—Waterproofed Tent

CHECK over the features of this splendid, heavy, Waterproofed Khaki Duck Tent. Look at other tents embracing these features and compare them carefully—then compare prices—and you'll understand why we sell more tents than any other store in the world.

This tent is an outstanding example of the immense values which have made us America's headquarters for camping equipment. Buying in huge quantities for our thousands of camper friends keeps the price down, while our rigid specifications and strict inspection maintain our high standard of quality.

Only the Best Tents Made Have These Features

Made entirely of heavy waterproofed khaki duck, weighing about 12 ounces to the yard after treatment. This splendid material sheds water—no need for a fly—keeps heat out by dimming the glaring rays of the sun, making the tent always cool, dry and comfortable.

Strong iron rings, with manila guy ropes spliced on, replace the small grommets generally used for tying guy ropes. Full height center and walls—and all sizes given are exact. Heavy reinforcements at corners and ridge. All seams double stitched with extra strong thread. Complete with poles and stakes. Can be shipped by freight or express only.

Kool-Dri
$10.75

Genuine Kool-Dri Tent

Waterproofed Khaki Duck Top, White Canvas Side Walls

The khaki duck top, weighing about 12 ounces per yard after waterproofing protects you from the sun, heat and rain. No fly necessary. That's why you'll find it a favorite in every tourist camp from Maine to California. Wide eaves extending 3 inches beyond the side walls carry the water off, leaving the white duck sides dry. Ends and side walls of heavy white duck weighing 10 ounces to the square yard. Sewed-in iron rings with Manila guy ropes spliced on.

Kool-Dri Tents are full size and full height—plenty of headroom. And they are reinforced at every strain point. Kool-Dri Tents are furnished complete with poles, stakes, unoiled Manila guy ropes and keys, all ready to set up, and every tent is rigidly inspected to see that it meets our quality requirements. The prices are far less than those usually asked for tents of this quality. Can be shipped by freight or express only.

The Nationally Famous Rainshed Tourite Tent

Every Desirable Feature of the Best Wall Tents Is Built into Tourite

Light Weight for Convenience—Waterproofed for Protection—Compact—Well Ventilated—Easily Set Up

BEFORE making the Tourite, we inquired of thousands of tourists and campers the kind of a Tent they would like to have. Their suggestions and ideas for added conveniences and greater comfort have been built into the Tourite. This is truly a tent designed by tourists for tourists which guarantees it as a practical tent for all touring and camping needs.

The good features of all styles of tents—the better points of auto and umbrella tents—are combined into this one. Yet it costs very little more than you would be asked to pay usually for an ordinary plain wall tent without these features.

Plenty of Standing Room

In the Tourite there is plenty of head room and generous floor space so you can have your beds, camp stove, table and chairs all inside. A direct circulation of air is provided through two 18 by 20-inch windows, one each front and rear, and a doorway measuring about 28 by 72 inches. Windows are reinforced all around. Patented gutters of tent-cloth are sewed on both sides of windows to prevent water from running inside the tent—an exclusive feature on all Ward's tents to insure a dry and comfortable interior all the time. Storm curtain on each window overlaps 4 inches and operates from inside.

Rainshed Tourite Tents are furnished complete with 2 two-piece 8-foot jointed wood poles, heavy rope ridge, guy ropes, and stakes, ready to set up. Can be shipped by freight or express only.

160 F 9610—Size, 9 by 7 feet. Door is on 9-foot side, giving ample space for two double beds, or one double bed with table and chairs. Shipping weight, 35 pounds. **$22.45**

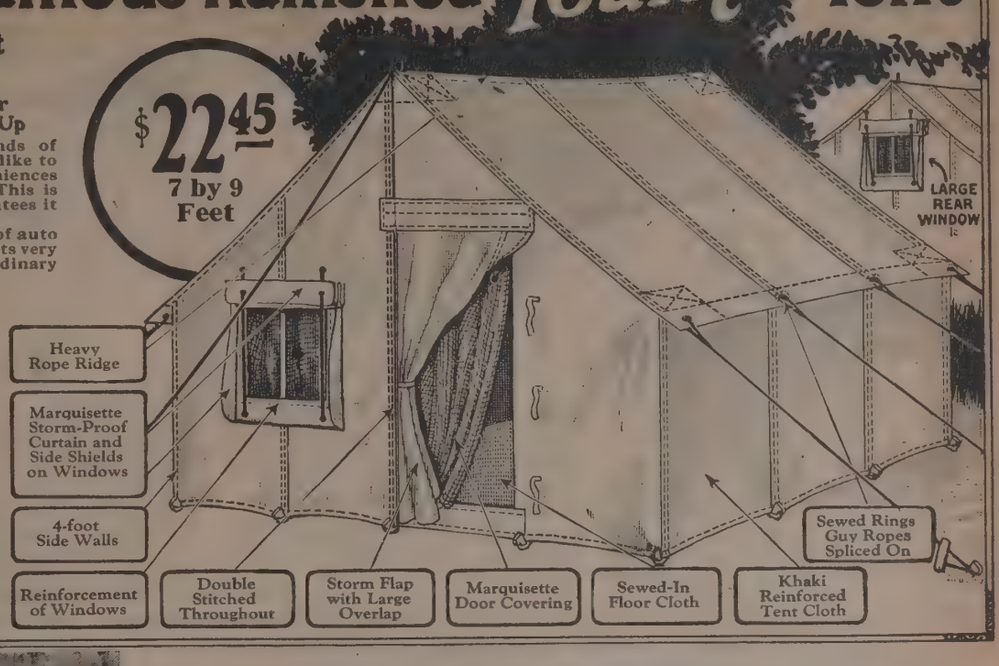
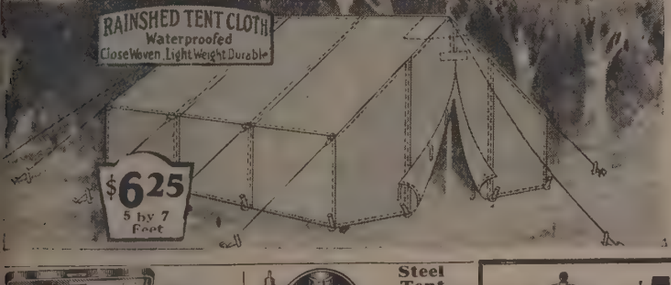
160 F 9612—Size, 11 by 9 feet. Door is on 11-foot side, giving ample space for two double beds, table and chairs. Shipping weight, 43 pounds..... **$28.75**





Khaki Colored Waterproofed Scout Tent Has Strong Rope Ridge—Light Weight and Compact

Rainshed tent cloth, light in weight but a durable, closely woven fabric thoroughly waterproofed. The compactness and light weight of this tent will appeal strongly to scouts, miners, surveyors and others who live and work in the open. Occupies little room in a canoe, auto or pack.

Will give you very satisfactory service. Double stitched at all seams with strong thread and reinforced at corners and ridge to resist strain. It is a tent you can carry easily and put up quickly. May also be used as an outdoor play room for the children. Ideal for any kind of weather. The khaki color helps to keep out the sun. Complete, with heavy rope ridge, guy ropes and stakes. Poles not included. Can be shipped without poles by parcel post. If ordered with poles, can be shipped by freight or express only.

Get There and Back-Quick

Neptune Twin Outboard Motor

One of the largest manufacturers of Outboard Motors, a concern with twenty-four years' experience, is building the NEPTUNE TWIN for us. We have obtained a quantity price far below that asked elsewhere for the same motor. It sells regularly for $145. Will give long and useful service in either fresh or salt water.

High Grade Specifications

Motor. Two cylinders fire at same time, giving a balanced stroke, which reduces vibration to a minimum. Bore, 2 inches; stroke, 2 inches. Chrome nickel steel crankshaft. Phosphor bronze bearings; gray iron pistons. Will develop about 2¾ horse power. Propels average rowboat about 8 miles per hour.

Carburetor. Zenith, with adjustable needle point and metal float. Because of the fine adjustment the motor is very economical on gasoline.

Ignition. Equipped with Eiseman waterproof magneto and jacks for plugging battery so that operator can use either magneto or battery. (Battery not included.)

Control. Very simple to operate. Rubber handled lever controls the steering and by changing spark control lever a variation of speed is obtainable either forward or backward. No need of stopping the motor when changing to reverse—merely press stop button and shift spark lever while flywheel is in motion. A plate is furnished that permits the operator to steer from any part of the boat. The motor is adaptable to any kind of square stern rowboat.

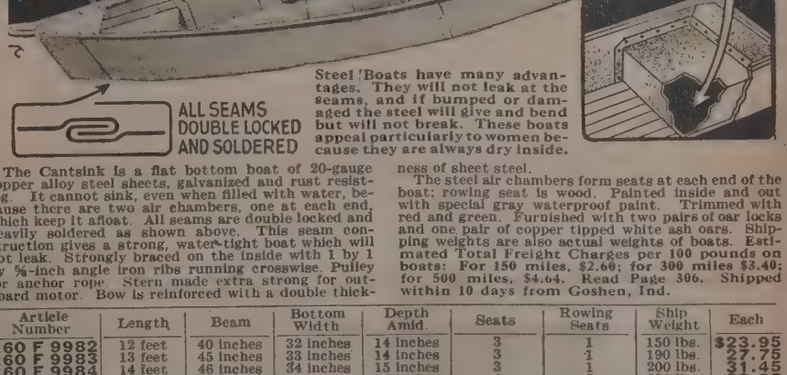
Tilting. Motor is made to tilt up automatically so as to pass over obstructions without damaging propeller. Propeller can also be raised out of the water for beaching.

Cooling System. Cylinders are water jacketed. Pump keeps flow of water circulating around cylinders.

Weight. Weighs only 42 pounds and is easy to transport.

Finish. Durable aluminum finish; all fittings heavily nickel plated. Shipping weight, 100 pounds. Estimated Total Freight Charges: For 150 miles, 65¢; 300 miles, 85¢; 500 miles, $1.16.
160 F 9935 ..... **$118.75**

Cantsink Flat Bottom Steel Rowboat $23.95



Steel Boats have many advantages. They will not leak at the seams, and if bumped or damaged the steel will give and bend but will not break. These boats appeal particularly to women because they are always dry inside.

The Cantsink is a flat bottom boat of 20-gauge copper alloy steel sheets, galvanized and rust resisting. It cannot sink, even when filled with water, because there are two air chambers, one at each end, which keep it afloat. All seams are double locked and heavily soldered as shown above. This seam construction gives a strong, water-tight boat which will not leak. Strongly braced on the inside with 1 by 1 by ⅝-inch angle iron ribs running crosswise. Pulley for anchor rope. Stern made extra strong for outboard motor. Bow is reinforced with a double thickness of sheet steel.

The steel air chambers form seats at each end of the boat; rowing seat is wood. Painted inside and out with special gray waterproof paint. Trimmed with red and green. Furnished with two pairs of oar locks and one pair of copper tipped white ash oars. Shipping weights are also actual weights of boats. Estimated Total Freight Charges per 100 pounds on boats: For 150 miles, $2.60; for 300 miles $3.40; for 500 miles, $4.64. Read Page 306. Shipped within 10 days from Goshen, Ind.

Campers! Here's Home-Like Comfort For Your Next Outing.

Fifty-fifth Anniversary Special

Ready for Sleep in a Minute
Lakeside Single Camp Cot $2.65

TRADE MARK

Tourest Steel Double Bed $7.45

One of the most comfortable, compact and practical double size portable Camp Beds made. Light in weight, yet very strong—weights only 31 pounds which is twelve to eighteen pounds less than other steel cots of similar size and construction. Two people can sleep on it with absolute comfort. Very simple and easy to set up. Requires but one minute to open or close. You can have it ready for use a few minutes after pitching camp. Pad or mattress will make it as comfortable as a bed at home. Can be used as a spare bed in the home.

Sleepers cannot roll to the center on this tight, springy top of rust-resisting, galvanized steel chain which is suspended from the frame by resilient coil springs. This chain top construction will never come apart, tangle or bend when folded, and for these reasons, is much preferred by experienced campers to the ordinary types having open link wire and fabric tops.

Folded Size 4¼ by 6½ by 48 Inches

Well Braced for Extra Strength

Frame work is of light-weight "U" shaped steel, black enameled. Legs are double braced providing unusual strength and rigidity. No loose bolts or parts. Folds into easy-to-handle bundle.

When open, bed is 48 by 76 inches, 18½ inches above floor. Roll mattress 160 F 9748 listed below is especially suited for use with this bed. Actual weight, 34 pounds. Shipping weight, 37 pounds. Can be shipped by parcel post.
460 F 9674..... $7.45

Folded Size 38 by 5 by 7¼ Inches

You cannot find a better cot value than the Lakeside anywhere. It has withstood every test for durability and strength. Support 500 lbs. Frame is strongly made of straight grained selected hardwood, either birch or rock elm; well seasoned and thoroughly air dried. All joints reinforced with steel plates, painted to prevent rust. Reinforcing cross rivets at all points where the strain is most severe. Extra quality 14-ounce heavy Dundee cloth covering, tan in color and especially woven for this purpose. Edges heavily reinforced. Makes a very comfortable, elastic, full length bed. You can feel its strength and firmness the moment you put your weight on it. Size opened, 6 feet 4 inches long, 25 inches wide and 16¾ inches high. Folded it takes a space 38 by 5 by 7¼ inches. Shipping weight, 15 pounds. Can be shipped by parcel post.
560 F 9678..... $2.65

Folding Army Style Camp Cot

Slightly larger than the Lakeside. Painted iron straps reinforce legs. Size open 27 inches wide, 6 feet 6 inches long. Folds in a package 40 inches long, 6 inches thick and 7½ inches wide. Top is 12-ounce double filled brown duck. Selected birch or rock elm frame, air dried. Will hold 1000 pounds. Shipping weight, 20 pounds. Can be shipped by parcel post.
460 F 9673..... $3.45

Imported Cloth Top
Folding Side Rail of 1-inch Pipe
Folding Legs of ¾-inch Pipe
Angle Steel Ends
Broad Tips Prevent Wear on Tent Floor

$12.95

Three Simple Moves And the Bed is Open

No Loose Pieces To Be Lost

Folded Size 8 by 4½ by 45 Inches

"Minute" Folding Double Bed Steel Frame—Sagless Spring

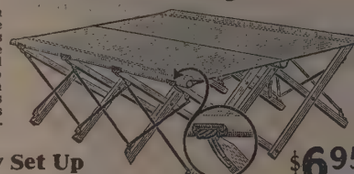
Only three simple moves to unfold the Minute Bed. First, extend the frame sideways. Then push one side rail down and pull up on the other. Turn it over, right side up and you have a double bed. Just as easily folded.

One-piece folding frame and legs. No loose pieces to be lost, nothing to attach. Folding side rails made of 1-inch steel pipe, ends of angle steel, and rigid folding legs of ¾-inch steel pipe which have broad tips.

The imported heavy, Du dee cloth top is doubled in center and non-sagging. On each side are two 2-inch strips of strong webbing reinforcing top from end to end. Small steel springs at one end make it as restful as a spring bed. Size of bed open, 6 feet 4 inches by 48 inches. Actual wt., 39 lbs. Ship. wt., 41 lbs. Can be shipped by parcel post.
460 F 9670..... $12.95

Genuine Telescope Double Size Folding Cot

Very convenient for use as a Camp Cot or in the home as a spare bed. It takes little space when folded and because of its light weight is easily carried. Makes a double size, comfortable bed, always ready for use. The strong center rail prevents sagging. You can easily set it up in two minutes. Simply extend the hardwood frame with its enameled steel braces and hook the metal loops over the projecting metal clips. This stretches the heavy tan Dundee cloth top tight so the sleepers can lie on a level surface.



$6.95

Sturdily Constructed—Easily Set Up

This cot automatically adjusts itself to uneven surfaces; always rigid and comfortable in spite of irregularities in the ground. It is sturdily constructed of material selected for long service. At our low price it is an unusual value. Size open, 6½ feet by 48 inches; folded, 34 by 8 by 10 inches. Shipping weight, 30 pounds. Can be shipped by parcel post.
460 F 9663..... $6.95

Folds Into Compact Space

Practical Auto Beds for Tourists

Folding Auto-Tour Bed $5.95

Folds up into a package 44 by 5½ by 4¼ inches
Easily set up or taken down
Weighs only 12 pounds

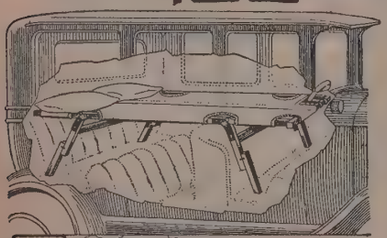
Fits any five or seven passenger touring car or four-door sedan having removable front seat cushions. Also fits any coach or brougham with two folding front seat backs, having removable rear seat, back rest and rear seat cushion and measuring 76 inches or more from rear window glass to windshield.

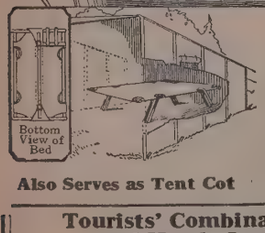
A folding adjustable hardwood frame supports the cushions, over which 12-ounce khaki duck is stretched from back to windshield, forming a bed for two medium size adults. Bed is 70 inches long; 40½ inches wide at front and 45 inches at back. Ship. wt., 17 lbs. Can be shipped by parcel post.

460 F 9836—For cars with full length front seat cushion..... $5.95

460 F 9839—For sedans and touring cars with divided front seats and removable cushions..... $6.45

Our New Kar Kamp Bed—Fits Almost Any Car





Easily set up in your car or on the ground as a tent bed. Strong, compact and light in weight, the Kar Kamp is the most practical bed of this type on the market today. It may be used in any four-door sedan or touring car and in nearly every coach measuring 78 inches or more from rear window glass to windshield. Will not fit Ford Tudor or coaches if driver's seat tilts against steering wheel. More comfortable than most auto beds because the usual center ridge pole is eliminated—a heavy, adjustable non-stretch web extends through the center, reinforcing the strong 12-ounce khaki duck top. When set up in your car this bed does not rest upon the upholstering to damage it in any way. And because it is the same width at head and foot you have room to step from running board into the car before lying down, instead of having to crawl from running board to bed as with many other models.

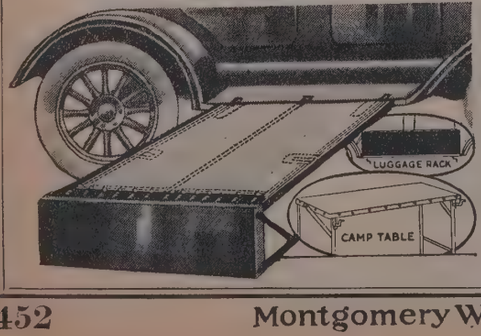
Easily Set Up—Strong—Compact

Makes a double size bed, 72 by 39 inches, and folds into a compact bundle, 4 by 6 by 39 inches. To erect simply unfold the hardwood frame, push seat cushions of car slightly forward and the sturdy legs may be extended to rest upon base of auto seat. Through a fortunate contract with the manufacturer we are able to offer this high-grade bed to you at a price much lower than that usually asked by others. Buy from Ward's and save money. Simple instructions included. Actual weight, 22½ pounds. Shipping weight, about 25 pounds. Can be shipped by parcel post.

Also Serves as Tent Cot

460 F 9871—Complete..... $8.45

Tourists' Combination Bed, Table and Handy Luggage Carrier



Practical and useful. Rolls into a small, compact space for traveling.

Makes a strong, comfortable Double Size Bed with heavy duck top; size open, 69 by 48 inches. Top is suspended by 13 coil springs at one end. Web reinforcement prevents sagging. All parts except bed top are flat steel and angle iron, painted black. Nothing to warp or split.

May be used as a Camp Table to accommodate six people, with sheet metal top, 46 by 16½ inches; stands 29 inches from ground. Forms a large sturdy Luggage Rack which clamps to running board and will carry heaviest loads. Ship. weight, 55 lbs. Can be shipped by parcel post in zones 1, 2 and 3 only.
460 F 9632—Complete..... $11.95

Comfortable Camp Bed Mattresses

Mattress and Bed Roll Double Size—Moisture-Proof

You can always be sure of a dry, clean bed with this soft Mattress of new, downy cotton. Covered with a good weight olive drab drill ticking. After being tufted, mattress is stitched underneath to a layer of fiber and outside cover of heavy, water-proofed black enameled drill. The fiber prevents mattress from being forced by weight of body through the steel mesh tops of some beds; also helps to keep out dampness. Outside cover extends about twelve inches on two sides and 8 inches at foot. When breaking camp you simply make up the bed, and turn these cover flaps back over the bed clothes, roll up and the ends, usually exposed, are fully protected.

Makes a bundle about 10 inches in diameter and 48 inches long; held securely by three long heavy web straps with patent non-slip buckles. Size of mattress, 76 by 48 inches. Shipping weight, 15 pounds. Can be shipped by freight or express only.
160 F 9748..... $8.95

Kapok Mattress Moisture-Proof—Vermin-Proof

Most comfortable Cot Mattress you can buy. Filled with the finest prime Japara Kapok, a vegetable fiber soft and fluffy as down. Vermin-proof, non-absorbent, light and buoyant—the best mattress filling for camp use and the same as used by the U. S. Navy. Kapok will not bunch or become lumpy. It gives you comfort equal to that of the best mattress in your home. To preserve the original softness, place the mattress in the sun for a few hours at least once a month.

Light Weight and Comfortable

Covered with khaki denim and tufted. About three inches thick. Can be shipped by parcel post.

460 F 9655—Single Cot Size; 76 by 26 inches. Makes roll 26 by 13 in. in diameter. Weight, about 5 pounds. Shipping weight, 7 pounds. $4.45

460 F 9656—Double Cot Size; 76 by 48 inches. Hinged in the center so it can also be used double thickness on a single cot. Makes roll 26 by 18 inches in diameter. Weight, about 9 pounds. Shipping weight, 11 pounds..... $7.45

Single Size

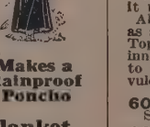
Cot Mattress and Bed Roll

For use on a cot or on the ground. Filled with soft, fluffy new cotton. Covered with good weight khaki drill ticking and tufted. Outside covering of heavy water-proofed drill, with flaps extending 8 inches wide on each side and at one end for rolling bedding inside. Size of mattress, 76 by 26 inches. Ship. wt., 9 lbs. 8 oz.
160 F 9760..... $4.95

Cross Section

Sleep on Air Buoyant, Collapsible Air Mattress

Ideal for auto camping—easy to carry—weighs only 8¼ lbs. and rolls into a small bundle, 26 by 4½ inches when deflated. Unusually buoyant and comfortable—you actually sleep on air. Fine quality rubber with bridgework interior, covered with a special weave khaki cloth. Can be inflated by mouth. If punctured, patch it like any auto tube. Size, deflated 78 by 26 inches. Shipping weight, 9 pounds.
60 F 9757..... $13.95



Makes a Rainproof Poncho

Waterproof Camp Blanket

Besides serving as a Blanket it may be used as a poncho, as shown above, or as a ground cloth. Closely woven fabric, double coated, heavily rubberized. Khaki color inside and black outside. Dampness will not penetrate it. Brass grommets on each end. Three snaps close front when used as a poncho. Double stitched. Size, 54 by 72 in. Shipping weight, 4 pounds-6 ounces.
60 F 8894..... $2.95

Utility Air Cushion

A great comfort when camping as it makes any seat soft and restful. Also fine for office and home use or as a canoe cushion or life preserver. Top and bottom are vulcanized to inner sheet of rubber. Top finished to resemble cloth. Scalloped edges, vulcanized. Ship. wt., 2 pounds.

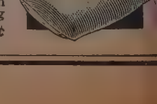
60 F 9970—Brown. Size, 15 by 16 inches..... $1.98

60 F 9973—Red. Size, 15 by 18 inches..... 2.45

Cross Section

Soft Kapok Camp Pillow

Light and soft. Specially suited for camping as Kapok does not bunch and will not absorb moisture. Khaki denim ticking. Size, 17 by 24 inches. Shipping weight, 1 pound 8 ounces.
60 F 9627..... 98¢



Mrs. Foeltzer *Says:—*

"Your Lakeside Camp Stove Made Every Meal A Success"

"During an auto tour of fourteen months, in which we camped out the entire time, I found my Lakeside Camp Stove equal to every emergency. In a rainy tourist camp in Canada I cooked for eight people, after every other camp stove had failed to work for one reason or another. I wouldn't trade it for any camp stove I ever saw, for it made every meal a success."

MRS. L. H. FOELTZER,
Chicago, Illinois

WARD'S is headquarters for Camp Stoves. Each year we sell more than any other store in the world. A reliable camp stove is an indispensable part of the equipment of the motorist and camper. No waste of time gathering fuel. Use common motor gasoline. Our stoves provide for the comforts, cleanliness, safety and convenience found on your kitchen range. Easy to carry, light in weight. All models equipped with full protection windshields. Their use is permitted where open fires are prohibited. Insures a good meal in all kinds of weather.

FULL PROTECTION WINDSHIELDS
HINGED ONE PIECE CAST IRON GRATE
AIR PRESSURE GAUGE
SLIDE CONTROLS REGULATE FLAME USE 1, 2 OR 3 BURNERS

$9.35

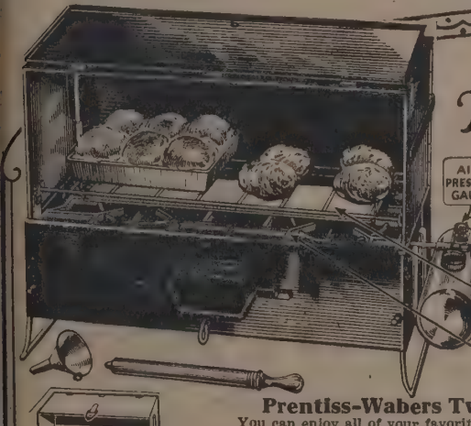
Prentiss Waber's Three Burner Stove

If you want the finest three-burner Camp Stove made—a stove with every feature you've been looking for, with plenty of cooking surface to meet the needs of a large party, with the reputation of a famous manufacturer behind it—order the Prentiss Waber. Use it on your camping trip or in your summer cottage—wherever space is at a premium and quick, steady heat is desired.

Air pressure forces the vaporized gas from the gasoline tank to the three large burners, where it burns with an intense blue flame hotter than either kerosene or city gas. No smoke or odor of any kind. Large hinged cast iron grate with cooking surface, 10½ by 26½ inches. Patented double priming cup generates gas 50 per cent faster than any other stove. Patented slide controls regulate two burners; the other is controlled by regulator at tank. 1, 2 or 3 burners may be used at one time.

Extra large safety drawn brass tank is outside, away from flame and will not rust or leak. Air pressure gauge to indicate when pressure is running low. Tank and burners in one unit slip into case with air pressure pump and funnel, and the 9-inch windshield folds down to make a compact carrying case 5¼ by 10⅝ by 26½ inches. Case is 24-gauge sheet steel, enameled brown. Ship. wt., 29 lbs. Can be shipped by parcel post. **$9.35**

460 F 9666

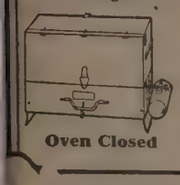


$8.48

Roasting and baking made practical with this finest and most complete built-in oven stove. As easy to operate as your kitchen range. Convenient and compact with large cooking surface.

Improved warming shelf aids the outdoor cook. Hinged iron grate built like the finest kitchen range. Absolutely safe. Warming shelf makes excellent protection on sides and top in a strong wind.

$5.85



Prentiss-Wabers Two-Burner Oven Stove

You can enjoy all of your favorite home dishes with this new improved two-burner Oven Stove. Roasting or baking is now made practical in camp. Designed with all the latest improvements; built in oven, detachable asbestos interlined baffle plate with baking grate. Whole oven tips back on small legs to be used for warming shelf as illustrated at left. Hinged cast iron grate covers entire top of stove. Cooking surface 11 by 20½-in. A much larger oven than the average. Size is 10⅝ by 20½ by 11-in. Hinged lid can be fastened down to protect flame and food on all four sides and top in a strong wind, as shown at side.

Bake or Roast on This Oven Stove

This stove also makes an excellent heater for tent or cabin. Has all of the best features found on Lakeside models. Simple and easy to operate. One or two burners may be used. Patented double priming cup, large one-piece drawn brass non-rustable gas tank with air pressure gauge. Leak-proof because after generation only gas fumes pass beyond tank. Self cleaning needle valve—cannot clog. Tank and burners slide into case as one unit. Sturdy, rigid legs lock in case. Small brackets on side hold oven firmly in place. Every tank is tested under water and each stove is thoroughly inspected before leaving manufacturer. Case of heavy gauge sheet steel with brown enameled finish. Oven folds flat inside lid, and the stove folded with all parts enclosed is 5½ by 11 by 20½ inches. This is without doubt the finest and most complete two-burner oven stove of this type sold anywhere. Actual weight, 22¾ pounds. Shipping weight, 24 pounds. Can be shipped by parcel post. **$8.48**

460 F 9667

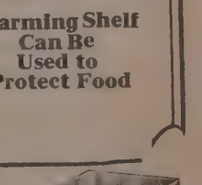
Large Size New Lakeside Two-Burner

An excellent two-burner Camp Stove designed especially for aiding the outdoor cook. Larger cooking surface than the Lakeside model shown above. Has new improved warming shelf to aid in preparing meal. Shelf tilts back, supported by two small legs. It can also be used as cover on top, sides and rear of stove as illustrated at side. Protects food making it possible to cook in any kind of weather. Besides being useful for outdoor purposes, this camp stove can be used in the summer cottage for cooking or for heating in cool or damp weather.

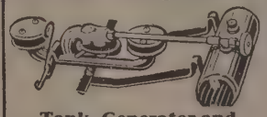
Improved Warming Shelf Keeps Food Warm

Ring type burners throw a wide, intensely hot flame equal to city gas and entirely free of smoke, soot or odor and will not scorch center of cooking utensils. Hinged iron grate made like the finest kitchen range, increases efficiency. This stove has all the best features found on the smaller Lakeside model. Weighs only 16½ pounds. Body is made of 24-gauge sheet steel enameled brown. Drawn brass non-rustable gas tank. Gas tank and burners slide into case as a unit when folding stove. Absolutely safe. One or both burners may be used. Improved sliding control on second burner. Very little air pressure necessary. New type generating cup with patented double priming cup which generates gas 50 per cent faster than any other stove. Self cleaning needle point in gas tube prevents clogging. Cooking surface 9 by 18 inches. Sturdy steel legs. Large 8-inch air pump, funnel and instructions included. Shipping weight, 18 pounds. Can be shipped by parcel post. **$5.85**

460 F 9665



Features Found on All Our Camp Stoves



Tank, Generator and Burners In One Unit

Ring Type Burner Wide Flame No Scorching in Center

Folds Up Like a Suit Case

$3.98

Latest Improved Lakeside Safety Camp Stove

CAMPERS everywhere proclaim this America's leading camp stove value. Wherever you go, you'll find the Lakeside Safety Camp Stove a supreme favorite. We have overlooked no feature to make it America's leading camp stove value. Safe to operate; quick-acting, to prepare food in a hurry, anywhere; compact for travel; to take little space in your car; low-priced, at least $2 less than you would pay elsewhere for a stove of equal quality.

The high windshields at back and full side shields protect the intense blue flame, and you have wholesome, well cooked food in just a few minutes. The patented double priming cup is a feature installed for the purpose of superheating the gas. Cup generates gas 50 per cent faster than any other stove. With the new improved manifold, very little air pressure is required to make the vaporized gas follow a natural course up to the burner. No need to move the gas tank for generating—simply fill and light the special generating cup, and in one minute the burners are ready to light.

Absolute safety is assured—the one piece drawn brass non-rusting tank is outside the stove when in use. Holds one quart, approximately three hours, supply. Needle point in the gas tube automatically cleans opening in tube each time gas is shut off. The flame of the second burner can be adjusted by the new patented slide control.

Cooking surface 9 by 17 inches includes two large burners with unbreakable grate. One or both burners may be used. Stove stands securely on rigid wire legs. When you break camp the legs push up, the tank fits inside, and down come the windshields to form a neat, compact carrying case measuring only 9½ by 5 by 17 inches. The sheet steel case is enameled black. Air pump, funnel and illustrated instructions included with every stove. Ship. wt., 14 lbs. Can be shipped by parcel post. **$3.98**

460 F 9664

Convenient Comforts for Tourist or Camper

Stanley Non-Breakable Vacuum Bottle

A motoring accessory of the finest quality, and will increase the comfort and pleasure of your motor trips. A recently developed process has made possible an improved, efficient, all-steel bottle, which permits a triple guarantee: that it is non-breakable, that it will maintain temperature, and that it will not leak. Both outer case and inside bottle are electrically welded steel; the inside bottle is lined with porcelain. Keeps liquids hot 18 hours, or cold 36 hours. Each bottle has a long lasting black enamel finish with a nickel plated cup and base. Special booklet on Out-of-Door cookery included with each bottle.

Awnings and Porch Shades to Match

Lend Individuality to Any Home Give Protection from Sun and Rain

Window Awnings With Green Painted or Tan Woven Stripes

Tailored in the latest design with attractive stripes. They will lend a distinctive appearance to your home.

Porch or Large Window Awnings With Green Painted Stripes

Palm Beach quality Awnings repel the heat of uncomfortable summer days and effect a welcome coolness. In addition they give your home an atmosphere of distinction. They are large size, for porches or large size windows or a group of windows.

Made of Full Weight 6-Ounce Duck With Painted or Woven Stripes

Equip your home with these durably made Awnings and enjoy cool comfort all summer. Besides keeping the bright sun from fading your draperies, rugs, and carpets they will also lend to your home a pleasing atmosphere of distinction. Made in your choice of two attractive styles. The Palm Beach style is full weight 6-ounce white duck with durable, green painted 1¼-inch stripes bordered by ⅜-inch Green stripe. The Hollywood style is full weight 6-ounce white duck with woven fast color Tan stripes, 1½ inches wide, bordered on each side by Blue hairline stripes. Both awnings project 30 inches from wall and extend down 42 inches, including the 9-inch scalloped curtain which is bound with braid. For frame building, measure to center of outside casing. For brick building, measure between brickwork on outside of building. These two styles of awnings match porch shades shown to the right. The Green painted awnings match the Nos. 160 F 9929 to 9934 porch or large window awnings shown at right. Complete with all fittings and directions for putting up. **Can be shipped by parcel post.**

Porch Shades with Painted or Woven Stripes

Protection for your porch from sun, wind and rain may be had at a small expense by the use of these well made and attractive Porch Shades. They also furnish privacy for sleeping porches. Made in your choice of two distinctive styles. The Palm Beach style is full weight 6-ounce white duck with durable Green painted 1¼-inch stripes, bordered by a ⅜-inch stripe on each side. The Hollywood style is full weight 6-ounce white duck with woven, fast color Tan stripes 1½ inches wide, bordered on each side by Blue hairline stripes. We recommend the Palm Beach style shades because of their unusually attractive appearance. Their painted stripes are sunproof and rainproof. Both shades, however, will give very satisfactory service. Our low prices, made possible by large quantity purchases, enable you to save at least one-third of the usual retail price.

Made with a heavy hem at top with eyelets and hem at bottom through which is extended a 1⅜-inch pole. Raised or lowered by a light pull on the cord. Complete with all necessary fittings and instructions for hanging. Shades with Green painted stripes match the porch or large window awnings shown at right and small window awnings shown at left. Both of these shades match the window awnings shown at left. **Nos. 460 F 9729 and 460 F 9712 can be shipped by parcel post. Other curtains can be shipped freight or express only.**

Stained Wood Porch Shades

The wood slat shade illustrated admits air and light, but excludes rain and direct sun light. The small openings between the slats give perfect ventilation. Slats are made of tough, pliable, smooth bass wood saturated with permanent oil colors. Hanging these porch shades is only a few minutes' work with the sturdy metal hooks and eyes that are included. The heavy top moulding makes them hang straight and securely. A neatly finished metal cleat permits adjustment at any height. All fixtures are sent with shades.

COLORS: Green or brown. State color wanted.

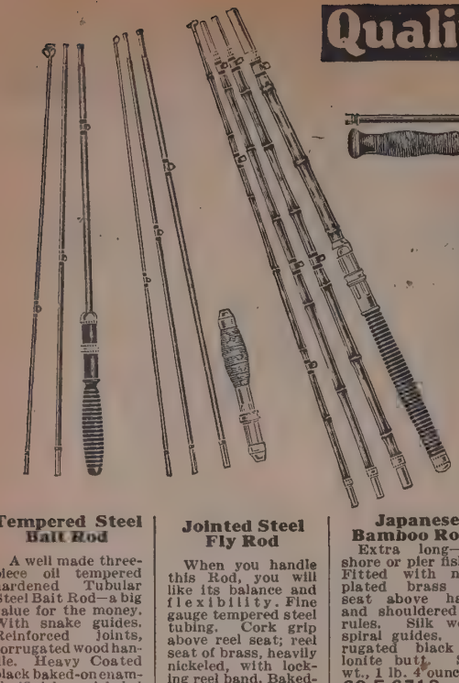
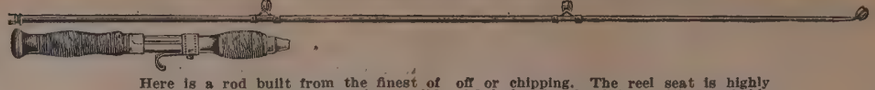
Quality Rods That *STAND UP* In A Fight



Improved One-Piece Steel Bait Casting Rod



Here is a rod built from the finest of material. Forged from one-piece solid chrome vanadium steel hardened and tempered, rounded and tapered from butt to tip to give it wonderful uniform flexibility and action. Under ordinary conditions it is practically impossible to "set" this rod. Two agatine guides set in nickel silver mountings and agatine tip.

Detachable handle of the double grip type made from neavy pieces of solid ring cork formed to fit the hand with hardwood butt cap to prevent the cork from rubbing off or chipping. The reel seat is highly nickel plated and polished, with detachable finger hook and locking reel band. Three coats of baked-on black enamel. This is without doubt the biggest value we have ever offered in a high class casting rod. It has strength, beauty, and more action than any other rod offered anywhere near our price. Shipping weight, 2 pounds.

LENGTHS: 3½, 4, 4½ or 5 ft.
State length wanted.

60 F 6532 ..... **$2.95**

Tempered Steel Bait Rod

A well made three-piece oil tempered hardened Tubular Steel Bait Rod—a big value for the money. With snake guides. Reinforced joints, corrugated wood handle. Heavy Coated black baked-on enamel finish; nickeled trimmings. Each in a cloth bag. Shipping weight, 1 pound.

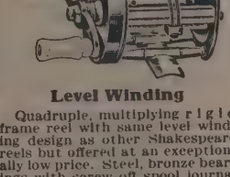
Patent one-piece housing. ⅞-in. pillar, 2-in. plate. Sliding click; holds 100 yard 18-lb. line. May be oiled without being taken apart; highly nickeled. Shipping weight, 14 ounces. **$4.95**

60 F 6867

Nationally Famous *Shakespeare* Reels

Shakespeare Criterion

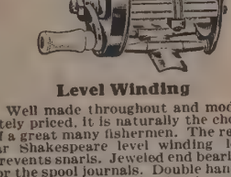


Level Winding

Quadruple, multiplying rigid frame reel with same level winding design as other Shakespeare reels but offered at an exceptionally low price. Steel, bronze bearings with screw-off spool journal caps. Perfectly balanced crank with double ivoroid grip. Nickeled finish. Holds 100 yards of 18 pound testline. A good reel built for years of service. Shipping weight, 12 ounces. **$4.37**

60 F 6790

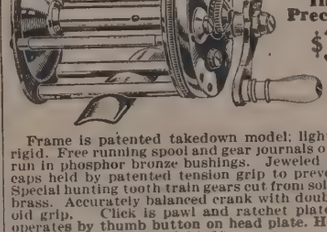
Shakespeare Kalamazoo



Level Winding

Well made throughout and moderately priced, it is naturally the choice of a great many fishermen. The regular Shakespeare level winding loop prevents snarls. Jeweled end bearings for the spool journals. Double handle, perfectly balanced. Quadruple multiplying. Has click and drag, 1¾-inch pillars. Beautifully nickeled and carefully finished. Sliding click and drag. Holds 100 yards 18-pound test line. Ship. weight, 12 ounces. **$5.95**

60 F 6773



Shakespeare Improved Precision Reel

$3.45

Frame is patented takedown model; light, strong and rigid. Free running spool and gear journals of special steel, run in phosphor bronze bushings. Jeweled spool journal caps held by patented tension grip to prevent loosening. Special hunting tooth train gears cut from solid hard drawn brass. Accurately balanced crank with double white ivoroid grip. Click is pawl and ratchet plate type. Drag operates by thumb button on head plate. Holds 100 yds., 18-lb. line. Shipping weight, 10 ounces. **$3.45**

60 F 6870

Shakespeare Ideal

Level Winding

A quadruple Reel with Shakespeare well known positive level winding device. Staunch frame; metal back plate; head box of black rubber bound between metal plates. Steel bearings; bronze bushings; jeweled caps. Combined click and drag adjusted by wheel in rim of head box. Holds 100 yards 18-lb. test line. A high-grade reel at a popular price. Built for years of real service. Smooth running. Easy to handle. Guaranteed to give satisfaction. Ship. wt., 1 pound. **$7.85**

60 F 6792

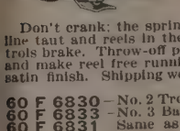
Shakespeare Marhoff

Level Winding

Jeweled; quadruple; has the famous Marhoff level winding attachment. Polished black Bakelite head box, inlaid with metal disk. Frame and parts of nickel silver. Metal back plate. Finest steel bearings; phosphor bronze bushings; jeweled spool caps. Combined click and drag. Double balanced handle; white ivoroid grips. Holds 100 yards 18-lb. test line. A finely made reel. Ship. wt., 1 pound. **$11.98**

60 F 6807

Fly Reels Priced Right



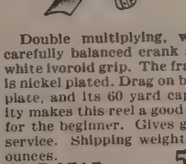
Martin's Automatic Reel

Don't crank; the spring on the Martin's automatic keeps line taut and reels in the trout or bass. Lever release controls brake. Throw-off permits main spring to unwind itself and make reel free running. Lock brake. Aluminum alloy, satin finish. Shipping weight, each, 12 ounces.

60 F 6830—No. 2 Trout reel 25 yards **$3.95**
60 F 6833—No. 3 Bass reel, 50 yards. **4.45**
60 F 6831 Same as No. 3, with Tungsten steel line protector. **$5.25**

Low Priced Reliable Reels

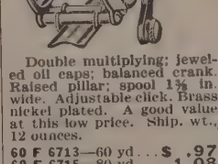
Sunnybrook Reel



Double multiplying, with carefully balanced crank and white ivoroid grip. The frame is nickel plated. Drag on back plate, and its 60 yard capacity makes this reel a good one for the beginner. Gives good service. Shipping weight, 12 ounces. **56¢**

60 F 6717

Jeweled Wonder Reel



Double multiplying; jeweled oil caps; balanced crank. Raised pillar; spool 1⅞ in. wide. Adjustable click. Brass nickel plated. A good value at this low price. Ship. wt., 12 ounces.

60 F 6713—60 yd. **$ .97**
60 F 6715—80 yd. **1.08**

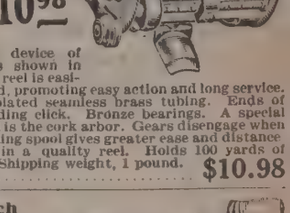
Shakespeare Favorite Casting Reel

A full size 100-yard capacity reel at a very low price. Quadruple multiplying. Balanced handle, single grip. Large wide spool. Click on back plate. Made of brass, nickel plated and polished. A real bargain. Shipping weight, 12 ounces. **98¢**

60 F 6786

Meisselbach "Okeh" Reels for Service

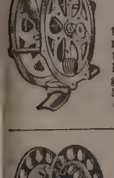
Level Winding **$10.98**



Level winding device of special design, as shown in illustration. This reel is easily cleaned and oiled, promoting easy action and long service. Frame is nickel plated seamless brass tubing. Ends of nickel silver. Sliding click. Bronze bearings. A special feature of this reel is the cork arbor. Gears disengage when casting. Free running spool gives greater ease and distance. An unusual value in a quality reel. Holds 100 yards of 18-lb. test line. Shipping weight, 1 pound. **$10.98**

60 F 6824

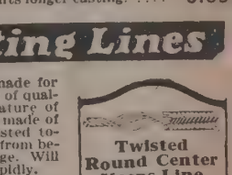
Fly Casting Reel



Combines expert workmanship and attractive appearance. Takes up line rapidly. Gunmetal finish. Click on back plate. Very easy to clean; one central screw holds reel together. Line dries quickly. Holds about 60 yards. A good, serviceable reel. Shipping weight, each, 8 ounces. **$1.10**

60 F 6764

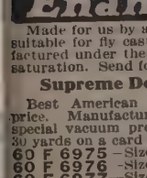
Meisselbach Tri-Part Reel



Rigid one-piece nickel plated brass tubular frame. Nickel silver end plates. Steel and bronze bearings. Wide spool. Sliding click. Holds 80 yds. 18-lb. line. Ship. weight, 12 ounces.

60 F 6825 Fixed spool **$4.79**
60 F 6827 Free spool; permits longer casting. **6.59**

Gunmetal Finish Reel



For fly or bait casting. Well finished in gunmetal. Has double line guide and simple click. Takes up line rapidly. Runs easily, and will give satisfaction. Shipping weight, 8 ounces. **49¢**

60 F 6777—Holds 60 yards.

Ward's Special Reel

Silk Casting Lines

Our silk Casting Lines are made for us by one of the largest makers of quality lines. The outstanding feature of these lines is the round center made of three strands of pure silk twisted together, which prevents the line from becoming flat even after hard usage. Will not fray or kink. Dries very rapidly.

Twisted Round Center Keeps Line Round

Speckled Beauty Easy Casting Line

Dependable Deep Sea Tackle

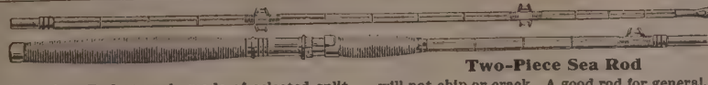
Premier

$7.45

Bamboo Salt Water Rod

Two-piece selected stock split bamboo. Natural light bamboo finish, with six coats of durable waterproof varnish. Mounted with German silver trumpet double guides, genuine agate butt guide and tip, all strongly wound on with German silver wire. Hand welted and waterproof doweled ferrules. Double line wound grip. Fancy silk wound with cluster winds on butt. Patented locking reel seat. Suitable for sea fishing and heavy trolling. Carefully and strongly made, and will give entire satisfaction. Length, 6 ft.; actual wt., 15½ ounces. In cloth partitioned bag. Shipping weight, 1 pound 8 ounces.

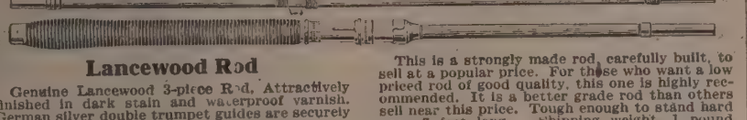
60 F 6761 ..... $7.45



Two-Piece Sea Rod

Two-piece Rod strongly made of selected split bamboo. Carefully wound with colored silk windings; heavy nickeled doweled ferrules and reel seat. Round trumpet guide on butt and two double trumpet guides on tip joint. Guides wired in place, and there is no shrinking of rod to loosen them. Two-way tip. Double hand grasp, cord wound. Extra coated with waterproof spar varnish which will not chip or crack. A good rod for general sea fishing and an excellent value at a moderate price. A very popular rod on the Atlantic Coast, where the demands of fishermen are very exacting. In cloth bag. Shipping weight, 1 lb. 8 ounces.

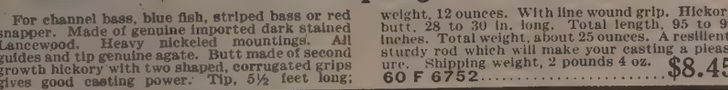
60 F 6724—6-foot length only $4.65



Lancewood Rod

Genuine Lancewood 3-piece Rod. Attractively finished in dark stain and waterproof varnish. German silver double trumpet guides are securely mounted. Double hole tip. Ferrules are waterproof, and are nickel plated. Ebonized grips. Nickel plated reel seat. Medium weight. This is a strongly made rod, carefully built, to sell at a popular price. For those who want a low priced rod of good quality, this one is highly recommended. It is a better grade rod than others sell near this price. Tough enough to stand hard use. 7 feet long. Shipping weight, 1 pound 8 ounces.

60 F 6725 ..... $2.25



Spring Butt Surf Rod

For channel bass, blue fish, striped bass or red snapper. Made of genuine imported dark stained Lancewood. Heavy nickeled mountings. All guides and tip genuine agate. Butt made of second growth hickory with two shaped, corrugated grips gives good casting power. Tip, 5½ feet long; weight, 12 ounces. With line wound grip. Hickory butt, 28 to 30 in. long. Total length, 95 to 99 inches. Total weight, about 25 ounces. A resilient, sturdy rod which will make your casting a pleasure. Shipping weight, 2 pounds 4 oz.

60 F 6752 ..... $8.45

Tournament

$14.95

Surf Casting Rod

Meets all severe surf casting requirements. The spring butt is selected hickory reinforced inside. The tip of the Rod is finest split bamboo. All mountings are full German silver, and all guides genuine agate, with a genuine agate swivel tip. Finished in natural bamboo color with six coats of waterproof varnish. The tip is 5½ feet long and weighs from 10 to 13 ounces. The spring butt is from 28 to 32 inches long and weighs 8½ to 20½ ounces. Total length, 94 to 99 inches. Total weight, 22 to 26 ounces. Individually made by hand. Our very best salt water rod, at a reasonable price. Ship. wt., 2 lbs. 10 ounces.

60 F 6782 ..... $14.95

Atlantic Tarpon Rod

Hand made and planed down by hand from imported lancewood. Fancy silk wrappings; extra heavy nickel silver mountings. One set of agate guides, and one set of trumpet guides with agate tip. Tip, 5 ft. to 5½ ft. long; weight, about 11 oz. Total length, about 85 inches; total weight, about 23½ ounces. Finished with waterproof spar varnish. Grips designed to fit the hands, and carefully wound. Upper grip is wound on tip joint. Our highest quality lancewood Rod, guaranteed to give entire satisfaction, and very popular with salt water fishermen. Each in a cloth bag. Shipping weight, 2 pounds.

60 F 6754 ..... $9.85

Genuine Lancewood Rod—Special Heavy Weight

Strongly built, this is an extra heavy Rod, and is especially designed for heavy salt water fishing such as Cod and other large fish. The mountings are extra heavy, and are strongly fastened. The total length of the rod is about five feet three inches, each piece being about 31½ in. long. Total weight, about 20 ounces. This rod is designed to have a good spring, and yet be tough enough not to break under heavy service. Salt water fishermen will find an extra rod of this type a great convenience. Each in a cloth partitioned bag. Shipping weight, 2 pounds. 10 ounces.

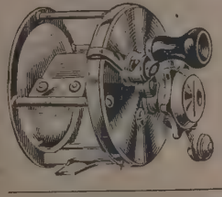
60 F 6757 ..... $3.25

Genuine Greenhart Rod—Line-Wound Double Grip

Made of two pieces of good grade Greenhart, with line wound double grasp. About six feet long, and weighs about 17 ounces. Mounted with agate guides and tip. A very popular high grade rod that can be used for all kinds of salt water fishing. Conscientiously built for satisfaction. Tough and resilient. Will give excellent service. Line winding on grasp is securely fastened and will not unwrap. Each in a cloth partitioned bag. Shipping weight, 1 pound. 12 ounces.

60 F 6758 ..... $4.65

Pflueger "Ohio" Reel



Throw off lever makes spool free-running. Double multiplying; handle drag and stud secures any tension by means of star wheel. Leather thumb brake adjustable click; oil cups adjust spool end play. Cross pins are riveted to front plate, screwed to back. Ship. wt., 2 lbs. 6 ounces.

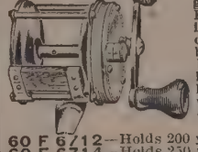
60 F 6733 250 yards. $9.95

Fortescue Surf Casting Reel

Patent throw off lever makes spool free running when casting. Double multiplying. Gears cut from solid bronze. Heavy pinions, run in bronze bushings. Adjustable screw off oil caps. Balanced handle crank with black grip. Solidly built of nickel-silver throughout. Click on back plate. 250 yards capacity. Designed especially for surf casting. Ship. weight, 2 pounds 2 ounces.

O F 6776 ..... $4.95

Pflueger's Mohawk Reel



Sturdy and well proportioned; generated spiral tooth gears. Bushed bearings. Adjustable sliding click on back plate. Fancy oil cups. Balanced crank and rubberized handle. Linen Gill or Set Nets

Made of No. 40/3 cord Linen Twine. Not much thicker than regular sewing thread, therefore not suitable for a drag net. Use in lakes or slow streams. Gill Nets are single nets hung with floats and leads complete, without hauling lines. They are left in the water from five to twenty-four hours. Fish are caught by the gills hence the name "gill" or "set" net. Complete with leads and floats. Well tied and carefully inspected at the factory.

Prices given are for nets complete. Average ship. wt., 15-ft. lengths, 1 lb. 6 oz.; 30 ft., 2 lbs.; 45 ft., 3 lbs. 12 oz.; 60 ft., 4 lbs. 4 oz. Sizes up to 60 F 9347 are carried in stock. Other sizes and nets listed by the yard are shipped within 10 days from Chicago.

New Premier Takedown Model .22 Caliber Bolt Action Rifle

$5.98

Ivory Bead Sight

A sturdy, accurate Rifle built for hard service. Finely balanced. Single shot with popular, dependable bolt action similar to that used by the U. S. Government on regular army rifles. It is a fine rifle for general use on farm or for small game.

The barrel is carefully and accurately rifled. Equipped with ivory bead front and adjustable rear sights. The 22-inch round tapered barrel is of special blued steel. Cartridges ejected from the side. Stock of American walnut with a handy pistol grip and a steel butt plate. Solid one-piece trigger guard. Entire length is 39½ inches. Shoots short, long or long rifle cartridges. Actual weight, 4 pounds. Shipping weight, 5½ pounds. Can be shipped by parcel post.

560 F 503 ..... $5.98

Stevens Junior

Takedown Model $3.80

Stevens single shot takedown .22 caliber Rifle for less than you ordinarily would pay for a fine air rifle. Absolutely accurate. Easily taken down. Shoots short, long, or long rifle cartridges. Suitable for rabbits, birds and small game.

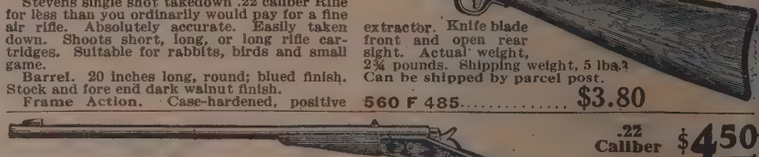
Barrel. 20 inches long, round; blued finish. Stock and fore end dark walnut finish.

Frame Action. Case-hardened, positive extractor. Knife blade front and open rear sight. Actual weight, 2¾ pounds. Shipping weight, 5 lbs. Can be shipped by parcel post.

560 F 485 ..... $3.80

Stevens Little Scout

.22 Caliber $4.50



This handy, little takedown model is a remarkable value at our low price. Absolutely accurate. Its lightness makes it especially desirable.

Shoots short, long or long rifle cartridges. Length of barrel, 20 inches. Positive extractor. Knife edge front sight. Open rear sight. Walnut stock. Actual weight, 2¾ pounds. Shipping weight, 5 pounds. Can be shipped by parcel post.

560 F 479.. $4.50

The Crackshot

Stevens No. 26 .22 Caliber Takedown Model $5.45

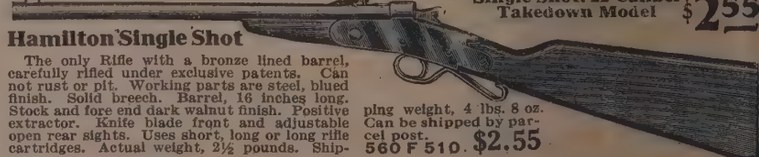
Page-Lewis Model D

Bolt Action .22 Caliber Takedown Model $4.25



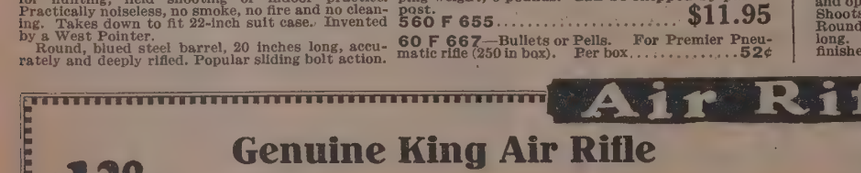
Single shot Rifle with dependable bolt action similar to that used on army rifles. Accurately bored and rifled. Equipped with sporting front and open rear sight. Entire length, 37½ inches. Shoots short, long, or long rifle cartridges. Round, special steel, blued barrel, 20 inches long. Stock and fore end of dark wood, oil finished. Has safety device so the opening and closing action leaves the hammer at half cock. Actual weight, 3 pounds. Shipping weight, 5 pounds. Can be shipped by parcel post.

560 F 497..... $4.25

Air Rifles

Genuine King Air Rifle

$1.28



A Lever Action Repeating Air Rifle

Will give any boy hours of fun in the woods or at target practice. A real repeater—similar to a regular rifle both in appearance and action. Teaches him how to handle a rifle before he is given a gun which uses cartridges. Hammerless, with easy lever action. Magazine loads automatically as gun is pumped. A slight twist on barrel end piece exposes opening through which shot magazine is filled. All working parts are of good quality steel, accurately fitted. Open front and clear vision sights. Blued finish barrel. Walnut finished stock. Actual weight, 3 lbs. Shipping weight, each, 4 lbs.

60 F 652—Holds 500 BB shot. Length, 31 inches... $1.28

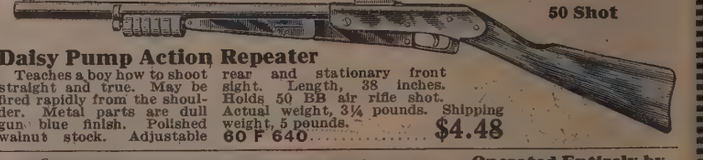
50 Shot

Daisy Pump Action Repeater

Teaches a boy how to shoot straight and true. May be fired rapidly from the shoulder. Metal parts are dull gun blue finish. Polished walnut stock. Adjustable rear and stationary front sight. Length, 38 inches. Holds 50 BB air rifle shot. Actual weight, 3¼ pounds. Shipping weight, 5 pounds.

60 F 640 ..... $4.48



Operated Entirely by Compressed Air

Benjamin Pneumatic Rifle

A reliable pneumatic gun suitable for killing small game. Splendid for the boy who is too old for an ordinary air gun and too young for a real rifle. Operated by compressed air—not a spring gun. The force of shot is controlled by the air pump. Length over all, 37 inches. Barrel is 23 inches long, nickel plated. Stock of imitation polished walnut. Gun easily taken apart. Single shot. Shoots air rifle BB Shot. Shipping weight, 4 pounds. Actual wt., 2 pounds. 8 ounces.

60 F 653 $3.88

Famous IVER JOHNSON *Special* Trap Gun

$19.85

PUT this finely finished Gun to your shoulder and notice how nicely it is balanced. Examine the barrel with its ventilated matted top rib which prevents glare and greatly increases shooting accuracy, and the Genuine Lyman Ivory Bead Sights, front and rear. Then study the action, made of first grade tested steel. Surely you will agree with us that this gun would be reasonably priced at $10 to $15 more than we ask. It is popular for either trap or all round shooting. Barrel: Ventilated matted top rib full length of barrel. Drop forged from high quality steel. Full choke. For all smokeless powder. Barrel and lug forged in one piece. Twelve gauge, 32 inches long. Stock: Genuine American walnut, polished to mirror-like finish. Full pistol grip, rubber capped, checkered. Hard rubber butt plate. Wide trap pattern, fancy fore-end checkered with metal joint. Length of stock, about 14½ inches. Drop at heel, about 2 inches; at comb, 1½ inches. Frame: Blue finish. Action: Automatic ejector. Compensating bolt lock. Three-piece takedown model. Actual weight, 7 pounds. Shipping weight, 9 pounds. Can be shipped by parcel post.

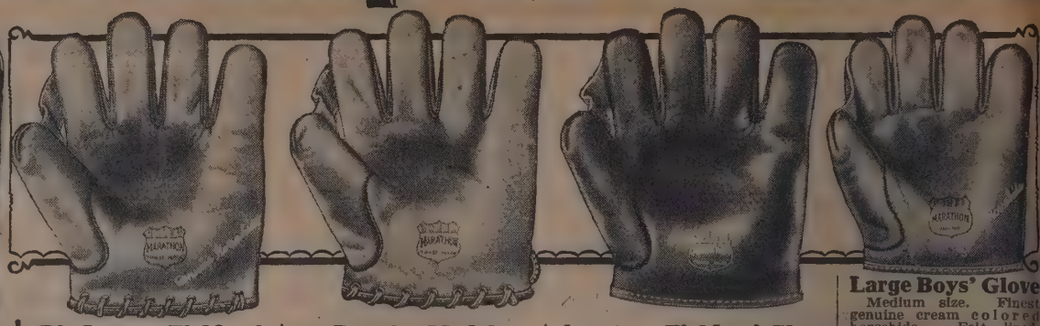
1926 World Champions' Selections

Recommended by Ken Williams, Outfielder of St. Louis Browns

$1.98 Each



Ken Williams

Full Size Professional Fielders' Glove

One of the greatest Baseball Glove values ever offered. A full size professional model made of tan color oil-treated horsehide. Each glove bears the autograph of Ken Williams, star outfielder of the St. Louis Browns. Softened and hand rubbed with oil to render the horsehide as soft as a glove already broken in.

Lined throughout with best quality glove leather. Asbestos felt padding. Long thumb, larger little finger and wide heel are built up with extra hair cushion to form a deep ball pocket. Heel is laced with rawhide so padding may be adjusted to suit the player. Full leather binding. Leather welted seams. We guarantee that this glove is equal to gloves usually sold at prices ranging from $4 to $5. Shipping weight, 1 pound 4 ounces.

60 F 4237—For right hand throwers to wear on left hand.. **$1.98**

60 F 4239—For left hand throwers to wear on right hand... **1.98**

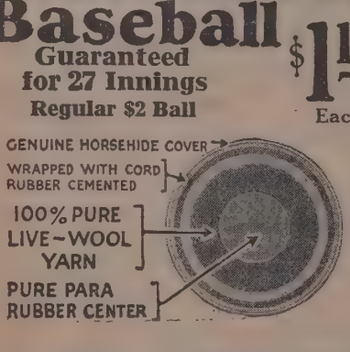
Marathon Official Baseball

Guaranteed for 27 Innings

Regular $2 Ball

$1.19 Each



YOU cannot buy a better Baseball than the Marathon Official League. It is equal to any baseball selling for $2. Thorough tests in our own laboratories and in hard playing on the diamond, show the Marathon Official League ball has no superior.

Official size and weight—meets every requirement of the National and American Leagues. Used by professionals. Guaranteed against ripping, tearing or losing its shape for twenty-seven innings. Perfectly rounded pure para rubber center, wound with wool yarn. Dipped in waterproofing compound after winding, to keep all moisture from the inside yarn. Coating of rubber cement between cover and wrapping prevents loosening. This construction gives the ball a hard surface, which makes it lively and holds its shape and balance. Genuine select grade horsehide cover, sewed on with two strands of heavy red and green, waxed linen thread. Each wrapped in a sealed box. Ship. wt., each, 8 ounces; per dozen, 6 lbs. **$1.19**

60 F 4320—Each..... Per dozen..... **13.95**

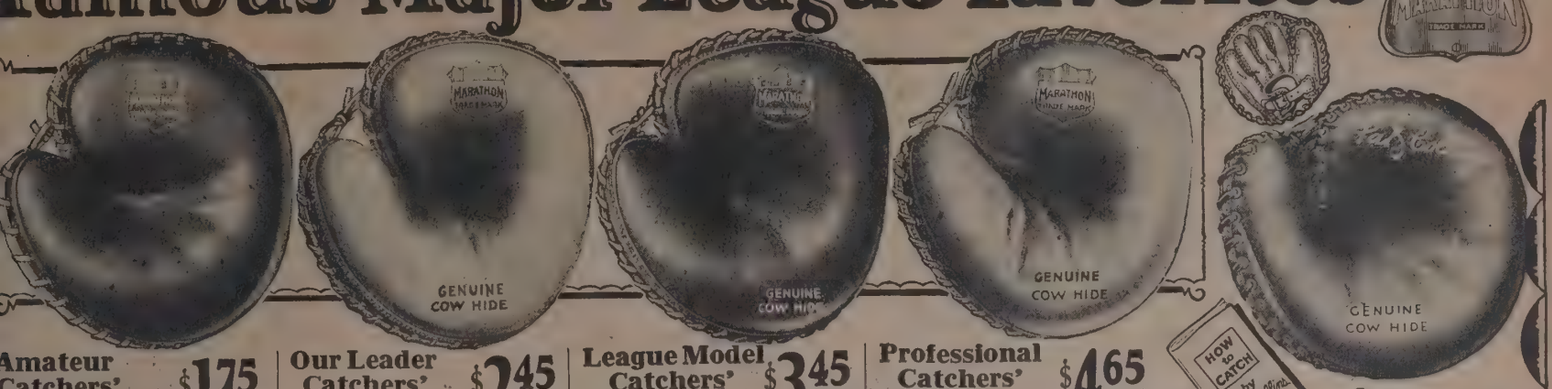
Famous Major League Favorites



Amateur Catchers' Mitt — $1.75

Full Sized—Priced Very Low

Looks and feels like a much higher priced Mitt because it is patterned and built-up like professional models. With black leather palm and fingers. Black leather edge and top. Bound with colored tape. Laced thumb, heavily padded and correctly shaped making a natural ball pocket.

Carefully made throughout. It will compare favorably with mitts you are asked to pay $3 for elsewhere. For right hand throwers to wear on left hand. Shipping weight, 1 pound 8 ounces.

60 F 4251 ..... $1.75

Our Leader Catchers' Mitt — $2.45

Catchers! You will like this Special Model. Well made from fine quality cowhide throughout. With carefully built up, hand formed padding making deep pocket. Palm and fingers are heavy cream color cowhide. Back and edges are soft brown suede finished cowhide. Double sewed, and laced with genuine rawhide lacing. Wide leather strap and buckle at wrist.

A good example of Ward's usual high quality. This mitt is full size and for the price is one of the best we have ever offered. For right hand throwers to wear on left hand. Shipping weight, 2 pounds 4 oz.

60 F 4252 ..... $2.45

League Model Catchers' Mitt — $3.45

A full size Mitt patterned after professional models. Genuine Cordovan cowhide palm and fingers. Soft brown California leather back and edge band. Rawhide laced all around. Double stitched throughout. Adjustable buckle and wrist strap. Wrist protected from buckle. Heavily padded natural ball pocket. Equal to most $5 or $6 mitts. Ship. wt., 2 lbs. 2 oz.

60 F 4254—For right hand throwers to wear on left hand $3.45

60 F 4255—For left hand throwers to wear on right hand $3.45

Professional Catchers' Mitt — $4.65

An extra large Professional Model, larger and much better than the average Mitt. It conforms in every detail to the ideas of the professional ball player. The hand made felt pad forms an unusually deep ball pocket.

Made throughout of cream colored cowhide, soft and pliable. Double stitched with heavy thread. Full leather binding and rawhide lacing. Adjustable strap and buckle on back with special leather wrist protector. Shipping weight, 2 pounds 4 ounces.

60F4256—For right hand throwers to wear on left.. $4.65

Designed and used by — $6.65

Pat Collins
Catcher for the New York Yankees
American League Pennant Winners

THE extra large thumb is characteristic of the Mitt used by Pat Collins in the big league games. Built with deep hand molded ball pocket and extra high heel to give the hand protection, yet light and well balanced to handle easily in a fast play at the plate.

Finest oil tanned cowhide, soft and pliable, heavy and strong enough to last for years. Leather bound and laced all around with Indian tanned leather, also adjustable lacing between thumb and fingers. Booklet on "How to Catch" by Pat Collins, free with each mitt. Shipping weight, 3 pounds.

60 F 4286 ..... $6.65

First Basemen's Mitts

Improved 1927 Tennis Rackets

The Rival Racket

$1.59

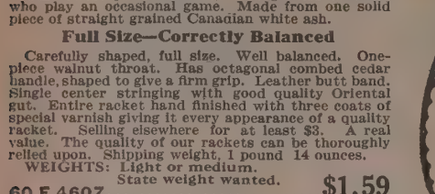
Our lowest priced Racket, for beginners or those who play an occasional game. Made from one solid piece of straight grained Canadian white ash.

Full Size—Correctly Balanced

Carefully shaped, full size. Well balanced. One-piece walnut throat. Has octagonal combed cedar handle, shaped to give a firm grip. Leather butt band. Single center stringing with good quality Oriental gut. Entire racket hand finished with three coats of special varnish giving it every appearance of a quality racket. Selling elsewhere for at least $3. A real value. The quality of our rackets can be thoroughly relied upon. Shipping weight, 1 pound 14 ounces.

WEIGHTS: Light or medium.
State weight wanted.

60 F 4607 ..... $1.59



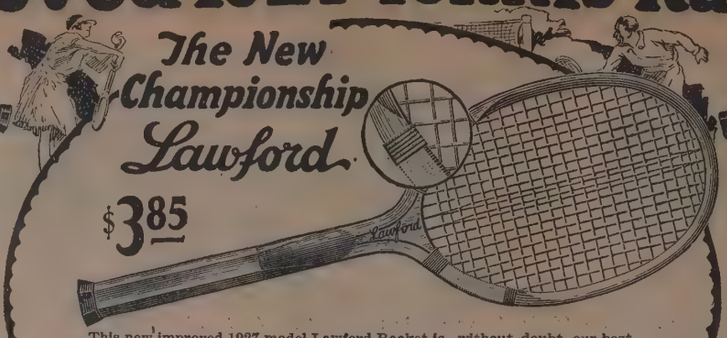
The Eureka Racket

$2.29

As strongly made and well finished as higher priced Rackets. For the player who does not care to spend much money in equipment but still wants a racket that possesses strength and durability. Frame made from Canadian white ash with a solid walnut and maple throat. Double center stringing of good quality Oriental gut, reinforced at top with colored silk cord. Octagon shaped combed cedar handle with leather butt band. Fancy windings of colored gut give the racket greater strength at the shoulders. Medium weight only. Shipping weight, 2 pounds.

60 F 4608 ..... $2.29

The New Championship Lawford



$3.85

This new improved 1927 model Lawford Racket is, without doubt, our best value. Well balanced frame made from thoroughly seasoned northern ash. Straight grained and exceptionally strong. Bevelled on inside. Throat reinforced with heavy fiber, running well up the shoulders. Each shoulder also covered with heavy piece of linen surgical tape and bound at top and bottom with colored silk cord. Laminated throat with fiber running well down into handle. Double center stringing of fine selected Oriental gut. Octagonal shaped combed cedar grip. Leather butt band. Extra quality Oriental gut double center stringing. You would expect to pay at least $7 for a racket of this quality. Shipping weight, 1 pound 8 ounces.

WEIGHTS: Light, medium or heavy. State weight wanted.

60 F 4622 ..... $3.85

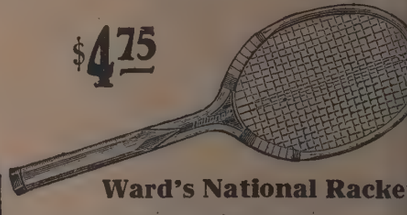
The Tournament Racket

$3.35

This Tournament Racket is one of our best values. Frame is full size made from one solid piece of selected straight grained Canadian white ash, carefully bevelled on inside. Strongly reinforced on inside of throat, and outside of each shoulder with extra strip of tough white ash. Shoulders also bound with colored silk, making it strong enough to withstand the roughest service. Double center stringing of fine quality Oriental gut with red cross stringing. One-piece Holly throat. Octagonal combed cedar grip. Leather butt band. Finished with 4 coats of special varnish. Booklet "Tips on Tennis" describing different strokes used in the game also Tennis Rules given with each racket. Shipping weight, 1 pound 8 oz.

WEIGHTS: Light, medium or heavy.
State weight wanted.

60 F 4609 ..... $3.35



Ward's National Racket

$4.75

We recommend this National Racket for the player demanding strength and service at a medium price. Oval shaped frame made of the best quality seasoned Canadian White ash. Double center stringing of best Oriental gut. Top and bottom guide strings. Concave throat of laminated wood. Extra strip of tough ash on inside of throat. Shoulders wrapped with heavy linen surgical tape. Four sided, combed cedar, octagon shaped handle. Shipping weight, 2 lbs.

WEIGHTS: Light, medium or heavy.
State weight wanted.

Well Known Rubber Tired Easy Riding Ball-Bearing Roller Skates

For Men and Boys

$3.25

Skating is a real pleasure with these noiseless smooth-running skates. You can skate faster, as the 2½-inch rubber composition tires grip the pavement better than steel. Tires are rounded, like auto tires, and last a long time. Durable rubber cushions in trucks give additional riding ease. Strong cold-rolled steel footplate specially reinforced, nickeled, and polished. Heavy bolts hold skate rigid even when fully extended. You'll sail along on these skates. Ship. wt., per pair, 4 lbs. 8 oz.

60 F 4975—For women and girls. High leather heel guard; patent buckle. Extend 8 to 10 inches. Per pair $3.25
60 F 4974—For men and boys. Strong leather strap; patent buckle. Extend 8 to 10 inches. Per pair $3.25
60 F 4981—For small children. High grade leather band at heel. Extend 6 to 8 inches. Per pair $3.25

A Complete Outfit
Carefully Balanced and Matched

ONE of the largest manufacturers of sporting goods in the country is making these Golf Clubs for us, and each club bears the autograph of Harry Vardon, the famous international golf professional. All clubs have second-growth hickory shafts and smooth leather grips. The combination driver-brassie has high quality persimmon head with brass sole plate. The mid-iron, mashie and putter have hand-forged, smooth finish steel heads with the famous "Aim-Rite" bull's eye scored on the face.

The six-inch diameter bag is made of extra heavy, rubberized, dark drab drill. It has a metal bottom, three stays to make it stand upright, large ball pocket, and extra long hood with eyelets so bag can be locked. Special padlock included. Height of bag, 35 inches. We send free with each outfit a book giving valuable advice on the correct grip, stance, swing and follow-through.

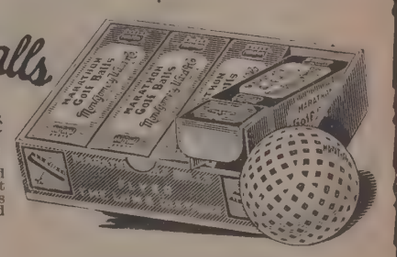
Marathon Golf Balls



Most Economical Ball You Can Buy — 58¢ Each

Exactly the same as a nationally advertised Golf Ball selling for 75¢. From the live, resilient core to the white gutta percha cover, this ball is constructed to give the maximum distance and durability.

Built for Distance and Durability

The cover is exceptionally tough and much thicker than most 75¢ balls yet not thick enough to interfere with the liveliness of the ball. Even after many rounds of play the special white paint will not chip or peel. This ball is without doubt equal to any standard 75¢ ball on the market and many players claim it is better. Made in both dimple and mesh markings and packed in three-ball containers as illustrated. Shipping weight, each, 4 ounces; dozen, 3 pounds 4 ounces.

Good Quality Amateur Set $1.79 4-Ball Set

You can enjoy many hours of healthful fun and exercise in the fresh air with one of our sets. The whole family will like the game, and your guests will enjoy their visit with you more. Simple to set up, and may be packed away again in a few moments.

Select wood is first cut in blocks to size of each piece, then turned to shape after being thoroughly air dried. This thorough seasoning prevents the wood from warping or cracking and makes balls stay round and mallet heads hard to split. Rock maple varnished balls 3¼ inches in diameter and plain beaded 4½-inch mallets with maple handles 26½ inches long. Two stakes striped with colors. Each set complete with rules, instructions and ten heavy wire arches, in substantial dovetailed wood box with hinged cover. Can be shipped by parcel post.

Six-Ball "Premier" Croquet Set

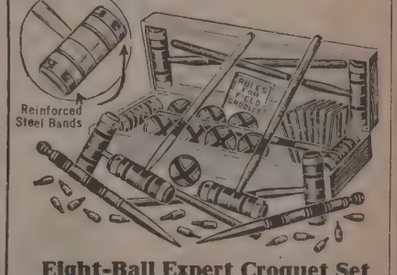
A quality croquet set specially designed for Ward's to meet the requirements of those who want a high grade set at a moderate price. Heavily beaded mallets have 6-inch heads and 25-inch handles. Mallets, balls and stakes are carefully turned, attractively striped, and fully varnished. Made of thoroughly air seasoned wood and equal in every way to many sets retailing at twice our price. Heavy galvanized arches. Packed complete in a strong wooden box with rules and instructions. Shipping weight, 20 pounds. Can be shipped by parcel post.

460 F 9604 ..... **$2.98**

Six-Ball Professional Croquet Set

For experts who play with fine skill and appreciate the importance of properly made balls and mallets. Balls, handles and heavy stakes full weather-proof varnished and attractively striped. Long 8-inch beaded mallets with handles 25 inches long. Arches galvanized. Complete with rule book, in hinged wood box. Ship. wt., per set, 25 pounds. Can be shipped by parcel post.

460 F 9689—Complete set **$3.45**



Eight-Ball Expert Croquet Set

Careful workmanship, selected materials, and expert design combine to make this our finest Croquet Set. It is made throughout with the idea of producing a high quality set, with a very handsome finish. Mallets, balls, and stakes are made of thoroughly seasoned wood, neatly striped, and water-proof varnished. Mallet heads are fitted at ends with nickeled steel ferrules to prevent chipping. Mallet heads are 8 inches, handles 25 inches long. Ten arches, heavily galvanized. These are equipped with hardwood pegs which are driven into the ground and the arches set into them. In this way the arches may be removed without losing their proper places, and the wood pegs do not extend above the ground. Instructions with each set. Packed in a solidly made dovetailed wood box with a hinged cover. Ship. wt., per set, 25 lbs. Can be shipped by parcel post.

Record Breaking Athletic Shoes
Correctly Made — Lowest Prices

Light Weight and Flexible

Ward's Famous "Base Stealer"

Low in price but high in quality. These well made Shoes are popular with both professional and amateur baseball players because they have three features which are necessary to get speed on the field and bases. These features are seldom found in shoes offered elsewhere for so little money.

1. Strong regulation spikes attached to a steel plate between sole and upper withstand strain and prevent insole from warping.
2. Tough, flexible leather sole that is long wearing and comfortable on the feet.
3. Exceptionally light in weight, considering the strong construction. Average weight, per pair, about 1½ pounds.

Uppers are made of black chrome side leather, unlined. Ship. weight, per pair, 1 lb. 8 oz.; 9 pairs, 13 lbs. 8 ounces. State size wanted.

Tris Speaker Shoes Will Speed Up Your Game

Autographed

The tempered steel spikes are rivoted securely to a steel plate placed between the inner and outer soles. This prevents them from pushing up into the foot or coming loose.

$3.98 A Pair

The identical style, construction and quality worn by that famous outfielder, Tris Speaker, Manager of the Cleveland "Indians"—and each pair bears his signature. A feature of this Shoe is the flexible shank made of selected English saddle leather which cannot crack or break. Sanded white oak leather sole firmly sewed and riveted. Strong leather heel. Extra long tongue. The uppers are strong, soft black leather for comfort and long wear. Solid leather counter will retain its shape. A booklet, "How to Hit and Run the Bases," included free with each pair. Read "How-to-Order Shoes" on Page 150. Ship. wt., pair, 2 lbs. 4 oz. **SIZES: 6 to 11. State size.**

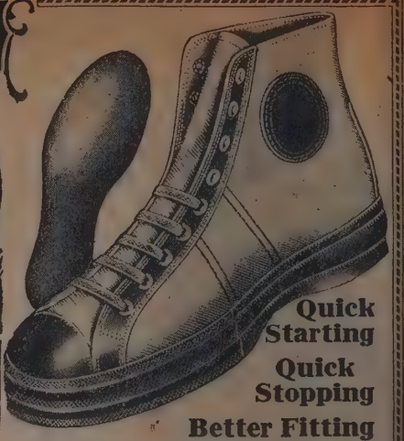
Fifty-Fifth Anniversary Special



Quick Starting
Quick Stopping
Better Fitting

Championship Basket-Ball Shoe

Unquestionably the best fitting, quickest starting and quickest stopping Basket-Ball Shoe made today. Designed by experts to meet the exacting requirements of championship teams.

The glove-fit arch and special soft rubber cushion heel are features that you will find only on basket-ball shoes at $1 to $2 more than our prices. Heavy duck uppers are full lined and reinforced with an extra large ankle patch and eyelet trimming. The specially treated gum rubber sole outwears and out-performs on the smoothest floor any sole on the market. Shipping weight, 2 pounds 8 ounces.

State size wanted.

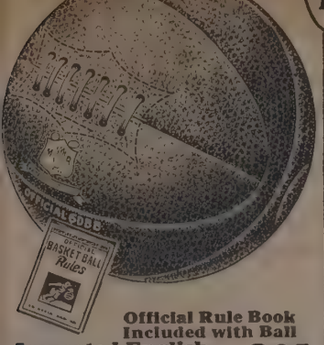
Intercollegiate Equipment~Championship Quality



Official Rule Book Included with Ball

Imported English Official Basket-Ball $8.95

We guarantee this Marathon Basket-ball to be official in size and weight, and to equal any ball on the market. Many of the leading college and high school teams are using it in preference to American made balls. No expense has been spared in making this ball absolutely perfect in quality, material and workmanship. Made in England of carefully selected English cowhide. Heavily lined throughout and sewed by hand with heavy hand waxed linen cord which adds greatly to the wearing qualities of this basket-ball. Guaranteed official for use in all games played under the National Collegiate Association, Young Men's Christian Association, and Amateur Athletic Union Official Basket-ball Rules. Complete with heavy rubber bladder, rawhide lace, lacing needle, and Basket-ball Rule Book. Shipping weight, 1 pound 12 ounces.

60 F 5305 ..... $8.95

Indoor Basket-Ball

Will outlast any ordinary Basket-ball sold at anywhere near this price, because it is carefully made of heavy weight brown suede finish chrome tanned cowhide, and stitched with waxed linen thread, not cotton. Pure gum bladder, rawhide lace and lacing needle. An inseam ball, for indoor use. Shipping weight, 1 pound 8 ounces.

Athletic Two-Piece Style—Blue Flannel Trunks, White Wool Shirt

At the big city beaches or at the lake resorts this Life Guard Bathing Suit is in greatest favor. It possesses style and comfort combined with soft durable material such as you will usually find in suits selling for five or six dollars. Proportioned and cut to give absolute freedom without binding or sagging, whether wet or dry.

Only Pure Wool of which this Life Guard bathing suit is made can give you that feeling of comfort and warmth after you leave the water.

Shirt. Medium weight white Pure Wool Worsted yarn, closely woven to give a "springy" stretch. Cut low under the arms and around neck to give the muscles full play. The athletic supporter with adjustable crotch-strap prevents the shirt from "creeping up." Shipping weight, 8 ounces.

EVEN SIZES: 32 to 42-inch chest measure. State size wanted. $1.98

60 F 5834—Shirt only .....

Trunks and Belt. Navy blue All Wool flannel, cut full in the seat. Fly front. Loops hold white webbing belt, 1¾ inches wide. Adjustable nickel plated buckle will not rust. Shipping weight, 8 ounces.

EVEN SIZES: 28 to 40-inch waist measure. State size wanted. $1.97

60 F 5871—Trunks with Belt .....

Girls' Blouses and Bloomers

Blouses are stylishly tailored of high grade pure white cotton twill. Square sailor collar and V-shaped neck, laced at front. May be had in either full or elbow length sleeves. Attractively set off with pocket on left side.

EVEN SIZES: 30 to 42-inch bust measure. State size. Ship. weight, 12 oz.

60 F 5963—Blouse with elbow length sleeves $1.35

60 F 5965—Blouse with full length sleeves 1.45

Bloomers are full-cut pleated black cotton twill. These are well-made garments. Good quality material. Button fastening at waist. Shipping weight, 12 ounces.

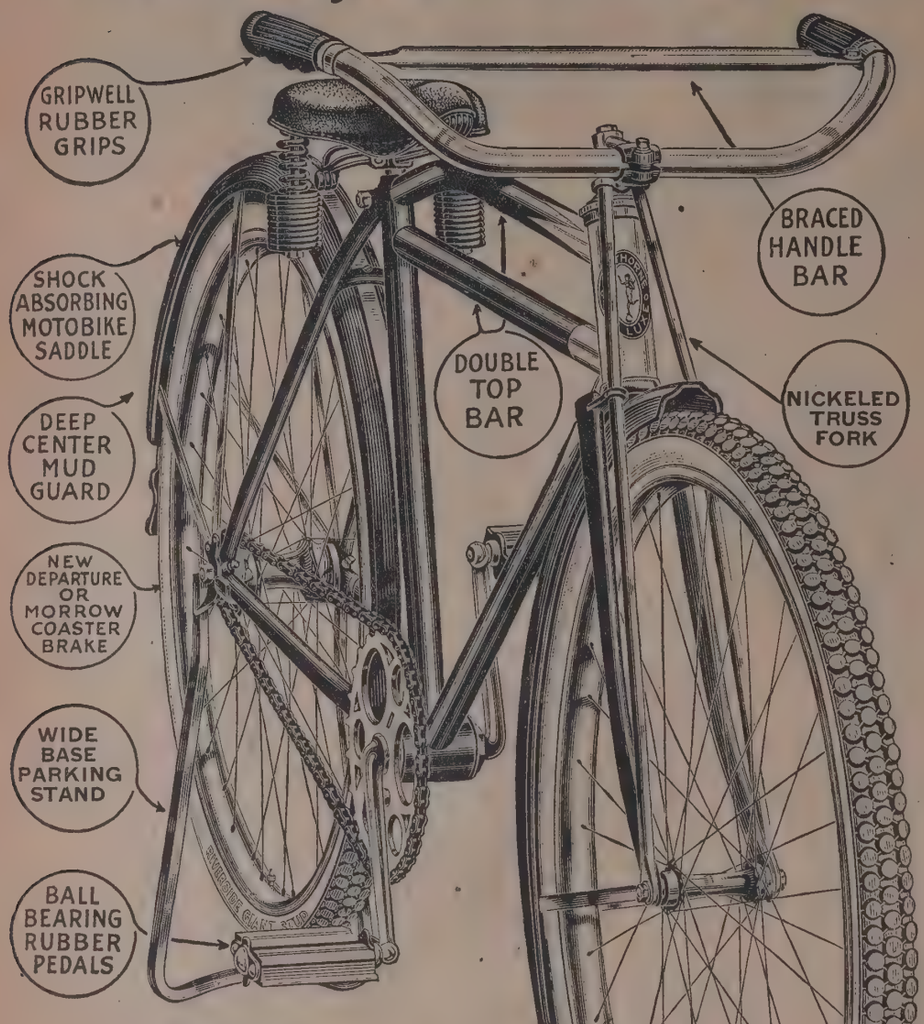
On a Hawthorne Motobike You Save $15 to $20

1927 Speed Model—Easy Running



$25.85 Complete As Shown

Genuine Lobdell Nickel Plated Rims

Another feature of Hawthorne Motobikes: The hard maple rim is encased in a sheet of steel pressed on under one ton pressure. Positively weather and waterproof. Has all the springiness of the wood rim with the sturdiness and long wear of steel. The highly polished nickel plated finish is very attractive.

Cross Section of Lobdell Rim

Cherry Red or Rich Blue Finish

HAWTHORNE Bicycle Guarantee

We guarantee that at any time during the life of any Hawthorne Bicycle we will replace, free of charge, any part which proves defective because of imperfections in materials, workmanship or construction. We further guarantee that if when you receive it and try it, you do not believe it the greatest bicycle value you can buy anywhere, or if for any other reason you are not perfectly satisfied in every way after riding it for 30 days, you may write us for shipping instructions and we will refund all you have paid, including transportation charges.

Satisfaction Guaranteed or Your Money Back

Boys! This Big Saving Is for You

No dealers' or agents' commissions and extra selling costs are added to the price you pay for the Hawthorne. We do not know of any Motobike at any price that is smarter looking or better constructed. Every boy who orders a Hawthorne makes a cash saving of $15 to $20, and gets a motobike that will be the envy of all his friends. You will not only be proud of the fine appearance of your Hawthorne, but you will be delighted with its easy riding and its speed.

Study the specifications below and you will see that in every detail of construction the Hawthorne is equal to motobikes selling for $15 to $20 more. Guaranteed for life against defects in material and workmanship.

Sold on Thirty Days Trial

Send your order in the usual way, enclosing remittance, and we will at once ship your Hawthorne. Try it for 30 days. Compare it with any other motobikes you see. If at the end of 30 days you are not entirely satisfied, we will refund every cent you paid, including transportation charges. Read our Bicycle Guarantee above.

Look at These Eighteen Big Features

Frame: Finest 18-gauge seamless steel tubing reinforced at all joints and in the hanger bracket; all joints brazed and smoothly finished.

Crank and crankshaft are of high carbon steel drop forged in one piece and beautifully nickeled. The crankshaft turns on ball bearings.

Chain is the best roller type.

Coaster Brake: Genuine New Departure or Morrow—favorites everywhere.

Front Hub: Bored from a solid bar of steel and fitted with ball bearings.

Fork: Very sturdy construction, finished to match the frame and with truss rods nickeled and highly polished.

Mud Guards: Heavy gauge steel in the approved deep center splash-proof type, wide white stripe in center.

Pedals: Fine quality ball bearing type with 4-surfaced rubber treads and nickeled metal parts. Shaft of high carbon steel.

Saddle: Troxel Motobike has compound shock absorbing springs and a comfortable padded seat of good quality leather. Size 8½ x 10½ inches.

Handle Bars: Popular motobike style, 20 inches across. Made of steel tubing with steel tube cross-bar reinforcement, highly nickeled.

Grips: Flexible black rubber, motobike style.

Rims: Choice of the new Lobdell cement type of rock maple encased in highly nickeled steel armor, or all steel clincher type enameled gray with white center; size, 25-inch for 28-inch tires.

Spokes: Finest quality rust resisting steel—nickeled and highly polished and with tension adjustment.

Tires: Either cement or clincher type heavy duty Riverside Giant Stud Red Tread tires.

Parking Stand: Strong U-shaped bar steel with broad base.

Sprocket: Geared 26 to 10 which is the ideal ratio for ordinary use. Light weight but very strong. Polished nickel finish.

Size: The Hawthorne Motobike has a 20-inch frame with one-inch drop at seat post. Actual weight, 37 pounds. For riders with inseam measurements of 27 to 35 inches from crotch to toe.

Finish: Your choice of Cherry Red or Rich Blue with white striped head and mud guards. Enamel baked on and protected by weatherproof varnish giving a brilliant finish.

Estimated Total Freight Charges for 150 miles, 69¢; 300 miles, 86¢; 500 miles, $1.22. Express rates about one-half more. **Read Page 306**

The "Dolly Varden"

"Dolly Varden" Bicycle for girls is built in the same sturdy manner as the Hawthorne Motobike. The frame is finished in a Rich Blue with White trimmings. The baked on enamel has a brilliant finish. All exposed metal parts are nickeled and highly polished.

The design of this model insures easy riding. The saddle is well made of soft leather, padded and cushioned on compound springs. Metal safety guard over chain, deep mud guards over wheels, and heavy cording on rear wheel, protect rider's clothes. New Departure front hub and coaster brake. **Lobdell armored wood rims.**

Tires are Riverside Giant Stud Red Tread, guaranteed to give long service. This bicycle comes in two sizes—the "Dolly Varden" for young women and the "Dolly Varden Jr." for girls of 7 to 11 years.

For Young Women

160 F 3061—Young women's "Dolly Varden" model with 20-inch frame, 28-inch tires. Actual weight, 40 pounds. Shipping weight, 60 pounds..... **$26.85**

For Girls

160 F 3068—Girls' "Dolly Varden Jr." model, same style without chain-guard and with 18-inch frame for riders 7 to 11 years. 19 to 26-inch inseam measurement; 26-inch tires. Actual weight, 35 lbs. Shipping weight, 50 pounds..... **$24.75**

The "Hawthorne Scout"

For those who prefer a lighter weight Bicycle without motobike features, we offer our "Hawthorne Scout" and "Scout Junior. Materials and construction are exactly the same as in De Luxe Motobike models. The Scouts are also covered by the same liberal guarantee. A beautiful bicycle with clean racy lines and all modern up to date features including New Departure coaster brake and front hub, compound saddle springs, deep center mudguards, and Riverside Giant Stud Red Tread tires.

The finish is Cherry Red, enameled with White trimmings baked on. The rims are the new Lobdell steel armored wood, cement type, with highly polished nickel finish. Handle-bars, crank-hangers and other exposed metal parts are also highly polished nickel.

For Young Men

160 F 3069—"Hawthorne Scout" with 20-inch frame having one-inch drop at seat post; 28-inch Riverside Giant Stud Red Tread tires. For riders with inseam measurement of 27 to 35 in. crotch to toe. Actual wt., 35 lbs. Ship. weight, 60 lbs. **$24.95**

For Boys

160 F 3063—"Hawthorne Scout Jr." for boys 7 to 11 years old, the same as the "Hawthorne Scout," with 18-inch frame and 26-inch Riverside Giant Stud tires. For riders with inseam measurements 19 to 26 inches, crotch to toe. Actual weight, 31 pounds. Ship. weight, 53 pounds..... **$23.95**

Longer Service at Lower Cost
RIVERSIDE Bicycle Tires

This is The RIVERSIDE Auto Cord They're All Talking About

WONDERFUL values because, like our world-famous Riverside automobile tires, they are made right. Before offering Riverside Bicycle Tires to our customers, we gave each tire the most severe test for strength and durability. Each tire is made by expert workmen according to our own rigid specifications, which call for finest quality materials and the most approved methods of construction. Buy Riverside Tires for your bicycle, and get the best for less money.

Riverside Motor Fabric Road Gripper—Cement Type

$2.15 Each

Specially designed for those who want the best, yet our prices are decidedly moderate. The New Motor Fabric Road Gripper has no superior. It is built like the finest motorcycle tires from strong 12-ounce motorcycle fabric and live, durable rubber. It has thick, white rubber side walls and a heavy black, non-skid motorcycle tread that firmly grips the road and prevents skidding. Actual comparisons have shown that it will deliver at least twice the mileage of ordinary low priced tires, and much more than other tires sold at the same price or even more money.

Built Like a Motorcycle Tire

You save money on Riverside tires because we eliminate jobbers' profits and purchase enormous quantities direct from the manufacturer. Large volume sales enable us to set our price at only a few cents more than the actual manufacturing cost. Our customers are always assured of receiving fresh new stock that will give the utmost in satisfaction. Each tire is carefully inspected before shipment. Notice the inner construction of this tire, as shown in the small illustration above.

Size 28-inch for 25 by 1½ or 1⅝-inch rims only. Ship. weight, each, 2 lbs. 8 ounces.

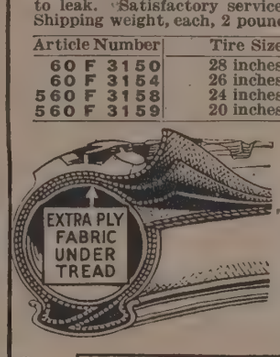
60 F 3145—Each.....$2.15

Cement Type Riverside Giant Red Stud

$1.75 Each 28-Inch

Enjoy greater riding comfort and get more mileage at less cost. Tough, wear-resisting red rubber treads with giant non-skid studs that are soft and lively, yet not easily punctured; they grip the road and prevent skidding. The pliable, white rubber side walls are designed to absorb the shocks of rough roads. Two plies of finest quality, heavy fabric all around and an extra ply under the tread. This extra ply makes the Giant Stud superior in wearing qualities to many tires sold elsewhere for more money. The inner lining is strong elastic red rubber—no porous walls to leak. Satisfactory service guaranteed. Full 1½-inch size. Shipping weight, each, 2 pounds 8 ounces.

Article Number	Tire Size	Fits Rim	Each
60 F 3150	28 inches	25 inches	$1.75
60 F 3154	26 inches	23 inches	1.65
560 F 3158	24 inches	21 inches	1.55
560 F 3159	20 inches	17 inches	1.45



Riverside Giant Stud Clincher Tire

Same high quality and Giant Stud tread as the cement type tires described above, but made clincher style. Much easier to put on than the old style "flat" clincher tires. Size 28-inch to fit 25-in. single or double clincher rims of either steel, wood or wood-lined steel construction. Ship. wt., each, 2 lbs. 8 oz.

60 F 3160—Each....$2.45

Riverside Black Crow Auto Cord—Cement Type

$2.45 Each

Our best Bicycle Tire value. Our enormous sales have enabled us to increase the quality and strength without advancing the price. We buy direct from the manufacturer in carload lots at a little above the cost of production and add only one small profit. The Riverside Black Crow Auto Cord has been tested with many of the most expensive tires manufactured and we believe no better tire is made. Notice in the illustration above—the thick black rubber tread is resilient to absorb shocks, yet firmly grips the road and helps prevent skidding. The body is made with two layers of long fiber cotton auto cord bedded in pure rubber and vulcanized. This construction insures long wear and is as near puncture-proof as experts can make it.

Will Outwear Two Ordinary Tires

We want you to prove for yourself that these are the best tires to use on your bicycle. Buy one Riverside Black Crow Auto Cord and put it on the rear wheel where the wear is hardest; put any other make of tire on the front wheel. You will find the Riverside good for many more miles of riding when the other tire is worn out. In fact, it will usually outwear two ordinary tires.

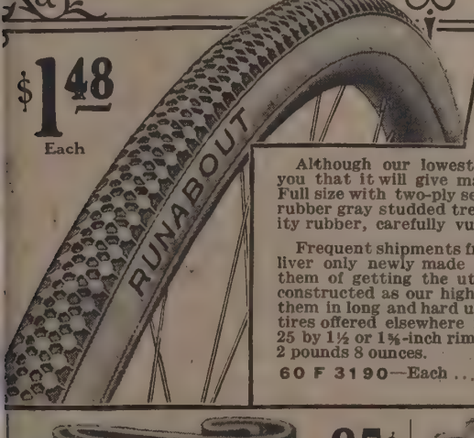
Cement type, which needs no inner tube. Rim side has flannel strip so cement holds securely. No "creeping" on rim or torn valve stems. Thick inner wall of pure, fine grain non-porous rubber, the best assurance against slow leaks. Size 28-inch only for 25 by 1½ or 1⅝-inch rim. Shipping weight, each, 2 pounds 8 ounces.

60 F 3149—Each.....$2.45

Auto Cord Clincher Tire

Strong and flexible—two layers of auto cords vulcanized in pure rubber. New, auto style clincher which is very easy to take off the rim. Use inner tubes shown below. Fits single or double clincher rim of either wood, steel, or wood lined steel construction. Size 28-inch for 25-inch rim. Ship. wt., each, 2 lbs. 8 ounces.

60 F 3147—Each.....$2.65



$1.48 Each

Improved Runabout Tire

Cement Type—Single Tube

Standard Construction

Although our lowest priced Bicycle Tire, we assure you that it will give many miles of satisfactory service. Full size with two-ply select bicycle fabric and tough, live rubber gray studded tread. The inner lining is good quality rubber, carefully vulcanized.

Frequent shipments from the factory enable us to deliver only newly made tires to our customers, insuring them of getting the utmost in service. Not as heavily constructed as our higher priced tires and will not equal them in long and hard usage. It will outwear many other tires offered elsewhere for more money. Size 28-inch for 25 by 1½ or 1⅝-inch rims only. Shipping weight, each, 2 pounds 8 ounces.

60 F 3190—Each.....$1.48

United States Giant Chain Tread

Tough 3-Ply Fabric

Cement Type—Single Tube

While Bicycle Tires do not receive the shocks and hard use given automobile tires, the experience gained in making the heavier auto tires has been applied here to produce a long life bicycle tire. The thick black Giant Chain tread forms vacuum cups when riding, giving an excellent, road gripping surface. They create a suction which helps to prevent skidding, or slipping on corner turns. White rubber side walls with three plies of closely woven, very tough tire fabric all around. These side walls are strong, yet pliable to absorb the shocks from rough roads.

Our price is much less than usually asked for this excellent quality. Size 28-inch for 25 by 1½ or 1⅝-inch rim. Shipping weight, each, 2 pounds 8 ounces.

60 F 3188—Each.....$2.35

$2.35 Each

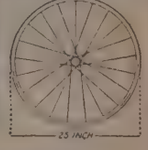
Read General Ordering Instructions on Page 304

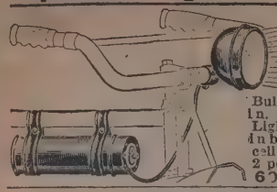


Bicycle Tires, Wheels and Rims

You can easily find the correct size tire for your bicycle by measuring the distance from the ground to the top of the tire, when the tire is on the wheel and fully inflated. Or you can measure diameter in inches between the outside edges of rim and add 3 inches, which gives you the tire size. For example: The illustration above shows a rim measuring 25 inches from edge to edge, which takes a 28-inch tire—the standard size on men's and women's bicycles. Juvenile bicycles with 23-inch rims take 26-inch tires, or with 21-inch rims take 24-inch tires. Correct size of wheel or rim is diameter from outside edge to outside edge of rim.

Quality Bicycle Equipment at Lowest Prices

Dependable Lights for Safety at Night



Electric Headlight

Throws a powerful beam of light. The highly polished nickel plated reflector highly magnifies the light from the 1½-volt bulb. Bulls eye lens, diameter, 3 in. Only one dry cell needed. Light and battery case finished in black. With bulb. Order dry cell extra. Shipping weight, 2 pounds 8 ounces.

Your Camera Gives You a Priceless Record

$1.49

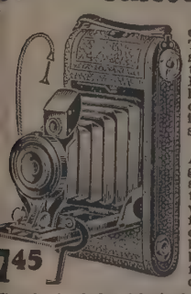
Small illustration to the left shows metal loading cone, film rollers and light proof Buddie case.

Buddie Camera—2½ by 4¼

Simple and easy to operate, the Buddie is an excellent Camera for beginners who have had no experience taking pictures. There are no fine adjustments of any kind to be made before taking a picture. You simply point it at the object to be photographed and move the shutter lever. Its 2½ by 4¼-inch pictures equal the work of any $3.50 camera. In bright sunlight, if objects are 10 feet or more distant, every picture will be clear and distinct. Its sturdy fiber case is covered with black seal leatherette. Fitted with single fixed focus lens; leather handle and two deep seated view finders. Uses any standard roll film or Ansco No. 60 F 8234 or 60 F 8235, listed below at right. Instructions included. Ship. weight, 2 pounds. **$1.49**

60 F 7710 .....

Made by ANSCO The Goodwin Self-Focusing Cameras



$7.45

No estimating of distance, focusing, or shutter adjustment necessary. Takes sharp clear pictures from the start. Just open the front, pull out the bellows, and take the picture. Beautiful imitation leather case, highly nickeled fittings, and leather carrying handle. Can easily be carried in the pocket. New style flat model size, 1A, 1½ by 3⅜ by 8 inches.

Fitted with a standard single Achromatic lens and a properly timed genuine Ilex shutter, which adjusts for snapshots in bright sunlight or for time exposure. It has a reversible view finder, tripod sockets, and a foot rest for use in taking vertical or horizontal pictures. Aluminum bed and back. Imitation leather bellows. Spool holding device keeps film tight and prevents fogging or curling.

Can be loaded safely in broad daylight. When exposures are completed, spool is automatically raised for removal from the camera. Complete instructions with each camera. Shipping weight, 2 pounds.

60 F 7721—No. 1. Takes pictures 2¼ by 3¼ inches. Uses Ansco No. 60 F 8232 listed at right, or any standard roll film **$7.45**

60 F 7725—No. 1A. Takes pictures 2½ by 4¼ inches. Uses any standard roll film including Ansco 60 F 8234 and 60 F 8235 listed at right **$9.85**

Hawkeye Cameras Made by the Eastman Kodak Company

ON each Eastman Hawkeye Folding Camera we offer you a substantial saving over the prices usually asked elsewhere. Pictures that are clear, sharp and distinct can be taken easily with even this moderately priced Hawkeye. By following the simple instructions included you can take good pictures from the first.

You can load a Hawkeye quickly and safely in daylight. Fogging and curling of film is impossible because of patented spool holding device. Has automatic spool release. Furnished with Menisus Achromatic or the popular rapid Rectilinear Lens. Kodak ball-bearing shutter gives time, bulb and instantaneous exposures of 1/25 and 1/50-second. Reversible view finder shows clearly how picture will look and what is included.

Two tripod sockets. Black leather bellows, when drawn out, locks in the proper position. Metal rest holds camera steady in vertical or horizontal position. Strong aluminum case covered with imitation leather of lasting quality in seal grain finish. Uses Ansco or any standard roll film. Ship. weight, 2 pounds.

Hawthorne Built-Up Bicycle Wheels

Make the Old Bike Like New With Hub and Axle—Completely Assembled—Ready to Use

If your bicycle is not a coaster brake model, put on our new coaster brake Wheels—and enjoy all the fun of a new bicycle. Our high quality wheels are trued and tested by expert workmen; rim, spokes, hub and axle are completely assembled for use, ready to set into forks. Wood rims are springy rock maple cured to prevent warping. Spokes are finest quality piano wire steel. Front wheels are fitted with New Departure hubs. Rear wheels are fitted with either plain non-coasting hubs, complete with sprocket and axle assembly, or your choice of Morrow or New Departure coaster brakes. Rear wheels will be fitted with nine-tooth 1/16-inch wide sprocket for 1-inch pitch chain on both plain axle and coaster brakes unless otherwise specified. Shipping weight with plain hub, 2 pounds, 8 ounces; coaster, 4 pounds, 8 ounces. Read "How to Order" on Page 469.

Hawthorne Bicycle Rims

Wood or Steel—Cement or Clincher Type

Fix up your old bicycle. New Rims will make it look better and ride easier. Assure yourself of dependable quality at low prices by buying them at Ward's.

Our quality bicycle rims, for both the cement and clincher type tires, are of carefully selected tested materials. They are well finished and thoroughly dependable. The wood rims of one piece select seasoned rock maple are very resilient and easy riding. Neatly finished and varnished. The metal rims are tough steel, enameled gray. All rims, including those for 26 and 24-inch tires, are drilled with thirty-six holes.

Read "How to Order" on Page 469.

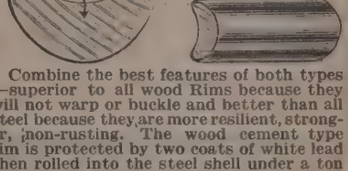
Lobdell Nickel Plated Armored Wood Rims And Built-Up Wheels



Combine the best features of both types—superior to all wood Rims because they will not warp or buckle and better than all steel because they are more resilient, stronger, non-rusting. The wood cement type rim is protected by two coats of white lead then rolled into the steel shell under a ton of pressure. This makes the wood and steel as one—water tight with no space between. Spoke and valve holes are also effectively sealed against moisture.

The smooth surface steel armor is given a heavy coat of nickel by the same method used in plating the nickel trimmings on high priced autos. This flashing finish will last indefinitely and harmonizes with any color bicycle frame. Rims sold separately or in built-up wheels. All rims including those for 26-inch tires are drilled with thirty-six holes.

Shipping weight, rim only, 2 lbs.; wheel without coaster, 2 lbs. 8 oz.; with coaster, 4 lbs. 8 oz. Read "How to Order" on Page 469.

NOW—We Prepay the Freight on Runrite Lubricating Oils

12¼¢
A Quart In 50-Gallon Barrels For Medium Oil

Usual Retail Prices Cut One-Half

The real test of any good oil is the service it renders—thousands of Ward's customers are using our RUNRITE Motor Oils with complete satisfaction. This is positive proof of high quality. RUNRITE Motor Oil is refined from excellent quality crude oil making it basically a superior oil. Heavy-bodied, with a high fire and flash test, so essential to a fine grade oil.

RUNRITE Motor Oil thoroughly lubricates the remotest parts of your engine, thus insuring a smooth quiet running motor. Although it costs you less money, we positively guarantee that you will find it equal to most oils selling at much higher prices. This same grade oil sells at your neighboring station for at least $1.00 a gallon.

We prepay all Freight Charges on Lubricating Oils. The price you pay is for the oil delivered to your nearest freight station. No freight bills to bother about—no extras to pay. We have more than thirty distributing stations located in all parts of the country. One of them is near your home town and it carries a complete stock of RUNRITE Oils, ready for immediate shipment.

Runrite Oil Chart

The correct grade of Runrite Oil for most cars is listed below, with suggested changes for warm and freezing weather.

The grades are indicated by letters "L" for light, "M" for medium, "H" for heavy and "EH" for extra heavy. If your car is not listed here, state in your order the name of your car and we will send the correct grade of Runrite Motor Oil.

Non-Chatter Oil for Fords

Get rid of that familar Ford chatter by using Runrite Special Non-Chatter Oil. It not only eliminates that annoying chatter but it also lubricates your motor perfectly, giving a maximum amount of power, greater pickup, and smoother running motor. Runrite Special Non-Chatter Oil keeps your brake bands soft and pliable, insuring equal leverage on the transmission, thus assuring a smooth quiet "get away." Another advantage is the added protection against carbon, it actually decreases carbon deposits from 10 to 25 per cent. This makes more power and less wasted gasoline. Give this special oil a trial at our risk. If after a thorough trial you are not satisfied with it, return the remaining oil and we will refund your money, including transportation charges both ways.

Motor Oil for All Cars

Consult Chart at Right for Proper Oil

Have the advantages that thousands of our customers enjoy by using RUNRITE Motor Oil. Have a "sweet" smooth running motor, cleaner spark plugs, less engine disorders, and a thorough lubrication of all moving parts at any temperature. This superior oil is heavy-bodied, with a high fire and flash test, giving it a maximum lubricating value. You will save money on this high grade oil, as it sells for nearly twice as much at your nearby oil station. And, besides, we absolutely guarantee that it is all that we claim for it.

You can prove this better performance and greater saving at our risk. Order a barrel or can of RUNRITE Motor Oil today. Thoroughly drain off the old oil from your crankcase and refill it with fresh, clean RUNRITE Motor Oil. Then run your car a sufficient number of miles to test it thoroughly. If the results do not satisfy you, return the remaining oil, and we will refund your money, including the freight charges both ways. Montgomery Ward & Co.'s complete guarantee of quality and satisfaction is your protection.

Runrite Tractor Oil

60¢
A Gallon In 50-Gallon Barrels

A tractor requires a heavier oil than an automobile because the strain of continuous heavy work develops excessive heat which doubles the work of the oil. Ward's Runrite Tractor Oil is an extra good quality that has been refined to meet all heavy operating conditions. This special oil stands up under the hardest kind of tractor work. Especially recommended for Fordsons but it may be used with entire satisfaction in any make of tractor. Use medium grade in freezing weather. Order the grade of oil specified for your tractor, or be sure to state on your order the make of tractor. Steel barrels are provided with faucets. Try this oil and satisfy yourself as to its quality.

100% Pure Pennsylvania Oil

To meet the demand for a 100 per cent Pure Pennsylvania Oil, we a offering to our customers, under our guarantee, an oil that actually com from wells in the Pennsylvania oil fields. The extremely high flash and a test makes it an outstanding oil for efficient and economical service, gives more mileage to the gallon of oil. If, after you have given the oil trial, it should not prove satisfactory, return the remaining oil and we w refund the purchase price. Due to the scarcity of high grade Pennsylvar crude oil, the price is somewhat higher than regular Runrite Oils.

Runrite High Pressure Grease

22¢ A Pound

Most cars are now fitted with special high pressure grease cups that need a particular kind of grease. Our Runrite High Pressure Grease is an excellent quality mineral oil in solidified form that will always remain spongy and elastic. This characteristic makes it highly suitable for use in Alemite, Rex High Pressure or any pressure lubricating system. Due largely to the fibrous sticky body, you will save many repair charges otherwise caused by faulty lubrication of an inferior grease. Ship. wts.: 1½, 7, 12 and 28 pounds.

The Question of Tire Quality"

H. W. JORDAN
Manager, Tire Department

A Plain, Straightforward Talk by the Manager of Ward's Tire Department

THERE are so many different makes of Automobile Tires on the market today, that it is very puzzling for the average auto owner to know just which to buy after reading all the claims made by the various manufacturers.

I read all these ads about tires just as you do. I have seen hundreds of different brands of tires come and go. That's why I want to give you a *Few Facts About Tires* that will *Save You a Great Many Dollars.*

Quality Is the Most Important Thing About Tires—for You

The one thing you want from a tire is MILES—and plenty of them. Secret processes—new methods—special designs—"new" kinds of rubber or new fangled ideas in the weaving of the fabric, *don't mean a thing if the tires do not give you good long mileage and less trouble.*

There are only TWO REAL TESTS OF TIRE QUALITY—one is HOW MANY MILES WILL IT RUN—and the other is HOW MANY YEARS WILL IT LAST without the rubber cracking and going to pieces. Only time will show this—it takes years to PROVE THE QUALITY OF A TIRE—so any firm telling you they have a brand new tire that is better than all others is not giving you FACTS. It is not possible to truthfully make such a statement without YEARS OF SERVICE to back up the claims.

Riversides are not a new brand of tires—Riversides are not experimental tires—they are PROVED QUALITY TIRES that have a *Record for Service which we will put up against any tire in the world, regardless of price or make.* We have letters from men, like yourself, telling of their Riversides going 20,000 to 40,000 miles—and lasting six and seven years without trouble.

Not only do we say RIVERSIDE TIRES are the equal of tires selling for many dollars more than our prices—but we GUARANTEE IT. Riverside Oversize Cords and Balloons have a 12,000 Mile Guarantee to PROTECT YOU ON QUALITY. Our guarantee for mileage is more than the manufacturers of even the highest priced tires give you.

Who Sets the Prices on Tires?

Nearly all FIRST QUALITY TIRES cost about the same to manufacture. I have tested and examined them in our big laboratory and the most careful analysis shows that they all contain about the same amount of pure rubber and cord materials. I have cut these tires apart and the measurements are all very nearly identical. I have weighed hundreds of different tires and they all are about the same weight for corresponding sizes.

Now the big question is—how much does it cost to sell these tires? The manufacturer must have his profit—then he has his salesmen and advertising expenses to add. Then there are the extra in-between profits and all the handling expenses of shipping these tires to the different localities. Don't you see they have to add several dollars extra to the manufacturing cost so all of these men can get their share?

That's the reason all the other FIRST QUALITY TIRES are so nearly alike in price—and that's why they cost you a great many dollars more than Riversides.

You Pay Only One Small Profit When You Buy First Quality Riversides

Now I'm going to show you where the BIG DIFFERENCE IN PRICE comes in. Riversides cost just as much to manufacture as do the high priced tires. Riversides have just as many pounds of pure rubber. Riversides have the same amount of fine quality cord materials. And Riversides are built in up-to-date factories with the latest style tire building machines—operated by experts who know Ward's must have the BEST.

BUT RIVERSIDES DO NOT HAVE ALL THE HIGH SELLING COSTS—EXTRA PROFITS AND EXPENSES THESE OTHER TIRES HAVE.

We sell thousands of Riversides each day *Direct to the Users.* We don't have to pay salaries and expenses for hundreds of salesmen. We don't have to add three or four extra profits and expenses. Our policy is—SMALL PROFITS ON LARGE SALES—NOT LARGE PROFITS ON SMALL SALES as is necessary with a store which sells only a few tires each day or week.

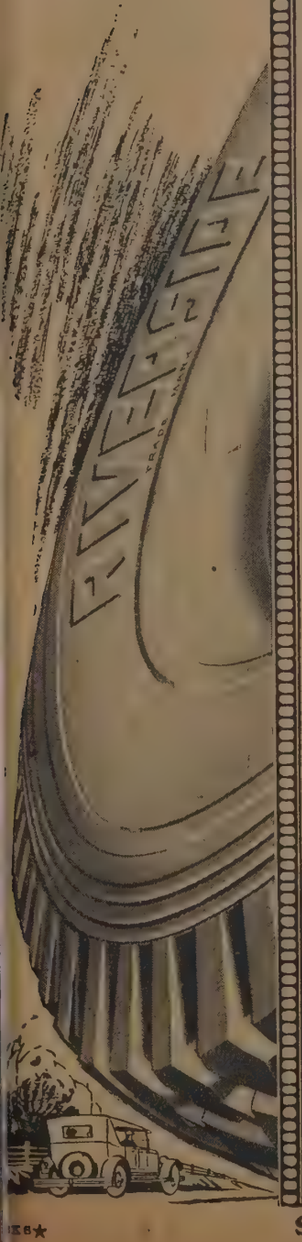
I want you to read every word about Riversides on the next few pages. See how we have made startling reductions in prices. And then accept our FREE COMPARISON OFFER which will settle all questions about the size and appearance of Riversides. Then you will understand WHY Ward's became the BIGGEST TIRE DEALER IN THE WORLD.

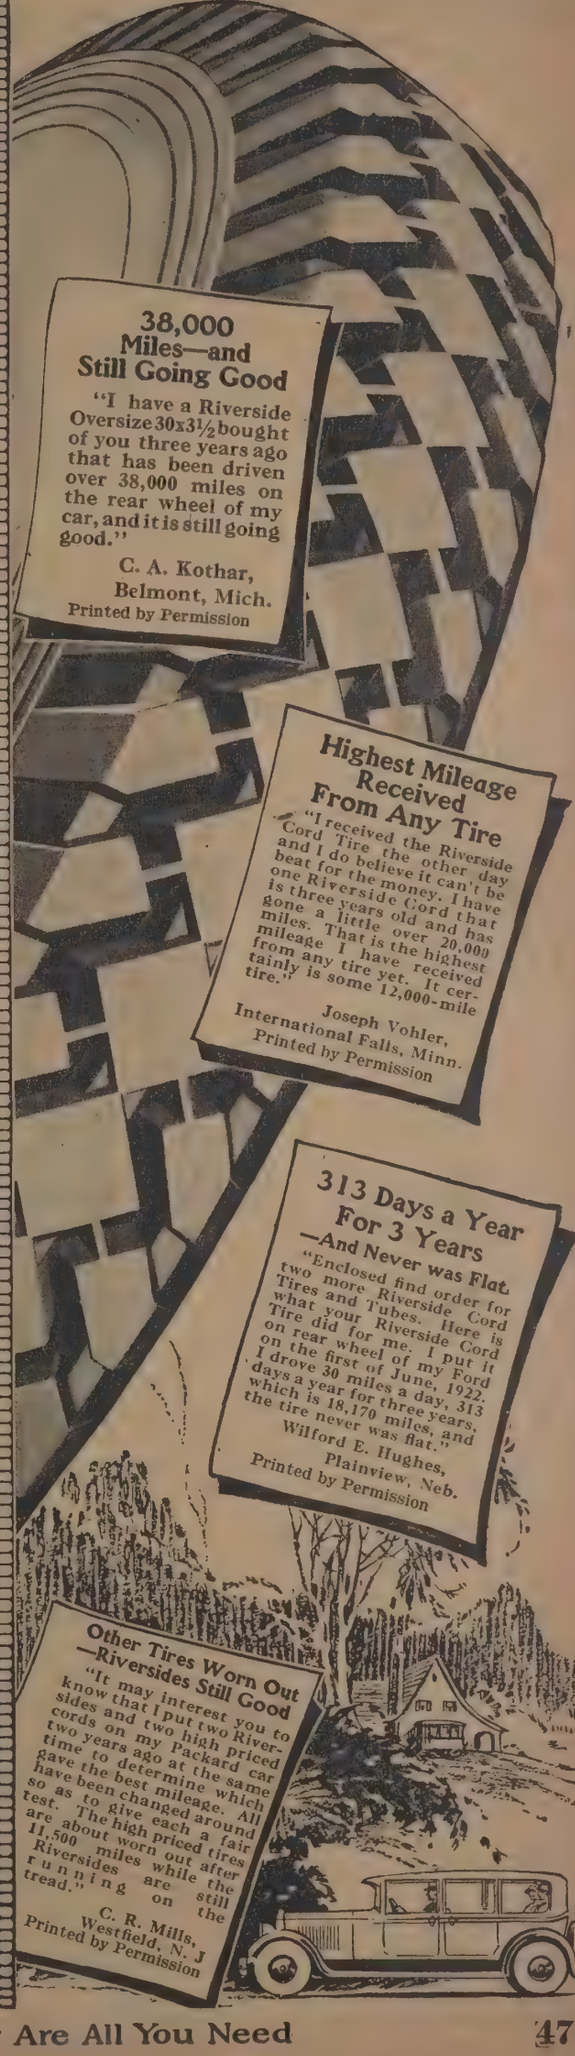
W. H. Jordan
Manager of Tire Department

Riversides Have Gone Over 14,000 Miles

"I have one of your Tires that traveled through two winters and one summer on an R. F. D. mail route over the worst type of frozen clay roads and has 10,670 miles by speedometer to its credit. At present I am using two of your Riverside cords, both of which have gone over 14,000 miles and one is still in good condition."

Amos D. Wilson,
Tecumseh, Mich.
Printed by Permission





38,000 Miles—and Still Going Good

"I have a Riverside Oversize 30x3½ bought of you three years ago that has been driven over 38,000 miles on the rear wheel of my car, and it is still going good."

C. A. Kothar,
Belmont, Mich.
Printed by Permission

Highest Mileage Received From Any Tire

"I received the Riverside Cord Tire the other day and I do believe it can't be beat for the money. I have one Riverside Cord that is three years old and has gone a little over 20,000 miles. That is the highest mileage I have received from any tire yet. It certainly is some 12,000-mile tire."

Joseph Vohler,
International Falls, Minn.
Printed by Permission

313 Days a Year For 3 Years —And Never was Flat.

"Enclosed find order for two more Riverside Cord Tires and Tubes. Here is what your Riverside Cord Tire did for me. I put it on rear wheel of my Ford on the first of June, 1922. I drove 30 miles a day, 313 days a year for three years, which is 18,170 miles, and the tire never was flat."

Wilford E. Hughes,
Plainview, Neb.
Printed by Permission

Other Tires Worn Out —Riversides Still Good

"It may interest you to know that I put two Riverside cords and two high priced cords on my Packard car two years ago at the same time to determine which gave the best mileage. All have been changed around so as to give each a fair test. The high priced tires are about worn out after 11,500 miles while the Riversides are still running on the tread."

C. R. Mills,
Westfield, N. J

Be Sure to Order The Right Size And Style

Straight Side Style

Clincher Style

Occasionally auto owners who are not familiar with the different types of rims will order the clincher style tire where they should have the straight side style. If there is the slightest question in your mind as to the style or size of your tire it is advisable to look at the tires on your car when making out your order.

Information About Putting Bigger Size Tires on Your Car

A great many auto owners have found that they get far greater mileage from tires—that their cars ride better—and that they have less trouble if they put on larger tires than those which came on the car. Generally they make the change on the two rear wheels at first. For your information we are showing a list of the regular sizes and the bigger sizes that will fit the same rims.

Regular Size	Bigger Size	Regular Size	Bigger Size
30x3½	Straight Side 31x4	33x4½	Straight Side.. 34x5
31x4	Straight Side 32x4½	34x4½	Straight Side.. 35x5
32x4	Straight Side 33x4½	30x5	Straight Side.. 32x6
33x4	Straight Side 34x4½	34x5	Straight Side.. 36x6
34x4	Straight Side 35x4½	32x6	Straight Side.. 34x7
32x4½	Straight Side 33x5	36x6	Straight Side.. 38x7

FREE Comparison OFFER

We have given you some of the facts about Riverside Tire construction and the service Riversides are giving other auto owners. But now we want you to see and examine Riversides right at your own home. Then you will realize how much money you have been losing by not using Riversides before.

Simply send us your order for as many as you need in the regular way, enclosing remittance. Take these big, husky Riversides to your home, make every fair examination you wish. Compare them with the highest priced tires. Place them beside the other tires and see how they measure up for size and looks. Then, if for any reason you do not want to keep them, send them back and we will refund your money and all transportation charges.

12,000

No Other Tire Has This Greater Safety Tread

The Riverside "Greater Safety" Tread is the perfected design approved by our tire experts after many months of testing and experimenting, with the best treads made as their models. It has proved so successful in preventing skidding that we have had it PATENTED—no other tire has it. We realized the importance of SAFETY in tires because of the hundreds of accidents every day—a great many of which are due to skidding.

Fewer Accidents

Hundreds of tests on bad roads and the experiences of users in all parts of the country show that this Riverside "Greater Safety" Tread is a big aid in preventing accidents. Many Riverside users tell us that they have driven all winter through the snow, mud and slush, without needing tire chains.

TIRES Made Montgomery Ward & Co. The Biggest Tire Dealer in the World

12,680,000 RIVERSIDE Tires and Tubes Sold to Motorists

It takes years of experience and the making lots of tires to KNOW HOW to produce the best. We have been in the tire business very early fifteen years—and our experts know it thoroughly. Very few men in the United States have had as much experience. We have erected the making and have sold 12,680,000 Riverside Tires and Tubes direct to auto owners, like yourself.

No Other Tire Has Such a Record

There is not another tire in the world that has such Wonderful Proof of Value, for no other dealer or factory has ever sold as many tires direct-by-mail to the users.

Such an enormous sale of tires direct to the users would have been impossible if Riversides were not Quality Tires. Just compare our prices with those of any other First Quality tires.

This is the Test that Proved RIVERSIDES are the Best

Think of putting two new tires on the rear wheels at the same time—one a real high priced tire—the other a Riverside costing $5 to $15 less. Then after many months' service you find that the Riverside was the equal in every way to the high priced tire—wouldn't that convince you that Riversides were absolutely First Quality Tires? Wouldn't it prove a wonderful saving to have the Riversides go thousands of miles farther than the high priced tire?

Millions of Motorists Know it Now

Well, that is exactly what is happening for our owners everywhere. Just read the letters to the right—we've received thousands similar to these. Riverside Tires not only save you money at the start but they are giving thousands of miles more service than other tires according to our customers' records. Make this Test Yourself. Put one or two Riversides on your car opposite the best tires you ever used and see how the Riversides go farther and give less trouble. Then you'll see why we sell thousands every day.

Save $10 to $50 by Using RIVERSIDES

These new LOW PRICES are several dollars less than you will pay for other FIRST QUALITY, time-tested, FULL Oversize 12,000 Mile Cords, with a big firm like Ward's to protect you on service. They are the LOWEST PRICES on many sizes we have ever offered on Riverside Cords. If you will need two or three tires this year just figure it up and you will find Riversides will save you $10 to $50.

We Guarantee RIVERSIDES the Best Time Tested Tire Value In the United States

When you buy Riverside Tires you can depend on it that you have saved a lot of money and received the BEST TIME-TESTED TIRE VALUE in the United States. Millions of other auto owners are doing it—why shouldn't you? Just look at that picture—you can't find a better looking tire anywhere. And it is as good as it looks. We Positively Guarantee these Riverside Cords are equal in Size—Weight—Quality—Number of Plies—Construction—and Safety, to higher priced tires. Thousands of users say Riversides are better than any other tires because Riversides have gone farther and have given them less trouble.

This Is WHY RIVERSIDES Go Farther and Last Longer

The most expensive material used in good tires is Pure Rubber. The more pure rubber—the better the tire. We use several pounds more of Pure Rubber in Riversides than are generally used in other tires selling near our price. That is Why Riverside Tires go thousands of miles farther than other tires, according to letters from users in all parts of the world.

In the pictures above we show the difference under the microscope, between the tread in the Riverside, with its large quantity of Pure Rubber, and the tread in another tire selling for about the same price, but which does not have hardly any pure rubber.

The Riverside Tread is close-grained, tough, elastic, springy and will last for years. The tread on the other tire is porous, weak, hard and brittle which will chip and crack, letting dirt work into the tire and causing a blow-out long before the Riverside shows much wear.

Mail Your Orders to New York City If You Live Nearer There

For the benefit of our customers living nearer New York City than to our Baltimore Store, we are now carrying a complete stock of Riverside and Wardwear Tires, Inner Tubes and Riverside De Luxe Batteries at this point.

We are doing this to give you Quicker and Better Service on these necessities for your car, which you generally need in a hurry.

Just mail your order addressed to Montgomery Ward & Co., 354 Fourth Ave., New York, N. Y., for all sizes of Riverside and Wardwear Tires, Inner Tubes and Batteries.

Orders for all other goods must be sent to our Baltimore store.

Read What Users Say About RIVERSIDES

25,000 Miles 4 Years Old—No Trouble

"I have two Riverside Oversize Cord Tires on my car that have gone 25,000 miles and they are good for several thousand more, as they do not show much wear. These tires are four years old."

H. J. Armbruster,
Urbana, Ohio.
Printed by Permission

37,000 Miles RIVERSIDES Give No Trouble

"One of my Riversides has gone 37,000 miles with the original tube and the other has had one new tube due to neglect of air."

Jesse A. Maxwell,
Waynesville, Ill.
Printed by Permission

Mile Guarantee

The Reason RIVERSIDE Prices are Many Dollars Less

Did you read Mr. Jordan's Message on Page 73? If not—do it now. On these pages we have given you Facts about making tires—and also Facts about selling them. Riversides cost just as much to make as tires selling at high prices—they are just as strong—and thousands of users will tell you that Riversides go farther than any other tires they have ever used.

The Only Difference between Riversides and other fine Quality tires is the Selling Price. With Riversides you pay only One Very Small Profit above the manufacturing cost—with others you pay three or four profits and expenses.

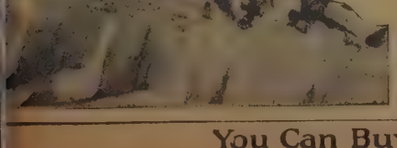
We ask you to think this matter over carefully—for we know that you—like millions of others—will realize the truth of every statement after trying one or two Riversides.

Be Your Own Tire Man

Buying Riverside Tires from Ward's is like being in the tire business for yourself. The only difference is that you make out your own order instead of letting somebody else do it for you—and you get the Profit for Yourself—for Riverside prices are wholesale prices. A comparison with wholesale catalogue prices will prove this. Riversides are First Quality Tires at prices less than some ask for second quality tires that can't possibly give you the same kind of service. Jobbers and others order by mail—why shouldn't you? Besides saving money you have Ward's reliable guarantee to protect you on Quality.

12,000 Mile Guarantee

All Riverside Full Oversize Cords are fully guaranteed for a 12,000 Mile Service Basis against all defects in materials or workmanship. If a defect develops before you have gone this distance we will repair the tire free of charge or replace it, charging only for the mileage you have received.



Your Speedometer Is the Riverside Salesman

Riverside Tires won FIRST PLACE in the tire industry as the leader of all tires sold direct to the users—by the SPEEDOMETER TEST. Thousands of men who had heard of the wonderful success other motorists were having with Riversides ordered one or two for the purpose of trying them out. They felt just like you might feel at first—but when their speedometers rolled up to 12,000 miles—then up to 15,000 and kept going to 20,000, with some passing the 35,000 mile mark, then all questions about Riverside Quality were settled forever.

Repeat Orders Tell the Story Of Riverside Quality

These same men who tried one or two Riversides years ago are NOW using Riversides on all wheels—and many tell us they would not use any other tire, regardless of price.

You know it would be impossible to build up a marvelous tire business selling Two Million Tires in a Year by Mail—if Riversides were not giving these men more miles and better service than they ever received from any other tires.

Give Riversides a chance to show you what they can do—your Speedometer will tell you to order more Riversides—just as it has done for others.

The Easiest Way to Buy Tires RIVERSIDES Delivered Right to Your Home

Buying Riverside Tires from Ward's is so easy—so simple—and is done so quickly that there is no reason for any auto owner paying high prices to get First Quality Tires. You can make out your order in 3 or 4 minutes. Then just enclose a check or money order in the envelope and mail it to us.

If the tires are to be shipped by parcel post they will be quickly delivered right to your home. You don't have to shop around—you don't waste any time—and you get all the advantages of low prices and fine quality just the same as if you lived right near our big store. We carry a complete stock of all sizes ready for immediate shipment.

Proof of RIVERSIDE Quality

Here is More Proof of Riverside Quality. We have explained HOW we reduced the prices of First Quality Tires by selling direct to the users—we have told you how thousands of auto owners are getting Better Service from Riversides than from any other tires they ever used. Now we are going to show you exactly how Riversides compare in measurements and weights with other First Quality Tires that sell for many dollars more than our prices.

To give you Facts on construction we bought several First Quality Tires of well known brands from dealers, paying regular prices. Then we took these tires to our laboratory and cut them in two. We measured them—we weighed them—we tested the rubber and cord material. Study the results in the tables below. These Facts can't be disputed.

Balloon Tires At the Lowest Prices Ever Offered

Read Every Word About the Tire Business on Pages 475 to 477

Montgomery Ward & Co. was one of the first big mpanies to go into the balloon tire business—and iverside Balloons are today the perfected result of ars of practical experience and service.

Riverside Balloons have the longer lasting "Flat read" which has proved conclusively it will outwear ie old style round tread and the larger sizes have 6 ies of cords because this construction proved more tisfactory years ago.

Another big advantage is that Riversides have an ceptionally large amount of pure rubber which akes them last longer—also makes Riversides arder to puncture.

Mr. Jordan has explained very thoroughly on age 473 WHY RIVERSIDE QUALITY IS BETTER ND WHY RIVERSIDE PRICES ARE LOWER—nd also has given other valuable information bout tires. Please read every word on these three ages for there are many FACTS that you should now about Riversides.

More Proof Of Riverside Quality

We recently purchased several well known balloon res and cut them in two so as to give you more ACTS about Riverside construction. Please study iese comparisons carefully and bear in mind that e give you a 12,000 Mile Guarantee to protect you n the QUALITY of Riversides.

Measurements of 29x4.40 Riverside Balloon

Make of Tire	Plies Cords	Weight Pounds	Cross Section	Price Each
Riverside	4	15½	4 12/32-inch	$9.29

Measurements of Four Other Quality 29x4.40 Balloons

Make of Tires	Plies Cords	Weight Pounds	Cross Section	Usual Retail Price, Each
Other "A" Make	4	14 3/8	4 10/32-inch	$12.25
Other "B" Make	4	15 3/4	4 12/32-inch	12.75
Other "C" Make	4	14	4 9/32-inch	12.00
Other "D" Make	4	14 3/8	4 7/32-inch	12.25

Never Before Have RIVERSIDE Balloons Sold *at Such Low Prices*

NOW you can buy Genuine First Quality Riverside Balloons that have PROVED they are equal to the highest priced tires in every way, for less than ever before. We guarantee you cannot find a value that will equal these Riversides in any tires which have such time-tested PROOF of QUALITY. When thousands of motorists have found that Riversides actually outwear and outlast the highest priced tires why should you pay more than our prices? And certainly, it doesn't pay to take chances with cheap, experimental, unreliable tires when you can buy Riversides that have MADE GOOD, for such low prices.

No Other Balloon Tire Has This Greater Safety Tread

Safety is now one of the most important things for you to consider. Thousands of auto accidents occur each week—and skidding is one of the principal causes of smash-ups. We spent thousands of dollars to give you a tread that would hold the road better—and here it is—the Riverside "Greater Safety" Tread. Notice how the blocks are separated—this gives you a great deal better protection than tires which have blocks set too close together—for Riversides hold where others keep sliding.

This "Greater Safety" Tread is patented—no other tire has it. This feature alone makes Riversides worth several dollars more to you than tires with ordinary treads. Many tell us of driving Riversides all winter long without ever needing to put on tire chains.

26,000 to 31,000 Miles from Riverside Balloons

"I have a pair of Riverside Balloons on my car and have run them from 26,000 to 31,000 miles. I am sure they will go another three or four thousand miles. They certainly are good tires."

Dr. S. J. Baloga,
Readfield, Wis.

18,000 Miles and Never Off the Wheels

"The pair of Riverside Balloon Tires for regular wheels I purchased from you a year ago have made 18,000 miles and have never been off the wheels. They look as good as new."

Frank P. Gruss,
Mt. Pleasant, Mich.

FREE Comparison OFFER

We want to PROVE TO YOU that you cannot buy a better tire than the Riverside Balloon. It has everything you could ask for in a tire—strength—safety—beauty—and service. When you see it you will say you've never seen a better looking tire. When you feel the tread you will realize that we do use more pure rubber than is generally used—for the Riverside tread is springy—lively—and very tough.

Order as many as you need. Simply send us your order in the regular way, enclosing remittance. Place the Riversides beside your other tires and see how they match up for size. Make every fair comparison—then if you don't want to keep them—send them back and we will return your money and all transportation charges. You don't risk a cent by accepting this offer.

You Get *This Profit*

The difference in price between Riverside and other high grade balloons is just the difference in profits and expenses. Riversides cost as much to make—but they cost less to sell. This big difference in price is Profit for YOU.

Why shouldn't you keep this money for yourself? Why should you pay somebody else several dollars to write out your order—when you can do it yourself in a few minutes? When you buy Riversides you become your own tire dealer, for our prices are wholesale prices.

Remember the fast train service gets Riverside Tires to your town in a few hours from our store—so you make several dollars for the few minutes it takes to write your order and mail it to Ward's.

Mile Guarantee

Big Balloon Tires that Fit Regular Wheels

If you are not riding on balloon tires you are missing much pleasure and taking a lot of unnecessary bumps. Balloons are no longer an experiment. They have proved their value. That's why all the manufacturers are putting them on new cars. But you need them just as much on your old car. These Riversides are big, full size balloons that fit regular wheels without any changes to the rims or car.

Now is the Time for you to change from High Pressure Tires to Balloons

If your old high pressure tires are worn down, order these Riverside Balloons and get ready for comfortable spring and summer driving. You will be surprised how smoothly your car will ride. If you only need two tires start now by putting a pair of Riverside Balloons on the rear wheels. Then later you can complete the set. These Riversides are built big and flexible and have the famous "Greater Safety" Tread just like our balloons for small special balloon wheels.

Our prices on these big balloons are actually less than often asked for high pressure tires that fit these rims—so why shouldn't you enjoy their greater comfort? Besides the easier riding, you will find balloons will greatly reduce repair expenses and on wet days you will not have nearly as much trouble from skidding. Balloons also make your car look better for their larger size gives the much more up-to-date appearance that you see on the new models.

We Offer TRADE MARK WARDWEARS as the Biggest

MONTGOMERY WARD & CO. became the Biggest Tire Dealer in the world because our tires gave Better Service and cost the users Less Money. We have directed the making of millions of tires. Proof of our leadership in the tire business is shown by the fact that our sales keep growing bigger year after year. Satisfactory service for the users—is the final proof of QUALITY and Montgomery Ward & Co.'s Tires have stood this test and have the Service Proof.

Auto owners all over the world have learned BY ACTUAL EXPERIENCE they can always depend on Ward's Tires. We have received letters from great numbers of customers telling about Montgomery Ward & Co.'s Tires going thousands of miles farther than any tires they ever used—even though the other tires cost a great deal more than our prices.

Experience Taught Us How to Make Better Tires

We have sold more tires direct to the users than any tire manufacturer or distributor in the world. With all this experience in the tire business, isn't it reasonable that we should give you the Best Low Priced Tire it is possible to produce? And here is the tire—the wonderful new full Oversize Wardwear Cord and Balloon—which we guarantee to be the equal of other makes selling for many dollars more than our prices. These lower prices are the result of our economical method of selling direct to the users.

WARDWEAR *Oversize* 8,000

Wardwear High Pressure Oversize Cords

We firmly believe that no auto owner who is in need of tires and is anxious to save money, would buy any other low priced 8,000 mile tire after examining the Wardwear. That's why we've made the FREE OFFER explained on the next page. Just think of buying a big, full oversize 30x3½ Cord Tire for only $6.50, with Montgomery Ward & Co.'s 8,000 mile guarantee to back it up. We have never seen the equal—and are sure you will agree you haven't either after you examine it.

The Wardwear has all you could ask for in a low priced tire—looks, size, guarantee, quality, price. If you are using fabric tires, change to these Cords and save money.

Study this Picture Carefully

Did you ever see a finer looking low priced Tire? Well, it is just as good as it looks. Those big sturdy, heavy blocks of toughened rubber not only give exceptionally long mileage but also improve the appearance of your car. The arrangement and spacing of the blocks is scientifically done to give you the utmost wear and yet give ample protection against skidding.

Even though you are now using the highest priced tires you can put Wardwears on the opposite wheels and they will match up in size—for Wardwears are the big, oversize tires fully as large as any of them. Don't buy any other tire in the 8,000 mile low priced class till you see the Wardwear. It is just another example of how Ward's leadership makes possible bigger bargains.

Wardwear Oversize Cords

Oversize Clincher Style

Number	Size	Each	Ship. Weight
564 F 41	30x3	$5.95	11 lbs.
564 F 43	30x3½	6.50	14 lbs.

Oversize Straight Side Style

564 F 44	30x3½	$ 7.98	15 lbs.
564 F 46	31x4	10.35	18 lbs.
564 F 47	32x4	10.65	19 lbs.
564 F 48	33x4	11.45	20 lbs.

Prices Guaranteed Until May 31, 1927

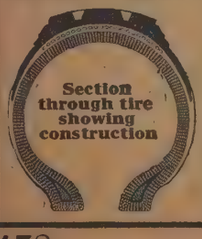
Special 30x3½ Regular Size *Wardwear*

As thousands of our customers use the small standard or regular size tires we have produced a Wardwear to meet their requirements. It is the same type construction only slightly smaller in size. Clincher style. Shipping weight, 13 pounds.

564 F 42—Regular size 30x3½ $6.19.

8,000 Mile Guarantee

All Wardwear Tires are fully guaranteed for 8,000 miles service against all defects in material or workmanship. If any defects develop, we will repair it free of charge or replace the tire on this basis, charging you only for the mileage you received.



Wardwear Standard Construction

When we give you our guarantee that Wardwear Cords are the equal of other tires selling for much higher prices, you know you can depend on it. In fact the cord construction is exactly the same as in many of the first quality tires.

And the rubber used is an exceptionally fine grade for tires in this class. In size—in weight—in the number of plies and in all other measurements you will be amazed at how these Wardwears measure up with higher priced tires.

Montgomery Ward & Co. Has Saved Auto Owners Millions of Dollars

Figure the saving you make when you buy one tire from Ward's. Then think of the saving auto owners have made when you consider they have bought more than twelve million Tires and Tubes from Ward's—it mounts up into the millions and millions of dollars. Did you get your share of this money? Buying tires from Ward's is so easy—so simple—so quick that there is no reason for any auto owner to pay high prices any more. Just try one or two of our tires, and convince yourself of the big saving you make by sending us your orders.

Mile Cord Before You Buy Any Other Low Priced Tire

Bargain in Low Priced Cords

AT no time in the history of the tire business has a big, long established firm like Montgomery Ward & Co. offered a fine quality, big, full oversize 8,000 mile guaranteed Cord Tire for such a phenomenally low price. It would be impossible for the average tire seller or factory to stay in business if their prices on such quality tires were this low.

No jobbers' profits—no local distributors' profits—no salesmen's profits are added to the cost of Wardwear Tires. Then think of all the expenses we eliminate. We do not believe any manufacturer or local distributor in the tire business has such low selling costs. There are only two ways to reduce the prices of tires. One way is to reduce the selling costs—the other way is to reduce the quality. Ward's way is to reduce selling costs—and that is what we've done on these Wardwear 8,000 mile Cords.

Don't Pay More Than These Prices

We have tested nearly all the tires on the market—we have analyzed their construction in our completely equipped Laboratory—we have studied nearly all the special processes you see advertised. And after all these investigations we now guarantee we are selling you these splendidly made tires for less than local distributors pay for tires of equal quality. Don't buy any low priced tire until you see Wardwears—for when you buy them you really become your own tire man. The only difference is you mail your order to Ward's—he mails his to a jobber.

and Balloon Cords

Miles

Wardwear Full Oversize Balloons

Montgomery Ward & Co. was one of the first big companies in the Balloon Tire business. We have sold thousands of balloons each week, and now we are taking the lead in the 8,000 mile class by furnishing you an exceptionally fine low priced balloon with the improved flat tread—double groove construction. Just look at that non-skid tread—it's thick, it's heavy, it's tough. And you know the inside construction must be right or we would never guarantee it on an 8,000 miles service basis. We guarantee you will save several dollars when you buy a pair of these Wardwear Balloons—when compared with other balloon tires of corresponding quality.

FREE Comparison OFFER

We are selling thousands of Wardwear Tires each week. Auto owners who have made careful comparisons of Wardwears with other low priced tires tell us that they surpass anything they have ever seen anywhere near the price. We know you will say the same when you see them. That's why we invite you to order one or as many as you need so you can make comparisons. Simply send us your order in the regular way, enclosing remittance. Examine them carefully —make every fair comparison you wish—then if you don't want to keep them send the tires back and we will immediately refund all your money, including transportation charges. You don't risk a cent.

Prices Guaranteed Until May 31, 1927

Don't Wait And Pay Higher Prices

Look over your tires now and see if you will need some soon—then make out your order to Montgomery Ward & Co. We have tires to fit every car at prices to suit every purse.

Many auto owners send us orders for four to fifteen tires at a time. They don't take chances of having trouble on the road—and then being obliged to pay several dollars more than Ward's prices.

The Safest Place to Buy Your Tires

The only real tire bargain is when you buy QUALITY TIRES for less than usual prices and that is the kind of bargains you get when you buy from Montgomery Ward & Co. Our guarantee absolutely protects you on QUALITY.

Not another guarantee in the world is stronger nor more time-tried than Ward's. It has stood the test for 55 years; and today it is stronger than ever, for it protects more than 8,000,000 customers who know that Ward's word is as good as gold.

Ask Any Tire Dealer These Questions

Why won't the factory that makes your tires give me a guarantee on a mileage basis like Montgomery Ward & Co. does?

Why have the manufacturers selling through local distributors quit guaranteeing the mileage service on their tires?

Has the factory that makes your tires a reputation for Honest Dealing that will equal Montgomery Ward & Co.'s—a firm that has been in business for 55 years?

How many extra profits are added to the original factory cost of the tires that you sell?

Is the tread on your tires as safe as the treads on the tires that Montgomery Ward & Co. sells?

Wardwear Special Tire and Tube Offer for Ford and Chevrolet Owners

$7.75 30x3½ Tire and Tube

Here are Two Tire Bargains

We Have Never Seen Equalled in 8,000 Mile Tires

$8.80 29x4.40 Tire and Tube

Both are Fully Guaranteed

FOR several years we have advised our auto owner friends to use new inner tubes in new tires. And great numbers of them have thanked us for the suggestion, for it has enabled them to get better service from tires than they ever had before. Your tires depend on the inner tubes for support—and certainly a new tube will hold up longer without needing air, than an old one.

Special Offer! Additional Reduction in Prices

To convince the thousands of Ford and Chevrolet owners who are looking for an exceptionally good low priced tire, that the Wardwear is the tire they should have—we are making a SPECIAL OFFER of a fully guaranteed Wardwear 8,000 Mile Cord and a Gray Inner Tube with two-year guarantee, at prices below those asked when you purchase them separately. This gives you a double advantage—you make an additional saving on the purchase price—and you will get better service by having both a new tire and a new tube.

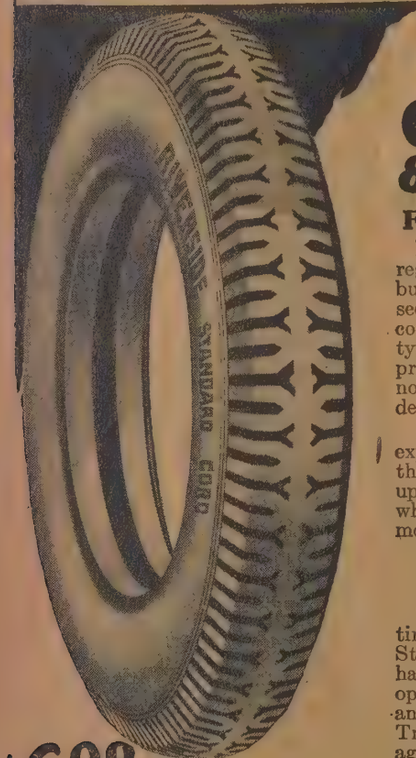
Prices Guaranteed Until May 31, 1927



RIVERSIDE TRADE MARK

Standard Cord Tires

8,000 Mile Guarantee

$6.98 30x3½

Less Than Usual Fabric Tire Prices

Fine Quality—Lowest Prices

If you are now using the standard or regular size Cord Tires, do not think of buying another tire elsewhere until you see this new improved Riverside. The cord construction is of exactly the same type as our big, full oversize cords, the principal difference being that they are not quite so large and heavy and the tread design is changed.

But that good, long service you always expect from Riversides you will find in this tire. You can depend on it matching up in every way with other cords for which you are asked to pay several dollars more than our prices.

See How We Have Made Improvements for You

Thousands of customers have been entirely satisfied with this Riverside Standard Cord for years—and our sales have constantly increased; but we saw an opportunity to improve the tread design and we did it. This Riverside Standard Tread gives you greater protection against skidding than you will get with many of the highest priced tires.

The sharp angles of the deeper blocks of rubber grab hold of the road when it is muddy or slippery, so you do not need fear skidding as with many other tires.

Semi-Oversize Construction

All Riverside Standard Cords in 32x3½ and larger sizes are Semi-Oversize construction. This means that they are larger than most cords of this type and also larger than fabrics, but not as large as our Full Oversize 12,000 Mile Cords.

These Cords may be used opposite any other cords of this type or opposite fabrics without affecting the balance of the car.

Regular Size 30x3 and 30x3½

Riverside Standard Cords in the 30x3 and 30x3½ sizes are the same size as the cords furnished on Fords, Chevrolets and other light cars using these sizes.

Riverside Standard Cords
Regular Clincher Style

RIVERSIDE TRADE MARK

Air Cushion Truck Tires

for Fords and Chevrolets

Every Ford and Chevrolet truck owner who has bad roads to travel, will welcome this new Riverside Puncture-Proof Air Cushion 30x3½ Truck Tire. It ends all usual troubles you have had with pneumatic tires.

Puncture Proof

No Delay—No Trouble

Just put these tires on your truck and drive anywhere—over all kinds of roads—through fields—out in cattle yards—over rutty and ice covered paths. Load your truck to full capacity and you'll get there on time with Riverside Puncture-Proof Tires. There will be no delays—no punctures—no blow-outs—no stone bruises—no flat tires from leaky valves.

At our exceedingly low price every Ford and Chevrolet truck owner should put on these tires.

$15.75 With Rim

A Great Improvement Over Solid Tires
Has the Famous Riverside Truck Tire Tread

The Riverside Puncture-Proof Truck Tire has a series of air pockets equally spaced and designed to absorb shocks so they are a great deal more resilient than the old style solid tires. Another very important feature is that these air pockets are on the inside of the tire so they do not become filled with dirt, snow, or mud like those that have the open holes through the body of the tire. For when the holes become filled the tire loses its cushion effect. The Famous Riverside Truck Tire Tread is used on these tires because it has proved an excellent design for long wear on heavy service work.

Guaranteed One Year

Furnished on Rim—Easy to Put on Wheels

This Tire is so strongly made and designed that we give you an unconditional guarantee for one year's service. Strong enough to last many years.

Anyone can put on these tires in a few minutes, as the tire is mounted on a rim that takes the place of your regular pneumatic tire rim. Fits all Ford or Chevrolet 30x3½ wheels with four bolts. Shipping weight, 40 pounds.

564 F 450—Tire complete with rim **$15.75**

Make More Profit By Using RIVERSIDE TRADE MARK Heavy Duty Cord Truck and Bus Tires

All Tire Prices Guaranteed Until May 31, 1927

Prices Guaranteed Until May 31, 1927

Special 30x3½ Extra Ply Tire for Ford and Chevrolet Trucks

A new special Riverside 30 by 3½ Heavy Duty Truck Tire made of the same fine quality materials as our large truck tires.

It has five plies of cords—one more than generally used in this size tire.

Recommended especially for use on the front wheels of Ford and Chevrolet trucks or for passenger cars carrying heavy loads. This tire also has a 12,000 mile guarantee. Shipping weight, 16 pounds.

564 F 109 Special 30x3½ $15.00

RIVERSIDE Super Quality

TRADE MARK

We Will Prove You Cannot Buy A Better Tube Value

OUR LEADERSHIP in the tire business enables us to sell you the finest Inner Tubes far below the usual prices—and you will see by comparing prices that we are doing it. Riverside Brown Tubes are made of pure rubber that will stretch farther—that will last longer—and give better service than is possible with ordinary tubes which generally have lots of mixtures added to the rubber. Read our **Free Comparison Offer**—and accept it, for we want to convince you that paying more does not always buy better quality.

Riversides Have Proved They Are Finest Quality

It is easy for anyone to make claims of Quality—but the proof of Quality is the part you are interested in—and that is what we give. We invite comparison. We challenge anyone to show better values than these Riverside Tubes—and we let You be the judge.

You know we would never make such statements if we did not have the Quality to back them up. If you are using the large size Cords or Balloon Tires then be sure to order the extra large—extra heavy Riverside Brown Cord Size or Balloon Tubes.

Free Comparison Offer

Thousands or auto owners come right to our stores and buy Riverside Tubes. They feel them—they stretch them—they examine them carefully. These men have all told us they never have seen such wonderful tubes. That's why we are so anxious for you to see them too. Simply send us your order for as many as you need in the regular way, enclosing remittance. If, after making every fair examination, you don't want to keep them, send them back and we will return your money and all transportation charges.

Make This Test

Take a Riverside Brown Inner Tube and put it beside any other tube regardless of price and see how it compares for size. Then take each tube and stretch it as far as you can. See how the Riverside will stretch farther without having any thin spots. You will notice the exceptional strength and greater elasticity of the Riverside the minute you feel and stretch it.

We know you will be amazed at the way the Riverside shows up in such a comparison. It is this very test that has convinced thousands of Riverside superiority.

Why RIVERSIDE Prices are Lower

When you stop to consider that we have sold 12,680,000 Riverside Tires and Tubes direct to the users, doesn't that convince you that we are in a position to produce the best at the lowest prices?

We sell many thousands each day—that's why we can sell better quality tubes for considerably less than generally asked. Our profit on each one is very small but the big quantity sold enables us to greatly reduce selling prices.

All RIVERSIDE Inner Tubes Guaranteed Two Years

Riversides Are Great

"I have used your tubes for some time and am much pleased with them. I have run them at least 5,000 miles without adding any air. They are great tubes. I am in the trucking and ice cream business and run from 125 to 190 miles per day."
Claude Carson,
Galesbury, Mich.

Orders More Riversides

"Two and a half years ago I ordered two inner tubes and they are still on the car and have had one puncture. The same quality can't be bought around here at an equal price. They will outwear higher priced tubes.

"The Riverside Cord Tire is giving good satisfaction. In another year I will order three Riverside Cord Tires. We are well pleased with them. They outwear other tires."
Martin Hanson,
Greenville, Mich.

Thicker and Heavier

"Some 15 or 18 months ago I bought four inner tubes from you and I am proud to say that three of them haven't been off. They are thicker and heavier than any other tube I can buy at the same price. There are no other tubes like them for the money. I am always glad to recommend Ward's Tubes and Tires."
R. C. Estep,
Whaley, N. C.

Has Used Riverside Tubes for 5 Years

"I have used Riverside Inner Tubes for five years and I find them the best inner tubes I have used. They are heavier in actual weight than other tubes costing as much as four dollars. The first Riverside Tubes I bought were placed in two Riverside Tires, which lasted two years and then one tube was placed in the second set of tires I bought. It ran over 6,000 miles in the second set of tires."
Arthur R. Ladwig,
Juda, Wis.

There's None Better

"I have used Riverside Tubes for several years and think there are none better."
Guy P. Anderson,
Rogers, Ark.

Riverside Heavy Duty Standard Size Brown Tubes

If you are now using the smaller size Standard or Junior Cords or Fabric Tires be sure to buy these super-quality Riverside Heavy Duty Standard Size Inner Tubes. They are made of exactly the same fine grade pure rubber as used in our big cord size tubes, but are built so they fit these smaller size tires. When compared with the average standard size inner tubes, you will notice these Riversides are a great deal thicker and stronger, so you can depend on them giving longer service than is possible with the lighter weight tubes.

It Pays to Use New Tubes in New Tires

A great many auto owners tell us of their Riverside Tires and Tubes going 8,000 to 15,000 miles without ever being taken off the rims. They know from experience that even the finest pure rubber will deteriorate with age; and to put an old tube in a new tire is taking a chance that may shorten the life of the tire many thousands of miles. The prices of brand new Riverside Inner Tubes are so low you shouldn't take chances with ordinary tubes.

Riverside TRADE MARK Low Priced Gray Inner Tubes

If you want a good, reliable Inner Tube at an exceptionally low price, then by all means buy the Riverside Gray. For more than 12 years it has represented the utmost value in the low priced class. These Tubes are made of a very good grade rubber and are built by the laminated, layer-on-layer, process in exactly the same manner as the very highest priced tubes.

Just because our prices are so far below the usual prices of quality gray inner tubes of other makes we do not want you to confuse them with many of the "low priced cheap tubes" now on the market. For we absolutely guarantee these Tubes are the equal of gray tubes selling for 25 to 40 per cent above our prices.

Guaranteed Two Years

We have been selling these Riverside Brown Inner Tubes for more than five years, and some of the first made are still giving good service. Customers in all parts of the United States have written us that they have never used any other tubes at any price that would equal these for length of service.

To prove our confidence in these tubes, we give you a definite guarantee for two years' service against all defects in material or workmanship.

This is the minimum service you may expect; for we are sure, with reasonable treatment, these Riverside Brown Inner Tubes will give you many years more than our guarantee.

Riverside Gray Tubes Are Also Guaranteed Two Years

For a great many years Riverside Gray Inner Tubes have been favorites with motorists who wanted a low price. In fact they have given such remarkably good service that we also guarantee them for two years' service against all defects in material or workmanship.

RIVERSIDE Brown Inner Tubes Bigger~Stronger~Pure Rubber

$1.20 30x3½ Gray Tube

Pure rubber for tubes is Brown color—that is why our finest Riverside Inner Tubes are brown—they are so pure that the rubber floats. Common rubber generally used in inner tubes will sink when placed in water. But that is not all—we use such an exceptionally large amount of this ***Pure Rubber*** that Riversides are considerably ***Heavier*** and ***Stronger*** than any other tubes we have ever examined near our prices.

We guarantee Riverside Brown Cord Size and Balloon Inner Tubes are as fine as you can buy at any price. And we also guarantee that you will save several dollars on a set of even the smaller sizes when compared with tubes of the same fine quality.

All Riverside Tubes are built by the laminated, layer-on-layer process that has proved for years to be the best method of preventing slow leak troubles.

Riverside Semi-Balloon Brown Inner Tubes

Of exactly the same fine quality, pure rubber that is used in our big, Oversize Balloon Tubes. Remember, we have been in the tire and inner tube business for more than 14 years and this long experience has taught us how to build the very best tubes—and that is what you get when you buy these Riversides. From all the comparisons we have made in the laboratory and on the road we don't believe you can buy a better tube if you pay double our prices. Besides saving you considerable money, the very fact that all Riverside Tubes are fresh rubber makes them better.

Article Number	Size	Each	Ship Weifht

64 F 286	34x5.77	3.75	4½ lbs.

Riverside Tubes TRADE MARK Hold Air Longer

We have received hundreds of letters from customers telling us that Riverside Brown Inner Tubes held full pressure for months and have gone thousands of miles without requiring additional air.

They are so thick the air can't get through as with ordinary tubes. This feature makes Riversides require less attention; therefore, you will not have to keep constantly pumping up your tires to prevent rim cutting and breaking of the sides, which is generally due to under inflation.

Special Balloon Tubes With Bent Valve Stems

We are now furnishing Riverside Cord Tubes and Balloon Size Brown Tubes with bent valve stems to fit the disc wheels used on Dodge, Studebaker, Nash, Hupp, Chrysler, Flint, Willys Knight and many other cars. We did this in answer to thousands of requests from our customers who know of the excellent service Riversides are giving—and the big savings they make by purchasing from Ward's. To avoid delays on the road, it is advisable to carry a couple extra of these tubes.

Oversize Brown Tubes For Oversize Cord Tires

These tubes are made extra big for use in the large oversize cord tires like our 12,000-Mile Cords. If you could see the hundreds of letters we have received from auto owners telling of the wonderful service these husky, extra thick Riverside Cord Tubes are giving in all parts of the world you would never think of paying more.

Riversides stretch more and last longer than is possible for lighter weight tubes; yet our prices for this superior quality are no higher than many ask for ordinary tubes, because we sell in big quantities direct to users.

Full Size Balloon Brown Inner Tubes

We have made a special study of Balloon Tubes, for they are much larger than regular tubes and must maintain a low pressure without leakage. Just place one of these big Riversides alongside any other balloon tube and compare them carefully—then you will see how much thicker and stronger the Riverside really is. Stretch them and see how much more elastic the Riverside proves to be; and then weigh them and see how much more rubber we use.

Special Batteries for Fords And Chevrolets

Our Riverside 13-Plate Battery is the same style now furnished as equipment in new Fords. Owing to the greater amount of plate surface, the starting power is developed more quickly so the 13-plate battery will turn over a new, stiff, or cold motor with greater speed the moment you step on the button, than will the 11-plate type. This quick starting feature is especially desirable in cold weather. You can depend on the Riverside De Luxe matching up in every way with other batteries selling for many dollars more. Ship. wt., 50 lbs.

261 F 7515—13-Plate Battery. Fits all Fords **$8.95**

Though we offer you two types of batteries for your Ford, we highly recommend and advise you to buy this 11-plate type as the plates are heavier—and that is what makes a battery last longer. The extra thickness of these plates will stand more strain from steady use of the starter than will the thinner plates in the above 13-plate batteries. We sold this 11-plate type De Luxe Battery for a great many years—and it has given users wonderful service. Our 18 months guarantee protects you on service, but many customers report two and three years service from this 11-Heavy Plate Battery without requiring repairs of any kind. Ship. wt., 50 pounds.

261 F 7517—11-Heavy Plate Battery. Fits all Fords **$8.65**

261 F 7476—11-Plate for all Chevrolets 1921-7. **8.65**

Mail Your Order to NEW YORK CITY If You Live Nearer There

For the benefit of our customers living nearer to New York City than they do to our Baltimore Store, we are now carrying a complete stock of RIVERSIDE DE LUXE BATTERIES and RIVERSIDE TIRES and INNER TUBES at this point.

We are doing this to give you QUICKER and BETTER SERVICE on these necessities for your car, which you generally need in a hurry.

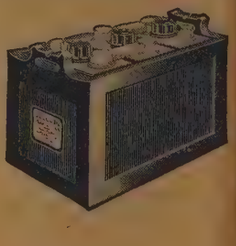
Just mail your order addressed to MONTGOMERY WARD & CO., 354 Fourth Ave., New York City, N.Y., for BATTERIES, TIRES and INNER TUBES if you live nearer there.

Orders for all other articles must be sent to our Baltimore Store.

Ward's "Low Priced" Battery

Special for Ford, Chevrolet Overland, Star, Gray

$7.95



Guaranteed for 12 Months

Ward's "Low Priced" is the best Battery we know of that is sold at anywhere near the low price we ask. Though of lighter construction than our Riverside De Luxe described above, it is made of high quality fresh materials and is guaranteed for one year. Of course the "Low Priced" Battery should not be expected to give as long service as our De Luxe Battery guaranteed for 18 months, but it is an unusual value for the money. If you want the best battery value choose our De Luxe. But if you do not require De Luxe quality and want a reliable battery at a very low price, we suggest the "Low Priced" battery. Shipping weight, 46 pounds.

Auto Batteries at Lowest Prices Ever Offered

De Luxe Battery Four Years Old Never Been Recharged

"I have a De Luxe Battery four years old, and it has never been recharged. I never take it out of the car in winter, and my battery is still in good condition."

Robert Paddick, Sumner, Ill.

The Best Battery I Have Ever Used Says Mr. Peyor

"I have been using your De Luxe Battery in my car for over two years and a half. I am going to see just how long it will run, and will send you my order for another just as soon as I need it, for the De Luxe is the best I have ever used."

C. C. Peyor, Paris, Tenn.

Four Years Service and No Repairs

"The De Luxe Battery bought four years ago has run down and frozen so it took two days to thaw it out, but it has never leaked nor cost one cent for repairs. That's the service for me."

L. M. Hammond, Doster, Mich.

All Letters Printed by Permission

60 Days Trial In Your Own Car To Prove RIVERSIDE Batteries are Best

TRADE MARK

Riverside De Luxe Batteries will do everything you can expect any battery to do.

Montgomery Ward & Co. has saved auto owners millions of dollars on batteries—and here is how we have done it. Years ago we proved that Riverside De Luxe Batteries would last as long and do everything the high priced batteries did, so we originated the plan of letting the customer PROVE IT TO HIMSELF.

Simply send us your order in the regular way, enclosing remittance. Use the battery for 60 days—and then if for any reason you do not feel it is the equal of high priced batteries write us for shipping instructions. We will refund your money, including shipping charges.

You Can't Equal This Riverside *for* Value In Any Time Proven Quality Battery

Look all over the United States and you can't find a battery with such a **Reputation for Quality,** backed by a long established firm like Ward's, selling for such a remarkably low price. Riverside Battery sales have grown tremendously. At no time in the history of the battery business have we seen such bargains. Just think—we are now selling full capacity, brand new batteries for less than many ask for the repair cost of an old battery.

When you buy a Riverside De Luxe Battery at these low prices you really become your own battery man, as these are less than wholesale prices.

18 Months Service Guaranteed

When you buy a battery you must depend entirely upon the word of the firm selling it. You can't open it up to see what kind of materials are inside—it's sealed tight—and most batteries look alike on the outside. The firm's reliability counts most here—and that is one of the biggest reasons why you should buy from Montgomery Ward & Co. There isn't another firm in the world selling batteries that has as strong and time-tried a guarantee to protect its users.

Every Riverside De Luxe Battery is fully guaranteed for a period of 18 months against any defects in material or workmanship. If trouble due to a defect develops within this period, we will repair it FREE OF CHARGE or REPLACE IT on a service basis.

Riverside De Luxe Batteries Made for All Cars

We can furnish Riverside De Luxe Batteries for all makes and models of cars. If your car is not listed on the opposite page, write us and we will quote you a price, that will save you many dollars. The saving often amounts to as much as $20 to $25 on a single battery.

All Riverside De Luxe Batteries have an 18 Months' Guarantee. Simply specify the name of car, year and model and we will gladly quote you a money saving price.

Telegraph Orders Shipped Promptly C. O. D.

If your battery has broken down and you need one in a big hurry, telegraph us your order and we will ship any standard size battery the same day, C. O. D. All orders received by mail will be shipped very quickly. There is no reason to pay more elsewhere.

It Is Easy to Replace Your Old Battery with a Riverside

For the benefit of auto owners who have never changed batteries we want to explain what an easy job it is. The Riverside De Luxe is designed and built to fit in exactly the same place as your present battery. It is the same size and the terminals are in the same position so all you have to do is loosen the two cables, pull out your old battery and put in the Riverside. Tighten the two nuts and you are all ready to start out again with a new, fresh, fully charged, guaranteed battery.

This Is the Test That Proves Riverside De Luxe Quality Is the Best

Thousands of auto owners who never bought by mail before, have completely changed their minds about our Quality since trying the Riverside De Luxe Batteries. They saw the big saving they would make at first, but they did not consider the lasting quality.

We have received hundreds of letters from car owners telling of our Riverside De Luxe Batteries lasting longer than any batteries they ever used. Many report three, four and often more years of service without any cost for recharging or repairs. Riverside De Luxe Batteries are built right, and we know it—that's why we give you an 18 months guarantee and invite you to test them for 60 days.

Don't Pay More

When Ward's gives you such conclusive PROOF of QUALITY in Riverside De Luxe Batteries why should you pay more for any other battery? And certainly it doesn't pay to take chances with ordinary batteries when you can get GUARANTEED QUALITY for such low prices. Decide NOW to try a Riverside De Luxe Battery.

These Prices are Less Than WHOLESALE

Never before in our long experience in the battery business have we offered or seen such wonderful bargains as Riverside fully guaranteed batteries at these record breaking prices. We have made careful comparisons with wholesale and factory prices and have the proof that these prices to you are actually less than dealers are paying for batteries of equal quality and guarantee.

Study This Comparison Carefully

See How Riversides Equal the Highest Priced Batteries

There is no guesswork about the QUALITY of Riverside De Luxe Batteries. We know the materials are RIGHT. We know the construction is RIGHT. We know the service they give is RIGHT. Now we are going to prove it to you by actual comparisons with four of the highest priced, most widely advertised batteries. We bought these batteries at regular retail stores and cut them apart to give you facts which will show you how the Riverside De Luxe equals in construction the highest priced brands.

You Get Guaranteed Construction

We positively guarantee Riverside De Luxe Batteries are FIRST QUALITY in materials and workmanship. We guarantee they are full size—full weight—full capacity—and that they will deliver the full amount of power and current needed by your car. We also guarantee you will save money—and let you be the judge.

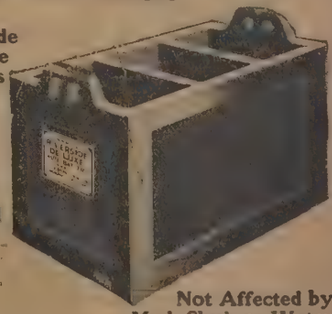
It is so easy and simple to change a battery that there is no reason for you to pay several dollars more than our prices. And, surely when you can buy a Battery that has PROVED ITS QUALITY like the Riverside has for such low prices, it is not advisable to take chances on cheap batteries or those that have been rebuilt with old parts.

Brand New, Fresh Materials

When you buy a Riverside De Luxe Battery you are getting a brand new battery just as fresh and full of power as if you drove up to the factory and watched the men finish putting it together. There isn't one single piece of old material used in the construction. The plates are made up fresh—the separators are cut from new strips of carefully seasoned, finest grade cedar—all connectors are molded from new metal. And you should see the way every part is tested. Then you would never think of buying any other make.

It is this freshness and newness that makes Riverside Batteries last longer. Many users tell us of their Riverside Batteries lasting three and four years without recharging.

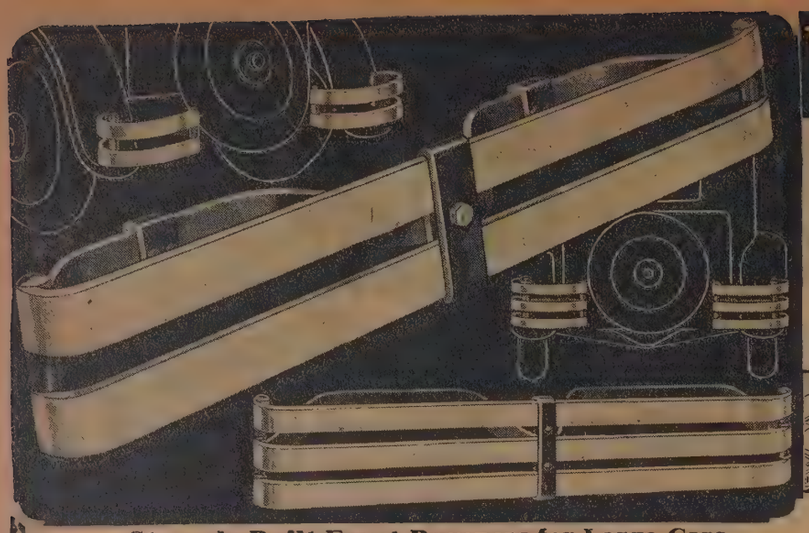
Riverside De Luxe Famous One-Piece No-Leak Acid Proof Molded Box



Not Affected by Mud, Slush or Water

This proved quality one-piece Riverside molded box is a wonder for strength and service. It is leakproof and acidproof—and eliminates the breakage and coming apart so common with the old style wood boxes, which would warp and loosen up at the corners. Mud, snow and slush do not affect it in the least. The walls of the jars are very heavy and thick so they will not break or loosen from road shocks or bumps. All Riverside Batteries, except two or three odd sizes, are now furnished in this improved leak-proof box.

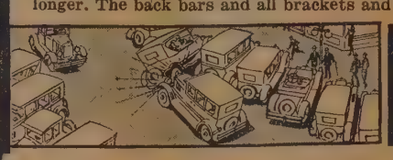
Ward's Extra Strong Guaranteed Bumpers

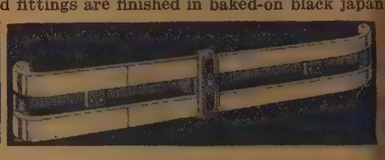


You cannot find a bumper of more practical design, better material greater beauty or value than Ward's "Beauty" Bumpers. At our low prices "Beauty" bumpers are the best buy on the market today. They are built by one of the largest manufacturers and sold by dealers under a nationally advertised name for more than twice our prices. **We give you our absolute guarantee of two years service without breakage.**

You are now able to equip your car both front and rear for what is generally asked for only one bumper—and now-a-days you need this double protection. **We guarantee** these to be the best bumper values obtainable.

The nickel finish of the front bars is obtained through a special process and is guaranteed for one year against rusting. With ordinary care it will hold its finish much longer. The back bars and all brackets and fittings are finished in baked-on black japan.





Strongly Built Front Bumpers for Large Cars

The extra heavy, wide spread front bars are curved at both ends and attached by an end bolt to a strong full length back bar. They are made of high grade oil tempered steel about 5/16-inch thick. Will stand unusually hard bumps without damage or breakage. Full 60 inches long. The 1¾-inch bars have a 5-inch spread and the 2-inch bars a 6½-inch spread which prevents other bumpers from going under and over the top. Heavily coppered and nickel plated. Special steel clamps are included for attaching to all cars, no drilling necessary. Full instructions included. See bumpers at right for Ford, Chevrolet, Overland and Star cars. Popular Models shipped from stock; older models from stock, or factory in Central Michigan. State make, model and year of car.

361 F 542—Double bar, 1½-inch. Front only. Shipping weight, 42 pounds..... $ 8.45
361 F 543—Double bar, 1¾-inch. Front only. Shipping weight, 48 to 55 pounds. 9.65
361 F 544—Double bar, 2-inch. Front only. Shipping weight, 48 to 55 pounds.. 10.45

HEAVY 3-BAR FRONT BUMPERS

Will add distinction to any car. Similar in construction to above except that they have three 1½-inch bars. Length, 60 inches with 6¾-inch spread. Shipping weight, 55 pounds.
361 F 545—3-bar bumper. Front only..... $11.95

3-Bar Rear Fender Guards

Heavily nickel plated. Especially built and equipped with fittings for your particular model. Bars are about 5/16 by 1¾ inches. Carried in stock for the following 1925-26-27 cars: Buick, Chrysler, Dodge, Essex, Hudson, Oakland and Pontiac. Ship. wt., 60 lbs. State make, year and model of car.
361 F 557..... $9.95

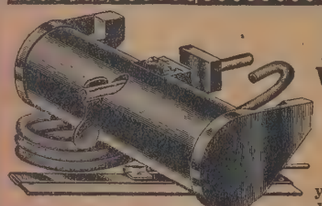
Picture Above Shows How They Look on Your Car



Standard Automatic Windshield Cleaner

$1.49

You endanger your life every time you drive in rainy weather without a Windshield Cleaner. Prevents accidents by automatically cleaning the windshield when it is snowing, sleeting or raining. Automatic cleaners are such a success that many manufacturers furnish them as regular equipment.

Outfit consists of a sturdy vacuum motor, driven by suction from the engine or vacuum tank. It is always ready. Simply turn the lever and the wiper cleans a 7-inch sweep. Emergency handle for hand operation also. Black finish. We have sold thousands of these cleaners and know that after you have examined one very thoroughly and compared it with others, you will see that it is equal to many selling at double our price.

Fits all cars except those on which the motor must be outside the windshield. Ship. weight, 1 pound 4 ounces.
61 F 9507—Standard model for inside mounting only..... $1.49
61 F 9508—Special model for 1926-27 Ford closed cars..... 1.49

$3.15

Electric Windshield Cleaner

Powerful, dependable, durable. Operates from the storage battery. In sleet or snow storm it may be left running when car is idle, preventing ice from gathering on windshield. Will operate under a heavy load without overheating or loss of power.

Uses Less Than One Ampere—Hardly as Much as Tail Light

Cleaners of this type generally sell for $6.50 or more. It requires practically no care, and is oiled at factory for two years service. Finished in dull black. Standard model fits all cars using 6-volt storage battery, and having a one or two-piece windshield which opens out. Will not fit cars on which motor must be mounted outside of windshield. Shipping weight, 2 pounds.
61 F 9515—Standard model for inside mounting only..... $3.15
61 F 9516—Special model for all 1926-27 Ford closed cars..... 3.15

Hand Operated Windshield Cleaner

Operates in a circular movement, cleaning as much space as any automatic or electric wiper. Attached to open cars by clamping over top of windshield, and to closed cars by drilling hole through windshield frame. Has 7-inch squeegee. Black and nickel finish. Ship. wt., 12 oz.
61 F 9527..... 24¢

$5.95

Smooth Action Shock Absorbers

The New Improved Smooth Action Shock Absorbers are now ready for you. Of sturdier heavier construction and made of new and better materials. They will increase your comfort and enable you to travel faster on rough country roads.

Simple Construction

They are extremely simple in construction. The heavy web strap is held against a floating band of friction webbing by the strong steel spring. This band operates around a fixed brass drum, just like your brakes. The friction caused by this band moving against the drum checks the rebound in direct proportion to the size of the bump or rut. There is nothing to wear out—these shock absorbers will outlast the car. No lubricating is necessary and after they are adjusted to your particular preference no further attention is needed.

Easily Attached to Any Car

There is nothing hard or complicated about attaching a set of these Shock Absorbers. No drilling necessary on 90 per cent of cars. Furnished for all models of Ajax, Buick, Chandler, Cleveland, Chrysler 50, Chrysler 60, Hupmobile, Moon, Nash light 6, (Ajax) Oakland, Overland, Whippet, Pontiac, Studebaker, and Willys Knight. Other models: Chalmers 1922-23-24, Chevrolet, 1925-26-27, Chrysler 70—1924, Dodge Bros., 1924-25-26-27, Dort 6—1923-24, Durant 6—1922-23, Elgin 1922-24, Essex 6—1924 to 1927, Jewett 1922-23-24, Jewett New Day 6—1926-27, Jordan 1920 to 1927, Maxwell 1918 to 1925, Nash 6—1920-25, Nash Advanced 6—1927, and Overland 6, 1925-26. In ordering state make, year and model of car. Shipping weight, per pair, 15 pounds.

Save More Money by Using Riverside Tires, Inner Tubes and Battery

Ward's Proven Quality Case Hardened Tire Chains

Good tire chains are one necessity that no car owner should be without. They often repay their cost the first time used—as they enable you to drive through mud, snow and sand where cars without chains are stuck or sliding into ditches. Ward's Tire Chains are made especially for us by one of the largest exclusive tire chain manufacturers in the country. They were selected only after the most thorough laboratory and road tests. Our immense sales enable us to offer you the best tire chain values we have ever seen. Heavy case-hardened cross chains, copper plated to prevent rust, insure long service and best gripping action on slippery roads or pavement. The special lock link type galvanized side chains are designed to prevent cutting of tires. The patented end fasteners hold chains securely and make them easy to put on and remove. Send us your order now and be prepared for the bad roads of spring.

Heavy Duty Road-Grip Chains for High Pressure Tires

Our Road Grip Tire Chains are the big, heavy oversize kind that you would expect to sell for many dollars more than our prices. We have compared them with the highest priced chains, and in nearly every comparison these Road Grips were considerably heavier, which means better service than given by the average quality chains. Every link of the extra strong cross chains is case-hardened to make it last longer, and the extra heavy galvanized side chains are very strong and will not rust. We recommend these chains to our customers.

Ward's High Quality Tire Covers

Make Your Spare Tires Last Longer

93¢ 30x3½ 98¢ 29x4.40

Ward's Covers for spare tires add to the life of your tires by protecting them against the destructive action of the weather. The action of light and air on rubber that is not in active use causes it to become hard and brittle. Then, too, they add to the trim appearance of your car. These covers will easily pay for themselves in a short while by saving your spare tires from deterioration.

Furnished for Either Regular Sized or Balloon Tires

Ward's Tire Covers are made to fit all high pressure and balloon tires on ordinary rims or disc wheels. The cover extends to rim and is adjustable, assuring a snug fit. Firmly fastened by strong snap buttons.

The all black covers are well made of a good grade glossy patent finish drill; the white stripe covers are of high quality glazed finish material and have attractive white beaded stripes. The drum covers are of heavy patent finish drill and are constructed to cover the tire like a drum. All will stand extra hard service in all weather. Priced much lower than you would pay for the same quality elsewhere.

Tire Helps For Greater Mileage and Less Trouble

Puncture-Proof Reliners At Money Saving Prices

Think of the pleasant feeling of going on a trip knowing that you will not have any disagreeable work or delay because of punctures. You will enjoy driving without thinking of the tires if they are fitted with our Puncture-proof Reliners. The rubber in this reliner gives additional strength to the casing and reduces the effect of the blow on the tires, when you hit a sharp object. Using these reliners often secures thousands of extra miles of service from tires, which you will agree makes them a splendid investment. Our Puncture-proof Reliners can be used on cord, fabric or balloon tires of all makes. They fit snugly and conform to the shape of the casing when the tube is inflated. No cement needed. Come ready to put on.

They are made of extra tough elastic rubber, with two layers of non-rusting flexible metal plates, firmly embedded in the center, which prevent nails, tacks and other sharp objects from reaching the tubes, for when they strike these plates they bend over. Reliner has long tapered sides with feathered edges which protect the tube from being pinched.

Super Service Fabric Reliners

Everyday car owners are throwing away good tires which could be saved, and have thousands of miles added to their life, if these Reliners were used in time. If the sole of your shoe gets thin, you have it resoled. Using an inside protector in your tire is just as sensible. Look over your old tires carefully and if they are bruised or worn in spots put these reinforcements inside at once. Don't wait until you have a blowout.

Thousands of auto owners have found these reliners a sure method of cutting down tire costs and obtaining unusual freedom from trouble. Fine grade fabric, built layer on layer, completely saturated and bound together by high-grade rubber.

Now You Can Change Tires Easily!

Universal Rim Tool

$2.75

$2.49

Master Rim Tool For All Car Owners

We are familiar with all makes of Rim Tools but never have we found any that will do the work as easily and quickly as the Master. It has the powerful leverage of a screw jack and operates on the same principle. Will remove with ease rusty rims that were never off before. Turn the handle one way to contract and the other way to expand. Handles all sizes and makes of split rims without adjustment. Best malleable iron and screw steel construction. Can be carried under seat. Shipping weight, 8 pounds.
61 F 1791..... $2.49

Fits All Standard and Balloon Split Rims

Do away with all the hard work of changing tires. A new driver can now do the job in a few minutes.

One pull on the 18-inch handle gives a leverage that will contract the largest split rim. Self-locking feature holds the rim contracted until ready to put the tire back on. Nine-hole adjustment makes it suitable for all standard or balloon type split rims. Also expands rim back in shape. Steel, folds into 2¼ by 4¼ by 19-inch space. Ship. weight, 9 pounds.
61 F 1790..... $2.75

$2.24

Lawco Rim Tool For High Pressure Tire Rims

Fits all split rims using 30x3 to 35x5 high pressure tires. Holds rim contracted until ready to replace tire, then tool will expand rim sufficiently to lock. Heavy spring steel, guaranteed not to bend. Will not injure rim, tube or casing. Simply adjust tool to the rim, push on center lever and rim is opened and held contracted until ready to replace. Folds up like a jack-knife. Ship. wt., 5 lbs. 12 ounces. $2.24
61 F 1796.....

Tire Tool

Tempered spring steel with thin ends. Length about 14¾ inches. Ship. wt., 1 lb. 4 oz. 12¢

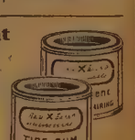
Tire Gum and Cement Combination



Ideal for making permanent repairs on tubes, tires and other rubber goods. Set consists of one 2-ounce can of tire gum and one 2-ounce can of tire cement. Shipping weight, per set, 8 ounces.
61 F 1243— Per set..... 33¢

Sold Only by Montgomery Ward & Co.

They are saving auto owners thousands of dollars each month. Don't wait until your tires blow out and then sell them for 15¢ to 50¢ and let somebody else rebuild them with a reliner and get thousands of miles more service. Take care of your own tires in time by putting in these Reliners and get this extra mileage for yourself. Our sales keep increasing for after a motorist tries one or two he is sure to buy more.

No Other Reliner Has These No-Slip Tabs

We have worked with the manufacturer and effected great improvements in these suction grip reliners. Besides making the suction cups considerably deeper we have added several No-Slip Tabs of pure rubber, which hold our reliners in place better than is possible with the cups only. No others have these features. Ward's Suction Grip Reliners are built of several layers of heavy Tire fabric that give a new backbone to weak tires. They are made in one piece with tapered edges so they fit smoothly and protect the inner tube. The cushion of rubber on top reduces friction.

For Truck Tires

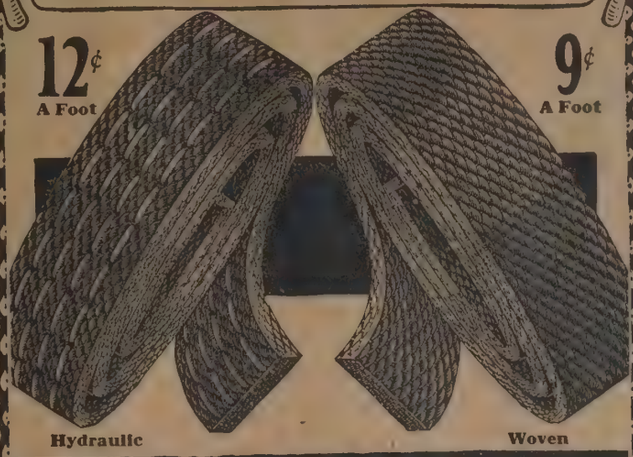
Greater Safety Is Sure With Ward's Linings



12¢ A Foot — Hydraulic

9¢ A Foot — Woven

Ward Grip Brake Lining

Every autoist should protect himself and others by keeping his brakes in good condition and properly adjusted. Do not put off relining your brakes and jeopardize your own safety. The heavy traffic on the roads today requires that all brakes must work instantly and they cannot do this if the lining is worn out. Ward-Grip Brake Lining is constructed according to best known engineering principles to insure the most reliable, efficient braking power obtainable. Take advantage of our high-grade lining at moderate prices and put your automobile brakes in first class condition now. With each order of brake lining an illustrated booklet is included which explains the easiest way of putting it on the car according to the methods used by the best mechanics. Anyone can do his own relining by following these very simple instructions.

Ward-Grip Folded and Stitched Hydraulic Brake Band Lining

The same type of lining as original equipment on most high-grade automobiles. It is made of fine quality long fiber asbestos interwoven with brass wire. The several layers of very closely woven fabric are impregnated with a rubber and mineral compound, and vulcanized together under hydraulic pressure. This process forms a very dense, solid, even-surfaced lining with more material per square inch than most woven lining. This even surface is preferable as every part of it comes in contact with the brake drum and produces maximum braking action. Suitable for all makes of cars and especially desirable for four-wheel brakes.

Make Your Auto Look Better

Attractive and Durable Slip-Over Seat Covers

They fit smoothly, protect your upholstery, and beautify your car. One of the greatest values ever offered in slip-over seat covers. Made of the well known Peerless Seat Cover material. A beautiful pattern in gray and tan background, with interwoven blue stripe. Trimmed with imitation Spanish leather to beautify the set, and to protect the edges where they are subjected to rough wear. They cover only the back and cushions as shown, but protect and add to the life of your upholstery almost as much as complete seat covers. They can be attached and removed without difficulty. Instructions and all necessary fittings for installing included. When ordering, be sure to state make, year and model of your car. Shipping weight, 4 pounds.

Seat Cover Material

For those who prefer to make their own seat covers we offer these attractive, high-grade materials. Durable, long-wearing and easy to keep clean. The striped designs are beautiful in pattern and color and especially selected to harmonize with the upholstery in any car. This material can also be used for covering porch furniture.

Our Standard Grade material has a gray and tan background with dark green stripes outlined in white. The De Luxe Grade is unusually beautiful and durable and has gray stripes on a deep blue background. Both grades are 28 inches wide. For covers for Coupes you need 6 to 8 yards, and for Sedans, 12 to 15 yards. Shipping weight, per yard, 4 ounces.

Perfect Fitting Coverall Seat Covers with Side and Back Covers

Improve the appearance of your car, protect your clothing and at the same time increase the resale value of your car. They give a fresh, new appearance to old cars, and preserve the luxurious interior of new cars. Sets include covers for all seats and panels with pockets for all doors. Guaranteed to fit perfectly and to stand hard service. They are easy to attach as instructions and all necessary fasteners for your particular car are included. The patterns are colorful, well designed, and harmonize well with the upholstery of your car. The Spanish imitation leather trimming lends richness to their already fine appearance. Ward's Standard Quality Outfit is the greatest bargain in seat covers you will find. Has harmonizing pattern of rich dark green stripes outlined with white on a background of tan and gray.

For those who desire an outfit that is unusually luxurious we recommend the De Luxe quality. Pattern is a gray stripe on a deep blue background—the most beautiful we could find for this set. State make, year and model of car. Ship. wt., per outfit., 6 lbs.

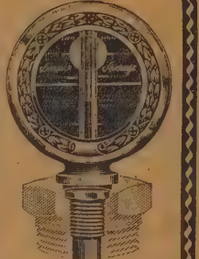
Genuine Boyce Motometer



A great many automobiles are now equipped at the factory with Motometers, because manufacturers have recognized the great need for the service they give. Placed on the radiator cap the motometer indicator liquid warns the driver of engine troubles before any damage occurs. Slipping or broken fan belt, water pump out of order, leaking radiator, or not enough oil in the crankcase—these are the things of which it notifies you in time to save trouble and expense. Easily attached to any car.

The following price comparisons show what you save here. List price on Large Model, $10.00—Our Price, $7.40; list price on Universal Model, $7.50—Our price, $5.40; list price on Midget Model, $3.50—Our price $2.55.

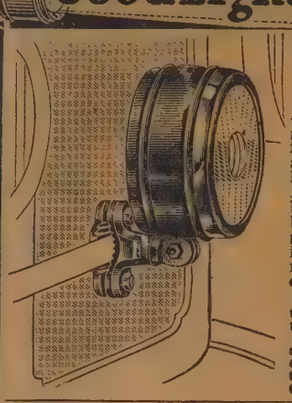
61 F 6972—Per foot..... 4¢



Parallel Beam Road Light
Adjustable to Any Position

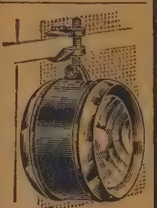
A REAL Driving Light designed to throw parallel rays of light across the road and ditch, without any offensive glare. Both reflector and lens are the same type as used in some of the newest anti-glare head lamps today. They are scientifically designed to give a brilliant, powerful light just where it is needed—far ahead down the road. All rays that would ordinarily rise above the horizontal are bent downward to reinforce the rays from the side and bottom of reflector. This gives a brilliant light without glare. It concentrates all the light of the lamp on the road in the path of the car instead of wasting it where it is not needed. You can buy a cheaper road lamp, but you cannot get real efficiency like this for anything like our price.

Lamp is drum shape, with bracket especially designed to attach to tie rod, fender skirt, or front of frame. Can be set in any position. Easily adjusted to focus light wherever wanted.

Diameter, 4½ inches. Full instructions. Complete with insulated cable and dash switch. Shipping weight, 3 pounds 8 oz.

61 F 6915—With 6-volt bulb..... $2.55
61 F 6916—With 12-volt bulb..... 2.60
61 F 6917—With 18-volt bulb, for magneto use..... 2.75

Drum Shaped Auxiliary Driving Light



A new Auxiliary Driving Light, equipped with the Victor Brown Universal Reflector which throws a wide beam of light across the road and the ditch on the right side. The lamp is powerful and throws an oval pattern of light that has no blinding glare. One of the best auxiliary lamps we have ever seen.

Light is drum shape, 6 inches in diameter and 4 inches deep. Black enamel with nickel front and rear rims. Has universal bracket for attaching to headlight tie rod, fender apron or any other convenient place. Complete with 6 feet of insulated cable and dash switch. Instructions for installing included. Shipping weight, 3 pounds 8 ounces.

Brite-Lite Spotlight

Large and Sturdy

For those who desire a larger spotlight than shown on the opposite page, we offer this 5½-inch Lamp at a bargain price, quality considered. Convex body is black enameled with neat nickel rim and a highly polished silvered reflector that throws a powerful light. Easy focusing device regulates the light from a narrow beam to a wide spread pattern. At Ward's you pay no more for this light than you usually pay for just an ordinary lamp elsewhere. Heavy stamped bracket fits all windshield posts. Nickel plated "off and on" switch handle. Complete with 5-foot cord. Ship. wt., 4 pounds.

61 F 6798—6 volt...**$2.85**
61 F 6799—12 volt. **2.90**
61 F 6800—18 volt. **2.98**

Beauty Drum Type Spotlights

The beautiful drum shape of these Spotlights, with the shining nickel plated finish, will dress up the finest sport model or any other type of car. Many owners put one on each side. The body of non-rusting brass is 5 in. in diameter and has a solidly attached handle 4 inches long, construction throughout being unusually sturdy and strong. The lens is the finest non-glare type which focuses the light where you need it most. We include 2½ feet of armored cable and a neat push and pull type switch. The bracket is enameled black to match windshield post. A 21-candle-power, 6-volt bulb with a highly polished reflector and adjustable focusing device gives a marvelous light. Ship. weight, 2 pounds 8 ounces.

61 F 6710.....**$3.98**

$1.69

Stop and Tail-Light

Diameter, 4 inches; depth, 2½ inches. Black enameled with an attractive nickel plated front frame. Permanent red color "Stop" lens and red tail lens with white for license. Wire and switch included. Ship. wt., 2 pounds.

61 F 6868—Fits all cars, including Fords up to 1924.....**$1.69**

61 F 6869—Replaces tail-light on all 1924-25-26 Fords.....**$2.15**

Flashing Stoplight

$3.70

An entirely new Stop-lamp. Attaches to back of tail-light or to license carrier. The dome shape lens gives a brilliant light that flashes on and off continually whenever brake pedal is depressed. Rapidity of flash can be regulated fast or slow. The most attractive and compelling stoplight we have ever seen. Regularly furnished with amber lens but we can supply green or red if requested. Complete with instructions, switch, wire and flasher described below. Ship. wt., 1 pound.

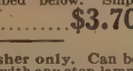
61 F 6820.....**$3.70**

61 F 6821—Flasher only. Can be used independently with any stop-lamp. It works off the vacuum tank or intake manifold without effect on motor. Easy to install. Directions furnished. Ship. weight, 8 ounces...**$2.35**

Stoplight Indicator

This small lamp has an attractive red jewel lens set in a neat nickel frame close against the instrument board. Shows small red glow every time your stoplight flashes. Full wiring instructions included. Ship. wt., 4 ounces.

61 F 6919.....**95¢**



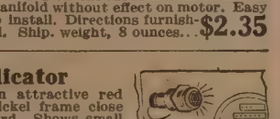
Clearview Mirror

Black enameled bracket may be set at any angle or raised or lowered. Fits all open or closed cars. Size, 2½ by 7 inches. Ship. wt., 1 lb.

61 F 7076—Clear glass type same as ordinarily used.....**47¢**

61 F 7077—Non-glare glass, just as good in daytime and does not reflect headlights of car in rear at night.....**47¢**

Twin Rear View Mirrors



Twin Mirrors are standard equipment on many high priced cars. They increase the field of vision without distortion, and enable both front seat occupants to have rear vision at the same time. Mirrors are of beveled heavy plate glass 2½ by 5 inches. Frame will not vibrate or become loose. Adjustable to any angle without loosening the screws. Fit all open or closed cars. Ship. wt., 1 lb. 8 oz.

61 F 7074—Clear glass Type same as ordinarily used.....**$1.39**

61 F 7075—Same as above but with one clear glass, one non-glare glass that gives same daytime service but does not reflect headlight glare at night.....**$1.39**

Special Lighting Supplies for Fords

Headlights

All black baked enamel; diameter, 9 inches. Brass reflectors heavily silver plated; adjustable focusing device; 21-C.P. bulbs. Dimming lenses. Handsomely designed and well finished. First two fit all models 1915 to 1925. Ship. wt., per pair, 10 pounds.

61 F 2010—6-volt two-light bulb 4 and 21 candle-power. Per pair.....**$3.80**

61 F 2006—Nickel Plated Rim. Fits all models. Each.....**39¢**

Victor Brown Reflector for Fords

With this Victor Brown reflector, a type now regular equipment on many cars, a powerful but safe driving light is secured. The beam is projected far ahead, spreading across the road and ditch with no upward rays to blind an approaching driver. Makes night driving easier and safer. Legal in all states. Replaces old reflector. Plain glass lenses included. Shipping weight, per pair, 3 pounds.

61 F 7057—Per pair.....**$2.69**

Automatic Back Up Light

The newest convenience for Ford owners. No more turning or backing in the dark. A lamp of spotlight type that attaches to rear fender, tire carrier or license plate holder. Switch automatically lights lamp when reverse pedal is used. Easy to install. Complete with switch, wire, all attachments and wiring diagram. Shipping weight, 1 pound 12 ounces.

61 F 6825—6-volt for use with battery.....**$1.35**

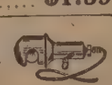
61 F 6826—18-volt for use with magneto.....**1.49**

Stop Signal for Fords

Specially designed to fit the tail-lamp used on Fords from 1925 to date. Very attractive design, similar to that used as standard equipment on higher priced cars. Uses tail-light lens and bracket already on car, and adds an amber stoplight with 15-candle-power bulb. Complete with instructions, wire and special switch for Fords. Very easy to install. Shipping weight, 1 pound 4 ounces.

61 F 6785.....**$1.39**

Dashlight for Fords

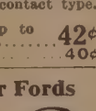


Simplest to install—no drilling. On all except 1926 model simply loosen the instrument plate and slip the grooved edges underneath. For 1926 models remove one screw from instrument plate and insert end of lamp in its place. Fasten wire to ammeter and light is ready to use. Nickel plated. Self contained switch; removable reflector; 2-candle-power, 6-volt bulb of single contact type. Shipping weight, 4 ounces.

61 F 6910—For all Fords up to 1926.....**42¢**

61 F 6912—For 1926 Fords.....**40¢**

Spreadlight Lens for Fords



Nationally known lens, legal in all states. Gives a 40-foot spread of light 100 feet in front of car. Ship. wt., pair, 2 pounds.

61 F 6712—Per pair.....**35¢**

New Style Head Lamps

$4.49 A Pair

To make night driving easy use these late style semi-drum lamps. Diameter, 9 in. 4½ in. deep. Black with nickel rim. Victor Brown reflector, legal in all states. Throw an intense spreading light across the road and ditch without glare. All except No. 61 F 6849 have 6-volt, 2-filament bulbs. Ship. wt., per pair, 9 pounds.

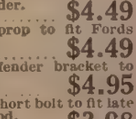
61 F 6849—With 9-volt bulbs for Magneto. 1925 and older. Per pair.....**$4.49**

61 F 6850—With prop to fit Fords prior to 1926. Per pair.....**$4.49**

61 F 6851—With fender bracket to fit early 1926 Fords. Per pair.....**$4.95**

61 F 6852—With short bolt to fit late 1926 Fords with tie rod. Per pair.....**$3.98**

Magneto Lamp Regulator for Fords



Eliminates series wiring of lights, which requires high voltage. Uses 6-volt bulbs replacing 9-volt bulbs now used on Fords. Operates from magneto. Each light operates independently of the other. Increases the lighting efficiency and absolutely prevents burning out of headlights at high engine speed. Double-throw switch furnished permits dimming lights. Full instructions for wiring furnished. Ship. wt., 2 pounds 6 ounces.

61 F 2179—Complete.....**$2.29**

Parking Lights for Fords

For 1924 and later Fords with tail-light on fender. White jewel lens facing forward over rear fender. Green jewel on side. Uses regular tail-light for rear. Includes dash switch. Installed without drilling. Ship. wt., 8 ounces.

61 F 6887.....**73¢**

Headlight Rims

New style for Fords. Aluminum with red enamel insert. Shipping weight, 1 pound.

61 F 2007—Per pair..**72¢**

Dashlight For Fords

Self contained switch and 2-C.P. 6-8-volt bulb. Ship. wt., 4 ounces.

61 F 2028...**38¢**

Ward's Piston Rings For More Power and Greater Speed

35¢ Each

Oil Circulating Piston Rings

On actual test, motors that consumed one quart of oil every fifty miles, used only one quart in three hundred miles after being fitted with these Oil Circulating Piston Rings.

We absolutely guarantee these rings to save oil and gasoline and stop oil "pumping" and fouling of spark-plugs in any motor where the cylinders are not badly scored or out of round.

Easily and quickly attached. One ring only needed to each piston. You drill only a few holes through the pistons at the lower grooves. Simple instructions included with each ring. The knife edge of the oil grooves on these rings collects the surplus oil from the cylinder walls. This over-supply of oil is drained back into the crankcase by way of the special circulating slots in the rings and small holes through the pistons. These rings are accurately tested as to size and thickness. Before Ordering Be Sure and Read "How to Order" at right. See chart below at right for sizes. Ship. wt., each, 2 oz.

State size of rings wanted. Each ..... **35¢**

Oil Groove Quick Seating Piston Rings

A groove in each Piston Ring holds a quantity of oil, forming a film that prevents excess oil working up past the pistons. The groove is cut on an angle. On the down stroke it pushes surplus oil back toward the crankcase. Read "How to Order" at right. See chart below for sizes. Shipping weight, 2 ounces.

Guaranteed Piston Innerings

Place the Innerings under any make of one-piece piston rings. They expand the piston ring outward against the cylinder walls affording increased power and a saving in gas and oil. Fine imported steel. Use one Innering under each piston ring up to 3/64-inch oversize. For four-cylinder cars order two sets; for six cylinder cars order three sets. Order same size as piston rings. See chart below for sizes. Shipping weight, 2 ounces.

How to Order Piston Rings

Cars driven up to 5,000 miles usually require standard size rings. From 5,000 to 20,000 miles .0025 oversize. Over 20,000 miles .005 oversize. Rings too large may be reduced by filing ends slightly. If you do not know size, tell us name, year and model of car.

Genuine

Perfect Circle Piston Rings

You get an oil mileage of several hundred miles more to the gallon after Perfect Circle Oil Regulating Piston Rings are installed in your motor. The groove on the face always carries the right amount of oil to produce a positive and uniform lubricator over the entire cylinder wall. These Perfect Circle Piston Rings are known the country over and are in use in millions of cars. Shipping weight, 2 ounces. See chart above for sizes. Read "How to Order" at right.

Valve Grinding Supplies

$1.73 Valve Reseating Tools For All Cars

Made by one of the largest manufacturers of valve tools in the country. Only because of our enormous purchases are we able to offer you this low price. This high-grade Reseating Tool is designed to fit any size valve seat from ¾ to 2½ inches. It has removable blades which means inexpensive upkeep. Blades are of high speed tool steel. You do not have to be a master mechanic to get a perfect job if you will use this reseater with valve refacer 61 F 2551 shown below as a combination set. Pilot sizes: 5/16, ⅜, 7/16, 29/64 inch. Full instructions included. Shipping weight, 1 pound.

61 F 2552 ..... **$1.73**

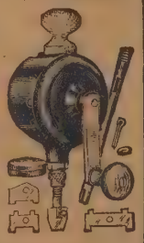
$1.49 Valve Refacing Lathe

Give the valves in your car the attention they require and then notice the difference in the performance of your motor. A perfect face on a valve can be made quickly by the use of this sturdy Lathe. It will give a smooth velvety face to worn valves and trim them to fit exactly the angle on the motor block formed by the reseating tool. Blade is of high speed tool steel accurately machined and will last a lifetime. Can be easily attached to work bench. Will take all valves from Fordsons, Fords, and all other popular passenger cars. Shipping weight, 3 pounds 6 ounces.

61 F 2551 ..... **$1.49**

Little Sioux

Quick Action Valve Grinder Fits All Cars



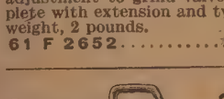
Will take care of valves on all cars. This tool, with handle turning in one direction and grinding tool alternating right and left, makes a smooth seat, leaving no rings. Of malleable iron and steel and operates on ball bearings. It has perfect balance and perfect stroke. Complete with four fittings with six ends for all valves. Shipping weight, 4 pounds.

61 F 9333 ..... **$2.55**

$1.29 Hand Valve Grinder For All Cars

Of cast iron and steel with enclosed gears running in grease. Handle turns in one direction and grinding tool alternates right and left, furnishing the correct motion for satisfactory valve grinding. Tool is heavy enough so that little force is needed in bearing down when turning handle. Double extension shank allows for adjustment to grind valves of all cars. Comes complete with extension and two valve fittings. Shipping weight, 2 pounds.

61 F 2652 ..... **$1.29**



39¢ Valve Grinder Speeder Type

A quick acting Grinder that will fit valve heads of all cars. Long shank. Total length, about 19 inches. Made of steel nickel plated. Four fittings included. Loose handle. Unusually low price. Shipping weight, 1 pound 8 ounces.

One-Piece Warp Proof Drop Forged and Heat Treated Valves

The power, speed and economy of your automobile depend largely on the condition of the Valves. One or two warped valves or bent stems can upset the performance of the finest motor. These valves will maintain a perfect seat, without warping or pitting under continuous pounding and intense heat.

Made of one-piece drop-forging highest grade nickel chromium steel. The lower ends are tempered and hardened so they will not flatten out. Every valve is guaranteed to fit perfectly and be equal to valves selling at a much higher price. In.—Intake. Ex.—Exhaust. Shipping weight, 6 ounces.

Texoil Silencers for Nash and Buick cars. For all models.

61 F 9108—Set of 12. Ship. weight, 4 ounces **$2.49**

Intake Valve Packings

When the valve guides on an engine wear, air is drawn in around the valve stems. This results in a "miss" that is hard to find and full power cannot be obtained from the engine. These packings consist of a special steel stamping and felt washer held in position by a spring. The felt prevents air from entering the cylinders and also lubricates the valve stem preventing further wear. Ship. weight, per set, 2 ounces.

61 F 9250—Fits stems ¼ to 5/16. Set of 4 .... **45¢**
61 F 9251—Fits stems 3/8 to 7/16. Set of 4 .... **45¢**

Ward's Sturdy Wrenches Are Used by the Best Mechanics

Socket Wrench Set $2.30

With this Socket Wrench Set you can tighten nuts and bolts usually left for the repairman. Set contains improved flat ratchet handle; 20-inch speeder handle; 12-inch T-handle; short extension and eight hexagonal sockets. Openings range from ½ to 1⅛ inch. All sockets are case-hardened steel turned from solid bar. Wrenches are of ½-inch cold rolled steel. Wrenches and sockets have nice nickel finish. You would usually be asked to pay a great deal more for a strong set like this. Shipping weight, 7 pounds.

61 F 9746—Per set..... $2.30

Socket Wrench Set For Ford Cars $1.65

Every Ford car owner should have a Wrench Set of this kind, as it fits practically every bolt on the car. Combination "T" and "L" handle. Ten sockets in sizes 7/16, ½, 9/16, 5/8, 11/16, ¾, 25/32, 13/16 and ⅞-inch with hexagon openings and one 9/16-inch square opening for main bearing bolts. All nickel plated finish wrenches. Packed in a heavy steel box. Shipping weight, 4 pounds 4 ounces.

61 F 9733—Per set..... $1.65

Special All-Car Socket Wrench Set $3.35

Will handle many nuts and bolts that similar sets do not. Also has many uses around tractors and for overhauling cars. Heavy cold-rolled steel, nickel finish. Consists of ratchet handle, long and short extension bar, universal joint, 15 hexagon and one ½-inch square socket knurled. Hexagonal openings: 5/16, 11/32, 3/8, 7/16, ½, 9/16, 19/32, 5/8, 11/16, ¾, 25/32, 13/16, ⅞, 15/16, and 1 inch. Strong metal container. Shipping weight, 7 pounds.

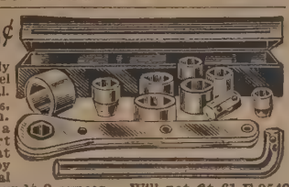
61 F 9732—Per set..... $3.35

Handy Socket Wrench Set $5.15

Consists of 8¾-inch Socket Wrench handle; 30 case-hardened, cold-drawn, pressed steel sockets ranging in size from 5/16 to 1 3/32 inches; a universal joint for any angle up to 90 degrees; 8¾-inch extension bar, for engine or crankcase; also socket 4 inches long by 1½ for spark plugs. Steel box enameled black, size, 10¼ by 6 by 2¼ inches.

61 F 9537—Shipping weight, 10 pounds. Complete set..... $5.15

Wonder Ratchet Wrench Set 85¢



Consists of eight exceptionally strong heavy case-hardened steel Sockets with a thick wall of metal. Sizes of hexagonal sockets: 5/16, ½, 9/16, 5/8, 11/16, ¾, ⅞, 15/16 in. Also 7¼-inch ratchet handle, a sturdy L-handle and a short extension rod. Packed in a neat but strong metal case about 2 by 1½ by 7½ inches. An unusual bargain. Shipping weight, 2 pounds 8 ounces. Will not fit 61 F 9549 speeder handle.

61 F 9501—Per set..... 85¢

95¢ Tool Bag

Strong heavy canvas duck with leather handles. The canvas is over two solid steel bars at opening to prevent bag from getting out of shape. Size of bag, 14 inches long and 6 inches wide. Will give years of service without showing wear. Shipping weight, 1 pound 2 ounces.

61 F 9743..... 95¢

Six-Socket Wrench Set

A very powerful general utility Wrench Set. The strong ½-inch hexagon handle with ball sockets gives a wonderful leverage. All parts are made of hardened cold-rolled steel with a thick wall of metal which makes them superior to those sold at lower prices. Comes in neat leatherette case with clasp. Easily stored away under the seat. Sockets are all knurled and come in sizes: ½, 9/16, ⅝, 11/16, ¾, and ⅞, hexagon style. Will not fit 61 F 9549 speeder handle. Shipping weight, 1 pound 4 ounces.

61 F 9518—Per set..... 39¢

28-Piece High Grade Speeder Wrench Set

Complete Set $3.89

The best and most complete Speeder Wrench Set we have ever sold at this price. Has twenty-two hardened steel sockets which will fit practically any nut and bolt on any car. This is why mechanics and garagemen insist on a set like this.

With this outfit you will be able to make repairs quicker and easier. With the extra handles you can reach into those out-of-the-way places that cannot be reached with ordinary wrenches.

Set consists of 20-inch speeder with knurled handle; 12-inch T-handle; 9-inch ratchet handle; 10-inch offset handle; short extension; long extension; 19 hexagon sockets ranging in size from 7/16 to 1¼ inch; 3 square sockets, sizes: ½, 9/16 and ⅝ inch. Has ½-inch cold-rolled steel handles. Sockets are turned from steel bar and especially hardened, insuring long service. Nickel finish. Shipping weight, per set, 13 pounds.

61 F 9745—Complete set..... $3.89

Socket Wrench Set

Similar to No. 61 F 9745 shown above, except that it has 27 pieces instead of 28. Set is minus long speeder. Entire set nickel plated.

61 F 9750—Ship. wt., 12 pounds. Complete set.... $3.49

Steel Socket Wrench Set Box

Made of 20-gauge one-piece drawn steel, electrically welded. Enameled black. For 61 F 9745 and 61 F 9750 sets shown above. Size, 20¼x6¾x2¼ inches. Shipping weight, 5 pounds.

61 F 9757..... $1.30

$2.49 Combination Socket Wrench Set

We can now offer you this big strong Combination Wrench set which will fit all nuts and bolts on Ford and Chevrolet cars and 85 per cent of other cars. The long speeder handle and swivel joint together with the 6 strong case-hardened sockets—½, 9/16, ⅝, 11/16, ¾ and ⅞ inch—make many combinations. All sockets are knurled, and tapered, making it easier to get at difficult places. With this set is included a strong offset handle, also special attachments for lifting and grinding all valves, and one long spark plug socket, size 13/16. Parts all fit on handle making it impossible to lose. Shipping weight, per set, 4 pounds 8 ounces.

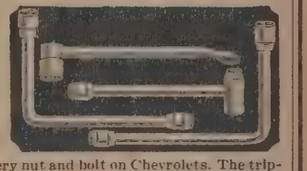
61 F 9738—Complete set..... $2.49

Special Set for Fords

This is the most practical Ford Wrench Set ever offered Ford owners. Every Ford owner should own one of these sets. Will reach many of the out-of-the-way nuts and bolts that you cannot get to with other wrenches. Set consists of Double Socket wrench for crankshaft bearings, spindle bolts, fan bracket and steering gear post. Flywheel wrench for flywheel capscrews. Connecting rod wrench for all connecting rods including fourth one. 20-in. long Speeder Handle with square end and three strong hexagonal sockets sizes: ½, ⅝, 9/16. With the speeder handle and sockets you can spin off nuts on crankcase, motor head and many other places. Triple socket wrench has ⅝ and ½-inch hex. openings. All nickel plated. Shipping weight, complete, 6 pounds.

61 F 2187—Complete set..... $1.59

De Luxe Wrench Set For Chevrolets



With this Set making adjustments is a simple matter. Contains heavy, strong socket wrenches which will fit practically every nut and bolt on Chevrolets. The triple socket wrench has ½ and ⅝-inch hexagon openings. Two "L" wrenches, one with 9/16 and ¾-inch hexagon openings; the other with ⅝ and 11/16 in. Also a drop-forged wrench, one end box type size 13/16 for front main bearing for 1924 to 1927 models and the other end socket type. You can be sure of having the right wrench for any adjusting work you want to make. Shipping weight, per set, 5 pounds.

61 F 5793—Complete set..... $1.49

Main Bearing Wrench for Chevrolets

Drop-forged, for Chevrolet main bearing. For 1923 and earlier models. Wrench opening, ⅞x1⅛ inch. Shipping weight, 1 pound.

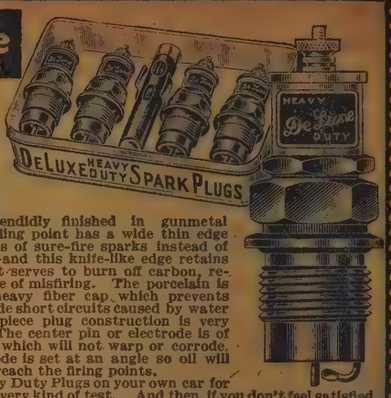
Famous DeLuxe Spark Plugs



At Reduced Prices

The base of this Spark Plug is extra heavy steel construction, splendidly finished in gunmetal blue. The sparkling point has a wide thin edge that gives a series of sure-fire sparks instead of one little spark—and this knife-like edge retains enough heat so it serves to burn off carbon, removing a big cause of misfiring. The porcelain is protected by a heavy fiber cap which prevents breakage by outside short circuits caused by water or oil. This two-piece plug construction is very easily cleaned. The center pin or electrode is of nickel manganese which will not warp or corrode. The outer electrode is set at an angle so oil will drop off and not reach the firing points.

Try these Heavy Duty Plugs on your own car for 30 days. Make every kind of test. And then, if you don't feel satisfied, send them back and we will return your money, including transportation charges. We will include with all orders for a set of four or six DeLuxe Heavy Duty Plugs, an Ignition Test Gauge like 6F3586 shown below at left. Shipping weights: each, 5 ounces; per set of 4, 2 pounds; per set of 6, 2 pounds 12 ounces.

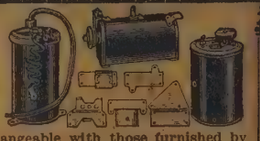
Transformer Coils



These Coils represent the highest skill in coil making. They produce a strong hot spark and use very little battery current. Brackets, terminals and connections fit prefectly as they are interchangeable with those furnished by the car manufacturers. Coil cases are Bakelite—heat-proof and water-proof. Separate primary and secondary windings and the high grade of wire and insulation make these coils among the finest you can buy. Each coil is especially designed to fit individual ignition systems. If your coil is not listed, write to us and we will quote prices. When ordering, state make, model, year, engine number and voltage of ignition system used. Instructions included. Shipping weight, 2 lbs. 8 oz.

Coils Furnished for All Cars

361 F 7151—For all cars equipped with Connecticut 6-volt ignition systems $4.75

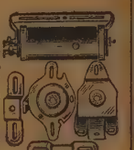
Genuine Connecticut Universal Ignition Coil



Replaces the ignition coil on any standard six-volt ignition system. Delivers long, fat spark which makes for easy starting, flexibility and full power from your engine.

Brackets of various types are included with the Universal Ignition Coil which makes it possible to fit on any car. Use the bracket which fits your motor and destroy the rest. These brackets allow the coil to be placed in the same position that the original coil occupied. No extra wiring, machine work or fitting is necessary. Wiring diagrams and instruction sheets are furnished with each coil. Takes only a few minutes to install. Shipping weight, 3 pounds.

61 F 7160 $3.75

Hot Spark Intensifiers

25¢

Often save many times their cost in helping locate ignition troubles. Watch the sparks in the glass cylinders. Adjustable gap actually makes spark plugs which are missing and will not fire at the points on account of soot, carbon or similar troubles, fire every time just as they did when new. Plug not included. Ship. weight, each, 2 ounces; set of 4, 8 ounces; set of 6, 12 ounces.

Body-Fit Air Filled Cushion

Drive in comfort with this soft, buoyant Air Filled Cushion that absorbs all the jolts of travel. Durable rubberized khaki with valve for inflating. Brings driver within easy reach of pedal and wheel. Size, 15 by 17½ inches. Shipping weight, 2 pounds.

61 F 6687.....**$3.98**

De Luxe Model Windshield Wings

$3.45

Ride in greater comfort by putting on these Windshield Wings to protect you from the rain, wind and dust. On hot days a cool breeze may be deflected into the car by reversing the wings. High-grade ¼-inch beveled plate glass. Nickel plated brass brackets. Shipping weight, 15 pounds.

461 F 2592—9 by 17½ inches. For all open cars except Ford. Per pair.....**$5.95**

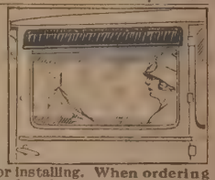
461 F 2600—8 by 20 inches. For all Ford open models. Per pair.....**$5.95**

Special Windshield Models for Fords and Chevrolets

Heavy crystal clear plate glass with polished edge, held securely by a clamp bracket of stamped steel, black enameled. Specially designed bracket holds the wings at any angle desired. Very easily attached in a few minutes—no drilling necessary. Size, 8¾ by 19½ inches. For Ford and Chevrolet open cars only. Shipping weight, 14 pounds.

461 F 2644—Per pair.....**$3.45**

Closed Car Ventilator



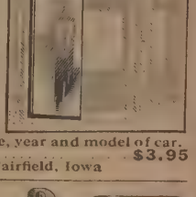
These beautiful olive green Transparent Glass Ventilators should be a part of the equipment of every closed car. They do not interfere with the lowering or closing of windows. Permit windows to be lowered to admit fresh air and remove tobacco smoke or motor fumes without the usual draft. Keep out rain, snow and dust. Brackets are heavy gauge stamped steel, black finish. Screws for installing. When ordering measure the width of the window glass between casings and order the next longer size. If ordering for front and rear be sure to measure each. Glass can be easily cut down as ends are covered by brackets so any rough edge does not show. Shipping weight, 5 pounds 8 ounces.

361 F 2535—21½-inch. Per pair.....**$2.95**

361 F 2536—25½-inch. Per pair.....**3.35**

361 F 2537—33½-inch. Per pair.....**3.65**

Closed Car Wings



You can now drive with your windows down at all times and not be bothered by draft, rain, snow or dust. High quality clear vision ¼-inch plate glass, 7 inches wide, with exposed edges ground and polished. Held in place by adjustable black enameled heavy steel brackets which fasten to upper and lower part of door frames. Do not hinder the opening or closing of doors or windows. Wings can be tilted back for summer driving to increase circulation in car. Ship. wt., 14 lbs. State make, year and model of car.

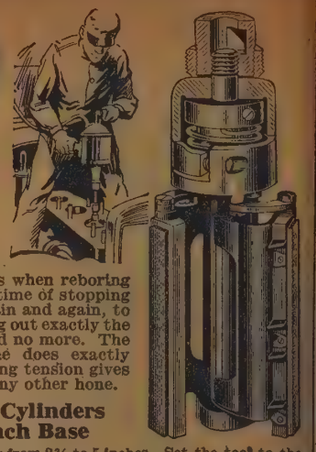
All-in-One Cylinder Hone Saves Time And Labor



Think of what it means when reboring cylinders, to save all the time of stopping the work and gauging again and again, to be sure that you are taking out exactly the right amount of stock and no more. The All-in-One Cylinder Hone does exactly this. The adjustable spring tension gives it a range unequaled by any other hone.

One Hone for All Cylinders From 2¾ to 5-Inch Base

Expands to fit any cylinder from 2¾ to 5 inches. Set the tool to the right size and the stones will hone with full pressure up to the last thousandth of oversize, but will not go beyond this fixed limit. Will operate with any make of ½-inch portable electric drill. In wood box with full instructions and one set of coarse, and one set of fine stones. Shipping weight, 10 pounds.

61 F 801..... $37.50

61 F 844—Extra set of 3 stones, coarse, to fit above hone.. 2.00

Shipping weight, 8 ounces

Foot-Operated Riveting Machine

Eliminates all hand work in replacing brake linings and disc clutch facings, making it an automatic time and labor saver, one of the best ever placed on the market. Will handle practically all known types of bands and clutch discs. So simple that a brake band can be relined in one-quarter the time it takes to do it by hand. Comes complete with cutting-off block, chisel, punch and die, for both split and tubular rivets. Height over all, 52 inches. Shipping weight, 54 lbs.

161 F 972..... $18.00

Non-Rusting Galvanized Trough

The best pan made for use as oil or drip pan for the garage; or test pan for automobile tire inner tube. One-piece 22-gauge steel galvanized. Has two folding legs, when folded down pans can be nested. Length over all, 26 inches; Width over all, 12 inches. Holds 3 gallons. Shipping weight, 5 lbs.

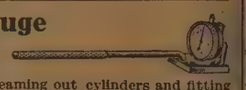
61 F 971—Each. $1.25

Improved Compressometer

An accurate instrument which registers engine compression up to 200 pounds. A complete set of interchangeable bushings is furnished for use on all cars. Determines condition of rings and valves. Solid brass, heavily nickeled. 2½-inch non-breakable dial. Ship. weight, 1 pound.

61 F 969..... $5.20

Accurate Cylinder Gauge



A precisely accurate instrument which indicates cylinder wall variations and shows the exact condition of the cylinders. Indispensable when honing or reaming out cylinders and fitting rings or pistons. Gauge is calibrated in one-thousandths of an inch and is accurate up to one-half of one-thousandth of an inch. Measures cylinders 2½ to 5 inches in diameter. Has 3 extensions, ⅛, ¾, and 1 inch in size. Handle is 8½ inches long. The 1½-inch dial is movable for easy setting. Shipping weight, 1 pound 8 ounces.

61 F 963..... $9.95

Lubricating Oil Dispensing Set

Motorists want clean oil, correct measure and quick service. An outfit of this kind is essential for every filling station and at the same time makes an attractive display. The one-quart jars are of heavy white glass, with tapered filling spouts which have non-leak washers. Caps fit snugly and are made of drawn steel.

The basket is of heavy gauge, non-rusting steel wire, welded together for years of service. Outfit consists of basket, 8 glass jars, 8 spouts and 8 caps. Shipping weight, 16 pounds.

461 F 951—Complete Outfit..... $4.35

10,000 Pounds Pressure

High Pressure Grease Gun

Especially adapted for heavy duty service in oil stations, garages and repair shops. Generates 10,000 pounds pressure to the square inch and insures speedy, economical and thorough lubrication. It is strongly made of high-grade seamless steel tubing, complete with fittings adaptable for use on the Alemite, Zerk and Dot Systems. Has 12-inch indestructible universal ball joint steel pipe hose, guaranteed leakproof. Fills by automatic suction of gun which eliminates the old slow method of padding grease into gun cylinder. Has automatic feed control which overcomes the old type of hand screw force pressure. Barrel is 10 inches long and 2⅜ inches in diameter. Has 12-inch handle. Shipping weight, 6 pounds.

61 F 955..... $9.75

Same as above only smaller. Barrel, 7 inches long and 1¾ inches in diameter. One joint universal hose. Handle, 10 inches long. 5000 pounds pressure. Complete with all fittings. Shipping weight, 3 pounds.

61 F 970—Complete..... $5.75

Capacity, 6000 Pounds

Perfect Fitting—Finest Quality

We guarantee Ward's DeLuxe Springs to be A-1 quality and to match original springs for strength and springiness. It takes the very best Auto springs to live up to a guarantee such as that of Montgomery Ward & Co. DeLuxe springs are made of extra fine grade of steel, properly heat treated and tempered in oil. Careful inspections and tests are made during every important operation. Springs weighing 50 pounds or less can be shipped by parcel post to all zones. Springs over 50 pounds can be shipped by parcel post in zones 1, 2 and 3 only.

Lowest Prices

Because our prices are so low, do not gather the impression that quality is sacrificed. We sell such a great quantity of Springs that we are able to make available to you springs of the highest quality at these extremely low prices.

24-Hour Service

Your new spring will be on the way to you within 24-hours after we have received your order by mail or telegraph.

How to Measure Springs

A spring 36 by 1¾ means that the spring measures 36 inches between centers of eyes along the edge of the main leaf and that the width is 1¾ inches.

How to Order

Order by article number only. If the style of car is not stated, the spring fits all touring cars, roadsters, sedans or coupes of the years and models shown. No. Lvs. means number of leaves in the spring.

Made for All Cars

We can furnish Springs for practically all makes of cars. If your car is not listed write us for prices stating make, model and year, also whether front or rear spring is wanted.

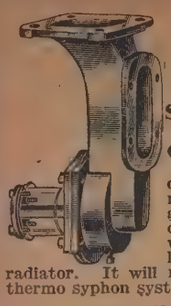
Supplies for Fordson Tractors



$6.95
For All Fordsons

Sure Cool Water Circulator

Don't take chances of being delayed for hours and ruining your motor on account of overheating. We guarantee this big sturdy Water Circulator will keep a steady stream of water flowing around the cylinders as long as you have a fair supply in your radiator. It will not change or stop in anyway the thermo syphon system of your tractor.

Keeps Your Motor at Normal Heat on Hardest Pulls

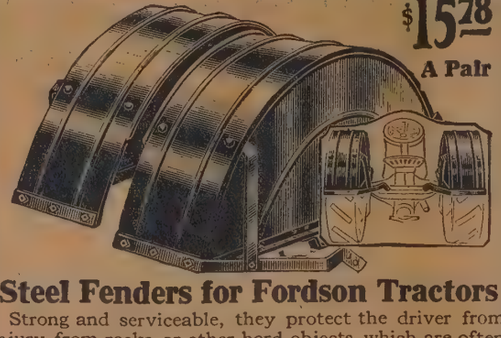
The regular Fordson fan belt drives both the water circulator and tractor fan as the Fordson pulley and bearings fit on the pump shaft. Has arrangement to permit adjusting of fan belt. Easily installed—instructions for attaching included. Fits all Fordsons. Ship. wt., 17 pounds.
461 F 9988.....$6.95

Combination Side Hill and Safety Hitch For Fordson Tractors

When your plow or implement strikes solid resistance such as stumps or rocks, it releases instantly, saving breakage. Couples again automatically when backed up to attachment. It has a full 12-inch shift easily operated from tractor seat under full load. The main bearing is provided with a roller which eliminates friction and insures accuracy. Strongly constructed and adjustable to a load equal to four bottom plows. Easily and quickly attached. Fits all Fordsons. Shipping weight, 22 pounds.
61 F 9945—
Complete outfit $8.50

Shifting Hitch Only Without Safety Attachment

Shifting or Side Hill Hitch only, without the safety attachment. It is a real necessity when plowing on side hills, or where an offset is needed, as plow can be adjusted to cut an even furrow without stopping the tractor. Convenient shifting lever may be operated from tractor seat. Will not slip. Made of malleable iron, painted Gray. Lasts the life of the tractor. Ship. wt., 16 lbs.
61 F 9947.....$6.25



$15.78
A Pair

Steel Fenders for Fordson Tractors

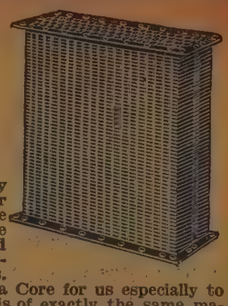
Strong and serviceable, they protect the driver from injury from rocks or other hard objects which are often thrown by the wheel flanges. They often prevent serious accidents that might occur by the machine tipping sideways, causing the driver's arms or clothing to be caught in the flange or in the wheels.

Sold at Ward's for Less Than Usually Sold at Retail

Our prices on these fenders are so unusually low that it will pay you to have an extra pair for emergency. Made extra strong. The steel is 20 gauge with deep heavy flanges making it much stronger than the plain type. Heavy braces make fenders unusually rigid. A board can be placed across lower braces so driver can stand on it. Complete with attachments. Fits all Fordsons. Shipping weight, per pair, 115 pounds. Estimated Total Freight Charges for 150 miles, 75¢; 300 miles, $1.00; 500 miles, $1.35. Read Page 306.
161 F 9991—Per pair $15.78

Radiator Cores for Fordson Tractor

$13.95



We have made a very thorough study of tractor radiators with some of the best radiator experts in the country—men who build them for many of the leading tractor manufacturers. These experts have made a Core for us especially to fit the Fordson Tanks. It is of exactly the same material and construction as those used in the radiators of the most expensive tractors. We guarantee you cannot buy a better core at any price.

This core is four inches thick and is made of a special bronze that is a great deal stronger and will last longer than brass or copper. The tubes are solidly attached to header plates of heavy gauge brass which are designed to fit the Fordson Tanks perfectly. Will cool and withstand the hardest tractor work. Shipping weight, 43 pounds.
161 F 9921 .....$13.95

Radiator Guards for Fordson Tractors and All Other Tractors

$2.55

Tractor Radiator cores are expensive and the fins must be kept clean and free from injury if you wish to avoid trouble from overheating and expensive repairs due to leaks. Injuries caused by corn stalks, sticks and by running into objects or having someone back into the radiator can be prevented by using this strong, all-steel Wilson Radiator Guard. Simply attached at the four corners with bolts now in your radiator. Guard sets out 1½ inches from radiator and will not in any way interfere with the cooling as it is self cleaning. Shipping weight, 12 pounds.
61 F 9971—For All Fordson Radiators. Shipped from our store.....$2.55

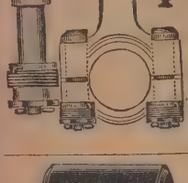
Guards for all other Tractors—Same construction as above. State make and model of your tractor. Shipped from factory in Southern Illinois.
261 F 9975—For All Tractors except Fordson.....$3.98

Safety Spring Hitch For All Tractors

Being adjustable it can be used on any make of tractor up to three-plow capacity. Has an automatic coupling feature, latching securely when backed up to implement. It will automatically uncouple when a large stone or stump is encountered, thus giving you full protection against breakage on your implement or plow. It can be set to be released at any tension desired. Made of the best grade electric steel. Shipping weight, 10 pounds.
61 F 9946.....$5.49

Ever-Tite Automatic Takeup Bolts

$4.50



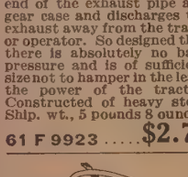
You should install these well known automatic Takeup Connecting Rod Bolts on your Fordson. If wear occurs in your bearing, the self-adjusting spring automatically takes up the play so that the bearings are always snug. No special tools, no shims needed to install. Shipping weight, 1 pound 8 ounces.
61 F 9967.....$4.50

Muffler for Fordsons

Quiets the noisy exhaust report of your Fordson. Can be installed easily in a few minutes. Connects to the end of the exhaust pipe and gear case and discharges the exhaust away from the tractor or operator. So designed that there is absolutely no back pressure and is of sufficient size not to hamper in the least the power of the tractor. Constructed of heavy steel. Ship. wt., 5 pounds 8 ounces.
61 F 9923 .....$2.75

Back Rest For Fordsons 95¢

Rest while you ride. It is curved to fit the natural curves of the back. Conserves energy and makes your work much easier. Easily and quickly attached to the seat with bolts which we furnish. Painted gray. Height, 12 inches; width, 19 inches. Shipping weight, 6 pounds.
461 F 9941.....95¢



Steering Aid For Plowing

$1.98

Designed to hold front wheel of tractor to outer edge of furrow while plowing, relieving the operator from constantly holding the wheel in this position. When properly adjusted tractor will follow the furrow by itself. Made of steel with durable heavy coil spring for controlling steering wheel. Ship. wt., 2 pounds.
61 F 9939.....$1.98

Ship. wt., each, 8 oz.

Clutch Holder for Fordsons

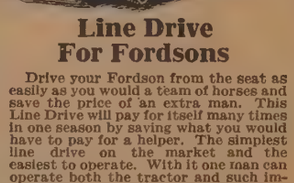
89¢

A simple quickly attached automatic device which eliminates a great deal of gear shifting. Acts as a brake on hills as with this Clutch Holder you can leave tractor in gear. Shipping weight, 2 pounds.
61 F 9996.....89¢

Crank Holder for Fordsons

Strongly made of malleable iron. Holds your crank up out of the way when not in use. A necessity on all Fordsons when working in fields. Easily and quickly installed. Shipping weight, 1 pound 8 ounces.
61 F 9994.....55¢

$6.98



Line Drive For Fordsons

Drive your Fordson from the seat as easily as you would a team of horses and save the price of an extra man. This Line Drive will pay for itself many times in one season by saving what you would have to pay for a helper. The simplest line drive on the market and the easiest to operate. With it one man can operate both the tractor and such implements as hay loaders, manure spreaders and binders. When not using the drive the automatic clutch lock and clutch control lever makes the tractor operate much easier for all around use. Used also for belt work. The steel flanged wheel is strongly made and is quickly attached in place of old wheel. Painted gray. Ship. wt., 6 lbs.
61 F 9992.....$6.98

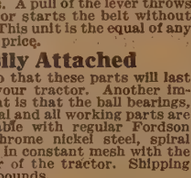
Set of 14
$13.95

Steel Extension Cleats For All Fordsons

Increase the traction power of your Fordson. These self-cleaning Cleats especially designed to overcome soft and heavy soil conditions. They will save you many times from getting stuck or stalled and wasting your time being pulled out. They fit all Fordsons and are easily and quickly installed. No Drilling Necessary. The extension cleats have the same depth as those on the tractor wheel and are bolted to the wheel cleats with bolts we furnish. Made of heavy steel. They extend 7 inches from the wheel to enable them to grab more solid ground. Shipping weight, 115 pounds. Estimated Total Freight Charges for 150 miles, 60¢; 300 miles, 75¢; 500 miles, $1.15. Read Page 306.
161 F 9926—Set of 14..$13.95

$29.45

Ward's Economy Power Take-Off Unit



Always Ready for Instant Use

Operate your Fordson Tractor belt work like factories operate the belts on their machines. A pull of the lever throws off the power or starts the belt without any trouble. This unit is the equal of any regardless of price.

Fits All Fordson Tractors—Easily Attached

This outfit fits all Fordson Tractors and does not in any way affect the operation of your tractor for field work or other draw bar work. For belt work you simply shift the lever which stops the pulley. The clutch is the same type as that used on autos. Just put it on your tractor and leave it there—it is always ready to work—and never in the way. Every bit of the mechanism is built right into a solid one-piece oil-tight case so that these parts will last as long as your tractor. Another important point is that the ball bearings, pulley, oil seal and all working parts are interchangeable with regular Fordson parts. A chrome nickel steel, spiral bevel gear is in constant mesh with the internal gear of the tractor. Shipping weight, 50 pounds.
461 F 9973—
Complete.....$29.45

Belt Guide

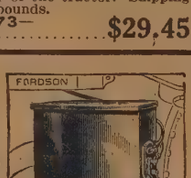
$5.39

Easy to Attach

A great convenience when threshing, grinding and silage cutting. It saves you money in repair bills as it guides the belt to the pulley and prevents its wearing or breaking on front axle. Runs smoothly and easily on Hyatt roller bearing. Lubricated easily by a convenient grease cup. Allows full delivery of power from the engine without friction. Easily and quickly attached to front axle with bolts we furnish. Only a wrench is needed to put the Belt Guide on. Belt width of roller, 8 inches; total width, 9 inches. Shipping weight, 10 pounds.
61 F 9927.....$5.39

Easy Start Battery Box for Fordson

$2.25



No more spinning the motor. Just set the switch, prime the motor, pull up on crank and start your tractor on battery easily and quickly in any weather. Will pay for itself in the time it saves you. This container is made to hold a regular hot shot dry cell battery. It is equipped with a double throw switch and all necessary wiring. Is easily and firmly attached to your tractor in a few minutes. No holes to drill. Made of galvanized iron. Strong and durable. Absolutely water and dust-proof. Shipping weight, 5 pounds.
61 F 9918—
Battery Box only.....$2.25

$12.95

Ward's Special Fly-Ball Governor For Fordson Tractors

A positive action, over-belt driven governor of centrifugal type. Fits all Kingston or Holley manifolds. It can be adjusted to govern the motor's speed from 800 to 1200 revolutions per minute. Set your motor at any speed between these points and the governor will automatically maintain the proper speed required for any job—whether it is draw bar or belt work. An improved sure-acting Governor that has been perfected by one of the foremost tractor engineers who has had experience with every governor on the market. We guarantee it will equal in performance governors selling for nearly double our price. Can be installed in 15 or 20 minutes by any owner where some of the others require two and three hours time. Simply remove the two screws on the manifold plate and first cylinder head bolt—and connect governor. Slip fan belt over Governor pulley and it's ready. No mechanic needed—no parts altered—no changing of the timing. All the principle working parts are enclosed in a grease-tight case which is fitted with large grease cup. Shipping weight, 5 pounds 8 ounces.

De Luxe Top Re-Covers for Chevrolet Touring Cars

If the top of your Chevrolet is shabby looking or torn, order this Re-Cover and make it look better than when new. Our exceptionally low price and the ease with which this Re-Cover can be put on, completely eliminates the necessity of any Chevrolet owner driving with an unserviceable top. It will also increase the resale value of your car.

Long Grain Imitation Leather

The material in these Re-Covers is the same fine quality that is used in our Re-Covers for the more expensive cars. Long grain, jet black imitation leather. Will last longer than materials generally used in outfits sold at higher prices. The workmanship is excellent. The seams are stitched with extra strong thread, and all places where there is strain or hard wear are reinforced. We guarantee tops to fit smoothly and neatly.

Our Finest De Luxe Re-Covers

Made to fit perfectly. Large, clear glass 6 by 18 inches, set in a metal frame in rear curtains. Outfit consists of top, rear curtain, tacks and binding. Ship. wt., 15 lbs.

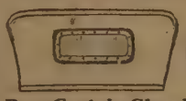
61 F 5763—For all 1925 and Model K Chevrolets without Bayonet type flange..... **67¢**

61 F 5785—For all Model V and "Improved" Chevrolets with Bayonet type flange..**89¢**



Rear Curtain Glass Lights

69¢

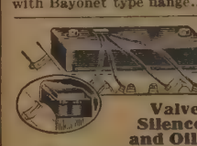
Size, 6 by 18 inches. Screws included. Fit all Superior and all 490 model Chevrolets. Shipping weight, 4 ounces.

61 F 5712..... **69¢**

Motor Driven Horn for Chevrolets

Has deep clear tone. Attach in place of present horn. Length, 9½ inches. Ship. wt., 3 lbs. 4 oz.

61 F 5790—Each..... **$2.45**



Valve Silencer and Oiler

Protects working parts on top of motor against dirt, grit and water. At this low price you should not be without this accessory. Cover is of heavy steel with a thick oil retaining felt pad that lubricates the rocker arms and valves. Pad oiled through small opening. Parts wear longer and make less noise. For all 490 and Superior models. Shipping weight, 3 pounds.

61 F 5715..... **60¢**

Rocker Arm Silencers

Set of 4 **59¢**

Special shaped wire springs keep all pressure on the under side of the rocker arms, holding them against the push rods which prevents the knocking. The four springs (one to each pair of valves) are quickly attached, can be put on in a few minutes and require no care or adjustment. Will fit all 490 Superior and 1926 27 Chevrolets. Shipping weight, 6 ounces.

61 F 5758—Set of 4..... **59¢**

Accurately Made Pistons

Exact duplicates of Chevrolet factory equipment in size and weight. Cast from high-grade iron, 3⅛-inches in diameter and with 3/16-inch grooves for rings. The lower ring grooves are beveled and drilled for returning excess oil to crankcase which helps prevent it from seeping to the top of the piston. Fitted with pins. Rings not included. Fits all models including Models K and V. Shipping weight, each, 2¼ pounds.

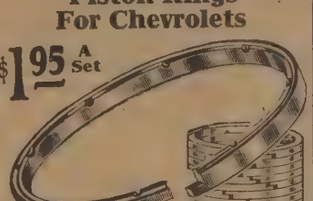
Piston Rings For Chevrolets

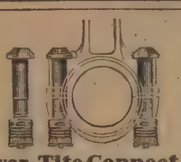
$1.95 A Set



Power Making—Oil Saving

They save oil and gasoline and stop all pumping and fouling of plugs in any motor, where the cylinders are not out of round. Of the finest cast iron these Rings have a quick seating finish, are perfectly round and of even thickness. All have same ring tension which guarantees perfect compression. Four special oil saving piston rings—one to be used at the bottom of each piston. The knife edge of the oil groove collects surplus oil on the down stroke and drains it back through special holes that are drilled in the piston, into the crankcase. Eight compression rings for top grooves. Seals compression and saves gasoline. Many car owners tell us it is the best combination of rings they have ever used. Full instructions for installing included. Furnished Standard and .0025, .005, .010, and .015 oversize. State size wanted. Shipping weight, per set, 1 pound 8 ounces.

61 F 5769—Per set..... **$1.95**



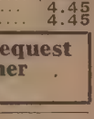
Ever-Tite Connecting Rod Bolts

Stops connecting rod knocks and keeps the bearings tight. Strong coil spring automatically takes up wear. There is no spring tension on the bearings. Have prevented connecting rod bearing knocks for 50,000 to 75,000 miles without adjustment. Has expansion washers. Shipping weight, each, 1 pound.

61 F 5799—For 1924 and older. Chevrolet. Set of 8..... **$2.55**

61 F 2017—For 1925-27 models. Chevrolet. Set of 8..... **$2.55**

Noiseless Timing Gears



The latest development in timing gears. Make your motor smooth and quiet by using this genuine Micarta fabric cam gear. Very easy to install as it is marked correctly for timing. This gear is guaranteed to be noiseless, of greater wear resistance and stronger than the best metal gears. It requires no special oils or lubrication. Our price is much lower than usually charged for this quality equipment. You save at Ward's. Ship. wt., 1 pound.

61 F 5781—For all Chevrolets, 1918-26..... **$5.45**

Dash Controlled Muffler Cut-Out

$2.85

Very convenient as it requires no care or service after it is once installed. Simply remove present exhaust elbow and substitute this combination elbow and Cut-Out. Attached to each cut-out is 28 inches of 2-inch exhaust tubing, to conduct exhaust gases down and back. No holes to cut in pan. Complete with all material for installing. You would pay much more elsewhere for a cut-out of this type. Fits all models. Shipping weight, 7 pounds.

61 F 3430..... **$2.85**

Push Rods And Tappet Silencers Outfits

$1.35 Per Set

Takes up the play between push rods and valves. Eight coil springs, 8 collars with locking screws and 8 mushroom bases with heavy felt washers. Helps prevent push rod knocks. Easy to install. Fits all models. Shipping weight, 6 ounces.

61 F 5761—Per set..... **$1.35**

Skeleton Pistons

Duplicate of Standard equipment in the new improved Chevrolet. Will fit all early model Chevrolets. Skeleton design makes piston much lighter, giving motor more "pep." High-grade close grain gray iron. Fitted with pins—rings not included. Ship. weight, each, 2 pounds.

Guaranteed Radiators

$11.95
161 F 6944

Why Our Prices Are Lower

We Sell Thousands Each Month Direct to Car Owners

Our enormous Radiator sales have made possible these remarkably low prices. You would generally have to pay $10 to $25 more for the same quality from other firms. This is just another example of how Montgomery Ward & Co. saves money for auto owners. These radiators are the product of a manufacturer who specializes in making radiators for many of the very highest priced cars, which call for the best materials and workmanship.

Your town is only a few hours away from our store, so why pay more than our prices or take chances on a radiator that does not have an equal guarantee to protect you?

Costs Less Than Repairs

At our exceptionally low prices most car owners will find it much more economical and more satisfactory to buy a new radiator than to try to have the old one repaired.

Most old radiators when repaired in one place soon spring a leak in another—and generally they are so clogged up they cause overheating.

Ward's Radiators For Eleven Popular Cars

The great success of Ward's Radiators for Dodge, Chevrolet and Ford cars, and the enormous saving in prices they offer, has brought us hundreds of requests for radiators for other cars. Now we can supply radiators for popular cars at prices that will save you from $10 to $25.

All Radiators for Dodge and Chevrolet cars are shipped from Stock in our store. Radiators for all other cars will be shipped promptly from Factory in Chicago, Ill. Your regular shell will fit these radiators. Be sure to state the make, year, model and serial number of your car when ordering. Can be shipped by freight or express only. Shipping weights: Radiator, 40 to 55 pounds; shell only, 10 pounds.

Guaranteed 18 Months

Against Breakage of the Core by Freezing

The high-grade materials and the superior mechanical features make it possible for us to guarantee the cores of these radiators for 18 months against breakage by freezing. As freezing is the most severe test of a radiator's strength you know these must be made right or we never would make such a guarantee.

The core is the latest honeycomb design which is used extensively on most of the finest cars on account of its great cooling efficiency. It is made of finest quality brass and solder and is very flexible which enables it to withstand the jars of country roads.

Built Extra Strong

As most of the radiators we sell are used on cars that travel rough country roads and are in service all year, we realize they must be made right—and we see that they are. All the tanks are of heavy brass securely fastened to the cores to do away with all possibilities of leaks or breakage under hard service.

Specials for Chevrolet and Dodge Cars

Counter-Balanced Crankshaft For Dodge Cars

Makes your Dodge run as smooth as a six-cylinder car. Solves the vibration problem for Dodge owners. It gives your motor more power, flexibility; reduces wear, eliminates noise. These counter-balanced crankshafts are made in the largest crankshaft plant in the world. Drop-forged in one piece of the highest quality materials. Carefully machined and tested by the most modern equipment. They give as fine a running balance as is possible to secure.

Put this crankshaft in your Dodge and increase the life of your motor, reduce repair bills and give your car new and longer life with a smoothness you have never before experienced. Shipping weight, 56 pounds.

Lowest Prices We Ever Offered on Guaranteed Radiators for Fords

Tubular Type

Honeycomb Type

Why You Should Buy Your Radiator *from* Ward's

1. WARD'S RELIABILITY. Before you buy a radiator, be sure of the reliability of the firm. Remember Montgomery Ward & Co. has been dealing direct with users for 55 years, and is in business to stay. You can depend on every word we say.

2. GUARANTEED "FREEZE-PROOF." The cores are specially constructed and guaranteed against breakage by freezing for 18 months. As the core is the most important part of any radiator, our guarantee gives you protection that assures satisfactory service.

3. PROPER DESIGN. Ward's Radiators are built by experts, in one of the best equipped factories in the country. These men have designed and built radiators for the most expensive automobiles. You get the benefit of all this valuable experience.

4. ONE-PIECE SEAMLESS TANKS. Our tanks are made from one piece of heavy brass—they are seamless—and will not come apart or leak like ordinary two or three-piece thin tanks used in many radiators selling for higher prices.

5. BEAUTIFUL APPEARANCE. Ward's Radiators are "beauties" to look at. The shells have a bright, glossy black enamel finish, baked on to give long service. The cores are the finest looking we can have built and equal in neatness to those on highest priced radiators.

6. GREATER COOLING CAPACITY. If you have had trouble with overheating, this radiator will help eliminate it as a specially designed air fin between each water channel quickly carries off the heat.

7. BUILT FOR LONG SERVICE. Most of the radiators we sell are placed on Fords that travel rough country roads, so they are built with extra heavy supporting brackets and the cores are reinforced at the sides to withstand hardest service.

8. THE VERY LOWEST PRICES. Our prices save you $4 to $10 because we sell thousands of Radiators each month with only a very small profit added to the manufacturing cost. Such prices would be impossible if we sold only a few each day.

9. GUARANTEED QUALITY. We positively guarantee these radiators to be the very finest quality and can prove they cost just as much or more to make as radiators selling for several dollars above our prices.

10. THIRTY DAYS TRIAL. There is no question about the service. We let you make your own demonstration to prove every word we say. Accept our 30-day Trial Offer before considering buying any other Radiator.

AGAIN WARD'S LEADS IN RADIATOR VALUES. For many years we have had the reputation of selling the FINEST QUALITY RADIATORS for Fords several dollars below the regular market prices. We sell thousands of radiators each month so naturally we are able to obtain the lowest manufacturing costs. But never, at any time, have we been able to offer you such bargains—for here are the lowest prices ever offered anywhere on these FAMOUS GUARANTEED RADIATORS. Millions of auto owners depend on Ward's QUALITY—they know it is right because they have proved it on their own cars. We use these radiators on our own Fords so we know by actual experience that they will satisfy you in every way.

Now You Have Your Choice *of* Either the Tubular *or* Honeycomb Type

When you stop to consider that Montgomery Ward & Co. has sold more than a quarter of a million Radiators for Fords isn't that PROOF enough that we KNOW THE RADIATOR BUSINESS thoroughly? We do—and we are giving you the full benefit of this knowledge. We have examined the construction and tested every well known make of radiator—and NOW offer you either tubular or honeycomb type construction—the BEST VALUES you can find anywhere.

Tubular Type Radiators

As many Ford owners have shown a desire to have a Tubular Type Radiator because it is the style with which the Ford Co. equips their new cars, we have made a huge contract with one of the largest manufacturers of this type.

The tubes are oval shape, made of pure brass, lockseamed and sealed with the finest radiator solder. Fins are brass, evenly spaced and sweated to the core by a special process that gives them greater cooling efficiency.

Shipping weights: Complete, 40 pounds; without shell, 35 pounds. Can be shipped by freight or express only.

461 F 1951—For 1917-23... $2.29
461 F 1952—For 1924-27... 2.39

Honeycomb Type Radiators

The core in this Radiator is the same honeycomb type with a cellular design as that used on the finest cars.

We have sold more than 250,000 of this style, which has enabled us to make larger contracts with manufacturers and reduce prices to motorists. At these lower prices we guarantee these Radiators are the BEST VALUE in the United States. It only takes 3 or 4 minutes to make out an order to Ward's so why should you pay more elsewhere?

Heavy Duty Radiator for Ford Trucks

An extra heavy specially built Truck Radiator with a thick core and extra large water capacity, built exactly like the radiators used on big heavy trucks.

Most of the radiators we sell for Ford Trucks are used on rough country roads so we have had this built heavier and stronger in every way to withstand this hard service. The core is leakproof construction much thicker and stronger than generally used in radiators for Ford Trucks. It has the cellular all-brass core with lead alloy coating far superior to the regular brass cores. The tanks are exceptionally heavy and may be removed. The special shape of this radiator makes Ford trucks sturdier looking. Fits all Model TT Ford trucks or converted pleasure car chassis.

30 Days Trial—Core Guaranteed 18 Months

We are so certain that you will appreciate this big value that we offer you 30 days trial and our guarantee for 18 months service against breakage by freezing. Surely with such convincing proof of quality, you should not pay more for any other radiator. Shipping weight, 56 pounds. Can be shipped by freight or express only.

161 F 1861—For 1917 to 1923 Ford trucks... $17.35
161 F 1870—For 1924 to 1927 Ford trucks... 17.85

18 Months

Guarantee on the Cores Against Breakage by Freezing

Our customers must have strong Radiators, for most of them travel over rough country roads which shake and twist the frame of the Ford, subjecting the radiator to terrific strain. Ward's radiators are built extra strong and are heavily reinforced to stand this hard service.

Freezing is one of the most severe tests on the core, the most important part of a radiator, as it has to be made thin enough for cooling efficiency yet strong to stand the abuse of rough travel.

Proved Quality Radiators

Every part of our radiators has proved its strength and correct construction by actual service on hundreds of thousands of Fords and by the most rigid tests in our laboratory.

As PROOF of the strength of the cores in our radiators we guarantee them for 18 months' service against breakage by freezing.

30 Days Trial On Your Own Ford to Prove Ward's Are Best Quality

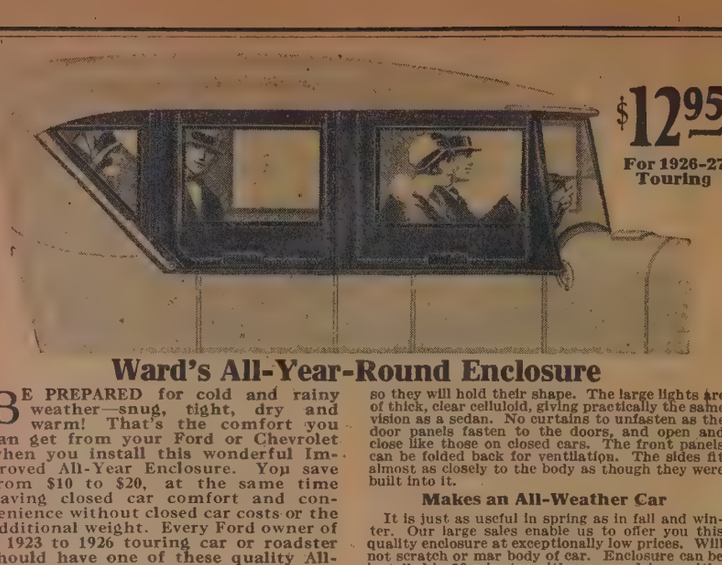
We absolutely GUARANTEE these Radiators to be the equal in construction—strength—appearance—and cooling efficiency of other radiators selling for as much as $15. But that is not all—we want to prove these statements to you.

Simply send us your order in the regular way, enclosing remittance. When you get the radiator, examine it carefully and compare it with any other radiator made, regardless of price. Then after you have satisfied yourself that ours is the BEST RADIATOR VALUE you have ever seen, put it on your Ford and give it thirty days real service. If at the end of that time you should feel, for any reason, that it is not equal in every way to any radiator on the market, return it and we will refund the purchase price and all transportation charges you have paid.

Buy a New Ward Radiator For Less Than Repairs Cost

When an old radiator commences to leak you will generally find it a great deal more economical to buy one of Ward's brand new Radiators than to try and fix up the old one—and you'll get a lot better service. You spend a few dollars and repair one place, then soon it springs a leak somewhere else. This is not only expensive but is a source of trouble and waste of time.

Figure up the repair costs and the time you lose and you'll be way ahead by purchasing a brand new radiator. Old radiators often are the cause of overheating as they become clogged and do not let the water circulate freely enough to cool off. This causes troubles such as burned-out bearings, scored cylinders, ruined pistons and delays along the road. Avoid the possibility of all this trouble by ordering a Radiator from Ward's today.



$12.95
For 1926-27 Touring

Ward's All-Year-Round Enclosure

BE PREPARED for cold and rainy weather—snug, tight, dry and warm! That's the comfort you can get from your Ford or Chevrolet when you install this wonderful Improved All-Year Enclosure. You save from $10 to $20, at the same time having closed car comfort and convenience without closed car costs or the additional weight. Every Ford owner of a 1923 to 1926 touring car or roadster should have one of these quality All-Year Enclosures.

Guaranteed to Satisfy You In Every Way

The construction of this All-Year Enclosure is better than anything ever offered at anywhere near these prices. Guaranteed to satisfy you in every way. It is rigid, neat looking and snug fitting at all points. Made of long grain rubber fabric material, fully reinforced at all points of wear. Door panels strengthened by a metal frame so they will hold their shape. The large lights are of thick, clear celluloid, giving practically the same vision as a sedan. No curtains to unfasten as the door panels fasten to the doors, and open and close like those on closed cars. The front panels can be folded back for ventilation. The sides fit almost as closely to the body as though they were built into it.

Makes an All-Weather Car

It is just as useful in spring as in fall and winter. Our large sales enable us to offer you this quality enclosure at exceptionally low prices. Will not scratch or mar body of car. Enclosure can be installed in 30 minutes with a screw-driver, without any drilling. Each piece is plainly marked with its correct place on the car. Full instructions included. Shipping weights: 22 pounds for Touring and 15 pounds for Roadster.

461 F 2670—For Touring. 1926-27.. $12.95

Ward's Rumble Seats For Fords and Chevrolets

Make Room For Four

Change your car quickly and simply to one that can easily carry four by removing the regular turtle-back deck-lid and installing Ward's Rumble Seat. When closed this seat retains the regular contour and shape of the turtle-back, so that its appearance is the same as before. Seat consists of 3 main parts; rear deck-lid, which forms the seat back for the passengers; front deck-lid and the cushion. Premier wire, woven in helical coil springs, in cushion and back. Durable pebble grain imitation leather used in trimming cushion and back. Outside surface lacquered and polished in Duco, same color as now on your car. Aluminum castings on rear fender for step plates. Special top rest irons for attaching to running board for use when top is lowered. Install it yourself in an hour's time. Be sure to state color.

Make Your Top Like New at ⅓ Cost of a Complete Top

Popular Styles
Perfect Fit Top Re-Covers for Fords

IF your old auto top is worn, shabby or torn, buy this beautiful, easy-to-put-on re-cover and make it look better than new. The material in our De Luxe Re-Covers is exactly like that used in tops for big cars and the large glass light is a big improvement over the old style celluloid lights that get foggy and hard to see through.

When you buy our DE LUXE RE-COVERS you get the best value you can secure anywhere. Increase the value of your Ford by replacing the wornout top with one of Ward's Perfect-Fit Top Re-Covers, which have made thousands of dollars for Ford owners, by increasing the re-saie value of their cars. They are made of high grade long grain imitation leather, strongly reinforced at all points of strain or wear. The seams are lockstitched with extra strong thread and do not tear out easily like ordinary outfits often sold for higher prices. An advantage in driving is the large clear 6 by 18-inch glass light in rear curtain, which gives a good view of the rear with an inside mirror. You can use your regular side curtains with Ward's Re-Covers. Make your Ford better looking and greatly increase its value.

Complete with tacks and welt, ready to install. Easy to follow instructions included.

Average shipping weights: Touring, 12 pounds; roadster, 8 pounds.

Niagara Oil Filter For Fords

Cleans the Oil

$2.49

Oil filteration is recognized by automotive engineers as a necessity for all motors. Preserve your Ford motor and save on operating costs by installing this newly designed oil filter. It cleans the oil as thoroughly as the most expensive filters now used as standard equipment on the higher priced cars. Simply remove the transmission plate and replace it with the Niagara filter. Oil is cleaned constantly while motor is in operation by means of the centrifugal movement of the fly wheel which forces the oil through the filter. Filtering bag can easily be inspected and removed, dirt and carbon cleaned out and bag replaced. Shipping weight, 1 pound.

61 F 2206 .... **$2.49**

Fits All Fords

Dash Oil Gauge

$1.25

Don't take chances of burning out your bearings. Gauge is always in sight and always accurate. Connect it to the lower petcock and you'll never again have to crawl on your knees in the dirt and grease to test the oil supply. This gauge has no floats, no wires or metal working parts to wear out. Easily read dial on dash. Fits all models and is strongly made. Shipping weight, 1 pound.

61 F 2802 ..... **$1.25**

Lubricating Oil Gauge

Thick glass tube with metal guard. Shows height of oil. Simply screw in lower petcock opening and attach petcock opening to base of gauge. No more crawling under car to look at oil. Ship. wt., 8 ounces.

61 F 2511 ..... **20¢**

Positive Flow Oiler

Perfect Lubrication at All Times

Know that your motor is properly lubricated. Save the cost of burnt out bearings, scorched cylinder walls and pistons. Let this oiler lubricate the front bearing and timing gears while motor is idling in traffic as well as running under load. It will function on less than one quart of oil and on grades as steep as 35 per cent. Oil runs freely. A sediment trap is provided to catch worn particles of transmission lining and other foreign matter so that system cannot become clogged. Very easy to install, no drilling or tapping. Full instructions furnished. Fits all Fords. Shipping weight, 2 lbs. 8 oz.

61 F 2258 ..... **$2.25**

Force Feed Oiler

69¢

Often the regular oil pipe inside the Ford motor becomes clogged by small particles of worn transmission lining or dirt, causing burned out bearings, scored cylinders, overheating and other troubles. With this inexpensive outfit the oil is driven to the front of the motor by the force of the flywheel through an independent pipe. Includes new magneto plug and fittings. Shipping weight, 10 ounces.

61 F 2151—For 1925 and older Fords ..... **69¢**

61 F 2163—For 1926–27 Fords ..... **69¢**

Transmission Band Cooler

With this device a cool even spray of oil is spread on the transmission bands of your Ford at all speeds, insuring proper band lubrication and helping to prevent band chatter and clutch slipping. Your linings will last longer. Easily installed. Simply remove transmission cover, set in cooler and bolt cover. Ship. wt., 1 lb.

61 F 2250 ..... **39¢**

Combination Accelerator Pedal Pads and Foot Rest

A great improvement for your Ford. Consists of 3 long wearing toughened rubber Pedal Pads and a foot rest, fitted into neat looking black japanned steel frames which clip easily over Pedals. Will not work loose. Accelerator attached to foot rest will give smooth and positive feed, enabling you to drive in greater comfort. Shipping weight, 1 pound 12 ounces.

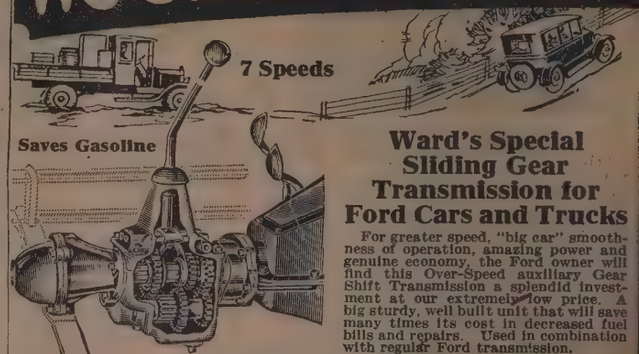
We Guarantee These Supplies



Ward's Special Sliding Gear Transmission for Ford Cars and Trucks

For greater speed, "big car" smoothness of operation, amazing power and genuine economy, the Ford owner will find this Over-Speed auxiliary Gear Shift Transmission a splendid investment at our extremely low price. A big sturdy, well built unit that will save many times its cost in decreased fuel bills and repairs. Used in combination with regular Ford transmission.

30% More Speed—150% More Power in Low Speed

This combination gives seven speeds forward, providing maximum power, speed and flexibility without overtaxing the standard Ford motor. Utilizes every drop of gasoline and every ounce of power for smoother, more economical operation under every condition of load and road. Will pull out of any mud or ditch where traction is possible, and develops 10 to 15 miles per hour more with same number of motor revolutions. Built by one of the oldest and best established gear manufacturers in the country, this unit is fully guaranteed and is an extraordinary bargain at our price. Compare it with any other auxiliary transmission on the market selling for one-third to one-half more money. Instructions furnished.

261 F 2251—For Ford Passenger Cars. Shipping weight, 97 pounds .. **$49.75**

261 F 2265—For Ford Truck. Ship. wt., 118 lbs. **$54.95**

Shipped from Factory in central Indiana

Ward's Stronghold Rear External Brakes

Do Away with 50% of the Trouble with Transmission and Rear Axle

Now for less than it often costs to reline your transmission, you can have a good, reliable set of Rear Wheel Brakes. And there will be no disagreeable shaking or jerking so customary with the regular transmission brakes. Completely eliminate the strain on the transmission, crankshaft and differential gears—they also do away with all trouble of adjusting transmission bands.

Our Prices Save You Several Dollars

Compare these improved external brakes with others selling from $12.50 to $18.50 and then you will fully appreciate the saving you make. These brakes, operated from the foot brake pedal, are full size with high grade lining and equalizing device that gives equal pressure on both rear wheels. The 1926 and 1927 brakes are much larger than the 1925 and older model brakes, because the 1926 model Ford has a much larger brake drum. This has enabled us to have manufactured a brake with added breaking surface and exceptional ease of operation. No drilling is necessary and you can put them on with the regular Ford wrenches. All parts are made to fit without altering the car in any way. Simply detach the transmission brake and connect this brake to the foot pedal. A necessity on all Ford cars and trucks, especially in hilly country. An adapter is furnished with all truck brakes for Fords equipped with special transmissions.

461 F 1911—For Ford passenger cars 1909–25. Ship. wt., 14 lbs. **$4.95**

461 F 1913—For 1926–27 model passenger cars. Ship. wt., 18 lbs. **8.49**

Royal Weave Transmission Lining

No matter what you pay for Transmission Lining you can't buy any finer quality than Royal Weave—it is the best we have ever tested at any price. It will last longer—it needs less adjusting—it will not grab and chatter like ordinary linings. Relining the Ford transmission takes considerable time so it pays to use the best. Specially treated ready for installation. Full width, full thickness, closely woven construction of the very best long fabric material. Packed in a neat metal box. Rivets included. Shipping weight, per set, 1 pound.

61 F 2219—For all 1909–25 Fords. Set of 3 ..... **$1.95**

61 F 2233—For all 1926–27 Fords. Set of 3 ..... **1.95**

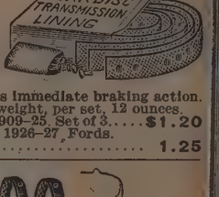
"Yankee Twist" Transmission Lining For Fords

The price on this first quality Yankee Twist Transmission lining is only about one-half of what you would have to pay for the same grade elsewhere. The fine extra long fiber staple cotton is woven so closely and firmly that you can depend on receiving a great deal longer wear than from ordinary linings. Thoroughly saturated with a special chemical which makes it last longer and resist the action of oil and heat. Rivets included. Ship. wt., per set, 12 ounces.

61 F 2400—For all Fords, 1909–25. Set of 3 ..... **$1.40**

61 F 2412—Special size for 1926–27 Fords. Set of 3 ..... **$1.45**

Cork Disc Transmission Lining



Holds securely but does not cause grabbing, jerking or chattering when starting or stopping. Light pressure on the pedal brings immediate braking action. Rivets Included. Shipping weight, per set, 12 ounces.

61 F 2078—For Fords 1909–25. Set of 3 ..... **$1.20**

61 F 2055—Special for 1926–27 Fords. Set of 3 ..... **1.25**

Green-Edge Transmission Lining

95¢

The edges are square so the lining holds firmly for the full width of the bands. Oversize construction holds more oil than other linings. Will give long service. Rivets included. Our large volume of sales make prices as low as this possible. Shipping weight, per set, 1 pound.

61 F 2442—For 1909–25 Fords. Set of 3 .. **$ .95**

61 F 2443—For 1926–27 Fords. Set of 3. **1.05**

Ward-Grip Transmission Lining

The same specifications as the regular Ford equipment. A chemical treatment adds to its wear. Rivets included. Ship. wt., per set, 12 ounces.

61 F 2392—For all 1909–25 Fords. Set of 3 ..... **49¢**

61 F 2397—For 1926–27 Fords only. Set of 3 ..... **54¢**

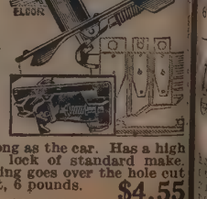
Quick Change Transmission Bands

$2.25

Put in a set of these Transmission Bands in your Ford at this low price. The 1926-27 Fords are equipped with bands similar to these. A patented device makes them easily removable for relining without taking off upper half of transmission case. Faced with same quality lining as Ford specifications. For 1925 and older Fords. Shipping weight, per set, 3 pounds 12 ounces.

61 F 2340—Set of 3 ..... **$2.25**

Transmission Lock for Fords

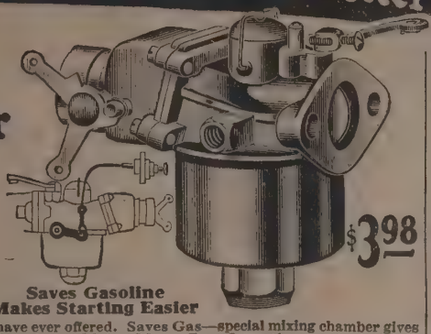


When you turn the key in this Lock you can be sure that your car is safe. To lock simply turn the key to the right, press downward and the lock engages the clutch finger pin on the outer edge of driving plate which prevents the drive shaft from revolving. Will last as long as the car. Has a high grade, five tumbler, cylinder lock of standard make. Easily installed. Aluminum ring goes over the hole cut in floor mat. Shipping weight, 6 pounds.

61 F 2240 ..... **$4.55**

Will Make Your Ford Run Better

Ward's Super Power Carburetor for Fords



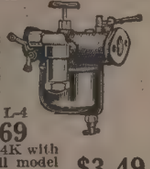
In a short time the saving in gasoline alone will pay for this Carburetor. Remember an old carburetor becomes loose and worn so that it wastes gasoline and often makes the motor miss and run sluggishly. This is the best carburetor we have ever offered. Saves Gas—special mixing chamber gives 3 to 10 miles more per gallon of gas. Makes Motor Run Smoother—automatic gas feed controls the flow and keeps the mixture just right for all speeds. Gives Quicker Pick-up without Jerking—the automatic control prevents "loading" with too much gas. Makes Starting Easy—an extra jet dash operated supplies more gas for starting. Increases Power and Speed.—gas is entirely vaporized assuring a more powerful explosion. Shipping weight, 3½ pounds.

Saves Gasoline Makes Starting Easier

$3.98

61 F 2300—For All Fords except with Holley hot plate vaporizer..... $3.98

Kingston Carburetor



Nationally known, has latest principles of carburetion. Equipped with interchangeable needle head assembly. Ship. weight, 3 lbs. 8 ounces.

61 F 2177—Model L-4 Standard type for all Fords..... $2.69

61 F 2153—Model L-4K with special fuel cleaner for all model Fords..... $3.49

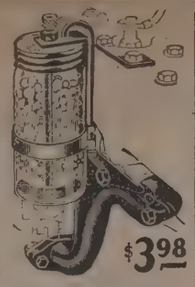
Holley Carburetor

The standard "NH" model used as regular equipment on Fords for years. Ship. wt., 3 lbs.

61 F 2196—For all Fords except those with Holley hot plate.. $2.98

$2.98

Great Money Saver For Fords



We have tested this device on more than 50 Fords and offer it to you as the greatest GAS SAVER and CARBON REMOVER on the market, regardless of price. Every Ford we put it on ran smoother and went 3 to 10 miles more on each gallon of gasoline.

$3.98

Hydronizer Super Charger

We absolutely guarantee the Hydronizer Super Charger will make your Ford run better—save more gasoline—and stop carbon troubles, better than other devices selling for $10 to $15. In tests many Fords have gone 30 to 35 miles per gallon after putting it on—and it also increased the POWER and SPEED. In other tests this Super Charger completely ended spark plug troubles for Fords that were pumping oil and when examined after thousands of miles of service the plugs were clean. Time after time it stopped carbon knocks in a few days. Many Ford mechanics use it on their own cars. It will save you money on repair bills, valve grinding and carbon removing.

Sold Only by Ward's

We are exclusive distributors for this Super Charger—you can't buy it elsewhere. Outfit includes a special intake manifold with a Hot Spot pipe that takes heat off the exhaust pipe. The jar is extra heavy, guaranteed not to break in the coldest weather if you follow instructions. Simply fill with water every 300 to 400 miles. Automatic air control. Can be put on in 15 minutes without drilling or the use of special tools. Fits all Fords except 1927 with Holley hot plate vaporizer. Shipping weight, 7 pounds.

61 F 2248—Complete Outfit..... $3.98

Swan Fuel Distributor And Booster

The Swan System is such a wonderful improvement over the usual manifolds that 18 prominent car manufacturers have adopted it as standard equipment on their new cars. It not only vaporizes the gasoline but also gives an even distribution to all cylinders in an entirely new, patented way. We absolutely guarantee the Swan System will increase your mileage 20% to 30% per gallon and make your motor run with less trouble. Replaces old intake and exhaust manifolds—no drilling or special tools needed. Fits all Fords to 1927. Ship. wt., 13 pounds.

61 F 2342..... $7.95

$7.95

59¢ Carburetor Adjuster and Choke

Holds carburetor needle firmly in its adjustment without aid of a packing nut. Easy to install. Fits all Ford Models. Ship. wt., 7 ounces.

61 F 2319 59¢

Use Riverside Tires

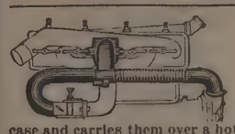
$2.19

Ward's 20,000-Mile Dynamic Oil-Less Timer Guaranteed for One Year

We have spent several months testing and examining many of the finest Timers on the market and after the most exhaustive tests offer you this new improved Dynamic oil-less timer which will completely end your timer troubles for one year. It is a new design that does away with oiling—It has no rollers—no raceway to wear down and cause missing. It has the wiping contact action created by a full floating brush not affected even though there is camshaft play. Insures quick starting in cold weather. The Bakelite shell is water-proof and short-proof. We guarantee it for one year against all troubles. Shipping weight, 12 ounces.

61 F 2220—Fits all Fords..... $2.19

Gasoline and Oil Saving Manifold

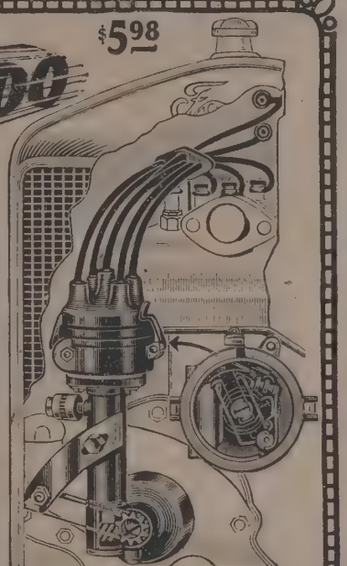


Draws hot oily vapor and unburned gas from the crankcase and carries them over a hot spot, attached to the exhaust manifold and they enter the carburetor where the old hot air pipe was connected. The suction of the carburetor creates a vacuum in the crankcase, preventing oil leaking past the gaskets and too much oil passing worn pistons. Can be put on in 10 minutes without drilling. Cap on flexible connection disconnects for putting oil in motor. Shipping weight, 3 pounds.

61 F 2165—Complete. Fits all Fords except those with Holley hot plate..... $2.25

WARD'S TORNADO

$5.98



Ignition System for Fords

Exactly the same type as used on the finest cars. With the Tornado installed we have run Fords at 2 and 3 miles an hour in high gear without jerking. It makes starting easier—it ends all the expense of buying new timers—it does away with the trouble-making rollers. With the Tornado you will never again be bothered with short circuits and missing due to the wires rubbing against the fan belt or becoming oil and water soaked. We positively guarantee the Tornado equal to other systems selling for $10 to $18.

Sold Only by Ward's Easy to Put On—No Timing

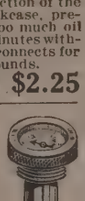
The Tornado is patented and made exclusively for Ward's. The timing is done at the factory so you can put it on in 20 to 30 minutes. The body is strong die cast metal finished in green Duco. The distributor head is shortproof Bakelite and all contact points are genuine Tungsten. Furnished for all Fords including 1927. Complete with instructions.

61 F 2203—For use with battery only and one of your regular Ford coils. Shipping weight, 6 pounds..... $5.98

61 F 2204—For use with battery only. Complete with a special spark coil and all brackets. Shipping weight, 7 pounds..... 8.98

61 F 2205—For use with magneto and one of your regular coils. Shipping weight, 6 pounds..... 5.98

Gasoline Gauge



A reliable easily read Gauge that takes the place of the screw cap in the gas tank. Indicator is operated by a float. Shipping weight, each, 1 pound.

61 F 2161—For Ford open cars up to 1920, and all coupes with round tanks 65¢

61 F 2956—For Ford open cars 1921 to 1925 and also all 4-door sedans and 1924-25 model coupes with oval tank 65¢

61 F 2681—For Ford two-door sedans and coupes with square tanks. 65¢

61 F 2960—Special model that fits all 1926-27 Fords except Fordor Sedans..... 65¢

Visible Gasoline Gauge

Install the visible Gasoline Gauge on your instrument board and safeguard against running out of gasoline. You can see exactly the level of gasoline in your tank. Works on gravity principle. Fits open or closed Fords having cowl gasoline tanks. Easily installed—no parts to wear. Shipping weight, 12 ounces.

61 F 2201—Touring and roadster..... $1.00

61 F 2228—Tudor sedans and coupes..... $1.00

Dash Gasoline Gauge

Mechanical type. Shows accurately the amount of gasoline in your tank at all times. Easily installed without cutting your dash. For all Fords having cowl gasoline tanks. Shipping weight, 1 lb.

61 F 2451..... $1.60

Cowl Ventilator Gasket

Put this rubber Gasket on your cowl and keep out cold air. Prevents vibration of your cowl cover. Can be put on quickly. Fits only standard equipment cowls. Shipping weight, 8 ounces. 25¢

61 F 2296..... 25¢

A.C. Speedometer

The new improved model A.C. fitted with direct drive doing away with the swivel joint and internal gear. The speedometer is fully jeweled magnetic type, registering from 0 to 75 miles an hour, total mileage up to 99999 and trip total. The drive is noiseless, flexible and easily greased. Being one piece there are no parts to wear. Black dial. Fits all open or closed models. Shipping weight, 11 pounds.

61 F 2001—For 1925 and older Fords..... $8.75

61 F 2002—For all 1926-27 Fords..... 8.75

Exhaust Cut-Out For All Fords

More power, quicker pickup, less back pressure and less carbon if you install this Cut-out on your Ford. Strong malleable iron with valve of high grade steel. Polished nickel control rod. The exhaust valve cuts off the exhaust completely from the muffler although it is not necessary to cut the exhaust pipe entirely through in order to install.

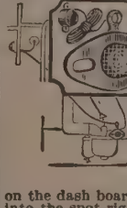
61 F 2969—Shipping weight, 2 pounds.... 79¢

Ignition Perfecter

No more ignition troubles—it changes your present four vibrating coils into non-vibrating coils. Simplifies your ignition system to but one adjustment for the four coils. Contains no revolving parts—requires no lubrication — never needs any attention. Takes only about 10 minutes to install and you can do it easily yourself. The Ignition Perfecter insures greatest power, and a smoother running car at all speeds. Shipping weight, 2 pounds.

61 F 2229..... $3.98

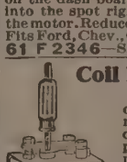
Quick Starting Coil



Start your car instantly in zero weather with this Instant Manifold Heater. Easily installed in 15 minutes between carburetor and intake manifold. By simply pressing the button on the dash board sufficient heat is shot into the spot right where the gas enters the motor. Reduces carbon and repair bills. Fits Ford, Chev., Overland and Star.

61 F 2346—Ship. wt., 7 ounces. 98¢

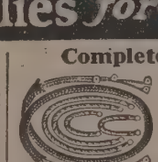
Coil Point Adjuster



Keep your coils in order and you will get more enjoyment out of driving and reduce expense. Adjusting coil points is often difficult, but this tool makes correct adjustment simple. Ship. wt., 2 ounces.

61 F 2301..... 85¢

Complete Wiring Outfits



High-grade wire for both timer and spark plugs, cut to correct lengths and complete with terminals. In different colors for easy replacement.

61 F 2108—Outfit for Fords to 1916. Complete with timer and spark plug wires. Shipping weight, 8 ounces..... 47¢

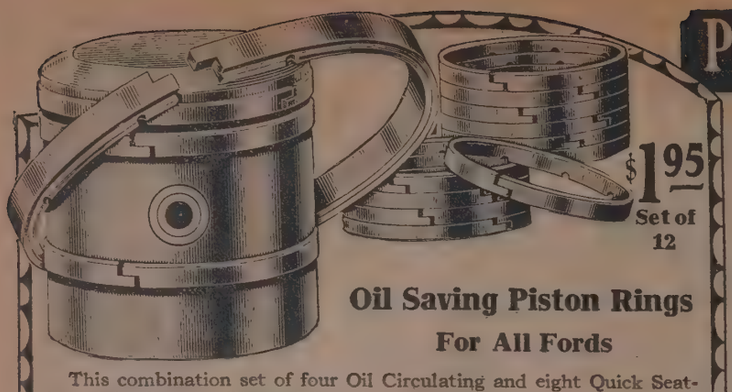
Power Making Supplies for All Fords



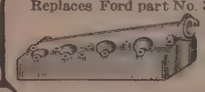
Oil Saving Piston Rings For All Fords

$1.95 Set of 12

This combination set of four Oil Circulating and eight Quick Seating plain Stepcut Piston Rings is the ideal combination for giving greater power and saving more oil in all Ford Motors. In many motors this set will eliminate the necessity of expensive reboring. Many expert repair men claim this piston ring set is the best combination they have ever used. Furnished in standard size; .0025 oversize; .005 oversize; .010 oversize, and .015 oversize. Shipping weight, per set, 1 pound 8 ounces. State if standard size wanted.
61 F 2950—Set of 12 ..... $1.95

Cylinder Head for Fords

Replaces Ford part No. 3001. Notice the saving in our price. Fits all models. Ship. wt., 32 lbs. 8 oz.
461 F 1928 ..... $4.55



How to Order Piston Rings

Under ordinary conditions a car driven not over 5,000 miles will use a standard piston ring. From 5,000 to 20,000 miles it will take .0025 oversize, and over 20,000 miles it will require .005 oversize. If slightly too large, a ring may be reduced in size by lightly filing the ends.

Oil Circulating Piston Rings

Motors that used a quart of oil in fifty miles have been fitted with these Piston Rings and then have gone 500 miles or more on a quart. Only one needed on each piston. To attach simply drill a few holes through the piston at the lower groove. Instructions included. Furnished in standard size; .0025 oversize; .005 oversize; .010 oversize and .015 oversize. Shipping weight, each, 2 ounces.
State size wanted.
61 F 2951—Each ..... 35¢

Quick Seating Oil Groove Piston Rings

Good grade, one-piece Piston Rings. Quick seating, with groove cut on an angle near the edge. A big aid in preventing oil pumping. Furnished in standard size; .0025 oversize; .005 oversize; .010 oversize and .015 oversize. State size wanted. Shipping weight, each, 2 ounces.
61 F 2952—Each ..... 15¢

Perfect Circle Oil Regulating Piston Rings 48¢

Get 1000 or more miles to the gallon of oil with these genuine Perfect Circle Oil Regulating Piston Rings. Because of their simple, patented principle they are specified as standard equipment in many of the finest motor cars. The groove on the face always carries just the right amount of oil to produce a uniform lubrication over the entire cylinder wall. No scraping action or high wall pressure to reduce lubrication or produce unnecessary friction. Instructions included. Sizes: Standard, .0025, .005, .010, and .015 oversize. Ship. wt., each, 2 oz. State size wanted.
61 F 2998—Each ..... 48¢

Quick Seating Stepcut Piston Rings

These standard type one-piece Rings have quick-seating surface that fits to the cylinder walls much quicker than the usual smooth surface rings. Gray cast iron, the style used by most car manufacturers. In old motors we advise the use of our oil circulating ring in the lower groove. Furnished in standard size; .0025 oversize; .005 oversize; .010 oversize and .015 oversize. State size wanted. Ship. weight, each, 2 oz.
61 F 2953—Each ..... 11¢

Set of 12 86¢

Nu-Power Piston Inner Rings for Fords

They expand piston rings outward against cylinder walls insuring increased power and effecting a big saving in gasoline and oil. Tough imported steel. Fit under rings up to 3/64-inch oversize. Shipping weight, per set, 6 oz.
61 F 2043—Set of 12 .... 86¢

Lightweight Pistons for Fords

With Wrist Pins Set of 4 $4.15

Exceptionally well made of close grain gray iron. These are the type now used in many high priced cars and they will help greatly in making your Ford run smoother and faster; many Ford owners have changed to these light weight pistons to secure better running. Each is fitted with bushings and pin, and has oil drain holes drilled at the edge of the bottom groove. You can buy these improved Pistons at Ward's for less than generally asked for the heavy type. Rings are not included so you may order any style desired. Shipping weight, per set, 10 pounds.

61 F 2885	Standard size.	Set of 4	$4.15
61 F 2886	.0025 Oversize.	Set of 4	4.15
61 F 2887	.005 Oversize.	Set of 4	4.15

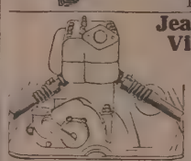
Nickel Chromium Steel Valves For Fords

One-piece drop forging, best nickel chromium steel. Lower ends tempered and hardened; will not flatten out. Shipping weight, 5 ounces
61 F 9279—Regular size stem. Each .. 39¢
61 F 9280—1/64-inch oversize stem. Each 39¢

Motor Supports for Fords

A big aid in preventing broken crankcase arms. Relieves side arms of strain and greatly reduces vibration. Easily put on. Not necessary to remove motor. Fits all Ford cars and trucks. Ship. wt., 4 lbs.
61 F 2348—Each ..... 79¢

Jeanguenat Motor Vibrating Braces

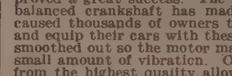


Make your Ford run smoother with these easily installed Braces. They stop vibration that loosens up your car and causes rattling and lost parts. Prevent breaking of the crankcase arm by taking part of the motor weight off the back hangers. Unlike cheaper braces, these have a heavy, oil treated, high tension coil spring that prevents the braces from interfering with the three-point suspension of the Ford Motor. Will not drop off on rough roads like many other styles. Shipping weight, per set, 3 pounds.
61 F 2343—Per set $1.29

Make Fords Run Smoother

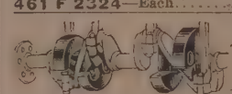
Counterbalanced Crankshaft For Fords

Made by one of the largest manufacturers and has proved a great success. The improvement this counterbalanced crankshaft has made in the Ford motor has caused thousands of owners to discard the regular type and equip their cars with these. The power impulses are smoothed out so the motor may run at high speed with a small amount of vibration. One-piece drop-forged, made from the highest quality alloy steel, tempered and heat treated. Each shaft is perfectly balanced and perfect fitting. Shipping weight, 22 pounds.
461 F 2093—Each $14.50



Standard Type Crankshaft For Fords

Replaces Ford part No. 3030. Notice the saving in our price. Drop-forged steel of the very highest quality accurately machined to the proper size. Equal of many others selling for several dollars more. Shipping weight, 16 pounds.
461 F 2324—Each $6.65



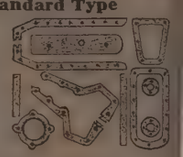
Dunn's Crankshaft Counterbalances For Fords

A great aid in preventing strain on crankshaft and in reducing wear on the bearings. They make the motor operate more smoothly at all speeds, as counterbalances carry pistons over the gap between the explosions and smooth the power impulses. Can be put on easily by the average Ford owner. Fit all Fords. Ship. wt., per set, 12 pounds.
61 F 5006—Set of 4 ..... $4.35

Cylinder Head and Manifold Gaskets

Copper Gaskets lined with asbestos. Fit all Fords. Set consists of cylinder head; cylinder head water outlet; cylinder head water inlet; carburetor flange; and 6 inlet and exhaust manifold gaskets. Ship. weight, per set, 1 pound.
61 F 2564—Complete set ..... 34¢
61 F 2869—Cylinder Head Gasket only. Each ..... 22¢

Cork Gasket Set Standard Type



Removed Gaskets should be replaced as gasket leaks are dangerous, expensive and dirty. Fit all models. Ship. wt., per set, 8 oz.

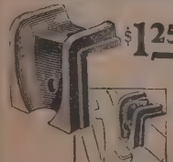
61 F 2282 ..... 90¢

Exhaust Deflector For All Fords

Keeps your spare tire and rear housing clean. Turns the smoke and soot to the ground. Cast iron. Simply loosen one nut and slip on. Ship. wt., 9 oz.
61 F 2872 ..... 59¢

Cushion the Motor with Sy-Lent Paws Kills Vibration and Noise



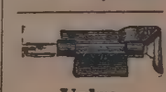
$1.25

The motors of high priced cars now rest on rubber. Give your Ford this new improvement. Sy-Lent Paws of live Para rubber absorb and deaden the motor vibrations and insulate the chassis from motor shocks. They lessen broken motor hanger arms. Only a jack and wrench needed to insert them. Shipping weight, per set, 8 ounces.
61 F 2344—Set of 2 ..... $1.25

Do Your Own Valve Grinding

Complete Valve Grinding Sets For Fords

For putting valves in best condition. Consists of special valve grinder, valve refacing tool, valve seat reamer, spring for holding valve while grinding and valve grinding compound. Instruction book included. Shipping weight, per set, 5 pounds.
61 F 2550—Per set $5.45



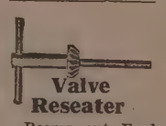
Valve Refacer

A very handy tool. Gives a smooth surface when valves are pitted. Blade of tool steel. Standard size. Shipping weight, 6 ounces.
61 F 2561 .30¢

Fits All Valves

ValveGrinder

Operates like the most expensive models, doing the job quicker and better than any low priced Grinder we know of. Our price is unusually low for this quality. Turn handle one way and the special gear gives a back and forth motion to the valve, going a little farther each time, preventing lap marks. Heavy cast iron. Complete with short and long extension. Ship. wt., 2 pounds.
61 F 2652 .. $1.29

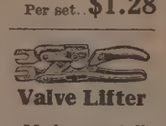


Valve Reseater

Reams out Ford valve seat. Makes a clean even surface much better and quicker than grinding. Cutting surface of carefully machined good quality steel. Standard size. Shipping weight, 10 ounces.
61 F 2560 .. 57¢

Valve Grinding Set

Use this low priced Outfit occasionally and your car will run smoother, use less gas and oil and give far better service in every way. Consists of swing type valve grinder; valve lifter; valve replacer standard size valve seat reamer; standard size spring, and grinding compound. Ship. wt., per set, 1 pound 12 ounces.
61 F 2651—Per set .. $1.28



Valve Lifter

Made especially for Ford cars. Will do the work better and faster than any Lifter you have ever seen. High grade heavy steel, non-rusting finish. Length, 6 inches. Shipping weight, 12 ounces.
61 F 2559 .. 95¢

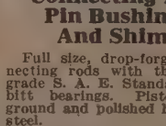
Ever-Tite Automatic Connecting Rod Bolts

$2.55

Ever-Tite Take-up Bolts should be installed on every Ford motor. As wear occurs in the bearing, the self-adjusting springs automatically take up the play so bearings are always snug but not too tight. Easier to install than regular Ford bolts. Ever-Tites now have four new features: special four-lead thread gives a much more rapid take-up; reaction spring which allows for tightening on the low spot of an out of round crankshaft; ratchet end which makes installation easier, and they are under cut so there is no need to ream out holes in lower bearing cap. Put on a set of these connecting rod bolts and do away with bearing troubles. Made of best nickel steel. Ship. wt., per set, 1 lb.
61 F 2017—Set of 8. For all Fords $2.55

Adjustable Center Crankshaft Bearing

When your Ford main bearing wears at the ends it throws the pistons, connecting rods and crankshaft out of line with the cylinders, causing undue wear on these parts. This patented Bearing is adjustable endwise so it takes up this troublesome end play. Use it in place of center crankshaft bearing. Easily installed without removing motor. For all model Fords. Shipping weight, 1 pound.
61 F 2120—Each $2.65



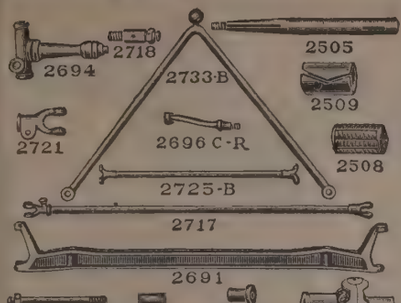
Connecting Rod Pin Bushings And Shims

Full size, drop-forged connecting rods with the finest grade S. A. E. Standard babbitt bearings. Piston pins ground and polished hardened steel.
61 F 2883—Connecting Rod, replaces Ford No. 3024. Ship. wt., 2 lbs. Each .. 93¢
61 F 2884—Pin Bushings, Bronze, replaces No. 3022½. Ship. wt., 4 oz. Per pair 15¢
61 F 2882—Piston Pin, replaces Ford No. 3022. Ship. wt., 4 oz. Each ..... 15¢
61 F 2891—Set of 15 Assorted Connecting Rod Shims for Fords. Ship. wt., 2 oz. 8¢

Main Bearing Adjusters

Put on these automatic Self-Adjusters and do away with main bearing trouble. Outfit consists of six special long bolts with spring operated nuts that take up the wear automatically. The special rear main bearing cap takes care of any end thrust in the crankshaft. Shipping weight, per set, 4 pounds.
61 F 2051 Complete Set of 6 .. $4.75

Perfect Fitting Replacement Parts for Fords



Axles, Axle Parts, Radius Rods, Bearings and Other Parts at Reduced Prices

BY dealing direct with millions of Ford owners we are able to lower selling costs and give you better quality for less money. That is what we have done with these important parts for your Ford. If you are making repairs on your car it will pay you to make the job complete—and you can do it economically by buying these parts.

Nos. 61 F 2843 and 2844 listed below are complete with cones, washers and nuts; for use with ball bearings. Nos. 61 F 2393 and 2394 are without cones or washers; for use where roller bearings are used. Will not fit 1926-1927 Fords.

Ward's Power Overhead Valve Outfit For Fords

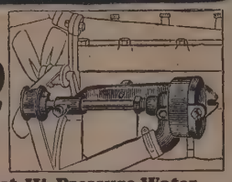
More Speed—More Power—Less Gasoline

Overhead Valves are great power makers for Fords. Now we have made such a big reduction in the price of this outfit that every Ford owner should enjoy the great improvement it will make. There's a real thrill in being able to climb long hills like the big cars and to leave other cars behind on country roads or on the "get-away" at stop lights. You will get a lot more pleasure out of your Ford than you ever had before. And the best of it is you save on gasoline too, for many Fords equipped with this outfit go 30 to 35 miles on a gallon. Truck owners will also appreciate the greater power of this outfit. It has the popular 8-valve construction which is used in outfits selling for $80.00 to $100.00.

It fits old and new Fords without alterations and the average time of installation is under two hours. Because of increased water capacity and arrangement of valves, it is impossible with this head to make a Ford boil in high. Shipping weight, 78 pounds.

161 F 2846—Complete outfit..... **$59.95**

Power and Safety Improvements for Your Ford



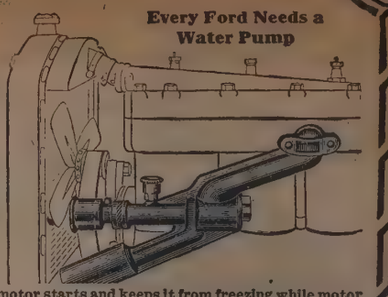
$2.79 With Belt

Finest Hi-Pressure Water Circulator

An extra large Circulator which forces the water through the system at a rapid rate. It is a centrifugal pump like that used on higher priced cars. Keeps your Ford cool on hottest days and prevents freezing while running in winter. Carefully fitted bronze bearings, lubricated by convenient grease cup. Has a substantial impeller and an extra long bronze packing nut. Easily installed. Shipping weight, 8 pounds.

61 F 2142—For 1925 and older Fords. With belt..... **$2.79**
61 F 2171—For 1926–27 Fords. With belt..... **2.79**
61 F 2123—Extra Leather Belt. Fits 61 F 2142 and 2171. Ship. wt., 6 oz.. **42¢**

Our Big Bargain Water Circulator for Fords

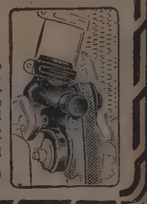


Every Ford Needs a Water Pump

Prevents cylinder and bearing troubles due to boiling of radiators. It commences circulating the water the instant the motor starts and keeps it from freezing while motor is running. This pump forces water through at high pressure, and is, we are positive, the best low priced side type pump you can buy. Cast iron finished in maroon Duco paint. Has a ⅝-inch shaft running in long wearing noiseless bearing, lubricated by a grease cup. Uses regular belt. When ordering, state year and model of your Ford. Shipping weight, 6 pounds.

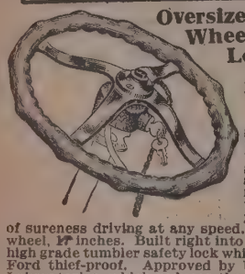
361 F 2221—For all Ford cars and trucks, including 1927 models. **$1.75**

Hastings-Nims Water Pump



Has the reputation of being the finest, most efficient Pump located at the top of the motor. Patented features which no other make has, are the leakless bearing and the 3-blade impeller that throws a powerful stream of water. Keeps the motor cool when it's 100 degrees in the shade. Pump and fan bracket furnished complete to fit all models of Fords. Easily installed on any Ford in 15 minutes with ordinary wrench. Belt furnished. We've reduced the price. For all Ford cars and trucks. Ship. weight, 4 pounds.

61 F 2215..... **$4.35**



Oversize Steering Wheel with Lock

Approved By Underwriters

Has heavy genuine solid walnut rim with finger grip and a strong aluminum spider which gives you a feeling of sureness driving at any speed. Diameter of wheel, 17 inches. Built right into the wheel is a high grade tumbler safety lock which makes your Ford thief-proof. Approved by Underwriters' Laboratories, which reduces the cost of insurance. Horn button on top of steering post. Fits all 1925–26–27 Fords with balloon tires.

61 F 2255—Ship. wt., 6 lbs. Each..... **$6.95**

Low Priced Oversize Steering Wheel

This big 17-inch Steering Wheel is of genuine walnut. It will not warp or pull apart like those of inferior wood advertised as "Walnut Finish." The corrugated rim is hand rubbed and polished. Strong spider is highly polished aluminum. Fits all Ford Cars.

61 F 2077—Ship. wt., 3 lbs. Each. **$1.75**

Steering Wheel Lock

A high grade tumbler Lock in a case-hardened drop forged steel housing. All working parts are hardened steel and will wear for years. Easily and quickly installed. Approved by Underwriters. Shipping weight, 3 pounds.

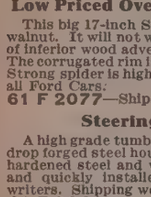
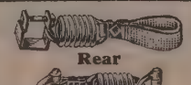
61 F 2262—For Fords 1926–27 with balloon tires..... **3.80**

Safety Pilot Steering Device

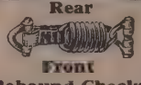


Thousands of Ford owners have found this Safety Pilot Steering Device a helpful driving aid, as it holds the front wheels in a straight line, even though you are traveling over rough, sandy or muddy roads or take your hands off the steering wheel. It also saves the tires by keeping them running straight. An enclosed spring gives a tension on the steering connections that eliminates constant wobbling of the wheels when traveling over rough roads, taking the strain off the driver's arms. Malleable iron. Fits all Fords. Shipping weight, 5 pounds.

61 F 2287—Complete..... **$1.69**



Rear



Front

Rebound Checks

Oil tempered steel springs. No holes to drill. Shipping weight, per pair, 3 lbs. 8 oz.

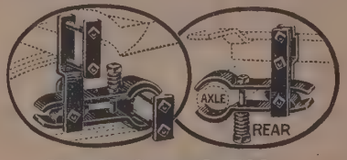
Smooth Action Shock Absorbers

The very latest development for making Fords ride smoother. They work on exactly the same principle as absorbers used on the finest cars, and are built sturdily for years of service. The strong steel case encloses a drum over which the thick heavy web strap slides. This action does not interfere with the downward movement of the regular springs but gently cushions the upward travel of the body to prevent sharp jolts. Suitable for use on all Fords and adjustable for different weight bodies. Set includes one for front and one for rear. Easily attached without drilling.

461 F 4068—For all 1925 Model Fords and 1926–27 Model Roadster and Coupe only. Shipping weight, 18 pounds. Set of 2..... **$6.10**
461 F 4069—For 1926–27 Model Ford Sedan and Touring Cars only. Shipping weight, 18 pounds. Set of 2..... **$6.10**



Ward's Smooth-Rider Shock Absorbers

A new, thoroughly tested set of Shock Absorbers for Fords, that has advantages usually found only in the highest priced absorbers. They work on the cam principle used in expensive outfits on high priced cars. As the body of your Ford rises after the wheels hit a bump the cam presses one end of the levers so the other end, which is faced with brake lining, gently grips the rear axle housing and special bands around the front axle, checking the rebound. Installed by simply clamping to frame and attaching to axles. Adjustable spring gives proper tension for every Ford. Consists of three absorbers, one for front and two rear. Ship. wt., per set, 19 lbs. Can be shipped by parcel post.

461 F 1920—For all Ford Cars 1925 and older. Per set..... **$4.95**
461 F 1921—For ½-ton Trucks only, Per set..... **4.95**
461 F 1922—For 1926–27 Models. Per set..... **5.85**

Crank-shaft Flanged Pulley For Fords

Don't let your Ford Radiator boil over because of the fan belt slipping off pulley. The special flanges prevent all such trouble. Simply pull out crank pin, pull off pulley and slip this one on. Fits all Fords, 1917–27. Ship. wt., 1 pound.

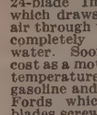
61 F 2124..... **49¢**

G. B. Impeller Fan

You can't overheat your Ford on the hottest day, if it is equipped with this 24-blade Impeller Fan, which draws much more air through the radiator, completely cooling the water. Soon repays its cost as a motor at proper temperature saves on gasoline and oil. Fits all Fords which have fan blades screwed to pulley. Ship. weight, 3 pounds.

61 F 2208..... **$1.95**

Runwell Twisted Packing



Highest quality asbestos Packing especially adapted for Ford water pumps; also many other purposes. Ship. wt., per spool, 4 ounces.

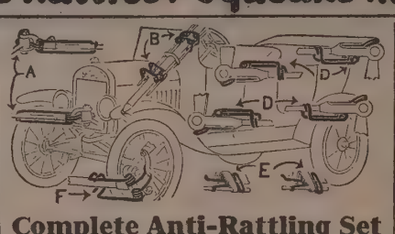
61 F 2517—Each **40¢**



Complete Anti-Rattling Set

Get more pleasure and comfort out of your Ford by putting a stop to annoying rattles and squeaks every time you hit a bump. As there is no take-up on many of the parts such as brake clevis, gas and spark rods, it generally means rebushing or buying new parts, which is expensive. This inexpensive set stops noise and rattle, without expensive repair work. Just clamp these little springs around the various parts and the tension holds them close together, stopping the noise. Every Ford needs a set. Shipping weight, complete set, 1 pound; individual parts, each, 4 ounces.

61 F 2504—Complete 11-piece set..... **$1.00**

A Last Minute Offering
Solid Brass in Burnished Gold

FROM the very earliest times, down through the centuries, to this present day of electricity, brass genuine solid brass—has been considered the standard material for lighting equipment. It is with considerable satisfaction that we offer this solid cast brass line of lighting fixtures. The finish is in burnished gold which adapts itself so well to brass. The design and the delicate modeling give an appearance of unexcelled richness and beauty. This results in fixtures of unusual adaptability. They can be used in any type of house and harmonize with any scheme of interior decoration. A, B and G have key sockets. C, D, E and F have keyless sockets. G has turn button switch in wall plate. Fixtures A, B, C, F, can be shipped by freight or express only.

For Better Lighting

Easy *to* Attach

YOU will find shown on these pages a complete selection of modern, well designed Lighting Fixtures. We have taken every precaution with our fixture line to insure good quality and first-class workmanship, as well as appropriate beauty and style. Compare our prices with what you are asked to pay elsewhere. Note the savings that can be made by buying fixtures for a complete home. And remember that you can make a further saving by attaching them yourself. We shall be very glad to have you write us about your lighting problems. See Page 519.

ANYONE can attach Ward's fixtures. In a few minutes' time, with the aid of only a screw driver, you can attach any of the fixtures shown on these pages. All the necessary screws and connectors, and the few simple instructions required for attaching are included.

Every fixture is completely wired and ready to install. We furnish tape and solderless connectors.

All Ward's fixtures are made in accordance with the standards of the National Board of Fire Underwriters and our instructions for attaching are also in accordance with their rules.

Taupe *with* Burnished Gold

A Most Popular Design

Fine workmanship, beautiful design and exquisite finish make these fixtures the finest of their class. No other type of fixture has enjoyed such wide-spread popularity. This and similar designs may be found in many of America's finest homes. We are proud to offer such an unusual selection at prices so low. They will lend an air of distinction to any room. All the bodies and ornaments are heavy gauge brass with the supporting arms of cast brass, richly figured.

Beautiful and Lasting Finish

The color combination—taupe, a soft shade of rich gray, and burnished gold, is applied by a new process, making it durable and lasting. So soft, so beautiful and harmonious, it gives that effect of quiet dignity so apparent in homes of refinement. So durable it will retain its beautiful luster indefinitely. May be washed with soap and water. We are sure you have never seen such handsome fixtures of this type offered anywhere at prices that can compare with these.

Sparkling Amber Teardrops

The candle brackets and all the hanging fixtures except the pendant, have sparkling amber glass tear drops which add still more to the artistic appearance of these beautiful fixtures. Fixtures with keyless sockets are for wall switch control. **Bulbs not included.** We recommend 25-watt amber or plain inside frosted bulbs for all candle fixtures and 25 or 40-watt inside frosted bulbs for all others. See page 511. **Fixtures B, F, G, H can be shipped by freight or express only.**

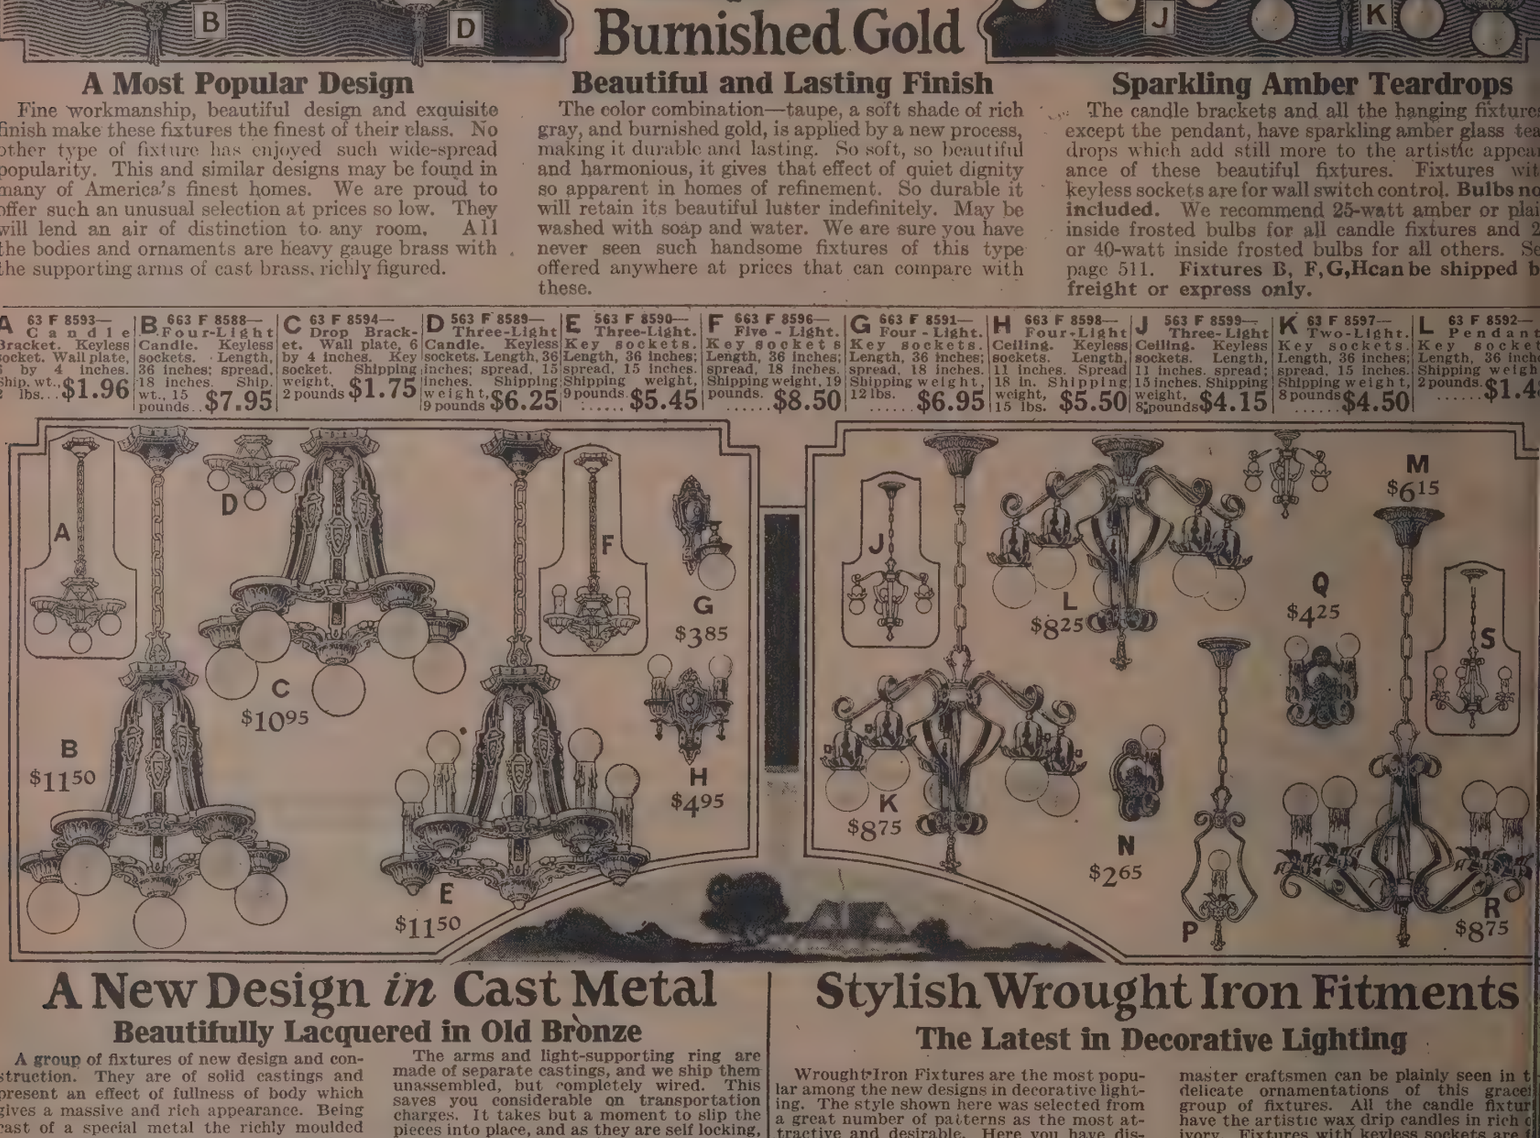
L 63 F 8592—Pendant Key socket Length, 36 inche Shipping weigh 2 pounds. **$1.4**



A New Design *in* Cast Metal

Beautifully Lacquered in Old Bronze

A group of fixtures of new design and construction. They are of solid castings and present an effect of fullness of body which gives a massive and rich appearance. Being cast of a special metal the richly moulded ornamentations are brought out to the best advantage. The finish is a reproduction of old bronze, enlivened with decorations in subdued colors. The use of fine lacquers in obtaining this finish insures great durability. These fixtures will remain in style many years.

The arms and light-supporting ring are made of separate castings, and we ship them unassembled, but completely wired. This saves you considerable on transportation charges. It takes but a moment to slip the pieces into place, and as they are self locking, no tools are required. Fixtures with keyless sockets are to be controlled by a wall switch. Bulbs are not included. We recommend for candle fixtures white frosted bulbs 63 F 4912 or amber frosted bulbs 63 F 4910; for drop fixtures 63 F 4914 in white or 63 F 4911 in amber. See Page 511 for bulbs. **Fixtures B, C and E not mailable.**

A 563 F 9028—Three-Light. Keyless sockets. Length, 36 in.; spread, 16 in. Ship. wt., 12 pounds. **$7.95**

63 F 9013—One-Light Candle Bracket. Same as "H" except that it has one light. Ship. wt., 5 pounds. **$3.85**

Stylish Wrought Iron Fitments

The Latest in Decorative Lighting

Wrought-Iron Fixtures are the most popular among the new designs in decorative lighting. The style shown here was selected from a great number of patterns as the most attractive and desirable. Here you have distinctive beauty without extravagance. Appropriate for any home. Every light in this group is fashioned from wrought iron and finished in rustique, a rich shade of autumn brown gently relieved with polychrome tintings. The overlay of harmonious blues, reds and ivory, relieves the deep brown and produces a beautiful blended color. The work of master craftsmen can be plainly seen in the delicate ornamentations of this graceful group of fixtures. All the candle fixtures have the artistic wax drip candles in rich cream ivory. Fixtures with keyless sockets are for wall switch control.

Bulbs not included. We recommend for candle fixtures, white frosted bulbs 63 F 4912, or amber frosted bulbs 63 F 4910; for drop fixtures 63 F 4914 in white or 63 F 4911 in amber. See Page 511 for bulbs. Fixtures J, K, L, M, R and S can be shipped by freight or express only.

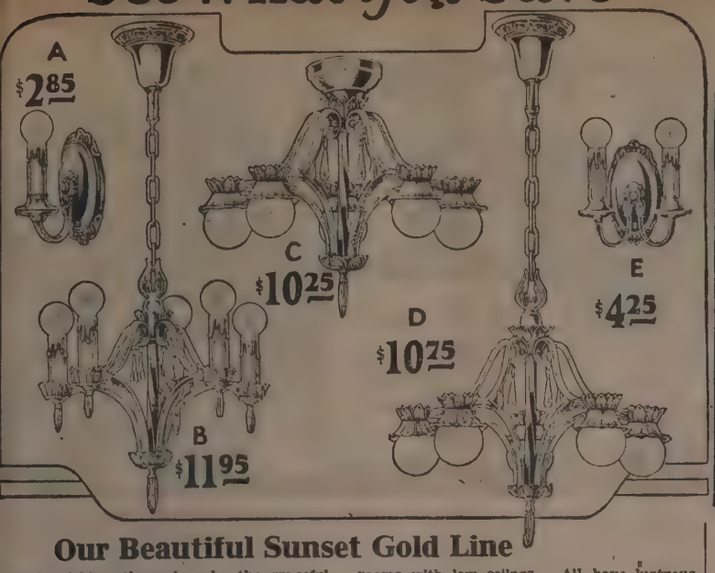
See What *You* Save



Our Beautiful Sunset Gold Line

Distinguishing themselves by the graceful sweep of the arms, the Fixtures in this group are among our finest. Bodies are made of brass with a finish which we call Sunset Gold, suggested by the dull golds of the arms enlivened by touches of bright reds and greens cleverly applied to the ornamentations. For the main light in your living or dining room you are sure to be pleased with either of the hanging fixtures or the ceiling fixture which is recommended for rooms with low ceilings. All have lustrous amber teardrops. They are very reasonably priced. Keyless sockets in all fixtures except brackets, which have turn button switches in wall plate. Bulbs not included. We recommend, for candle fixtures, frosted white bulbs, 63 F 4912 or amber 63 F 4910; for drop type fixtures, frosted white bulbs 63 F 4914 or amber 63 F 4911. Fixtures B and D can be shipped by freight or express only. See Page 511.

E 63F8652 Two-Light Bracket. Button switch. Wall plate, 4½ by 8½ in. Ship. wt., 3 pounds. **$4.25**

Complete *8-Piece* Fixture Set

Only $25.00

Think of being able to buy eight first class Lighting Fixtures—enough for a 7-room house—for less than the price of a good living room chair! Truly a tremendous value, but typical of the savings you make on lighting equipment at Ward's. The quality is first class throughout. The greatest saving can be made by purchasing the complete set, although the individual pieces are priced very low.

The living and dining room fixtures and the wall bracket are finished in silver and taupe—a velvet shade of rich gray. For the bedroom and halls, the finish is an exquisite combination of ivory and blue. The bathroom and kitchen fixtures are finished in sanitary white enamel. The complete set will harmonize with any color scheme. If your contractor has allowed you $50 for fixtures, save half of it by purchasing this complete set.

The bodies are heavy gauge brass with finishes so expertly applied they will last for years. All fixtures may be washed with soap and water.

Each fixture is completely wired, ready to attach. You can do the work yourself as our instructions tell you how. A screwdriver is the only tool needed. Fixtures with keyless sockets are for wall switch control. Ship. wt., complete set, 50 lbs. Can be shipped by freight or express only. Bulbs not included. For correct bulbs see Page 511.

663 F 9006—Complete 8-piece set. **$25.00**

You May Purchase Any of These Fixtures Separately

F 63 F 9163—Kitchen Light. Newest and best type. White enamel finish. Length, 11 inches. Diameter, opal glass bowl, 8½ inches. Keyless socket. Shipping weight, 8 pounds. **$1.48**

Aluminum Fitments at New Low Prices

The use of cast aluminum has made possible a new type of Lighting Fixture combining beauty of design with a distinctive finish found in no other type. We are offering these carefully chosen designs at lower prices than ever before. If you are planning to use this type of fixture you will admire the design and finish of this group. They are finished in Florentine Polychrome which resembles rich old gold. In the indentations of the embossed work are delicate touches of soft reds and browns, producing the antique effect which is so popular. Fixtures with keyless sockets for wall switch control. Bulbs not included. Fixtures B and J can be shipped by freight or express only. See Page 511 for correct bulbs.

Finished in the Ever-Popular Velvet Brown *with* Burnished Gold

This group offers, without question, the biggest values in our entire line. Never before have we seen fixtures combining such graceful design, beautiful finish, quality materials and expert workmanship, offered at prices so low. And we have not sacrificed quality one bit to make these prices.

The bodies are heavy genuine brass. Note their depth—almost twice that of similar fixtures selling elsewhere at even higher prices. The finish is the everlasting Velvet Brown with the arms and embossings touched with burnished gold. Candle and ceiling fixtures have keyless sockets for wall switch control. Drop type fixtures have key sockets. Bulbs not included. We recommend for candle fixtures white frosted bulbs 63 F 4912 and for drop type fixtures 63 F 4914. For correct bulbs see Page 511. Fixtures L, M, S and T can be shipped by freight or express only.

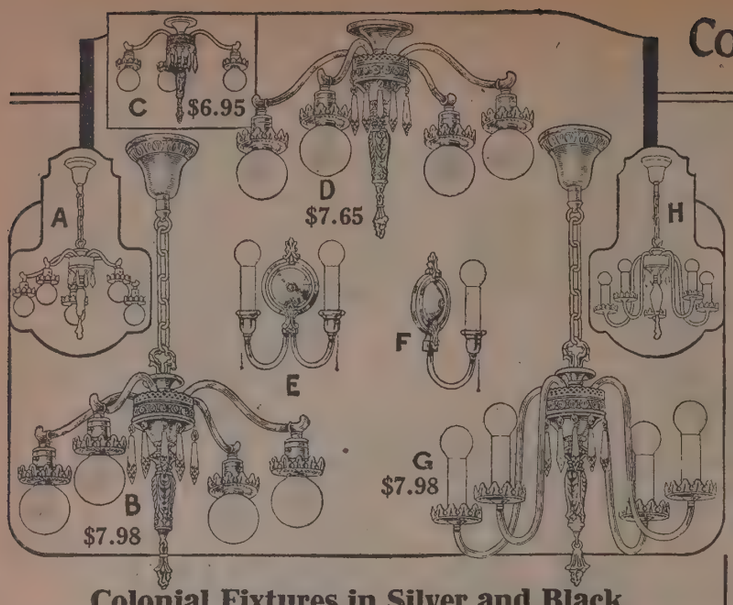
Complete Fixtures for Five Rooms



Colonial Fixtures in Silver and Black

These Silver Colonial Design Fixtures were developed exclusively for us to meet the need for appropriate lighting fixtures for the small colonial house or colonial interior. In the embossed work the silver is relieved with shadings of black giving a softened effect which has been highly praised. The fixtures are decorated with the cut glass prisms so popular during the colonial period of our history and now revived. The wall brackets are finished in silver and black and are in your choice of one or two candles. Length of hanging fixtures 36 inches, width, 18 inches. Fixtures with keyless sockets are for wall switch control. Fixture bodies made of brass. Bulbs not included. For bulbs see Page 511.

Fixtures A, B, C, D, G and H can be shipped by freight or express only. We recommend for candle fixtures white frosted bulbs 63 F 4912 and for drop fixtures 63 F 4914.

Another example of the savings that can be made by purchasing a complete Fixture Set at Ward's. These six pieces are in popular and appropriate finishes and will completely equip the average 5-room home with modern lighting. The hanging fixtures are of our own design and were made to meet the demand for good ball lamp type fixtures at low cost. Every fixture in this group is of first class workmanship—genuine brass is used for the bodies and the finishes are durable and lasting. The finish of the hanging fixtures, as well as the beam light, is the popular velvet brown and gold. The kitchen pendant and the bathroom bracket are finished in sanitary white enamel. The bedroom beam light is finished in ivory and blue. You can save still more by installing these fixtures yourself. Bulbs not included. For bulbs see Page 511. Shipping weight, 45 pounds. Can be shipped by freight or express only.

663 F 8601—Complete 6-piece set.. $12.50

Autumn Leaf Design—Russet Gold Finish

Lighting Fixtures of wide adaptability, developed exclusively for us. They will be recognized at once as far superior in design and finish to the usual brush-brass pan fixtures of this type so common on the market. While at our low prices this is an inexpensive line of lighting fixtures, we assure you each piece has distinction and real artistic merit. Each is a value we feel confident you cannot duplicate elsewhere at our low price.

These Fixtures are of heavy gauge brass stampings, having deeply embossed designs of great beauty. The finish gives the suggestion of old gold with designs tinted with forest green and deep brown. Made both for use with ball lamps and glass shades. Length of all chain fixtures, 36 inches; ceiling fixtures, 8 inches. Bulbs not included. For bulbs see Page 511. We recommend round frosted bulbs 63 F 4914 in white or 63 F 4911 in amber. Can be shipped by parcel post

Velvet Brown and Gold
With or Without Glass Shades

A group of Lighting Fixtures that are without a doubt the greatest values ever offered in living room and dining room lighting equipment. A special arrangement with the manufacturer enables us to offer these high-grade lighting fixtures at such exceptionally low prices. The quality is absolutely the highest, and the workmanship is excellent throughout.

Heavy gauge, genuine brass is used for the bodies. The finish is the durable velvet brown and gold, one of our most popular finishes. It is expertly applied and can be cleaned with a damp cloth. The satin white, crystal glass shades are neatly embossed with a floral design.

These fixtures are completely wired and ready to install, with only the aid of a screw-driver. Length of all hanging fixtures, 36 inches. Fixture C can be shipped by freight or express only. Bulbs not included. For bulbs see Page 511.

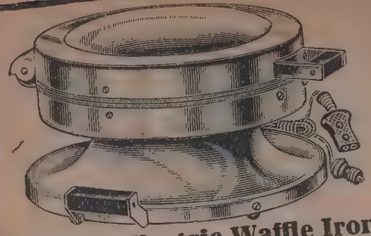
Easier-Cleaner-Safer-Better
Do It Electrically

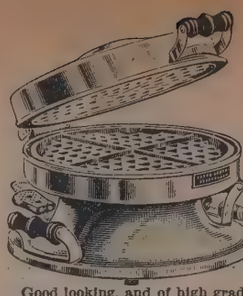
Electric Waffle Iron



Blue Line — Highest Grade Heating Element

A waffle a minute. A better Waffle Iron of unusual beauty and durability. Of cold rolled steel heavily nickeled and highly polished. The drip proof grids are cast of special alloy and do not require grease except the first time used. Grids are hollow and when they have been brought to proper temperature will bake a waffle in one minute. Bakes both sides of waffle at same time. Expansion hinge allows batter to rise evenly. Never hot handles. Height, 5½ in., diameter of grids, 8½ in. With about 7-foot cord and plug. For 105 to 120-volt current. Ship. wt., 8 lbs.

63 F 822—Draws 600 watts..... **$7.98**



$6.58

Have You Ever Tasted Electrically Baked Waffles? You Have A Treat Coming

Good looking, and of high grade, durable construction. Metal parts highly polished nickel plate. Expansion hinge allows batter to rise evenly. Heavy cast aluminum grids cook both sides of waffle at once. Makes 7-inch waffle. Requires greasing only when first used. Never hot handles. Height over all, 6½ inches. Complete with about 6-foot cord and plug. For any 105 to 120-volt current. Ship. weight, 9 lbs.

563 F 824—Draws 660 watts..... **$6.58**

Electric Griddle

$4.95

Not an ordinary Griddle. Can be used as an electric hot plate or toaster. The 9½-inch griddle plate lifts off, and the heating element, set in heat retaining porcelain, may then be used as an electric stove. A wire rack on which two slices of toast can be made is supplied.

The aluminum griddle requires no greasing. All other metal parts are finished in bright polished nickel. Black enameled carrying handles. With about 6-foot cord and plug. For any 105 to 120-volt current. Draws 660 watts. Ship. weight, 7 lbs.

63 F 819—Complete..... **$4.95**

A Sign of Quality — Blue Line

When you see the "Blue Line" label on electrical appliances, you may depend on them, for every article which bears the "Blue Line" label is not only quality-built, inside and out, but it is tested in every way in our own laboratory before being offered to you. It must meet the rigid requirements that have been set up for it.

Let us urge you not to judge Blue Label quality by the prices you see here—those prices are the result of highest quality merchandise produced on a quantity basis. Compare values and remember "Blue Line" Appliances are sold only by Ward's.

Electric Cabinet Range $26.50

A guaranteed Range that answers every demand of household cookery. Serves every purpose just as well as other ranges selling for twice Ward's price.

It works off your home lighting circuit. Two flush plug receptacles are located in the rear of the range, one for cooking on the top burners, and the other for oven baking. The two top burners are single heat and can be used independently. The oven is controlled by a three-heat switch for low, medium or high heat. This, together with the steady temperature you always receive from electric heat, insures perfect baking or roasting.

Boils, Fries, Bakes, Stews—Strongly Built

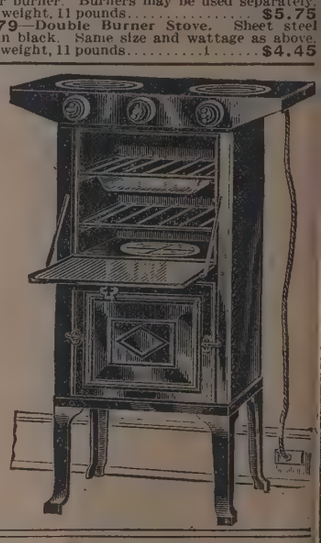
Range is 34 inches high, 14 inches wide and 12 inches deep. The top is 11½ by 22¼ inches. The oven is 11¼ inches wide, 9½ inches high and 11¼ inches deep. Warming oven same size directly below. Oven has two heating elements, one above and one below. It is double walled throughout and asbestos interlined.

Finest extra heavy sheet steel construction in lustrous satin finish. High grade nichrome heating elements, white lava plates.

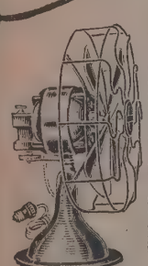
The top heating units draw 550 watts each. The top oven heating unit draws 440 watts and the bottom unit 660 watts. Stove is supplied with special connecting cord for attaching to baseboard receptacle.

Caution: No more than two burners can be used at once without special wiring. For any 105 to 120-volt current. Ship. wt., 50 pounds. **$26.50**

163 F 855.....



Keep Cool This Summer



WHY put up with hot weather discomfort when you can keep cool for 5¢ a day? Stir up a cooling breeze in home or office—day or night—wherever you want it. Baby sleeps much better in a fan ventilated room.

Your choice of two types—non-oscillating and oscillating. The oscillating type turns slowly back and forth throwing the breeze to all parts of the room.

All our fans are well known, nationally advertised brands and are sold under their own names elsewhere at much higher prices. Like all our electrical goods, they are built of the best materials.

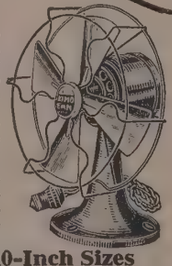
12 and 16-Inch Oscillating

The Fan illustrated above is the equal of the finest you can buy. Two popular sizes. Finished in lustrous black enamel with brass blades. With about 8-foot cord and plug.

463 F 956—12-inch oscillating. For 105 to 120-volt, 60-cycle alternating current only. Ship. wt., 28 lbs. 3 Speeds..... **$22.29**

463 F 955—Same as above but for 32-volt farm plant current. 3 Speeds.... **$23.98**

163 F 957—16-inch oscillating. For 105 to 120-volt, 60-cycle alternating current only. Ship. wt., 35 lbs. 3 Speeds..... **$26.55**



8, 9 and 10-Inch Sizes

For those who prefer the smaller sizes we are offering these splendid Fans. Durably finished in black enamel. The 8 and 9-inch sizes are single speed, with about 6-foot cord; 10-inch sizes have 2 speeds and about 8-foot cord.

463 F 951—8-inch non oscillating. For any 105 to 120-volt current. Ship. wt., 7 lbs. **$4.75**

463 F 952—8-inch non-oscillating. For 32-volt farm plant current. Ship. weight, 7 lbs. **$4.95**

How to Order

Electrical Appliances And Motors

When ordering Electrical Appliances or Motors, be sure to state Volts and whether current is direct (D.C.) or alternating (A.C.). If A.C. state cycles. Appliances listed "For ANY 105 to 120-volt current" can be used on either direct or alternating current. Nearly always this information can be found on your meter or on any appliance you are now using.

Electricity is sold by the Kilowatt hour at rates ranging from 1¢ to 10¢ per kilowatt hour (1000 watts). With electricity sold at 10¢ per kilowatt hour, it costs 5¢ per hour for 500 watts, 2½¢ per hour for 250 watts, etc. The current consumption of our appliances is plainly stated. If you know your current cost it is an easy matter to figure what they will cost to use.

Low Priced Medical Battery

Self contained. Operates off one dry cell which is included. Supplied with 2 metal electrodes, 1 foot plate, 2 felt applicators. Cabinet is 4¾ by 7½ by 4 in. Ship. weight, 5 lbs.

$2.10

Perfection Electric Iron

A genuine two-piece Iron of the finest workmanship and materials. Similar in design and construction to the highest priced irons on the market. It will give an ironing efficiency of the highest order never obtainable from the one-piece cast irons usually sold at about this price.

Standard 6-pound size with rounded edges. Tipback rest on heel. Ironing surface highly polished. Its two-piece body construction gives it heat retaining qualities unequalled in other irons advertised around this price. The hand made heating element is of the finest quality nichrome wire. For any 105 to 120-volt current. Draws 550 watts. Shipping weight, 7 pounds.

63 F 1815..... $2.10

63 F 1816—Similar to above but for 32-volt current..... 2.98

Blue Line

Electric Iron

With Metal Protected Unbreakable Appliance Plug

$2.68

More Value Per Dollar Than Any Iron We Sell

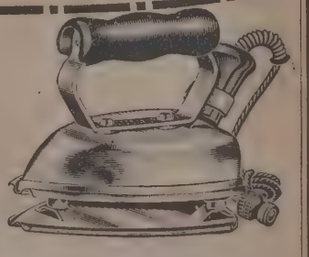
Of approved standard construction and equipped with a flat wound heating element, same as used in highest priced irons. The body is heavily nickeled and polished. Tipback rest on heel—no stands or pads necessary. Non-heating blue enameled handle. Heats quickly and evenly over entire ironing surface and retains heat longer than most irons. Standard 6-pound size. Ironing surface is highly polished with edges rounded to prevent wrinkling of fabrics. Equipped with our own BLUE LINE metal protected unbreakable plug. With about 6-foot cord and plug. For any 105 to 120-volt current. Draws 550 watts. Shipping weight, 7 pounds.

63 F 1824..... $2.68

American Beauty

Ward's price for this universally known electric Iron is much lower than is usually asked. Standard 6-pound size. Highly polished ironing surface and rounded edges make ironing much easier. Heats quickly and evenly. Ebonized wood handle always stays cool. All metal parts heavily nickel plated. About 6-foot cord and plug. For any 105 to 120-volt current. With convenient heat protecting stand. Draws 525 watts. Shipping weight, 9 pounds.

63 F 1807..... $6.50



Western Electric (Graybar)

The famous Western Electric Graybar Irons are built to give a lifetime of satisfactory service. Standard 6-pound size. Perfectly balanced and easy to handle.

Heats quickly and evenly with a little extra heat towards the point where it is most needed. Finished in highly polished nickel. Non-heating ebonized wood handle. Complete with heat protecting stand and about 6-foot cord and plug. For any 105 to 120-volt current. Draws 550 watts. Shipping weight, 7 pounds, 8 ounces.

63 F 1814..... $3.95

Travelers' 3-Pound Iron

Very neat and compact. A great convenience for travelers, tourists or students. Easily slipped into your suitcase or handbag. Durably constructed and handsomely finished in polished nickel. Has heat protecting stand. Non-heating ebonized handle. Complete with stand and about 6-foot cord and plug. For any 105 to 120-volt current. Draws 350 watts. Shipping weight, 4 pounds.

63 F 1850..... $3.47

$1.97

Blue Line Hairdressing Set

Daintily and completely equipped. Packed in a convenient soft cloth roll. Supplied with regular clamp for straight waving; special deep clamp for marcelling and aluminum drying comb. Rod alone can be used for round curling. Blue enameled handle and clamp buttons. Length, 9¾ inch. Rod diameter, 5/16 inch. Complete with soft cloth roll and about 6-foot blue and white silk cord. For any 105 to 120-volt current. Draws 16 watts.

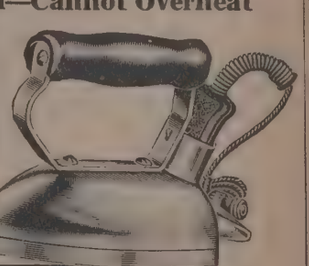
63 F 1843—Complete. Ship. weight, 1 pound..... $1.97

63 F 1883—Professional type similar to above. Iron is 11¼ inches long and rod is ⅜ inch diameter. Shipping weight, 1 pound 4 ounces..... $2.98

The Automatic Iron—Cannot Overheat

Maintains a constant, even ironing temperature. Bothersome interruptions during ironing need not worry you as iron cannot overheat. This makes the iron absolutely safe and preserves the heating element and highly polished finish. Has a larger ironing surface than most irons, but the graceful sloping design and tapering point makes all the ironing plainly visible. Heats quickly and evenly over entire ironing surface. Convenient heel rest and perfect balance eliminate fatigue. Six-pound size. Non-heating ebonized handle. With about 6-foot cord and plug. For 105 to 120-volt alternating current only. Ship. weight, 7 pounds.

63 F 1805—Draws 660 watts.... $6.75



$4.35

Hair Dryers

$4.49

Powerful motor driven blower type Hair Dryer. Finished in neat, lustrous black enamel. Light weight. Very efficient. Throws a steady current of warm air which quickly dries the hair. Height over all, 7½ inches. With about 5½-foot cord and plug. For any 105 to 120-volt current. Draws 440 watts Shipping weight, 3 pounds.

63 F 1822..... $4.35

Reflector Type

No Motor—No Fan

Gives a steady flow of heat and dries hair quickly. Nickeled metal parts. Has feet for resting on table. Length, 7 inches. With about 7-foot cord and attaching plug. For any 105 to 120-volt current. Ship. wt., 1 pound 8 ounces.

Let Our Experts Advise You on Wiring, Motors and Farm Lighting

WRITE our Electrical Engineering Department for advice regarding wire, wiring materials, or any electrical problems you may have. This service is absolutely FREE.

Our staff of expert electrical engineers will be glad to answer any questions and give complete and detailed estimates on wiring your new or old house. Send us a diagram of the rooms you desire wired, naming the rooms and giving us the sizes. Indicate the way the joists run, and where you want lights. State whether building is already built or under construction, also where wires are to enter the house. Tell us, if possible, whether you intend using conduit, armored cable (sometimes called BX), or the knob and tube system of wiring. The clearer your drawing and more complete your information, the better our Electrical Engineers can serve you.

We will also, gladly answer questions regarding any electrical equipment you may have or wish to order. When writing about electrical equipment, always state the kind of current you are now using, whether alternating (AC) or direct (DC) and tell us the voltage. If alternating, also state number of cycles.

If you order wiring materials from our estimates, we include free, an illustrated wiring book. If you wish the book separately, order by article number below. Shipping weight, 6 ounces.

Single Braid Rubber Covered Copper Wire

WE save money for thousands of home owners and contractors each year, by our unusually low prices on Wire. This wire is approved for knob and tube and conduit work. Each unbroken 500-foot coil bears the Underwriters' Laboratories inspection tag. The wire is insulated with rubber and covered with tightly woven, heavy black water-proofed cotton braid. The white wire is exactly the same construction as the black, except for the white cotton braid.

How to Order

The Proper Wire

For 110-volt systems, No. 14 rubber covered wire should be used for branch lighting circuits and at least No. 10 rubber covered for service wires. For 32-volt system No. 12 or larger rubber covered wires should be used for branch circuits. Use at least No. 10 weather-proof wire for outside wiring between buildings. Where distance is great or load is heavy use No. 8 or No. 6.

Underwriters' Approved Safety Switch

Fused switch for use in dark or damp places. No danger of shocks from contact with live parts of circuit. Two-pole, 125-volt 30-ampere porcelain base entrance switch mounted in a 6 by 5½ by 4-inch steel box with lever on outside. Can be locked with padlock. Has ½ and ¾-inch knockouts. Black enamel finish. Shipping weight, 6 pounds.

63 F 3561..... $1.23

Motors *for* Every Job

1/4, 1/2, 3/4 and 1 Horse-Power

Genuine General Electric Repulsion-Induction Motors

These motors are noted for their ability to start under heavy load. They have a starting torque of more than 300 per cent of their full load torque. Especially designed for driving pumps, separators, washing machines or any appliance with heavy starting load. The current consumption of this motor is very low.

We are offering these genuine General Electric Motors, recognized as the standard for motor manufacture, at prices lower than usually asked for many inferior makes. Remember a motor must be the highest quality to stand up under continuous service. The name General Electric is ample assurance of dependability.

They are particularly noted for their favorable operating characteristics. Speed, 1725 revolutions per minute. Direction of rotation easily changed. For 105 to 120 or 210 to 230-volt, single phase alternating current. Supplied without pulleys. See Pulleys below at right.

Article No.	H.P.	Shaft	Speed	Ship. Wt.	Each
463F910	1/4	1/2 in.	1725 r.p.m.	30 lbs.	$20.95

Blue Line

1/4 Horse-Power Electric Motor

110-Volt Type 60-Cycle

Cord, Plug and Pulley Included

No Extras to Buy

Ends Closed—Splashproof

POWER—DEPENDABILITY—two things you want most in a Motor are offered here at a saving of $5 to $10. These sturdy, powerful, 1/4 horse-power Electric Motors are giving dependable service to thousands of our customers. Day after day, the year round, they are working for their owners—in shops, garages, on farms and in homes. At a cost of a few cents per hour they are faithfully turning small lathes, drill presses, buffers, grinders, hand power washing machines, and cream separators. Run quietly and continuously for hours without overheating and with ordinary care will last for years.

Motor is entirely enclosed except for ventilator, making it practically splashproof—not the cheap open end type. Specially designed oil reservoir and oiling system—with ordinary usage will run six months without oiling. High quality bronze bearings. 1/2-inch shaft. Equipped with 2-inch grooved pulley for 3/8-inch round belt, ten feet of high grade waterproof cord, and attaching plug. Ship. wt., 39 lbs. Can be shipped by parcel post.

Powerlite Farm Lighting Plant Equipment

Now Sold on Easy Payments

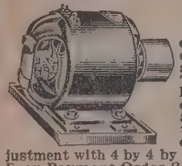
$15 Down

$15 A Month

POWERLITE Farm Lighting Plant Equipment is now sold on easy payments. Send $15 with your order and pay the balance in easy monthly payments.

Our Electrical Engineering Department will be glad to help you in the selection of the proper equipment for your particular needs. Send for our Lighting Plant Information sheet. Give us the information requested and we will send you a complete estimate of the cost of installation. This service is FREE.

Powerlite Generators



Shunt wound Powerlite Generators are especially adapted for farm lighting plants and can be operated by belting to the fly wheel of an ordinary 3 or 5 horse-power farm engine. The ratings given below are for continuous loads. The 25-ampere size is for the plants employing larger batteries such as our 263 F 511. The charging rate can be controlled by the addition of a rheostat listed below. Generators are equipped with sliding belting adjustment with 4 by 4 by 3/4-inch pulley. Sold on Easy Payments. Use Easy Payment Order Blank, Page 623.

Article Number	Amps.	Watts	Speed	Weights	Cash Price	Easy Payments
163 F 189	25	1000	1850	173	$63.25	$68.20

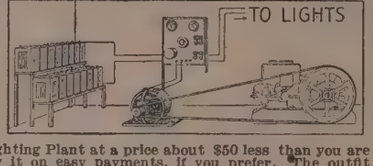
63 F 1200—Field Rheostat for use with above generator. Shipping weight, 3 pounds..... $6.25

Complete Powerlite Outfits

$190.00



A complete Farm Lighting Plant at a price about $50 less than you are asked elsewhere. Buy it on easy payments, if you prefer. The outfit consists of 163 F 189 generator; 163 F 195 switchboard; and 263 F 507 batteries. We recommend the 3 horse-power gas engine (287 F 5060) shown on Page 581, especially designed for driving the above outfit. See "Estimated Total Freight Charges" at top of page. Write us for quotations on outfits other than the above. Gas engine not included. Shipping weight, 800 pounds.

163 F 515—Complete outfit. Cash Price..... $190.00
Easy Payment Price..... 210.00

New Powerlite Batteries

Automatic Charge Discharge Indicator

We guarantee these Batteries to give lighting service for three years when installed and operated according to our instructions and when so used will usually last 5 to 7 years. If for any reason the battery proves defective or does not give good service within the three-year period, we will make an adjustment allowance toward the purchase of a new battery on the basis of time in service.

Of the highest grade materials. Heavy duty plates are 5 3/4 by 7 inches and 7/32 inch thick for positive and 3/16 inch for negative, except outside negative which are 1/8 inch. Clear heavy glass jars with automatic indicator recording degree of charge, a new and exclusive feature. Sixteen cells per battery fully charged and complete with connectors and hydrometer. For generator capacities of from 300 to 500 watts, order 263 F 507; for 600 to 800 watts, 263 F 509; for 900 to 1500 watts, 263 F 511. Ship. wts.: 750, 900 and 1125 lbs. See "Estimated Total Freight Charges" at top of page.

Article Number	No. Plates	Ampere Hour Rating 8-Hr. Dis.	Intermittent	Set 16 Cells (32 volts) Cash	Time

Shipped from Factory in Central Wisconsin

Charging and Lighting Generator—40 Volts 8 Amperes

Can be driven from flywheel of one horse-power or larger engine for supplying current for lighting purposes direct from generator. Also for charging 32-volt farm plant storage batteries. Capacity: 40-volts, 8 amperes or 10-32-volt, 25-watt lamps. Speed 2500 revolutions per minute. Pulley size 2 1/4 by 1 inch. May be used for charging up to 5 six-volt storage batteries connected in series. Shipping weight, 43 pounds. Can be shipped by parcel post.
463 F 190..... $19.95

Charging Generators for 6-Volt Batteries

Direct current Generators with automatic reverse current cutouts. Will charge 6-volt storage batteries used for automobile, ignition and Radio "A" batteries without adjustment or regulation when operated at specified speeds. Can be driven direct from flywheel of engine. The 8-ampere size is used for charging single radio "A" or automobile 6-volt storage battery. May be used on small motor boats or for lighting equipment on tractors. The 20-ampere size especially recommended for charging up to six 6-volt radio "A" or automobile storage batteries connected in parallel, also for lighting purposes, such as motor boats, using current direct from generator up to a capacity of 5-32 candle power 6–8 volt automobile bulbs. Both equipped with 2 1/4 by 1 by 3/4-inch pulley.

Article No.	Volt	Amp.	Speed	Wt.	Each
463 F 294	8	8	2250	23 lbs.	$12.65

How Lakeside Came to be a Symbol of the Highest Standard of Hardware Excellence

At state fairs and in our seven retail stores, we often meet some old-time carpenter who knows and loves good tools as a little girl loves her favorite doll. And as his fingers pass approvingly along the keen edge of a Lakeside chisel, or his trained ear recognizes the ring of finest temper in a Lakeside saw, we hear some such exclamation as this:

"Why, I had no idea you carried such fine tools! This is as good a saw as I've ever held in my hand."

It Takes Years to Build a Reputation

Years ago, when we first used the name "Lakeside," we made a firm resolution that it should never appear on anything but the very best hardware.

We have followed that policy ever since. One failure would have injured the good name of Lakeside. But we have kept our resolution, and today "Lakeside" is a symbol of the highest standard of hardware excellence, as dependable as any of the other nationally known brands.

While Lakeside quality is recognized by most skilled workmen and leading contractors everywhere, there are still some who judge Lakeside quality by our low prices. To them we say, with all confidence "Compare them with the finest."

MANAGER HARDWARE DEPT.

An Improved Door Set for Your Garage

Famous "Around-the-Corner" Construction

Doors Slide Around the Corner, Inside the Garage Out of the Way—Easy to Operate—Saves Space—Cannot Blow Shut—Easily Installed by Anyone

When building a new garage or repairing an old one, you must bear in mind that your doors are the most important part of the building. You will want doors that will roll easily and allow the widest possible opening, thereby avoiding broken and marred fenders on your car. In offering you this Around-the-Corner-Door Set, we give you all of these advantages. We include with each set easily read instructions for installing. This set can be used also on barn doors.

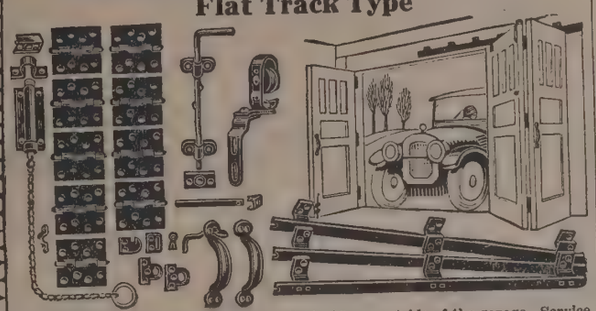
Will Fit Any Garage—Everything Included

This 3-door garage equipment operates on the inside of the building out of the weather. Permits two doors to slide around the corner either to the right or left hand side of the building, using one door as a convenient passage door. This arrangement gives you practically an opening the full width of the building. It is recommended for openings up to 9 feet in width, using three doors not weighing over 100 pounds each. Low first cost, ease of application and long satisfactory service makes this equipment the most desirable you can buy.

The set includes the following: Three swivel, reversible type hangers with vertical adjustment. The wheels of cast iron, 2½-inch diameter, have hardened steel axles with lubricated roller bearings. Oil holes in hanger housing permit further easy lubrication. Sixteen ft. of track in three sections; three 6-inch heavy strap hinges; three 10-inch extra heavy "T" hinges; one thumb latch; two door pulls; one guide and one stop. Entire outfit black japanned finish. All necessary bolts and screws included. Ship. wt., complete set, 31 lbs. $4.85

484 F 3915—Per set..... $4.85

Folding and Sliding Garage Door Set Flat Track Type



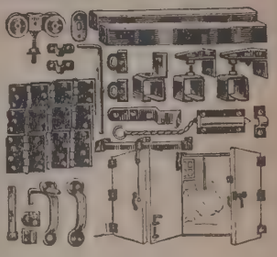
This Three-Door Combination works inside or outside of the garage. Service door operates independent of the other doors and can be fastened to either right or left hand jambs, as desired. Another combination can be made so that all three doors fold to one side. Can be operated either to the right or left. One set gives you full equipment for one-car garage. Two sets for two-car garage. For three doors not over 1¾ inches thick, and not over 100 lbs. per door.

Outfit consists of one roller bearing hanger, 4½ pairs of 4 by 4-inch butts; 2 door pulls; thumb latch; bottom bolt; chain bolt; three 28-inch sections carbon steel rail; 4 brackets and all screws and bolts, with complete, simple, easily read, instructions for installing. Shipping weight, 16 pounds. $3.75

484 F 3916—Complete outfit..... $3.75

Folding and Sliding Garage Door Set Trolley Type

$5.95



Operates inside of the building out of the weather. Can be installed in an opening not over 9 feet wide, using three doors and not weighing over 125 pounds per door. Two doors slide and fold to either right or left hand jamb, as desired. Gives you practically a 9-foot clear opening. The track is box type, made of 18-gauge high quality steel with round troughs for the hanger wheels to run in; is stronger and assures easier and straighter running of hanger without any side friction.

Outfit consists of 1 roller bearing 4-wheel trolley hanger—wheels run inside of the track thereby protecting the hanger from the weather—7 feet of trolley track, in two sections; 1 center bracket; 1 intermediate bracket; 1 end bracket; 4½ pairs, 4 by 4-inch butt hinges; 1 thumb latch; 2 padlock eyes; 1 door pull; one 6-inch chain bolt and one 12-inch bottom bolt; complete with all necessary screws and bolts with simple, easily understood instructions for installing. Entire outfit black japanned finish. Shipping weight, complete, 25 pounds. $5.95

484 F 3914—Complete outfit..... $5.95

Garage Door Holders

Swing your doors out, and when they reach the proper angle, the small lug automatically drops into place and holds them rigid and steady. A light compression on the spring releases the lug and the doors swing back freely. Length, 31 inches. Sold in pairs, one for each door. Ship. wt., per pr., 5 lbs. $1.95

584 F 3897—Per pair..... $1.95

Chain Bolt

60¢

Wrought steel; reversible. Length, 6 in.; ¾-in. bolt with 2 feet of chain and screws included. Ship. wt., 1 lb. 8 oz.

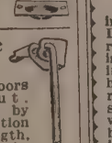
84 C 3544—Each 60¢

Foot Bolt

Six-inch plate. Bolt is ⅝ inch. Bolt can be locked or released by foot. Screws included. For store and garage doors. Japanned finish. Holds door tight. Ship. wt., 1 lb. 8 ounces.

84 F 3546 60¢

Loose Leg Garage Door Holder



Prevents garage doors from blowing shut. Raised or lowered by foot. Held up in position when not in use. Length, 10 in. Ship. wt., per pair, 2 lbs.

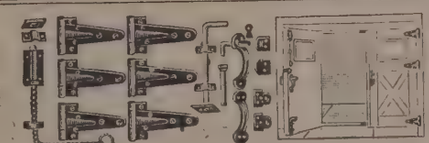
Popular Swinging Door Garage Set

$2.79



Save at least two dollars on this Garage Door Set. Can be used on either light or medium weight doors. Suitable for garages and barns.

Outfit consists of three pairs of 10-inch reverse pad "T" hinges—we do not put this set up with light 8-inch hinges as they are not practical a 6-inch chain bolt; a 12-inch bolt, both of which fasten the doors on the inside. Also furnished with a door pull and thumb latch with padlocking device. The eyes for padlocking latch are separate so doors may be locked from either side. All hardware is black japanned finish. This outfit is simple and easy to install. All necessary screws and bolts included. Shipping weight, 20 lbs. $2.79

84 F 3918—Complete outfit..... $2.79

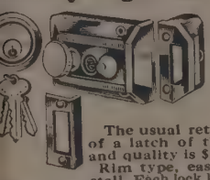
Safety Night Latch



The usual retail price of a latch of this kind and quality is $2.50. Rim type, easy to install. Each lock keyed differently. Three keys. Cylinder, bolt and knob solid brass. Japanned case, 3⅝ by 1⅝ inches. For doors, ⅞ to 2⅜ inches; opening in or out. Screws included. A safety assurance for every house. Shipping weight, 1 pound 8 ounces.
84 F 3210..... $1.39

Segal Jimmy-Proof Night Lock

This Night Latch gives you protection. The front of the case interlocks with the strike or keeper so they are inseparable when the door is closed. This makes it impossible to force the door away from the jamb when the latch is locked. Made of malleable iron, which makes this lock practically unbreakable. Black rust-resisting finish. Size, 3⅞ by 2½. For doors 1¼ to 3 inches thick. Ship wt., 1 lb.
84 F 3208..... $2.49

Segal Jimmy-Proof Lock

Recommended and specified by burglary insurance companies on account of its protective features. The interlocking bolt keeps your door from being pried open with a jimmy. Can be used on swinging or sliding doors. Made of solid bronze metal which is practically unbreakable and rustproof. Each lock is keyed differently. Polished bronze finish. Size, 4¾ by 2¾ in. For doors 1¼ to 3 in. thick. Ship. weight, 1 pound 8 ounces.
84 F 3209..... $4.49

New Improved Lakeside Handsaws

TRADE MARK

Taper Ground-Will Not Bind or Buckle
Mirror Polish-Keen Edge-Correct Hang

$1.98

26-Inch

LAKESIDE IMPROVED SAWS are made by one of the world's largest and oldest saw manufacturers, with a reputation for making only the best. They are guaranteed to cut easier and faster, and hold their edge longer, than most other saws. Blades are of a special crucible alloy steel, analyzed and found to be the finest material for use in saw blades. Hard and tough, yet very flexible. They file easily, are of even temper and free from hard or soft spots. Taper ground throughout, one gauge thinner at the butt on the back and four gauges thinner on the back at the point—like illustration of tapered saw, shown at right—positively assuring clearance, thus preventing binding or buckling. Mirror-polish finish, hand-filed and set ready for use.

Every Lakeside Saw Has the Right "Hang"

Handles are seasoned selected hardwood Mahogany finish, with new improved roomy grip, set at a new angle to give the correct "hang" which experts demand. Fastened with four brass nickel-plated screws. This saw feels right in your hand. Thousands are now giving satisfactory service. After you try the Lakeside you will say it's the best saw you ever used. Furnished in either skew or straight back.

LAKESIDE SKEW and STRAIGHT BACK SAWS

Favorites for general use about the farm or in the shop. Thin back, ground to a perfect taper. Hand-filed and set. Will give a lifetime of satisfactory service. Equal to any $3.50 to $4.50 saw on the market.

Lakeside De Luxe Hand Saws

TRADE MARK

Finest Saw Made

Skew Back

$3.25

20-Inch

The Lakeside "De Luxe" Saws are made and designed for the skilled carpenter or mechanic who wants the best money can buy. A finer Saw could not be made at any price. This quality would cost you at least $5.50 to $6.50 elsewhere in the 26-in. size. Made from special analysis crucible alloy steel. Uniform in thickness on the cutting edge; thin back, four gauges taper ground. True, uniform temper. Teeth hand filed and set. Fitted with our perfect pattern, polished genuine walnut handle, securely fastened with four brass, nickel plated screws.

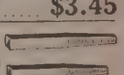
Genuine Cleveland Ezy-Out Screw Extractors

For years the removal of a broken-off set screw has been one of the meanest of all repair jobs. Now instead of fussing for hours with files, punches or drifts, merely drill a hole in the broken screw, insert the proper size Screw Extractor, turn to left; the twisting forces spirals to grip the side of the drilled hole and then as additional force is brought to bear, the screw is easily withdrawn, without endangering the threads of the hole. This set includes six extractors capable of handling any size bolt, cap or set screw from small electrical parts to 1 inch studs.

84 F 1065—Shipping weight, 2 pounds..... **$3.45**

Jiffy Stud Bolt and Screw Extractor



Will remove the most stubborn bolt. Made of forged steel. Sizes, 1/4, 5/16 and 3/8 inches. Shipping weight, 8 ounces.

84 F 1072—Set of 3... **$1.25**

Precision Breast Drill

$2.35

This high-grade Breast Drill usually retails for $4.50 and is one of the greatest values in our hardware department. Many uses will be found for it daily around the house, shop or garage. Size, 17 1/2 inches; has two speeds easily changed for fast or slow cutting. Ball bearings at the end of spindle, (entirely protected from dust) make this tool run easily. Cut pinion gear entirely protected with frame to prevent injuries to the hands and also increases the strength of the frame. Hard-wood stained handles fitted with nickeled ferrules. Chuck takes up to 1/2-inch straight shank drills. Chuck is full polished. Has black japanned frame. Ship. wt., 6 lbs. 8 ounces.

84 F 1264.... **$2.35**

Ward's Special Hand Drill

$1.10

Specially Recommended For Radio Work

A large purchase has enabled us to reduce the price of this Hand Drill one-half. A sturdy drill with solid steel frame; very useful for radio, electrical and other work around the house, farm or shop. Meets a demand for a small hand drill with three-jaw chuck that holds straight shank drills up to 1/4-inch. Chuck has protected springs. Cut gears and steel pinions. Chuck and frame plated, large gear painted red. Hardwood stained handle. Entire length, 11 1/4 inches. Shipping weight, 2 pounds.

84 F 1288..... **$1.10**

Genuine Millers Falls Two-Speed

Ball Thrust Bearing Combination Breast and Hand Drill No. 980

$3.79

Because of its size and chuck capacity this Drill will serve almost every drilling purpose. Cut gears, two speeds, a half turn on the knurled barrel changes the speed without removing the drill from the work. Has a three-jaw chuck. Capacity, 0 to 3/8-inch straight shank drills. Length, 15 3/4 inches. Ship. wt., 3 pounds.

Jack Style 5

Material and Workmanship Unexcelled

FOR real service, no better Planes are made than our Lakeside. They are the product of one of the oldest and largest plane manufacturers, and carry our full guarantee of material and workmanship. Remember, we never sacrifice quality to make a low price.

A Lakeside plane will stand rough, hard usage and is a necessary tool for any household or shop. Made of cast iron, free from flaws and accurately machined. Sides and bottom accurately ground and polished; has complete adjustment. Cutter is highest grade crucible alloy steel, extra tough, and will hold a keen edge.

35 Piece Speeder Socket Wrench Set

Set Makes Over 500 Combinations and $8 Is the Usual Retail Price

We now offer an even greater saving on our most popular Socket Wrench Set by adding a valve grinder and furnishing improved ratchet wrench. Designed for use on automobiles, tractors, threshers, trucks, and all farm implements. The outfit consists of 19-inch speeder handle; 12-inch speeder handle or rim wrench; combination T-handle or an offset handle; improved ratchet wrench; adjustable valve grinding tool; long and short extension bars and extra heavy universal joint, all interchangeable; also eight square sockets with ⅜ to ⅞-inch openings and nineteen hexagon sockets with ⅝ to 1¼-inch openings. Over 500 combination wrenches can be made from this set.

Extra heavy knurled sockets that will not chip, crack or twist. All sockets and handles are made from high carbon, cold rolled steel. Sockets are also tapered to get in small openings. Entire outfit except universal joint is finished in burnished nickel. Sizes are marked on all sockets. Packed in a strong cardboard box. Shipping weight, per set, 12 pounds.

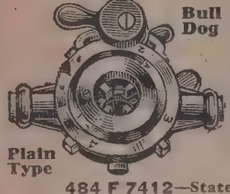
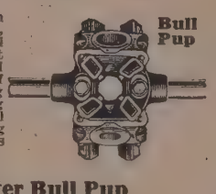
Genuine Oster Pipe Stock and Dies



No backing off the finished thread with an Oster Bull Dog. Just throw a lever, the dies open up and you can lift the tool right off the pipe. Tools can be set to cut oversize or undersize as well as standard threads, quickly and easily. Each set of dies threads two sizes of pipe. Bull Dog Die Stocks are made with a self-centering guide suitable for all sizes the tool will thread. This does away with changing pipe bushings and there are no set screws to lose or break off.



484 F 7412—State size wanted.

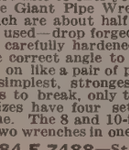
Genuine Little Giant Pipe Wrench

65¢
8-Inch



Small Illustration Shows 8-10 Inch Size

At last we are able to offer you the Genuine Greenfield Tap & Die Co.'s little Giant Pipe Wrench at our usual low mail order prices which are about half what dealers charge. Only the finest steel is used—drop forged and heat treated throughout. The jaws are carefully hardened and tempered, and the teeth are cut to the correct angle to get the best non-slipping grip. The jaws slip on like a pair of pliers, and bite quickly and positively. The simplest, strongest pipe wrench we know of—no springs or pins to break, only three sturdy parts. The 14, 18 and 24-inch sizes have four sets of jaws, making each four wrenches in one. The 8 and 10-inch sizes have two sets of jaws, making each two wrenches in one.

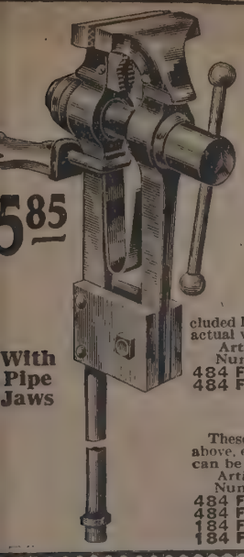
Blacksmiths' Solid Box Vises



$5.85

With Pipe Jaws

Two Vises in One With Pipe Jaws

It actually does the work of two—a Blacksmiths' Regular Vise and a Pipe Vise. Either one of these would cost you about as much money if bought locally as we ask for this combination vise. Every blacksmith, garage man, mechanic, plumber and farmer needs a vise that will tightly grip pipe as well as other materials.

Sturdy Construction Throughout

They are strongly constructed throughout and perfectly balanced. Made of forged steel with specially hardened tempered steel jaws that hold all materials with a firm, positive grip and will not chip or crack. Pipe jaws are made of forged steel. Solid thread box and strong steel screw have deep, accurately cut threads. The long sturdy leg fastens to the floor making the vise firm and binding. With each vise is included lag screws for fastening to a bench. Shipping weight same as actual weight.

Article Number	Width Jaws	Takes Pipe	Actual Weight	Each
484 F 6871	4 inches	⅛ to 2 in.	35 lbs.	$5.85
484 F 6875	5 inches	⅛ to 2½ in.	50 lbs.	6.85

Standard Blacksmiths' Vise Without Pipe Jaws

These Vises are the same in design and construction as those listed above, except they do not have pipe jaws. Nos. 184 F 6873 and 6874 can be shipped by freight or express only.

Article Number	Width Jaws	Actual Weight	Each
484 F 6870	4 inches	35 pounds	$4.20
484 F 6872	5 inches	50 pounds	5.15
184 F 6873	5 inches	70 pounds	7.25
184 F 6874	6 inches	100 pounds	9.95

Genuine GREENFIELD "Little Giant" Screw Plates

It is still possible for us to offer you the Genuine Little Giant Screw Plates at prices less than retailers ask for ordinary sets. Taps and dies are made from specially selected steel which will hold their cutting edge a long time. The die stocks and collets are light and strong and warranted not to break. The tap wrenches are drop-forged steel with hardened tool steel jaws, and will last a lifetime. All the tools are beautifully finished. Packed in a handsome oiled and varnished hardwood case.

$12.85 A Set

Every Farm or Shop Needs a Screw Plate

Will save you time and money, prevent delays and keep your farm implements in good repair. Make your own eye bolts, studs and cap screws. Jammed, rusty threads can be made like new.

One Piece Swedish Steel Anvils

$9.95

70-Pound Size

IMPORTED direct from Sweden in tremendous quantities to make possible this low price. You save at least 5¢ a pound when you order your Anvil from Ward's. Swedish steel is recognized as the finest for anvils. These anvils are of sturdy one-piece construction and are correctly shaped with extra wide base to prevent tipping. Long, perfectly shaped horn. Face is trued and smoothly polished. Has hardie and pritchel hole. Every anvil is tempered perfectly and rings like a bell. Shipping weight same as actual weight.

Estimated Freight Charges per 100 pounds: 150 miles, 33¢; 300 miles, 40¢; 500 miles, 74¢. Read Page 306.

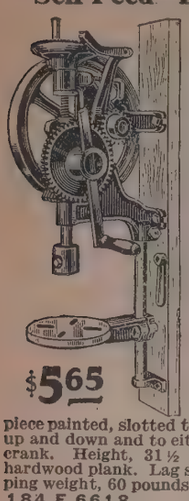
Combination Anvil, Vise and Drill

This combination Vise, Drill and Anvil is one of the handiest tools for farm, shop or garage, that one could possibly buy. The body and jaw are made of semisteel. The draw bar, screw handle and drill arbor are made of machine steel. The screw has square machine cut threads. With the drill attachment a ½-inch hole can be drilled through ½-inch solid iron in 5 minutes. The chuck is ball bearing and holds round shank drills. Jaws are four inches wide and open to 6 inches. The anvil has steel face, with steel hardie included. Length over all when closed is 19 inches. Shipping weight, 45 pounds.

484 F 6863.....$4.35
484 F 6862—Same as above, except with plain bearing chuck.....$4.10

Post Drills

Self Feed—Ball Bearing



An excellent Drill for use around farm or in shop. Study its construction and you will be convinced it is an unusual bargain.

Easy to Operate

This drill is so geared that each turn of the crank produces two revolutions of the flywheel which develops great momentum. Chuck holds ½-inch round shank drills. Will bore up to ¾-inch hole to center of a 12-inch circle. Greatest distance between table and spindle, 9 inches. Has 12 by 1¼-inch flat face flywheel which can be used with belt if desired. Spindle, ⅞ inch in diameter with up and down run of 3 inches. One-piece painted, slotted table is adjustable both up and down and to either side. Adjustable crank. Height, 31½ inches. Mounted on hardwood plank. Lag screws included. Shipping weight, 60 pounds.

$5.65

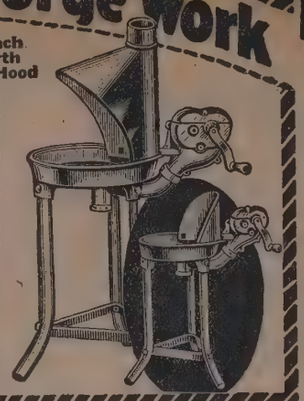
Do Your Own Forge Work

$6.75 18-Inch Hearth With Hood



WITH this low priced, light-weight, handy farm Forge you can save considerable money by doing your own blacksmith work. Produces sufficient blast for almost any job on the farm, in the shop or garage. The 8-inch fan is driven by machine-cut gears, which run smooth and noiseless in a dustproof oiltight gear case of cast iron, which insures rigidity.

Hearth is heavy steel and stands 30 inches above floor. Legs are strongly braced and bolted to hearth with heavy steel leg-sockets. Gear ratio 42 to 1, making a steady high pressure blast sufficient to heat a 3-inch iron bar in ten minutes. Crank turns easy, either direction.

184 F 6518—With sheet steel hood and 18-inch hearth. Entire height, 51 inches. Ship. wt., 55lbs. $6.75

184 F 6517—With 12-inch sheet steel shield and 18-inch hearth; 40 inches Ship. wt., 50 lbs..... $6.25

LARGER, HEAVIER FORGE

184 F 6507—With sheet steel hood and 24-inch hearth. Entire height, 54 inches. Ship. wt., 70lbs. $10.50

184 F 6509—With 12-inch sheet steel shield and 24-inch hearth; 40 inches. Ship. wt., 65 lbs..... $9.50

General Utility Geared Forges

$16.75

With Hood

Save time and money by making your own repairs. Suitable for boiler makers or for heavy farm use. Blower has 10-inch fan case. Oiltight and dustproof gear case. Smooth running, easy turning and noiseless. A turn of the crank in either direction gives a strong steady high pressure blast. Cast iron hearth, 23 by 30 inches. Burns soft coal, charcoal and coke. Height to top of hearth, 30 inches. With steel hood. Four sturdy braced legs. Shipping weight, 130 pounds. See "Estimated Total Freight Charges" at left.

184 F 6516..... $16.75

Ward's Heavy Duty Forges

$29.75

Heavy and substantial throughout. Hearth of cast iron, 32 by 45 by 3 inches. Will heat a 4-inch bar of iron to a welding heat. Diameter of fan case, 12 inches. Height to top of hood, 64 inches. Shipping weight, 300 pounds. See "Estimated Total Freight Charges" at left. $29.75

184 F 6525..... $29.75

184 F 6524—Same as above, except with water tank. Ship. weight, 330 pounds.. $31.25

Powerful Blast Blowers

Big Value Blower

Built with high speed helical gears, giving 48 revolutions of the blast wheel to one turn of the crank, and the gearing is enclosed in a dustproof, oiltight case. Smooth running, with crank turning either direction to make the blast. Complete with a ball tuyere iron and pipe. Head adjustable to allow for proper placing of tuyere iron. Ten-inch fan case. Height, 44 inches. Shipping weight, 60 pounds.

184 F 6543....$8.50

184 F 6544—Similar to above, except larger and more powerful. 12-inch fan case. Height, 46 inches. Shipping weight, 88 pounds. .$12.00

Easy Running Ball-Bearing Blower

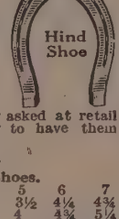
$23.50

Made by one of the largest manufacturers of blowers and fully guaranteed to be equal in quality, workmanship and operation to any on the market, regardless of price. Spiral bronze gears mesh 8 teeth at once, which prevents lost motion. Ball bearings throughout. Shaft is tool steel. Crank turns in either direction. Diameter of fan case, 12 inches. Anti-clinker tuyere iron included. Entire height, 48 inches. Ship. weight, 160 pounds. See "Estimated Total Freight Charges" above at left.

184 F 6540..... $23.50

Drop-Forged Horseshoes

Toed and Heeled



At last—something that has long been needed—Horseshoes that can be shaped and fitted without heating. Simply shape the cold shoe over anvil horn and nail on the hoof. Shoes have blunt toe and heel calks that can be hammered sharp if so desired for slippery pavements.

All have countersunk nail holes. You don't have to be a blacksmith to put on these shoes—any handy man can fit them with the aid of an anvil and hammer. With this style of shoe every farmer can do his own shoeing, thus saving time and money. Our prices for these high-grade drop forged shoes are about one-half those usually asked at retail elsewhere. Order a supply now to have them handy when needed.

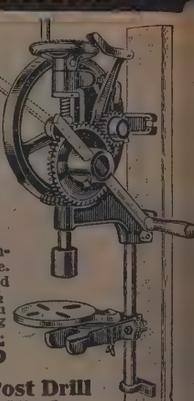
Two Speed—Self Feed Ball Bearing Post Drill

$7.65



Crank fits hub in flywheel for slow speed. Holds ½-inch round shank drills. Will bore up to ⅞-inch hole to center of 12-inch circle. Lathe turned table can be raised or lowered 9 inches. Flywheel, 12 inches in diameter with 1¼-in. face. Has two-piece forked table arm. Height, 31½ inches. Mounted on hardwood plank. Lag screws included. Ship. wt., 65 pounds.

184 F 6617 $7.65

Heavy Duty Post Drill For Larger Work

Our finest self-feed Post Drill at a saving of at least one-half. Similar to the one above in design but has larger capacity and is more powerful. Suited for the garage, shop or farm as it takes larger work and does it quicker and easier than the smaller type post drills. Bores up to 1¼-inch hole to center of 15-inch circle. Distance from spindle to table, 12 inches with up and down run of 4 inches. Has lathe-turned, adjustable slotted table that can be swung to one side so fork can hand larger work such as wagon wheels. Height, 42 inches. Flywheel, 14-inch diameter, 1½-inch face. Can be used with belt. Mounted on hardwood plank. Furnished with lag screws for fastening to wall or post. Ship. weight, 95 pounds.

184 F 6616..... $9.95

Tested and Guaranteed Highest Quality Wire Rope

6¢ A Foot — $\frac{5}{16}$-Inch

STEEL ROPE OF UNIFORM STRENGTH

COMPARE our prices on Steel Wire Rope with those quoted by most other stores, and you will find ours about one-third. Strictly high quality, thoroughly tested, and guaranteed to be equal to any wire rope on the market.

Genuine Hemp Center

Used generally for dredging, hoisting, stump pulling, derricks, steam shovels, and around oil fields. Six strands of nineteen wires each, twisted around a genuine hemp center. Each wire is carefully tested for tensile strength, proper twist, and against stretching.

We positively guarantee this rope will stand up under the weights shown in the table at right. We do not recommend taxing rope to breaking strain limit, but for long life should be used according to the safe working load figures. **Be sure to state size and length wanted**

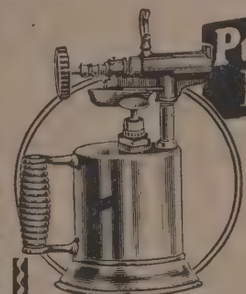
Pump in Tank-Solid Brass Improved Blow Torch



One of the finest Blow Torches we have ever offered and at a saving from $3 to $4. Will produce 400 degrees more heat than ordinary blow torches. Has new type burner of special composition bronze metal. Will burn any grade of gasoline or kerosene. Operates indoors or out with equal efficiency, does not blow out. Produces a steady blue flame of intense heat at low fuel consumption.

The tank is of extra heavy seamless brass. Bottom is shaped to form funnel to permit easy filling. Pump built into tank, making it easy to handle. Fitted with soldering copper holder. A blow torch has numerous uses around the farm, shop or garage for various repair work, radio and electrical work, thawing out frozen pipes, etc.

$4.25 1-Pint Size

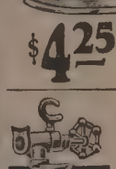
84 F 5221 - Blow Torch with pump in handle. Capacity, 1 quart. Shipping weight, 5 pounds $4.25

Automobile Blow Torch

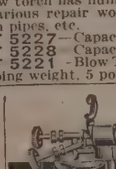
$4.45



Flat for use in places hard to reach. The powerful burner produces an intensely hot flame. Cast support on bottom prevents tipping. Fitted with soldering iron holder. Pump is contained in the handle. Capacity, 1 pint. Entire height, 9 inches. Tank is 2 inches wide and made of seamless brass. This torch is especially suitable for automobile use because of its narrow body which makes it very easy to use in hard to get at places. Our low price will save you at least $2. Shipping weight, 4 pounds 8 ounces. **84 F 5224** **$4.45**

Double Jet Brazing Blow Torch

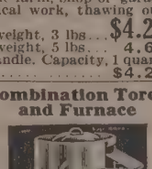
$8.25



Solid Brass Body

A high grade, solid brass brazing and tempering Torch for automobile and general repair work. Has double jet and generates intense heat (3000° Fahrenheit). Will produce large or small pointed flame. Has pump in handle. Capacity of tank, 1 quart. Height, 9 in. Directions included. Ship. wt., 4 pounds. **84 F 5226** **$8.25**

Combination Torch and Furnace



Will melt a pot of lead and heat a pair of coppers at the same time. Operates in wind or coldest weather. Extra heavy steel tank with improved automatic pump. Capacity, 3 quarts. Height, 12 inches. Diameter, 9 inches. Ship. wt., 12 lbs. **484 F 5234** ... **$8.30**

Unusual Bargain

Differential Chain Hoist Weston Pattern

For Garage Shop or Farm $9.50

High-grade Hoists at the lowest prices in years—from $5.00 to $12.00 less than the usual retail price elsewhere.

A hoist is indispensable on the farm, in repair shop or garage. One man may easily raise very heavy loads quickly and safely. Use it for changing wagon and truck bodies, lifting heavy machinery, for wrecking and towing trucks, for removing motors of automobiles and tractors to be repaired. Automatically locks at any point. Made with extra heavy load sheaves, malleable iron yokes and heat treated drop-forged hooks. Enough chain to lift heights as given in table. Carefully and thoroughly tested. These hoists are made by one of the largest hoist manufacturers in the country and are fully guaranteed to be of the finest quality materials and workmanship.

Article Number	Cap. Tons	Lift	Ship. Weights	Per Set

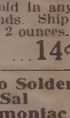
84 F 5211—1-pound can. Shipping weight, 1 pound 2 ounces ..... 45¢



Duro-Rust Resisting Galvanized Steel Slip Joint Eaves Trough and Fittings

No Soldering Needed ~ Easy to Install ~ Our Prices Save You A Third

Finest Quality Materials

Our Eaves Trough, Down Spouting and Fittings are furnished in two thicknesses—heavy 28-gauge and extra heavy 26-gauge. The 26-gauge is fully 20 per cent thicker and heavier than the 28-gauge. We do not sell the light 29-gauge offered by some dealers.

It is easy to put up. Any man can do it. Slip joint is part of trough. No soldering required. This construction is far superior to trough in which the joint is an extra piece. In our trough the joint forms a smooth surface for the water to flow over and leaves no crevices under which water will run and cause rust and decay.

Corrugated Down Spouting

Galvanized steel, corrugated to allow for expansion and contraction and will not burst, even if full of ice. Makes a stiff, strong pipe, and is easily put together. Furnished only in 10-foot lengths. They are made to fit the following eaves troughs:

Size of eaves troughs, inches	3½	4	5	6
Size of conductor, inches	2	2	3	4

Allow 2½ inches on each length for the joints. State size and number wanted.

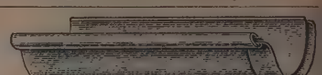
Read This Before Ordering Eaves Trough and Corners

The bead on the trough is always on the outside as you face the building. The slip-joint should be on the end towards which the water flows. Therefore if water flows to right as you are facing the building, order right-hand trough and corners. If the water flows to the left, order left-hand trough and corners.

If your building is difficult to order fittings for and you are in doubt as to what to order, simply write us, enclosing rough sketch of the size of your house, and we will gladly tell you what fittings to order. We give this Engineering and Estimating Service free of charge to Ward's customers.

Galvanized Eaves Trough



Best grade galvanized sheet steel in 10-foot lengths without a seam. One end of each length is made with a slip-joint; quickly put together; requires no soldering. State size wanted.

Steel Pressed Brick Siding

This Metal Siding is used where a very inexpensive and easy-to-put-on covering is desired. In appearance it is a great improvement over flat sheets and the additional cost is very small. It is being widely used on residences, barns and garages because of its fine appearance. It is not affected by heat, cold, ice, snow, wind nor hail. A positive protection from fires and when properly grounded, protects from lightning. Annealed (toughened) sheet steel, heavy 28-gauge. Each single brick, 2⅔ by 8¼ inches. In sheets, 28 by 60 inches, 11⅔ square feet to the sheet. About ¾ pound of ⅞-inch roofing nails required to apply one square. Nails not included. Shipping weight, per sheet, painted, 7 lbs. 8 oz.; galvanized 8 lbs. 8 oz.

284 F 5012—Painted. Per sheet ..... 39¢

Duro
Best Quality Steel Roofing and Siding

Costs Less~Lasts Longer~Easiest to Apply~Makes Old Buildings Look Like New~Is Weather, Fire and Lightning Proof

Protects from Lightning

This roofing is approved by the Fire Underwriters as positive protection from lightning, if properly grounded.

Steel Roofing Is Fireproof

Buildings with steel roofing get low insurance rates because they are protected from fires caused by falling sparks.

Weather-Proof—Rust-Resisting

Used everywhere on residences, barns and outbuildings because of its fine appearance, low cost, long life, and many other advantages.

Easy to Apply

Light weight and rigid strength makes it possible to do away with the heavy, costly structural work that must ordinarily be used. It can be applied easily over old shingles or old buildings, making them like new. No skilled labor is necessary and the only tools needed are a hammer and pair of tinner's snips. No soldering is required.

Free Estimating Service

If in doubt as to number of sheets you will need write us, giving size of space to be covered. We will gladly estimate the amount you require.

"V" Strips

For V-crimped roofing and siding. Used in V's in crimped roofing and siding so sheets can be nailed to building. Shipping weight, 100 feet, 20 pounds.

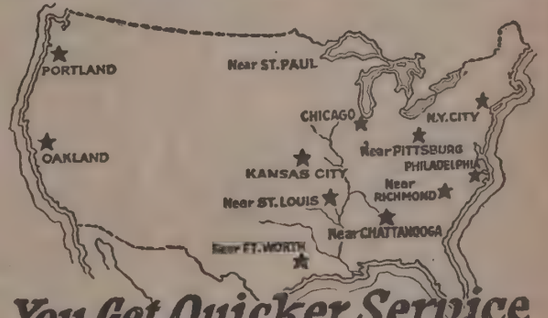
Now Shipped Direct From a Warehouse Near Your Home

One Price From All Points

IN EACH of the points indicated on the map, we stock Steel Roofing for immediate shipment. When you buy roofing from a dealer, he includes in his price the freight charges at less-than-carload rates from factory to his place of business. When you buy steel roofing from Ward's, you get the full benefit in our low prices of carload rates from factory to our warehouse near you. Send your order to us at Baltimore, and we will guarantee to save you money in freight and give you quicker service by shipping from a warehouse closest to you.



A Quality Roofing At a Saving

Duro Steel Roofing and Siding comes in two styles—Corrugated and V-Crimped. Both are made of the best open hearth sheet steel in either 26, 28 or 29-gauge, and will give years of satisfactory service. The 26-gauge is heaviest and is strongly recommended for permanent buildings. Our low price for 26-gauge is less than most dealers ask for lighter grades.

Duro Corrugated and V-Crimped roofing and siding are furnished either galvanized or painted. The galvanizing is done by cleaning the uncoated sheets in a chemical solution, then passing them through pure molten zinc. Duro Painted roofing is the same fine quality sheet steel without galvanizing but painted on both sides with best quality red oxide paint.

Duro V-Crimped sheet steel is highly desirable for roofing because of the extra tight joint of the V-Crimp. The 1¼-inch corrugated sheet steel serves equally well for siding and roofing purposes.

You Get Quicker Service And Save on Freight

How to Estimate Freight Charges

The table below shows the shipping weight PER RUNNING FOOT on both Corrugated and V-Crimped Metal Roofing. Suppose you live about 150 miles from our nearest distributing point and you want eight 6-foot lengths of 28-gauge galvanized roofing. Eight sheets, each 6 feet long, make (6x8=48) 48 RUNNING FEET. The table below shows that the weight per running foot on this gauge is 2 pounds, therefore, the total shipping weight would be twice 48 or 96 pounds. The estimated freight charge for 150 miles is 33 cents per 100 pounds, therefore, the freight charges would be in the neighborhood of 33 cents.

Shipping Weights Per Running Foot

29-Gauge Galvanized Roofing	1¾ pounds
28-Gauge Painted Roofing	1½ pounds
28-Gauge Galvanized Roofing	2 pounds
26-Gauge Galvanized Roofing	2¼ pounds

Estimated Freight Charges Per 100 Pounds in less than Car lots: For 150 Miles, about 40c; for 300 Miles, about 69c; for 500 Miles, about $1.16. Read Page 306.

Corrugated Steel Roofing

Each sheet of Duro Corrugated Steel Roofing is actually 26 inches wide, but covers only 24 inches, or 2 feet, because of the side lap. It is easy to order Corrugated Roofing. Simply divide the number of feet in the width of the surface to be covered by two (the width of each sheet). This will give you the number of sheets across one row. It is a simple matter then to figure the total number of sheets needed. You can order the sheets in any lengths from 5 to 12 feet. Allow 4 to 6 inches for end lap, according to the pitch of the roof. We recommend the 1¼-inch corrugated for roofing and the 2½-inch corrugated for siding. The 26-gauge galvanized is heaviest and least expensive in the long run. Order one pound 1¾-inch roofing nails for each 100 square feet of roofing and include ridge roll and lead washers with your order.

Our Low Prices

Dealers usually quote metal roofing by the "square" of 100 square feet. For your greater convenience we quote prices "per sheet." If you compare prices ask the dealer to tell you his price per sheet and you will at once see that we save you about one-third of the usual retail price.

V-Crimped Steel Roofing

Duro V-Crimped Roofing comes in sheets 24 inches from center to center of outside crimps, so no allowance need be made for side laps. This makes it easy to order. Allow 4 to 6 inches for end laps according to the pitch of the roof. We strongly recommend the galvanized and it is advisable to order the 26-gauge for longest service. Order 1½ pounds of 1¾-inch roofing nails for each 100 square feet of 2-V-Crimped, and 3 pounds for each 100 square feet of 3-V-Crimped. Also include ridge roll and lead washers, if used. For an extra tight roofing job we recommend the use of wood V-strips. See 284 F 5005 on this page. These are inexpensive and make it easy to fasten the laps in a perfectly water-tight manner. It is not absolutely necessary to use these strips but the small expense is well justified by the results.

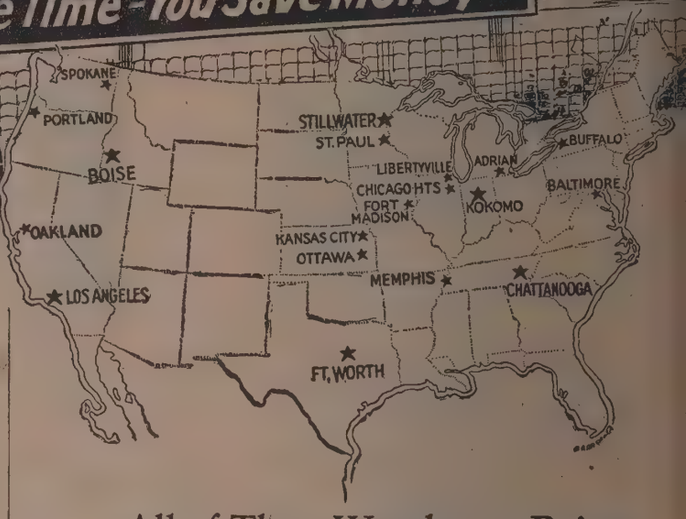
No Matter Where You Live --
WARD'S QUALITY FENCING
Shipped Direct From Warehouse Near Your Home
You Save Freight—You Save Time—You Save Money



Guaranteed for Five and Ten Years

GUARANTEED Fencing is safe fencing! Ajax, of fourteen-gauge wire or heavier, is guaranteed to give you ten years of satisfactory service. Ajax, of lighter than fourteen-gauge wire, is guaranteed to give you five years of satisfactory service. And we could show you dozens—yes, hundreds—of farms where Ajax Fencing has given good service for years beyond the guaranteed time.

Many other concerns sell many kinds of fencing—good, bad, and indifferent. Some of it is guaranteed. In buying from Ward's, you are dealing with a house which has been selling guaranteed merchandise for fifty-five years. And you **know** you're getting quality!

Thirty Days Free Trial—You Save on Factory Prices

Testing a sample means nothing. That is why we do not send samples of Ajax Fencing.

Instead, we urge you to send your order for Ajax Fencing and test it for thirty days. Test the galvanizing. Put up a rod or two of Ajax and see how it stretches. Test it in every way. If you aren't thoroughly satisfied, return it within thirty days and we'll refund everything you've paid, including freight both ways.

We can make this offer because we know the quality of Ajax—made in our own factory from the best galvanized wire, drawn to our special order.

Because we manufacture Ajax Fencing and sell it direct to you, the price is much lower than your local dealer asks for fencing of the same high quality. Your dealer buys from a jobber, who buys from a manufacturer, and all three make profits. You save two of these profits when you order Ajax Fencing.

It's guaranteed full weight and full measure, 16½ feet to every rod, and every wire is the full gauge size. Nothing is spared in our fine modern factories to make Ajax a mighty good fencing in every particular. Yet you can buy it for less than you'd pay elsewhere for ordinary fencing.

All of These Warehouse Points Have Been Established for Your Convenience

Time and money are saved for you by Ward's many warehous conveniently located so that no matter where you live, you will rece your Ajax Fencing within a few days and the freight charges will small. Under this system of distribution you save money on freight well as on the factory price of Ajax Fencing—a double saving—a you'll be delighted with Ajax quality.

Ajax Prices Include Prepaid Freight To Our Nearest Warehouse

When we ship Ajax Fencing to these Nineteen warehouses, we ha the advantage of the low carload freight rate. That is included in c price to you. All you have to pay, then, is the "short-haul" rate fr our nearest warehouse. This means that the total cost of your Aj Fencing, delivered to you, will be but slightly more per rod than t rock-bottom prices quoted in this catalogue. Send your order Baltimore. When your Ajax Fencing arrives, compare the total cost w prices you would have paid anywhere else. Remember, your compl satisfaction is guaranteed—and that includes your saving.

Again~Big Savings
AJAX Diamond Mesh Poultry Netting

Woven straight and smooth with a uniform mesh, Ajax Diamond Mesh is as good as any Poultry Netting on the market, and better than most. Will not bulge nor buckle, and is easily put up—a splendid many-purpose netting for poultry yards, tennis courts, and trellises; excellent temporary protection for new lawns or gardens, and a big saving at these low prices, as comparison will prove.

When ordering be sure to include Poultry Netting Staples 84 F 5460 listed on Page 539. See "Estimated Total Freight Charges" on Page 538.

Made in Two Grades

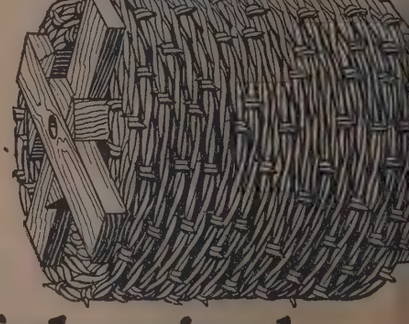
All Ajax Poultry Netting is heavily galvanized. We list two grades: Galvanized before and galvanized after weaving.

We especially recommend netting galvanized after weaving, as this process leaves the twists firmly soldered together by the galvanizing, giving greater strength and durability. Ajax Netting galvanized before weaving is a good grade, however, and will answer most purposes.

$2.25

80-Rod Spool

14-Gauge Cattle



Galvanized Barbed Wire

Priced to Save You Money

Although this is extra high quality Barbed Wire, galvanized wit heavy coating of pure zinc, you'll find the price considerably lower t retail hardware dealers usually ask for ordinary grades. Poultry Raisers—Buy Now!
Ajax Hinge Joint Poultry Fencing
The Greatest Fence Value on the Market
Shipped Direct from Our Factory to You

31¢ A Rod 48 Inches High

The steadily increasing demand we are having for Ajax Hinge Joint Poultry Fencing is positive proof that poultry raisers are finding our prices to be exceedingly low. It is absolutely the best poultry fence value on the market today. Our prices are actually lower than usually asked retail for ordinary poultry netting. Compare the quality, weight and gauge, spacing and height with others and you will be convinced that this is the greatest poultry fence bargain you have ever seen. All wires are full weight and full gauge and heavily galvanized. The top and bottom wires are No. 15½ full gauge; all others are No. 17 full gauge. Line wires are spaced 1 inch apart at the bottom, gradually widening to 4 inches apart at the top. The close spacing means that this fence will turn the smallest chicks. The upright stay wires are spaced 6 inches apart.

This fence, when stretched correctly, stands firm and erect; will not bulge or buckle. Stretches easily over rough and uneven ground. **Sold only in full bales of 10 and 20 rods. We do not cut bales. See "Estimated Freight Charges" on Page 538.**

AJAX Ring Knot Stock Fencing

16¢
A Rod
20 In. High

A Stiff Stay Fence That Stays Rigid Made in Our Own Factories

In order to get the best results in farming or stock raising it is important that you have a fence which is made to fit your exact needs. Ajax Ring Knot Stock Fencing is made in thirteen different sizes and styles, one for every purpose. If you were to have a fence made up to your special order you could not get one which would fill your needs any better than one of those shown on this page.

Every Rod of Ajax Guaranteed

Stiff stay wires of one continuous strand extend from top to bottom and are spaced six or twelve inches apart, making the best stiff stay fence manufactured. The continuous stay wires are tied to the line wires at each intersection with the famous Ajax Ring Knot (also known as staple tie), machine crimped, so it cannot slip. See illustration below at left. Ajax Ring Knot Fencing is also fabricated with a wave or tension curve, to allow expansion or contraction, due to heat or cold.

This type of fence will save you money as it requires fewer fence posts. Always stands firm and erect. Does not bag or bulge.

Years of fencing experience have proved our Ring Knot Fence to be one of the most popular fences ever designed, and each year thousands of customers are added to the list of satisfied Ajax Fence owners.

We manufacture and sell this fencing in two weights or grades, medium and heavy. The medium weight fencing has 11-gauge top wire, and 12-gauge bottom wire; all other wires are No. 14 gauge. The heavy weight fencing has 10-gauge top wire and 11-gauge bottom wire; all other wires No. 13 gauge. All wires are heavily galvanized.

Sold only in full bales of 20, 30 and 40 rods. See "Estimated Freight Charges" at bottom of page.

All the above fencing is shipped from Factory at Baltimore, Md.

AJAX Hinge Joint Stock Fencing

Compare Our Prices with Others We Guarantee to Save You Money

18¢ A Rod 20 In. High

Ajax Hinge Joint or Wrapped Stay Fencing has been popular with farmers and stock raisers for many years. As the first manufacturer to sell this style of fencing by mail, we are naturally in a position to offer you the very best hinge joint fence on the market today at big savings. Twenty-eight styles and sizes, an assortment which includes just the fence best suited to your needs. Designed by experts who know how a fence should be built in order to give the greatest amount of service at the lowest possible cost. Compare our prices, quality and weight with others and be convinced that Ajax Hinge Joint Fencing is the best fence value you have ever seen.

Finest Quality Throughout

We manufacture and sell hinge joint fencing in three weights or grades, heavy weight, extra heavy weight and heaviest weight. The heavy weight has full 10-gauge top wire, and full 11-gauge bottom wire; all other wires No. 13 gauge. The extra heavy weight is made with top and bottom wires No. 9½ full gauge; all others No. 11 full gauge. The heaviest weight fence is made of all 9½-gauge wires. All wires are heavily galvanized.

The upright stays are spaced both 6 inches and 12 inches apart. The line wires and stay wires are joined at each intersection with a hinge joint (see illustration at right of page). This joint is very flexible and permits the fence to spring back into place when subjected to severe shocks or strains. Stretches evenly and easily over rough and uneven ground. Considering the extra quality built into Ajax Hinge Joint Fencing and the low prices that we are offering, it is without a doubt the greatest fencing value of to-day. Buy Ajax and save money. Sold in full bales of 20, 30 and 40 rods only. See "Estimated Freight Charges" below.

Convenient Shipping Points

Shipped from Factory at Baltimore, Md.; or Warehouse at Northwestern Georgia; Northeastern Alabama or Southeastern Tennessee, whichever is nearest you, except heaviest weight, which is shipped from Baltimore only.

Lawn Fencing and Gates at Factory Prices

7¢ A Foot 36 In. High

Fernwood Lawn Fencing

Save One-Third by Buying At Ward's

This fence adds much to the appearance of any home. Protects your lawn as well as beautifies it. Strong enough to keep out trespassers who would trample your grass and damage your shrubbery and flowers. Stray stock cannot get through. Heavy No. 9 gauge galvanized wire pickets are spaced three inches apart and evenly corrugated. Double cable line wires are all No. 12½ gauge and heavily galvanized. They are twisted tightly around each picket and spaced about 6 inches apart. At the top, where strength is most needed, they are only 2½ inches apart. All orders shipped promptly from Baltimore House for any length rolls. See "Estimated Total Freight Charges" on Page 536.

Steel Fence Posts Last a Lifetime

Drive Easy in Any Soil

Carbon Rail Steel With Anchor Plates

22¢ Angle Post 5 Ft. High

At Direct From Factory Prices

27¢ Tee Post 5 Ft. High

Save time and money. Replace your wood posts with Ward's guaranteed Steel Posts. Let your first cost be your last cost. They last longer, make your fence stronger and protect your stock from lightning. They are easy to drive in all kinds of soil. No holes to dig. Anchor plate holds post firm, prevents it from turning and causes fences to line up securely. Will not heave out of ground in freezing weather as wood posts often do.

Of carbon rail steel, painted with special weather-resisting paint. Punched with holes, about 2 inches apart so wire fencing of any mesh can be fastened to posts with staples. Steel posts may be quickly removed when changing fields. Line posts should be set about two feet in ground. See "Estimated Total Freight Charges" on Page 536.

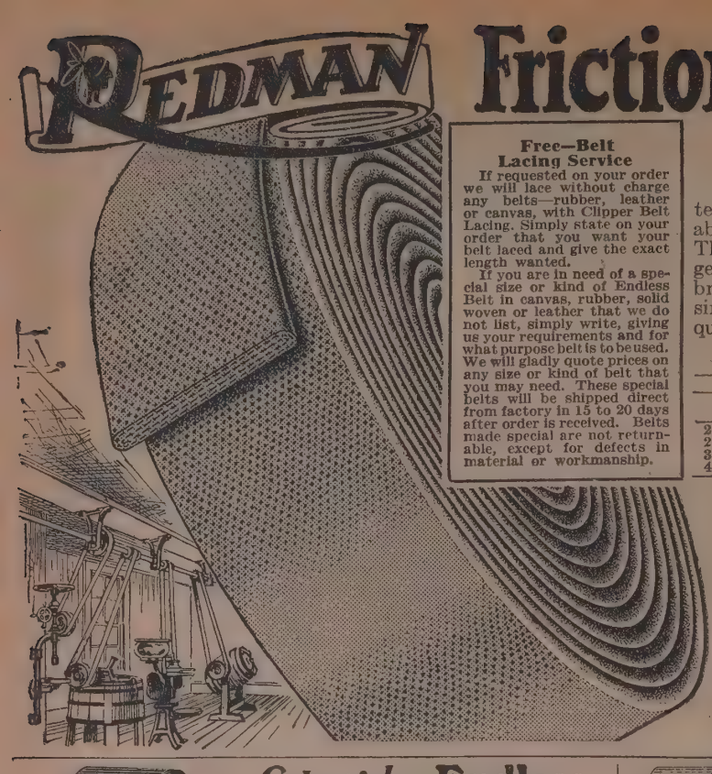
REDMAN Friction Surface Rubber Belting

It Pays to Buy the Best

Free—Belt Lacing Service
If requested on your order we will lace without charge any belts—rubber, leather or canvas, with Clipper Belt Lacing. Simply state on your order that you want your belt laced and give the exact length wanted.
If you are in need of a special size or kind of Endless Belt in canvas, rubber, solid woven or leather that we do not list, simply write, giving us your requirements and for what purpose belts to be used. We will gladly quote prices on any size or kind of belt that you may need. These special belts will be shipped direct from factory in 15 to 20 days after order is received. Belts made special are not returnable, except for defects in material or workmanship.



The very best quality heavy duty Red Rubber Belting possible to manufacture. We guarantee it will give longer, better and more economical service than any other kind of belting. Suitable for any purpose. Constructed of 32-ounce duck of uniform quality and greatest strength. The duck is thoroughly impregnated with a tough rubber "friction" which holds the plies together, yet allows them to give with much flexibility as the belt passes over the pulleys. No breaking-in is necessary. The friction surface prevents slipping and loss of power. All undesirable "stretch" has been taken out. The belt can be run surprisingly loose, with a consequent saving on the bearings.

Red Rubber Belting

Lakeside Endless Red Rubber Farm Belts

We are now offering you a Belt that will give you better service and last longer than any other belt of this weight. Engineers who have spent many years in developing it now pronounce it far superior to any other farm belt made.
A tough red rubber friction surface makes them positively slip-proof. They are thoroughly seasoned, flexible and will not stretch. Require no breaking in. Can be used under all weather conditions. The length of any endless belt means the entire measurement around the belt. On account of the lap these belts will be three feet shorter than the lengths stated below. Be sure to allow for this when ordering.

Water-proof Leather Belting

Of high-grade, firm, select oak tanned leather. Thoroughly oiled and water-proofed. We guarantee that Ward's Water-proof Leather Belting will not be affected by water or oil. Specially suited for use in dairies, creameries, for driving pumps and outdoor use. Our prices are actually less than most wholesalers ask for ordinary belting not even water-proof.

Stronghold Red Stitched Canvas Belting

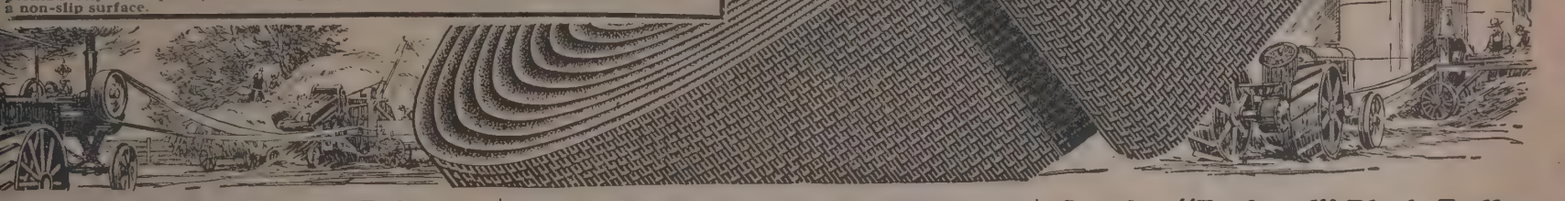
Guaranteed Full 32 Ounce Duck
Waterproof and Non Slipping
The Finest Quality Canvas Belt Manufactured

YOU can save $5 to $25 by ordering your next Red Canvas Belt from Ward's. You make this great saving and get a higher quality, more serviceable belt. Our "Stronghold" Red Stitched Canvas Belts and Belting are the finest quality possible to manufacture, priced lower than others ask for inferior grades. Every belt is backed by Ward's guarantee of "Satisfaction or Your Money Back."

Absolutely Waterproof—Extra Strong and Pliable

Stronghold Belts and Belting are made of specially selected U. S. Standard long fiber cotton duck, carefully and closely stitched, stretched and inspected. Thoroughly saturated in oil, which makes them pliable and waterproof. Then they are covered with a second coat of special waterproofing compound, making them permanently waterproof, and also giving a non-slip surface.

Stronghold Belts always hug or cling tight to the pulleys, giving greater power and a maximum speed. Cold or heat does not affect their flexibility. The length of any endless belt means the entire measurement around the outside, less about 3 feet required to make the lap. Therefore, endless belts, when furnished, will be about 3 feet shorter than sizes stated in tables.



4-Ply Endless Tractor Belts

The following sizes of Red Stitched Canvas Belts are especially suited for tractors such as Fordson, Case, International, but can be used for other purposes. State size wanted.

Article Number	Length	Width	Shipping Weight	Each

Lightning Rods a Sure Protection

Is Your Building a Lightning Target?

The National Board of Fire Underwriters says lightning leads farm fire causes. The U. S. Weather Bureau, the U. S. Bureau of Standards, and the National Board of Fire Underwriters, all advocate the use of Lightning Rods for protection to farm buildings. Even though your buildings be insured in case of fire, it only pays you part of your loss. Ward's lightning rod equipment will cost you much less than the loss on an insured building.

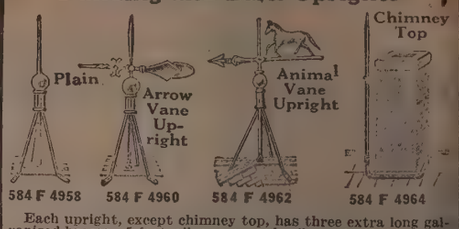
Easy to Install—You Can Do It Yourself

From now on let yourself and your family have the satisfaction of knowing beyond doubt that your lives, your home and your buildings are safe from the danger of lightning. Ward's low prices on high-grade cable and uprights will enable you to protect all your buildings at a fraction of the usual cost of such installation. We furnish simple and complete instructions with each order.

How to Measure

Use a cord to take measurements, as shown by the heavy black lines . Start at one corner of building and come down the opposite diagonal corner. Allow ten feet to go into the ground at each end and wherever else cable is grounded; large buildings should be grounded in three or four places. Uprights should be not more than 20 feet apart. Order necessary cable, uprights and cable connectors.

Building and Barn Uprights



584 F 4958 584 F 4960 584 F 4962 584 F 4964

Each upright, except chimney top, has three extra long galvanized braces, 5-foot all copper rod, silver tip and colored ball. We include T-clamp and screws for installing. Shipping weight of upright outfits only, about 10 pounds.
COLORS: Opal; blue; ruby; silver or gold. State color wanted.

584 F 4958—Plain upright (with ball as illustrated) **$1.50**
584 F 4960—Arrow Vane upright; arrow vane in gilt **2.15**
584 F 4962—Horse, cow or rooster upright. (State choice) **2.85**

Uprights without Ornamental Glass Balls

584 F 4959—Plain upright (same as illustrated, without ball) **$1.15**
584 F 4964—Chimney Top (used where 5-foot uprights do not reach 1½ feet above chimney). Eyebolt and T-clamp included.
6-foot .... **90¢** 8-foot.... **$1.15** 10-foot.... **$1.45**

Pure Copper Lightning Rod Cable

Ward's Lightning Rod Cable consists of pure copper wires woven into a heavy continuous cable. It is approved by the National Board of Fire Underwriters. The 44-strand cable is recommended where lightning is severe. In most localities the 32-strand cable is satisfactory. Single unbroken lengths of cable up to 1,000 feet may be ordered. Each strand is continuous wire of 99 per cent pure copper.

32-Strand cable is 7/16 inch in diameter, same weave and quality of material as 44-strand.

44-Strand cable is 9/16 inch diameter.

484 F 4950—32-Strand Cable. Shipping weight, 100 feet, about 25 pounds. Per foot ..... **9¢**

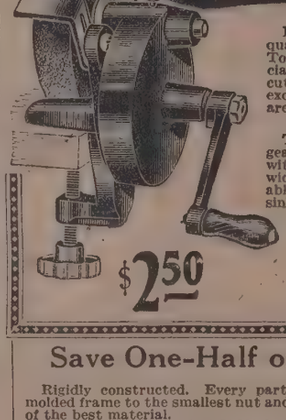
The Finest Grinder We Have Ever Sold
Extra Quality True Running Wheel



$2.50

Even if we charged you more, we could not offer you better quality. You can save at least $2.50 to $4.00 on these high speed Tool Grinders. The wheels are pure corundum, an abrasive specially suited for the high speed at which these grinders run. Wheels cut clean and fast, under very little pressure and without creating excess heat which so often ruins the tool to be sharpened. They are true running and perfectly balanced.

Superior Mechanical Construction of the Gear Case

The gear case is equipped with extra long bearings that keep gears in perfect alignment. This assures quiet, smooth operation, with no vibration whatever. Gears are machine cut and extra wide. Run in oil and dustproof case. Baked enamel finish. Malleable iron crank and sturdy clamp for fastening to bench, table or sink. An unusual bargain that should not be overlooked.

Article Number	Size of Wheels	Shipping Weight	Each
84 F 6670	⅞ by 4 inches	5 pounds	$2.50

Lowest Prices in America on Finest Quality Wire Screen Cloth

6½¢ A Foot 24 Inches Wide 14-Mesh Galvanized

Duro Gives Double the Service of Ordinary Screening—True Mesh—Unusually Clearvision—Mosquito-Proof—Guaranteed

DURO is the finest Screen Cloth possible to buy—there is none better made. We guarantee it to give you double the service of ordinary screen cloth. Nowhere else in America can you buy screen cloth of equal quality fully guaranteed at these prices, actually below those usually asked locally for the grade which as a rule lasts only one or two seasons. Only by buying in tremendous quantities direct from the manufacturer to save you all the middleman's profits are we able to offer such unusually low prices. A bargain no home owner can afford to overlook.

Duro has a perfect square mesh with unusually clear vision. Is practically insectproof. The upper picture at right shows a home enclosed with Duro Screen Cloth which assures complete comfort and satisfaction. If you would imagine how ordinary screen cloth wears, see the illustration below showing the bulges and large rust holes after being used a season or two.

Duro is made in three styles—galvanized, copper bronze, and black. We always recommend the galvanized or copper bronze because they will last longer. If you are in any doubt as to how much screen cloth to order, simply write us, enclosing a rough sketch and we will gladly figure the amount needed for your particular job. This service is free.

Galvanized Screening

Duro Electro Galvanized. We replace free of charge any of our Duro galvanized screen cloth that may prove defective within three years, except when used in regions exposed to salt sea atmosphere. Drawn Bessemer steel wire. After weaving it is electro plated with 14 coats of chemically pure zinc and given a final coat of lacquer. Chemical analysis shows it to contain from 50 to 150 per cent more pure zinc than any other make of electro galvanized cloth.

Copper Bronze Screening

Duro Copper Bronze. The finest of all Screen Cloths and will last as long as the screen frames themselves. Hard drawn slightly oxidized bronze wire guaranteed to be 90 to 92 per cent pure copper. Copper bronze is tough and springy and will stand unusually hard service and is weather resisting to a remarkable degree. It is highly recommended for use in sea coast towns where the damp salt air quickly attacks other metals. The mesh is uniform and perfect throughout.

Standard Black Screening

Duro Standard Black. Guaranteed to remain flexible and not to crack or flake off as does the paint on ordinary quality screen cloth. Woven from hard drawn Bessemer steel wire and strong enough to stand rough wear. Close even mesh to insure absolute protection. Chemically prepared by a secret process which causes the black paint to adhere perfectly leaving no opportunity for air or moisture to attack the metal. Painted with a chemically pure black pigment and an all-Kauri gum varnish.

Garden Hose

Grade for Grade You Can't Buy Better Quality Anywhere!

Just Think! High Grade Red Rubber

for less than the usual Retail Price of Black Rubber

10½¢ A Foot — **Molded Corrugated Non-Kinkable**

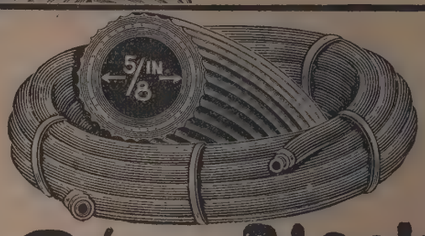
Red rubber hose is better than black rubber hose. It wears longer, because the manufacturer has to use better rubber to make red hose. And that's just the reason why red rubber hose has always been so expensive. Now, for the first time, we are able to offer you seamless, non-kinkable, molded Red Rubber Hose at a price which makes it our greatest hose value.

You Make a Big Saving—Best Construction Throughout

Your saving on every foot of this splendid hose amounts to from 5¢ to 7¢—or $5 to $7 on a hundred feet! You can easily prove this by pricing red rubber hose in your own locality.

Full ⅝-inch inside diameter, strong enough to last for years under ordinary water pressure. Vulcanized under heavy pressure so the seamless inner tube, the strong braided cotton cord, and the molded corrugated "tread" of fresh lively rubber form one solid tube which will not kink nor crack. You may order any continuous length up to 500 feet. Standard ¾-inch brass couplings included. Shipping weight, 50-foot length, 16 pounds.

584 F 7863—Per foot..... 10½¢



9¢ A Foot — **Black Rubber**

Molded-Corrugated-Non-Kinkable

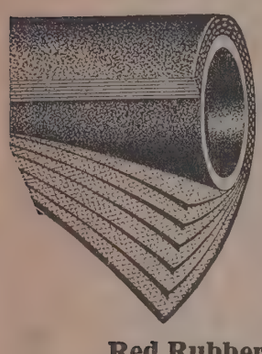
You save about one-third at Ward's on this corrugated black Rubber Hose, at 9¢. Seamless inner tube, tough braided cotton cord, and seamless corrugated outside "tread" are vulcanized together, doing away with all kinking and cracking, and insuring long service. Will stand any city water pressure. Standard ⅝-inch inside diameter. Furnished in continuous lengths up to 500 feet. Standard ¾-inch brass couplings included. Shipping weight, 50 feet, 16 pounds. 9¢

584 F 7864—Per foot.....

½-Inch Corrugated Black Hose for Spray Pumps

Same construction as above, but ½-inch inside diameter; ¾-inch couplings included. Ship. weight, 50 feet, 14 pounds. 9¢

584 F 7862—Per foot.....



9¢ A Foot — **Five Ply Wrapped Hose Gives Splendid Service at Low Cost**

⅝-Inch-Black

Although both these qualities are the same durable five-ply construction, our recommendation is that you order the red, as the grade of rubber used in its manufacture is invariably better than that used for the black. The small difference in price is more than made up by the longer service it gives.

Five plies of heavy cotton duck are wrapped securely over a seamless rubber inner tube, after which the smooth rubber outer tube is added and the whole vulcanized together under intense pressure, making a hose of unusual strength to stand any city water pressure.

The ⅝-inch diameter is standard size, but we also offer ¾-inch diameter for those who wish a larger hose. Both sizes are equipped with standard ¾-inch brass couplings.

Red Rubber Wrapped Hose

⅝-Inch Inside Diameter

Shipping weights: 7 and 14 pounds.

Our Finest Rubber Hose 12½¢ A Foot

⅝-Inch-Red

Double Braided for Longer Wear

Red rubber—molded, corrugated, seamless, non-kinkable, and reinforced with two layers of tough cotton braided cord vulcanized between three tubes of fresh, lively rubber—our finest rubber hose. Although we offer black hose of the same construction at a slightly lower price, we suggest that you order the red, as the higher quality materials used in manufacturing red rubber insure longer service.

You will find this hose equal in every way to the finest corrugated hose usually retailed for 20¢ to 25¢ a foot. It will stand up under any city water pressure. Your choice of ⅝-inch inside diameter, standard size, or ¾-inch inside diameter. Both sizes are available in any continuous length up to 500 feet. Complete with standard ¾-inch brass couplings.

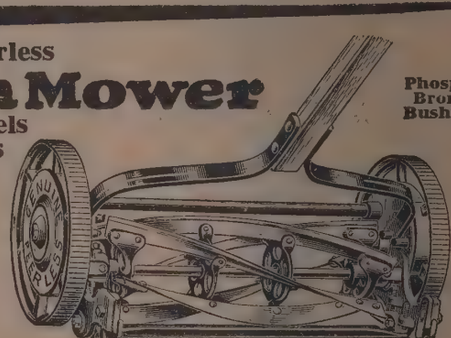
Genuine Peerless Lawn Mower

10-Inch Wheels

Five Blades

Hyatt Roller Bearings

Phosphor Bronze Bushings



$11.85 16-Inch

Designed for Those Who Want the Best

A Lawn Mower with the high quality and special features embodied in the genuine Peerless would cost from $25 to $35 elsewhere. It is one of the finest mowers that it is possible to make, and at a saving of at least one-half. Has all the special features and improvements of our Lakeside Deluxe Lawn Mower and in addition five revolving cutting blades instead of four, which means a clean even cut in one mowing. Equipped with Hyatt roller bearings. The 10-inch wheels run on phosphorus bronze bushings. The larger size wheels permit the operator to cover more ground in less time and with greater ease.

Fitted with hooks on roller brackets for attaching grass catcher. The roller and handle are seasoned hardwood, finely varnished. The entire machine is beautifully painted, varnished and striped in gold. Every mower has been carefully sharpened and will reach you perfectly adjusted.

Can be shipped by parcel post in zones 1, 2 and 3 only.

We guarantee the Lakeside De Luxe Lawn Mower will give you perfect satisfaction for five years, and we will replace without charge any parts which may prove to be defective during that time. We further guarantee the Lakeside De Luxe Lawn Mower will run as easily and cut as smoothly as any other lawn mower you can buy for $20 or more; and we will refund the purchase price, together with transportation charges, upon the return of any Lakeside De Luxe Lawn Mower which fails to make good under this guarantee.
Satisfaction Guaranteed or Your Money Back

No Other Lawn Mower Under $20 Has All These Quality Specifications

THE 5/8-inch cutter blade shaft is carried by Genuine Hyatt Roller Bearings, which are superior to other roller bearings or ball bearings because they are self-oiling, self-cleaning, run quietly and easily. They are made of highest quality hardened steel and never need adjusting. **Four self-sharpening cutter blades**, wet ground to perfect cylindrical form, make a perfect shear against the bottom knife of finest flexible saw steel; **Bottom knife** is mounted on a trussed pattern knife bar, lying smoothly against the cutter blades at all times, and so constructed that it automatically sharpens itself. **Heavy tie rods** of 3/4-inch cold rolled steel with special nuts hold frame together at top, keeping blades always in perfect alignment. Special **terrace lugs** make it easy to mow terraces. **Large 9-inch cast iron wheels**; special brackets to hold grass catcher. Hardwood grip fastened to **strong hardwood handle** with patented adjustable device to keep grip tight at all times. Hardwood roller. **Your name painted on handle free,** if you so specify on your order. **Print plainly name wanted. Can be shipped by parcel post.**

"In My Town They Want $24 For a Smaller Lawn Mower"

JOHN H. BURTON, *Jefferson City, Mo.*

Is it any wonder that the Lakeside De Luxe Lawn Mower has created such a sensation, when right in your own locality they are asking $20 and more for lawn mowers without these features? For our price to you is actually less than wholesale—in carload lots! And remember too, no one else can sell you a genuine Lakeside, for this splendid lawn mower is made exclusively for Montgomery Ward & Co. by one of the best manufacturers in the country—a concern with many years experience in making highest quality mowers.

"That Lawn Looks As If Razored"

O. WEAVER, *Effingham, Kan.*

You will notice that our Five-Year Guarantee states the Lakeside De Luxe Lawn Mower will cut as smoothly as any other lawn mower. That claim is based on customers' reports as well as on our own experience. Four perfectly ground cutter blades shear off the grass against the fine flexible steel knife, leaving a beautiful, velvety surface.

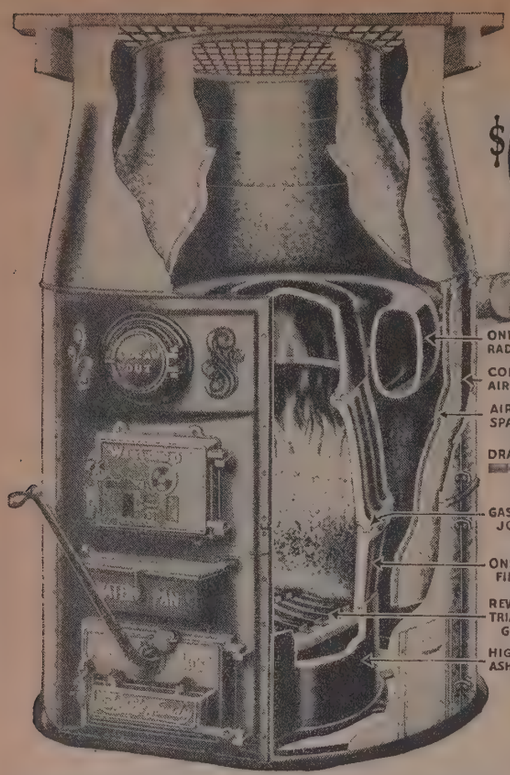
Mr. Burton of Jefferson City, Mo., writes that his 13-year-old daughter mows his lawn with an 18-inch Lakeside De Luxe, and that she says it runs easily. That is because of the perfectly balanced construction and the genuine Hyatt roller bearings. Quiet—easy running—smooth cutting. These three qualities make friends of all who use the Lakeside De Luxe.

"I Figured I Saved at Least Fifteen Dollars"

H. A. HAMLIN, *Laredo, Texas*

You, too, can make a big saving by ordering a Lakeside De Luxe. And remember, the first cost is the last cost—for the Lakeside De Luxe mower is self-sharpening and perfect mechanically. The closest test and inspection is given every Lakeside De Luxe before it leaves the factory—a test equal to three miles of running—after which it must cut tissue paper perfectly the entire length of the blade. Nothing is left undone to give you the best lawn mower that can be bought anywhere—yet the price is only $7.95 for the 14-inch size.

Install Your Furnace Now!



$63.85 Cash Price

Have It Ready For Cold Weather

Windsor Pipeless Furnace

$7.50 Down

$7.50 A Month

Shipped from Warehouse Near Your Home

Every star on the map shown below the big illustration represents a warehouse where we carry Windsor Pipeless and Pipe Furnaces ready for immediate shipment. This nation-wide distribution enables us to give you the lowest prices ever known for strictly high-grade pipeless furnaces. There is not another firm in America that can save you as much money on a good pipeless furnace, and make deliveries as quickly to any part of the country, as can Montgomery Ward & Co.

Our enormous sales enable us to keep our foundries busy the year round. This lowers the production cost and the saving is certainly evident in our prices. As soon as the furnaces are finished we ship them to the warehouse in full carloads at the lowest possible freight rates. This makes another big saving which we pass along to you. If you bought from a dealer who orders only three or four furnaces at a time, you would pay the higher freight rates that are charged on less than carload shipments from the foundry to the store. Our plan gives you a saving of from $8 to $20 on freight alone. Quick delivery is absolutely assured every customer with this countrywide chain of warehouses.

Features That Make the Windsor a Better Furnace

Fine Workmanship. There is no pipeless furnace made on which more care is given to getting absolutely gas-tight joints in the castings. The Windsor has deep perfect-fitting combination cup and lap joints which make a perfect seal. The heavy castings of the Windsor are fitted tight and cemented for further protection so there is no odor of gas or smoke in the air you breathe.

Firepot. One-piece construction only found in highest priced furnaces. Has its heating surface greatly increased by the deep ribs and corrugations which also add strength and life.

Grates. Extra heavy and of the triangular type.

Upright Shaker. Note the long shaker handle which gives greater leverage and does away with stooping.

Fire Dome. Made high and dome shaped to take advantage of the Hot Blast Smoke Consumer which causes all unconsumed gases to burn. An extra large radiating surface. All joints positively gas-tight.

Hot Blast Smoke Consumer. A built-in feature of the Windsor. Greatly increases its efficiency and economy. Noticeably reduces your coal bill.

Radiator. One-piece cast iron. Is three to five inches larger in diameter than on most furnaces of the same size. Use Easy Payment Order Blank on Page 623.

Prices quoted for all Windsor Pipeless Furnaces listed below include the following: Furnace complete with register, adjustable to fit basements 6 to 8 feet high; cement and check draft; regulating dial with 25-foot chain and pulleys; one poker; one shaker; complete set of instructions.

Furnaces shipped from Baltimore, Md., Albany, N. Y., Columbus, O., or Gadsden, Ala., whichever is nearest you. Send orders to Baltimore

Water heating coil, galvanized smoke pipe and elbows, cast iron damper, and wood burning grates shipped only from stock in Baltimore.

You Get Quicker Service And Save $8 to $20 on Freight

Every star on the above map represents a Warehouse where we stock both pipe and pipeless furnaces. We ship from warehouse nearest you.

Ward's Prices Lead Them All

The high prices asked by dealers for pipe furnaces have kept many home owners from enjoying the comforts of this fine system of heating. Now you can buy the Windsor Pipe Furnace, guaranteed to be equal in quality and heating capacity to any pipe furnace made, at the lowest price in America for a furnace of this high quality. Our price under our new plan of quantity production and nation-wide distribution, makes it possible for us to save you $85 to $170 on a complete installation.

We will sell you either the furnace alone, or everything necessary for the complete installation on easy terms if you wish. Simply write us and our Engineering Department will gladly give you an estimate of the total cost. You can pay for it in small payments over a period of twelve months.

Windsor Warm Air Furnaces Give You Direct Heat to Every Room

$49.85 Cash Price 18-Inch Size

Finest Quality Throughout

This furnace has all the features and improvements of our pipeless furnaces, described above; the only difference being in the hood and casing. This furnace specially designed for those who prefer a register in each room. Install it now and have it ready when the cold weather arrives. See "Easy Payment Order Blank" on Page 623.

Prices include furnace with regulating dial, damper chain, pulleys, check damper, poker and shaker handle. Order smoke pipe and fittings extra. The top bonnet of the furnace is shipped without holes cut for pipe; these are easily cut as required while furnace is being installed. With each Windsor Pipe Furnace we include plain printed directions for installing and operating. Weights and dimensions given below are approximate; they may vary slightly.

Shipped from Baltimore, Md., Albany, N. Y., Columbus, Ohio, or Gadsden, Ala., whichever is nearest you. Send order to Baltimore

High Grade Steam and Hot Water Boiler

$65.85

$10.00 Down

$10.00 A Month

Windsor Giant Steam and Hot Water Boilers are made by one of the largest and most reputable boiler makers in the country. They represent the highest perfection in modern steam or hot water equipment. They are built entirely of cast iron in sections in the approved round type. This unit construction permits you to buy exactly what you need for the smallest cottage or largest home. Shipped from Warehouse near Buffalo, N. Y., or from Baltimore, Md., whichever is nearest you.

General Specifications of Windsor Boilers

All Windsor Boilers have deep firepots with no corners to waste fuel or hold ashes. Fire doors are of generous size. Clean-out is easily accessible. All joints between sections are of the latest push nipple type requiring no gaskets. All sections are drawn together by four heavy steel tie rods and are guaranteed leakproof. Grates are of the rocker, clinker breaking type, thick, heavy and perfectly balanced. The ash pits are extra large. Firepot has opening for coil to heat water for domestic use. Each section is provided with a handy clean-out door.

Hot Water Boiler

Each Hot Water Boiler comes complete wit shaker handle, steel wire clean-cut brus scraper and poker and complete instructio necessary for installing and operating.

Steam Boiler

Each Steam Boiler comes complete with wat gauge, steam gauge, safety valve, automat damper regulator, shaker handle, steel wi clean-out brush, scraper and poker and co plete instructions for installing and operatin

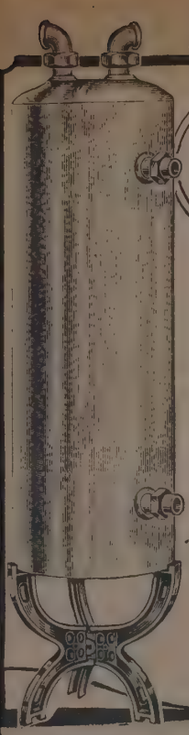
Guaranteed Pressure Tested Galvanized Range Boilers

Our Prices are Lower Than Retailers Pay
Connect with Your Heating Plant or Kitchen Range or Use Separate Tank Heater



$6.45 Without Fittings

LOW prices that defy any competition. These Boilers are of finest quality boiler plate steel and the workmanship throughout is excellent. Every boiler is tested mechanically under water pressure before and after galvanizing. Height, 60 inches without stand. Tapped according to government specifications. A 30-gallon boiler is large enough for the average household. If pressure is over 85 pounds, we recommend our extra heavy boiler.

Some dealers charge extra for the iron pipe connection but our prices on boilers with fittings include the stand, cold water tube and four union couplings threaded for ¾ inch iron pipe connections. Prices for boilers only are for boilers without fittings. See "Estimated Freight Charges" below at right.

Electric Welded Boilers

Of heavily galvanized steel, electrically welded. A very good grade boiler although costing less than the full riveted and welded boiler shown at right. Fully tested and guaranteed for the pressures stated. Will give excellent service. See "Estimated Total Freight Charges" below at right.

Standard Weight Range Boilers

Tappings are government standard.
Tested at 200 pounds pressure. For 85 pounds water pressure.

Capacity	Shipping Weight	Boiler Only No Fittings 181 F 6707	Boiler with Fittings 181 F 6719
30 gallons	75 pounds	$ 6.45	$ 8.75
40 gallons	100 pounds	9.45	11.75
52 gallons	135 pounds	15.45	18.75

Extra Heavy Range Boilers

Tested at 250 pounds. For 85 to 150 pounds water pressure.

Capacity	Shipping Weight	Boiler Only No Fittings 181 F 6708	Boiler with Fittings 181 F 6728
30 gallons	85 pounds	$ 8.95	$11.15
40 gallons	110 pounds	11.55	13.65
52 gallons	145 pounds	19.85	22.25

Riveted and Welded Boilers

Of heavily galvanized steel, electrically welded, and reinforced with a continuous row of rivets. This is the finest boiler we can sell you. The extra sturdy construction insures satisfaction no other boiler can give. See "Estimated Total Freight Charges" below.

Standard Weight Range Boilers

Tappings are government standard.
Tested at 200 pounds pressure. For 85 pounds water pressure.

Capacity	Shipping Weight	Boiler Only No Fittings 181 F 6735	Boiler with Fittings 181 F 6736
30 gallons	75 pounds	$ 7.25	$ 9.65
40 gallons	100 pounds	10.45	12.85
52 gallons	135 pounds	16.95	20.35

Extra Heavy Range Boilers

Tested at 250 pounds. For 85 to 150 pounds water pressure.

Capacity	Shipping Weight	Boiler Only No Fittings 181 F 6747	Boiler with Fittings 181 F 6748
30 gallons	85 pounds	$ 9.85	$12.25

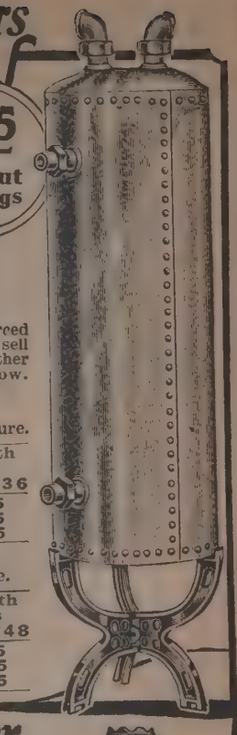
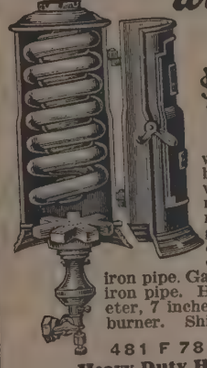
52 gallons	145 pounds	22.75	25.95



$7.25 Without Fittings

Water Heater Burns Gas



$6.10 Big Value

For quick heating of water in galvanized range boilers. Heats sufficient water for bath in twenty minutes. Burns either natural or manufactured gas. Has double copper coil. Water tappings for connections to ¾-inch iron pipe. Gas valve tapped for ½-inch iron pipe. Height, 18 inches. Diameter, 7 inches. Cast iron jacket and burner. Shipping weight, 31 pounds.

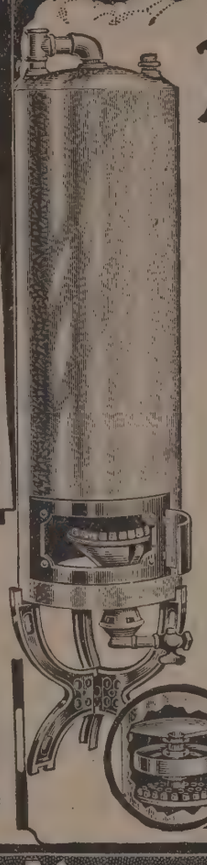
481 F 7822 ..... $6.10

Heavy Duty Hot Water Heater

Same as above but has longer copper coils. Specially suited for range boilers, from 40 gallons up. Can also be used on smaller boilers, where warm water is desired in a few minutes. Water tappings for connection to ¾-inch iron pipe. Gas valve tapped for ½-inch iron pipe. Cast iron jacket and burner. Shipping weight, 45 pounds.

481 F 7819 ..... $7.95

Hot Water in a Few Minutes



$18.85 13-Gallon Size

Genuine Peerless Combination Tank and Heater

This efficient, improved outfit is especially recommended, for it furnishes hot water quickly at any time and is a convenience no modern home should be without. Entire boiler of extra heavy galvanized steel and tested to 150 pounds pressure. All fittings galvanized against rusting.

Tapped openings provided for connection to range or furnace, which save gas in winter. Burns natural or manufactured gas.

Saves Time, Space, Labor, Gas

Saves Time. Sufficient hot water for shaving or dish washing is ready in five minutes; enough for a bath in less than fifteen minutes. In-flowing cold water is thinly spread over the hot surface of the super-heating unit shown below in small illustration. This heats instantly and rises to top of boiler through an inside tube.

Saves Space. Fits snugly in any corner, behind stove, underneath stairs, or in a wall niche. No protruding parts to obstruct surrounding space.

Saves Labor. Quickly and easily installed. Comes completely assembled. Only three connections to make.

Saves Gas. The design of this tank and burner uses all the heat from the gas to heat water. The super-heating unit directly over the gas burner gets full benefit of the flame. No heat wasted; heat passes upward through central flue pipe entirely surrounded by water.

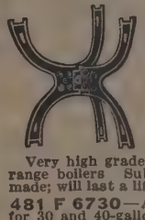
Water Heater Burns Kerosene

$22.25

Every home having running water may enjoy the convenience of having plenty of hot water available at all times—at small cost. Hot water is no longer regarded as a city convenience alone—suburban and country homes may also enjoy this greatest of household comforts. This "Kerosene Heater" is unique, in that it may be used in any place where there is a water supply. Kerosene is an ideal fuel—low priced, safe, easy to handle and everywhere available. Will heat enough water for toilet and shaving in 4 to 6 minutes; for dish washing, 15 to 20 minutes; for a bath, about 45 minutes.

Contains four heavy copper coils 8 feet long inclosed in heavy cast iron jacket. Fitted with latest type blue flame kerosene burner. The coils are arranged in a half turn which interrupts the flame and utilizes the greatest possible amount of heat also preventing any possibility of back draft. Holds one gallon of kerosene which will burn twelve hours. Water tappings threaded for ¾-inch iron pipe. Height, 28¼ inches. Shipping weight, 55 pounds.

181 F 7817 ..... $22.25



Cast Iron Boiler Stands

Very high grade stand for range boilers. Substantially made; will last a lifetime.

481 F 6730—Adjustable for 30 and 40-gallon boilers. Ship. wt., 6 lbs. ..... 48¢

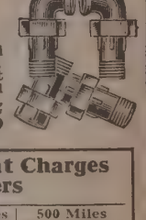
481 F 6720—For 52-gallon boilers with ring top. Ship. wt., 15 lbs. $1.85

Boiler Drain Valve

40¢

Equip your range boiler with one of these solid brass rough nickel plated Drain Valves for draining. Threaded for ½-inch iron pipe connection. Will not leak. Also has standard hose thread. Shipping weight, 1 lb.

81 F 5431 ..... 40¢



Galvanized Range Boiler Couplings

This complete set of couplings fits all standard makes of range boilers. Threaded for ¾-inch iron pipe. Outfit consists of four couplings, each fitted with union joint. Shipping weight, per set, 4 pounds.

81 F 6729—Per set. $1.75

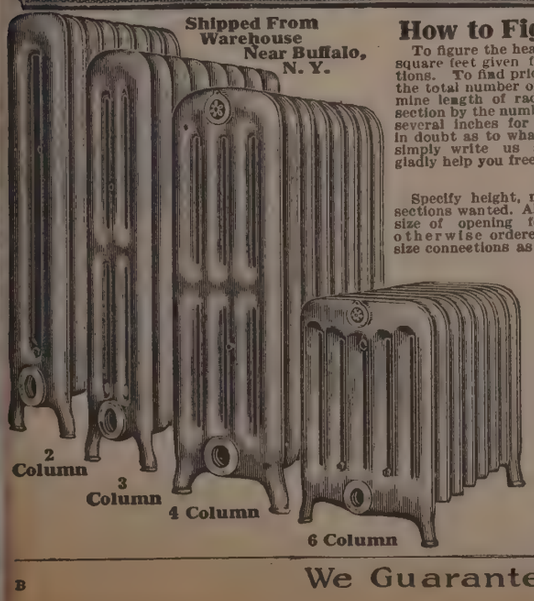
Cast Iron Radiators ~ Steam and Hot Water



How to Figure Correct Radiation

To figure the heating surface of a radiator, multiply the square feet given for each section by the number of sections. To find price, multiply the price per square foot by the total number of square feet in the radiator. To determine length of radiator, multiply the thickness of each section by the number of sections and add one inch. Allow several inches for radiator valve and elbow. If you are in doubt as to what size or amount of radiation you need, simply write us and our Engineering Department will gladly help you free of charge.

How to Order

Specify height, number of columns and the number of sections wanted. Also whether for steam or hot water, and size of opening for valve and return tappings. Unless otherwise ordered radiator will be furnished for standard size connections as shown below.

Tappings for Steam

All radiators containing 25 square feet or under, tapped for 1-inch pipe; those above 25 square feet, but not exceeding 60 square feet, tapped for 1¼-inch pipe; radiators containing 61 square feet to 100 square feet, tapped for 1½-inch pipe; above 100 square feet tapped special for 2-inch pipe.

Tappings for Hot Water

All radiators containing 40 square feet or less are tapped for 1-inch pipe; from 41 to 72 square feet are tapped for 1¼-inch pipe; over 72 square feet are tapped for 1½-inch pipe.

Windsor Radiators are made in a wide variety of styles to suit every requirement. Nothing has been spared to bring them up to a high point of perfection in design, material and workmanship.

Surfaces are perfectly smooth, and the patterns present a pleasing appearance. Large air spaces between the sections create a high degree of efficiency. All our Windsor Radiators are completely assembled before shipment.

Two-Column Radiators

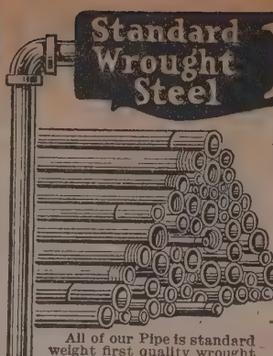
Standard Wrought Steel Pipe Black and Galvanized



For Water Steam and Gas

4½¢ A Foot For ½-Inch Size

All of our Pipe is standard weight first quality wrought steel. Unless you tell us otherwise, pipe is shipped in random lengths of from 18 to 21 feet (each length threaded at both ends and with one coupling) to make the total length of pipe you order. If you specify special lengths of pipe we will cut it, if you desire, making a small charge for cutting and threading (see table at right). Couplings are not included with specially cut lengths of pipe. Pipe over 6½ feet can be shipped by freight or express only.

How To Order Pipe and Fittings

To find the correct size of a piece of pipe take the threaded end of the pipe and find the outside width across the center (outside diameter) by putting the end of the pipe on the scale below. (Scale is not in inches.) To find the correct size of a fitting for any pipe, find the inside diameter of the fitting on the scale below. For example, if the threaded end of a pipe measures ¾ on this scale, it is known in the trade as a standard ¾-inch pipe. If the inside diameter of the fitting measures ¾ on this scale it is called a standard ¾-inch fitting. Fittings are always called by the same size, as the pipe they fit. For example, a ½-inch pipe takes a ½-inch fitting. Order the same size fitting and pipe. When finding the pipe sizes use the pipe scale below. Do not use a foot rule.

Why Pump By Hand?

Electrically Operated Full Automatic Pressure Water Systems

GUARANTEED IN EVERY DETAIL

The Greatest Labor Saver Ever Built for Farms
Operating Costs as Low as Two Cents per Day

FRESH running water—one of the greatest time and labor saving conveniences of modern times, for either town or country homes—is now within your easy reach. Running water under pressure no longer necessitates a big investment involving an expensive power pump or tower. At a lower cost than for a tower alone, a Windsor Automatic Electric Pumping System, will provide all the water you can use.

Running water eliminates the back-breaking drudgery of carrying and pumping water. An abundance of fresh, pure water means better sanitation and greater health. The Windsor Water Supply Outfits described below will supply water at sufficient pressure for lawn sprinkling and fire protection. The fire protection feature alone is well worth the price of the pumps. By installing a boiler with your range or furnace, you can have both hot and cold running water at all times.

Showing Complete Deep Well Automatic Pressure Outfit

"Old Reliable" Deep Well Outfit
For Wells from 25 to 300 Feet Deep

$175.00 Cash Price — **$15.00 Down** — **$15.00 A Month**

For Wells 25 to 50 Feet Deep

Use Order Blank On Page 623

IF THERE is water in the well "Old Reliable" will bring it up. The working head was designed and is built for us by leading engineers and builders, who have put into this pump, correct design, quality of materials and sturdiness of construction to insure dependable service. You can rely on this powerful deep well outfit to give continuous, uninterrupted service for many years. It will pump water from depths as deep as 300 feet and under certain conditions as deep as 600 feet It may be used on your present well.

If you are drawing water by hand from a deep well, or are using an old pump jack, or are considering putting in a new well, "Old Reliable" is the best you can buy.

It is the handiest, most compact and sturdiest pump on the market and contains features found in no other. In it has been incorporated the best ideas of many of the nationally known makes. The prices at which we are offering these pumps and complete systems give you a big saving, but in no way has the manufacturer "skimped" in construction.

We are offering four fully automatic, electrically driven water systems in the most generally used depths and capacities. These systems will deliver a steady flow of water under thirty pounds pressure whenever a faucet is turned on.

Description of Parts of Automatic Electric Water Pressure Outfits

THE WORKING HEAD. Very compact. Silent operating. Gears made of semi-steel operate in oil bath keeping all movable parts well lubricated. Unlike most pumps, the cross head operates on two vertical studs insuring perfect alignment. Compensated against back-lash on down stroke. Bronze bushings of removable type. Equipped with compressor for maintaining air pressure in storage tanks. Overall dimensions, 27 inches by 22 inches by 26 inches high. Stroke, 6 inches. Pulley 12 by 2½ inches, and when operated at 310 revolutions per minute, delivers 44 strokes per minute. Pump tapped for 1¼-inch discharge pipe. Equipped with reducing coupling so you can use either 2 or 2½-inch drop pipe.

THE ELECTRIC MOTOR. ¼, ½ and ¾ H. P. as stated in table. Repulsion-Induction type specially adapted to pump work because of their ability to start under full load. Motor is finest we can buy and of nationally known make. Interchangeable for 105 to 120 or 210 to 230-volt, 60-cycle alternating current.

THE CYLINDER OR WORKING BARREL. Made of brass with a plunger having three removable cup leathers. The service you get from a deep well pump depends to a large extent on the quality of the working barrel. For this reason we furnish the best working barrel money can buy. Cylinder of correct size supplied as stated in table.

PLUNGER CAN BE REMOVED. You can remove the plunger to replace cup leathers or for any other reason, without lifting drop pipe or removing pumping head. The importance of this will be appreciated by anyone who has had the experience of lifting the drop pipe of a deep well to get at the working barrel.

HANDY HANDLE. Pump is equipped with handy handle for use in emergencies.

EIGHTY-GALLON TANK. Vertical type, black iron. Welded seams. Tested for 125 pounds pressure. Fitted for one-inch inlet and one-inch drain tap. Complete with water glass and cocks.

AUTOMATIC REGULATOR. Double pole type. Positive action. Breaks both sides of circuit. Set so pump starts at 20 pounds pressure and stops at 40 pounds.

FITTINGS. Include pressure gauge; check valve; relief valve; drain valve; and all necessary small pipe fittings for completing connections between pump and tank.

Prices and Specifications of Outfits Described Above

The following prices do not include drop pipe or pump rod which is listed below.

Depth of Well	Delivers Gallons Per Hour	Equipped With Motor	Supplied with Cylinder Size	For Use with Drop Pipe, Size Priced Below	Ship. Wts., See Estimated Total Freight Charges"	Article Number Pump Outfit	Cash Price	Easy Payment Price
25 to 50 ft.	175 gals.	¼ H. P.	1¾ by 6 in.	2 inches	625 pounds	163 F 5025	$175.00	$192.75
25 to 100 ft.	270 gals.	½ H. P.	2¼ by 6 in.	2½ inches	660 pounds	163 F 5028	193.50	212.85
100 to 175 ft.	175 gals.	½ H. P.	1¾ by 6 in.	2 inches	650 pounds	163 F 5030	191.50	210.50
175 to 300 ft.	175 gals.	¾ H. P.	1¾ by 6 in.	2 inches	680 pounds	163 F 5033	202.50	222.75

Drop Pipe and Pump Rod

The above prices do not include drop pipe and pump rod. To make a complete system, add to the above figures, the cost of drop pipe and pump rod depending on the depth required. For example, for a well requiring the cylinder fifty feet below the working head, add the cost of fifty feet of drop pipe, of size stated in table, and fifty feet of pump rod.

163 F 5022	163 F 5023	163 F 5024
2-inch Galvanized Drop Pipe with Fittings	2½-inch Galvanized Drop Pipe with Fittings	1⅛-inch Wood Hexagonal Pump Rod with Fittings
Ship. wt., per foot, 3 lbs. Per foot. 23¢	Ship. wt., per foot, 3 lbs. Per foot. 36¢	Ship. wt., per foot, 8 oz. Per foot. 26¢

To figure the capacity in gallons you require, estimate 30 gallons per day for each member of the family; 10 gallons per day for each head of stock; and 100 gallons per day for each sprinkling outlet.

Estimated Total Freight Charges on pumps and pumping materials per 100 pounds: For 150 miles, 70¢; 300 miles, 90¢; 500 miles, $1.20. Read Page 306.

263 F 5063—1¾ by 6-inch cylinder and plunger complete. Shipping weight, 40 pounds..... $13.35

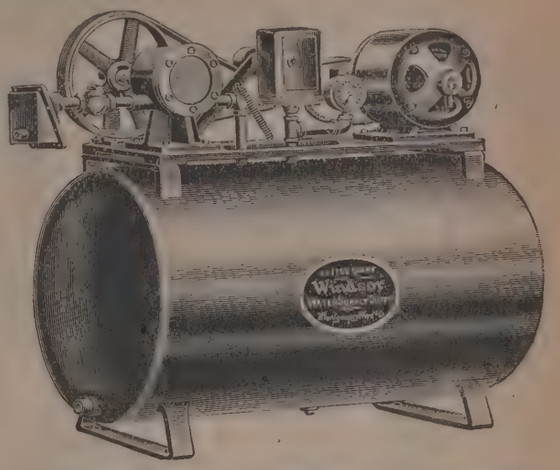
263 F 5065—2¼ by 6-inch cylinder and plunger complete. Shipping weight, 50 pounds..... $17.75

For Gasoline Engine Drive

To make a system operated by gasoline engine, select No 263 F 5050. This working head is equally well suited to deliver water into open or elevated tanks and can be arranged easily to work both systems. See Page 581 for suitable gasoline engine. We recommend 1½ h. p. size.

Free Pump Engineering Service

If you are in need of special advice about our water systems or wish to know if it can be adapted to your well or existing water system, write to us stating the depth of well; rise of water; diameter of drop pipe and well casing; the amount of water required daily; kind of system you desire (automatic pressure, open tank or elevated tank); the kind of electric power available (direct or alternating,) and voltage and cycles. It will help us if you will give the above information in a very complete form and also if you will send a rough sketch showing location of well and building, where you want tank placed and difference in levels between various parts of the system. Our Pump Engineering Service will be glad to give you accurate and complete information on your water supply system. This service is FREE.



"Little Giant" Shallow Well Outfit

$63.95 Cash Price — **For Wells 28 Feet or Less In Depth**

Only $5.00 Down Five Dollars a Month

Four Unusual Features

1. Rotary Type — Most Efficient. Lifts the water 28 feet—6 to 8 feet more than others.
2. Belt Drive — Safety Starting—no motor burnouts—noiseless operation.
3. No Oiling — Graphite Pump Bearings require no oil. Oil motor only.
4. Long Life — Slow speed of belt drive means less wear and tear and no vibration.

THE "Little Giant" is the most reliable shallow well water system your money can buy. It is entirely automatic requiring no attention except occasional oiling of the motor. The pump has graphite bearings requiring no oil. This system pumps fresh water into the pipes at all times. The small tank shown in the illustration is not a storage tank. Its only function is to maintain an even pressure in the water pipes. When the water pressure falls to twenty pounds, the system automatically starts to pump; when the pressure reaches forty pounds, the pump automatically stops. Maintains a steady pressure at all times.

The Little Giant Takes Little Space

If you have water pipes and plumbing fixtures installed, there is nothing extra to buy. The "Little Giant" is complete. The entire pumping and pressure equipment is concentrated in this one compact, intensely efficient outfit that requires only two pipe connections and the attaching of the electric wires to start it in operation. Tapped for ¾-inch suction and ¾-inch discharge pipes. Size, 12 inches wide, 22 inches long and 26 inches high. Can be placed under the kitchen sink.

Improved and Lasting Construction

The pump is of the rotary type, much more efficient than any direct connected gear pump and will last an infinitely longer time. Traveling at slow speed and utilizing the reliable belt drive, there is less wear and vibration is entirely eliminated. It is practically noiseless in operation. Because of its improved construction, it has many superior mechanical advantages. There are no valves, cross heads, springs, leather suction washers or brass gears to wear or get out of order. It lifts water from a depth of 28 feet—from six to eight feet more than any similar pump. The pump shaft is supported on graphite insert bronze bearings which are renewable and require no oil. The pump forces water to the third story of a house as well as into the barn and other buildings. You can have as many taps or hydrants as you wish wherever you want them. Capacity, 200 gallons per hour.

Reliable Non-Slipping Belt Drive

We have found the belt drive to have many advantages over direct motor connections. It is much quieter in operation and because it gives slightly, it protects the motor against burn-outs. With the specially designed belt and idler pulley used, belt slipping is practically impossible.

At certain seasons of the year water tanks sweat and drip water. Placing the motor above the pressure tank avoids water dripping on motor, eliminates rust and makes all working parts easily accessible. The outfit may be placed at any distance within about 100 feet of well or cistern where the pump is not more than 28 feet above the water at sea level. This system may also be used as a booster to increase city water pressure and is well suited for pumping oil or other liquids.

Sturdy Repulsion-Induction Motor

The ¼-horse-power motor used is the finest repulsion induction type especially adapted to pumping water because of its ability to start under full load. The pump cannot stick and burn out motor,—a very important feature. Motor is made for use on either 105 to 120-volt or 120 or 230-volt single phase 60-cycle alternating (A. C.) current. Also supplied for 32-volt farm plant current. State kind of current voltage and cycles wanted.

We furnish a book of simple, easy-to-understand instructions showing how to install and operate this system. Anyone can do it—no experience needed.

These outfits are sold on easy payments if you desire. Send only $15 with your order and pay the balance in easy monthly payments of $15 each. If ordered on easy payments use Order Blank on Page 623.

Estimated Freight Charges per 100 pounds: For 150 miles, 70¢; 300 miles, 90¢; 500 miles, $1.20. Read Page 306.

Article Number	Cap. Per Hour	Voltage and Current	Ship. Weight	Cash Price	Easy Payment Price

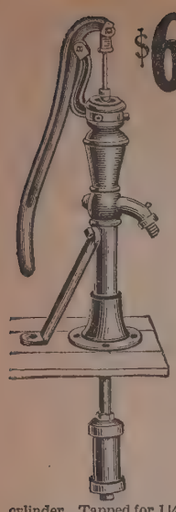
See How Easy We Have Made It to Order The Right Pump for Your Purpose

You will find it very easy to select here the Pump best suited to your needs, and in the exact length wanted. These pumps are correctly designed as to pipe and cylinder size, for the work they are to do. Complete lift or force pump outfits are shipped all ready to assemble, with printed instructions. A lift pump is efficient in lifting water to the spout level, but, to force water into a pressure or elevated tank you should order a force pump. Castings are extra heavy, smooth and well painted. Cylinders accurately and smoothly finished. All extra high quality pumps, fully guaranteed. Will give years of satisfactory service.



$6.35 Anti-Freezing Force Pumps

For Hand Use Only

Spout Has Back Opening for Pumping Into Overhead Tanks For Other Distant Points

This Pump has an extra heavy cast iron standard with air chamber, brass stuffing box and polished iron piston rod, iron cylinder, and ¾-inch hose connection for spout. Back of spout is tapped for 1¼-inch iron pipe. Has 6-inch stroke.

Used for filling watering troughs, tanks, sprinkling and for washing automobiles and wagons.

Extra Heavy Weight Standard Only

Without set length or cylinder. Tapped for 1¼, 1½ or 2-inch iron pipe. State size tapping wanted. Shipping weight, 60 lbs. **$6.35**

181 F 5862

Prices below are for Pumps complete with iron cylinder, black pipe and pump rod for depths of wells as specified. For shipping weights on outfits allow 80 pounds for pump and add 3 pounds per foot for extension. If galvanized pipe is wanted, add 3¢ per foot for 1¼ inches; 3½¢ for 1½ inches; and 5½¢ for 2 inches.

See "Estimated Freight Charges" at bottom of page. State size wanted.

A Pitcher Spout Pump at Your Sink
Saves the Drudgery of Carrying the Water

$1.70 Ward's Big Value Pitcher Spout Pumps

This Pump is handy for inside or outside use. Made of the highest quality material throughout and constructed to give years of service. For cisterns and wells not over twenty feet deep. Smoothly ground cylinder. Handle can be placed in any position desired. Nicely painted. To prevent freezing, raise handle to its extreme height. Tapped for 1¼-inch iron pipe. Shipping weight, 25 pounds.

Can be shipped by parcel post.

481 F 5911—3-inch iron cylinder..... $1.70
481 F 5914—3-inch brass lined cylinder... 2.60
481 F 5912—3½-inch iron cylinder..... 1.95
481 F 5917—3½-inch brass lined cylinder. 2.85

Easy Working Kitchen Force Pump

$5.25

High-grade Pump made especially for wells and cisterns not over twenty feet deep. Has 3-inch brass cylinder. Tapped for 1¼-inch suction pipe. Brass faucet threaded for standard hose connection. Top cylinder cap is tapped for 1-inch iron pipe for forcing water to any desired point. Offered at an unusually low price and guaranteed to give years of satisfactory service. Shipping weight, 20 pounds. Can be shipped by parcel post.

481 F 5915..... $5.25
481 F 5916—Same as above Pump, except with plain spout.... 4.65

Extra Heavy Kitchen Force Pump

Brass Lined Cylinder

$7.45

Pump for cisterns and wells not over twenty feet deep. Throws a large volume of water. May be used as a lift or force pump. Handle can be set in any position. Equipped with cockspout and standard hose connection. Back of spout tapped for 1-inch iron pipe for pumping water to storage tank; 3-inch brass lined body tapped for 1¼-inch suction pipe. Shipping weight, 30 pounds. Can be shipped by parcel post.

481 F 5919..... $7.45

$4.20 Anti-Freezing Lift Pumps

For Hand Use Only For Cistern, Shallow Or Deep Wells

Medium Weight

For wells up to 30 feet deep. Has 4-foot set length and 3 by 10-inch iron cylinder. Stroke, 6-inch. Tapped for 1¼-inch iron suction pipe only. Shipping weight, 40 pounds. **$4.20**

181 F 5800

Medium Weight Pump Standard Only

Without set length or cylinder. Tapped for 1¼-inch iron suction pipe. Ship. weight, 40 pounds. **$3.20**

181 F 5840

Heavy Weight Standard Only

Without set length or cylinder. Tapped for 1¼, 1½ or 2-inch iron pipe. State tapping wanted. Shipping weight, 55 pounds. **$4.45**

181 F 5848

Complete Pump Outfits with Heavy Weight Standards

These work efficiently up to 60-foot depth. Prices include pump complete with cylinder, black pipe and pump rod as shown, for depth of wells specified below. For shipping weights, allow 65 pounds for weight of pump, and 3 pounds per foot for extension.

If galvanized pipe is wanted, add 3¢ per foot for 1¼-inch, 3½¢ for 1½-inch, 5½¢ for 2-inch.

See "Estimated Freight Charges" at bottom of page. State size wanted.

Always on the Job—Costs Nothing to Operate
Improved Hydraulic Rams

An automatic device by which the fall of a volume of water furnishes power to raise a part of it to a height greater than that of the source, by taking advantage of the weight and flow of the water. It is mechanically the simplest and least expensive self-contained pumping unit known. For further information, send for our free Circular on Rams.

Hard Water Instantly Softened

Cheaper, Cleaner and Better Than a Cistern—Windsor Water Softeners

$89.75 Cash Price

Only $7.50 Down and Seven Fifty a Month

20,000-Grain Capacity

Every home needs soft water but few have an adequate supply at all seasons. The old fashioned cisterns are far from being an ideal source, in furnishing soft water, as they are apt to be dry when soft water is needed most. The Windsor Water Softener gives you a plentiful supply of soft water at all times. Simply connect the incoming hard water to the Windsor softener and as this passes through the softener the hardness is absorbed in the mineral bed, and only soft water passes through your plumbing fixtures.

Makes Washing Easier

You can do the laundry work easier and the clothes last longer, because no harsh washing compounds are needed. When used in the bath and for the shampoo you eliminate the dry, irritable feeling of the skin so common with hard water, and no soap scum is formed to clog the pores or remain in the hair. Windsor softened water is excellent for drinking, cooking and dishwashing.

Easy to Install and Operate No Chemicals Necessary

No chemicals are used. The mineral softener is insoluble and will last and soften water for years. The only attention required is to give this mineral a salt bath every few weeks, using a few pounds of inexpensive coarse salt or as needed. Our complete instructions give full details. The Windsor Softener prevents the accumulation of lime in hot water pipes, coils and heaters, insuring longer life to your plumbing.

Shipped from Columbus, O., or Saint Paul, Minn., whichever is nearest to you.

Time Payments

No need to wait until you have the full purchase price. Ward's now offers you the Windsor Water Softener on our Easy Payment Plan. Simply include $7.50 with your order and the complete outfit will be sent to you. Then, while you are enjoying its conveniences, pay the balance at the low rate of $7.50 a month. Why put up with the discomforts of hard water when you can buy this Windsor Softener on these easy terms?

General Specifications

Strongly built of 3/16-inch Armco Ingot Iron, it is 54 inches high and is 14 inches in diameter. Coated inside and out with two coats of rust-preventing lacquer. Fitted for ¾-inch iron pipe and equipped with the finest valves. Has 2 cubic feet of highest capacity white synthetic mineral. Large size opening on top for flushing. Guaranteed for 125 pounds pressure. Complete instructions for installing included. Shipping weight, 350 pounds. Estimated Total Freight Charges for 150 miles, $1.93; 300 miles, $2.38; 500 miles, $3.50. Read Page 306.

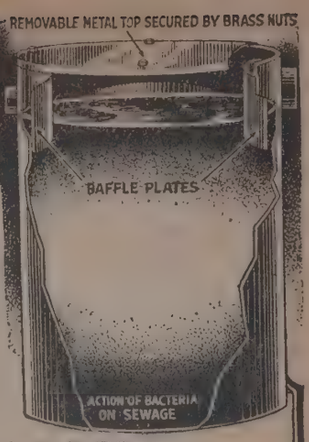
For Health's Sake! use Windsor Septic Tanks

Sewage Disposal System



For Homes Without Sewers

HEALTH authorities universally approve the Septic Tank for use on the farm or in the small town where a city sewer is not available. Safeguard your health against typhoid, malaria and other disease germs that often find their way into your well or water supply system from the outhouse or other old methods of sewage disposal.

By installing a Windsor Septic Tank you can modernize your home. It is specially designed for sanitary, safe sewage disposal from any building with running water. It enables you to enjoy the comfort and convenience of all modern plumbing fixtures in your bathroom and kitchen.

Illustration below gives you a good idea of installation. Easily understood instructions included with each tank tell you how and where to bury the tank and how to connect the pipes. No plumber needed.

Costs Nothing to Operate—Requires No Care

The Windsor Septic Tank is built to give continuous trouble-free service. Made of heavy, 14-gauge copper-bearing steel, painted inside and outside with a special rust-resisting preservative. Removable metal top fastened with four large solid brass nuts which will not rust. Action of bacteria in tank liquefies sewage. No chemicals or minerals necessary.

Estimated Total Freight Charges for 100 lbs.: 150 miles, 65¢; 300 miles, 85¢; 500 miles, $1.16. Read Page 306.

Lakeside Pneumatic Water Supply System

With Vertical Steel Tank

$52.85 Cash Price

For Easy Payments Use Order Blank on Page 623

Only $5.00 Down Five Dollars a Month

A dependable Water Supply System for the average home. Takes up little room and a few minutes pumping in the morning will give you necessary water for the day. Tank is made strong and air-tight and carefully tested under 125 pounds of air pressure.

The pump is our improved combination, double acting air and water force pump which pumps air and water at same time. Has 3-inch brass lined cylinder. Geared drive makes it easy to operate.

Outfit complete consists of tank, pump, water gauge for tank; pressure gauge for tank; brass compression drain cock and all necessary valves and fittings.

Order 1¼-inch pipe to connect pump with well and ¾-inch pipe to make connections between tank and plumbing fixtures.

It does not cost much to ship this complete outfit by freight. For example: 100 pounds, for 150 miles, 55¢; 300 miles, 68¢; 500 miles, $1.00. Read Page 306.

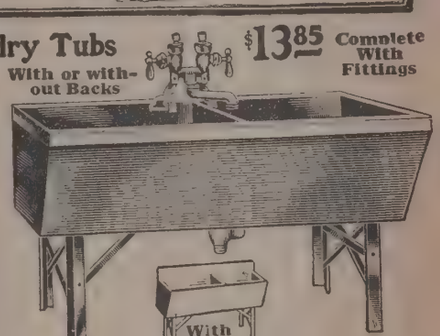
Highest Quality Laundry Tubs

With or without Backs

$13.85 Complete With Fittings



Eliminate the drudgery and danger in carrying buckets of hot water by using one of these modern, sanitary Laundry Tubs. These laundry tubs make wash days much easier as they are correctly designed in height and shape to prevent the familiar backache of wash days. Molded in one solid piece of finest quality special granitine composition. Rounded corners. Top edges have patent metallic wringer guard. Width, 24 inches; depth, 14 inches.

Prices of tubs only include heavy steel, non-collapsible stand but no trap or faucets. Prices complete with fittings include steel stand, cast iron sink trap fitted for 1½-inch iron pipe outlet and a combination swinging spout laundry faucet. See "Estimated Total Freight Charges" below.

Picture This Modern Bathroom Outfit in YOUR Home!

Guaranteed First Quality ~ Our Low Prices Save You About $50.00

Only $75.85~ Cash Price

Our Beautiful "Deerfield" Outfit

ALL through this big catalogue we have talked about the high quality of Ward's merchandise, but there isn't anything in this whole book that gives us greater reason to be proud of its quality than this fine, modern Deerfield Bathroom Outfit.

All our enamelware is covered first with one primer coat, and on top of that are baked on several additional coats of heavy, durable porcelain enamel. All other FIRST QUALITY enamelware is manufactured this same way—and we positively guarantee that Ward's sell you only the finest quality enamelware that can be obtained.

Every piece is strictly "A" grade—first quality, free from flaws, blemishes or chips, bringing a world of satisfaction to you and your family, and increasing the value of your home by at least three times the actual cost of the equipment.

The Bathtub is 5 feet long and 30 inches wide, 17½ inches deep inside, and 23 inches from the 3-inch roll rim to the floor. Solid base prevents accumulation of dust beneath. Cast iron white porcelain enamel inside, one coat of white paint outside. Quick opening nickel-plated brass faucet with china handles. Supply pipes for ½-inch iron or lead pipe and 1½-inch waste connection for lead pipe.

The Lavatory is the popular square front style with 4-inch apron. Size 18 by 24 inches, with 10-inch back. Cast iron white porcelain enameled, with soap cup cast in top. Nickel-plated quick-opening brass faucets with china handles marked "Hot" and "Cold". Supply pipes for ½-inch iron or lead pipe connections and 1¼-inch waste connection for lead pipe.

The Closet Combination is washdown type, with white vitreous china bowl fitted with white sanitary celluloid covered seat; nickel-plated brass hinge. White vitreous china tank with white china handle. Nickel-plated brass supply pipe to floor for connection to ⅜-inch iron or lead pipe. Tank connected to bowl with 2-inch nickel-plated elbow flush pipe.

NOTE: If waste pipes on bathtub and lavatory are wanted for iron pipe connection, order 81 F 5114 for lavatory and 81 F 5116 for bathtub and add $1 extra. Bath stool not included with complete outfit.

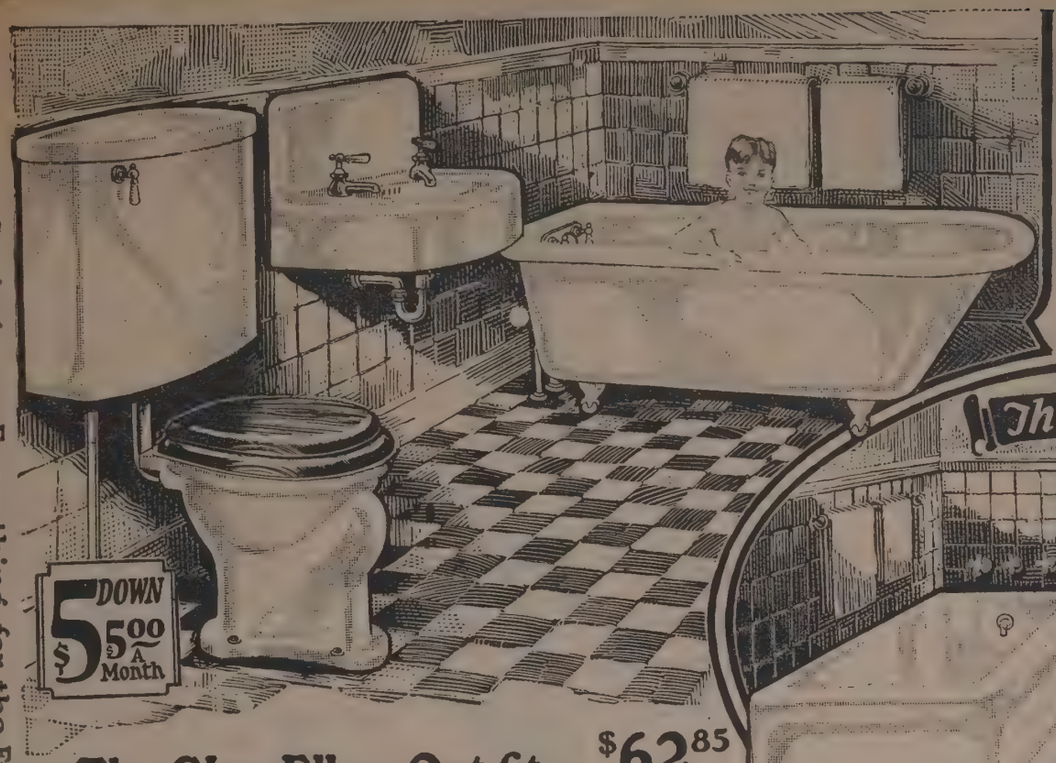
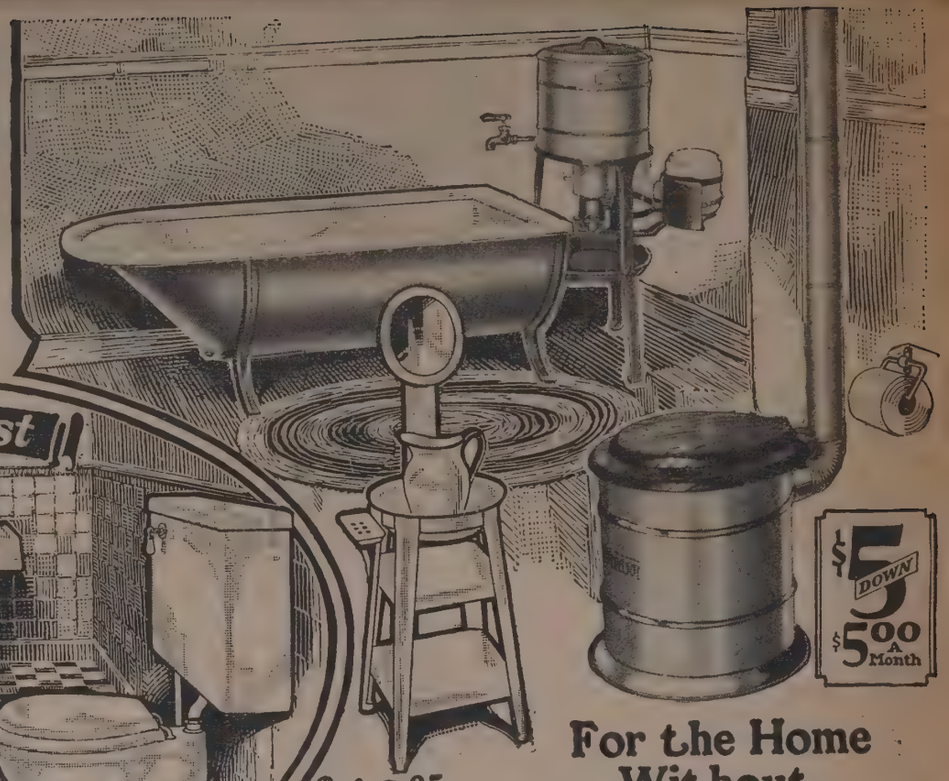
For Homes of Every Style Every-where





The Glen Ellyn Outfit Priced Exceptionally Low

$62.85 Complete Cash Price

This Glen Ellyn Bathroom Outfit comprises everything necessary for a beautiful modern bathroom. Heavy white porcelain enamel over cast iron makes a brilliant finish that will never wear out. Such a bathroom will increase the value of your home by at least $300, to say nothing of the added comfort it means to your family. We do not believe you can duplicate this quality outfit in your locality for less than $100.

The Bathtub is 5 feet long, 30 inches wide, and has a 3-inch roll rim. Inside depth is 17½ inches; rim is 23 inches from floor. Made of cast iron in one piece, with shining white porcelain enamel inside and one coat of white paint outside. Nickel-plated brass fittings include quick compression faucet with china handles marked "Hot" and "Cold", supply pipes for ½-inch iron or lead pipe connection, and 1½-inch waste and overflow for lead pipe connection.

The Lavatory is attractive round front apron style, 18 by 21 inches, with 8-inch back and 4-inch apron. Cast iron with white porcelain enamel. Soap cup cast in top. Nickel-plated brass fittings include quick compression faucets marked "Hot" and "Cold", supply pipes for ½-inch lead or iron pipe connection, and 1¼-inch waste trap for lead pipe connection.

The Closet combination is the washdown type with white vitreous china bowl and high quality mahogany finish seat. Special white composition tank with beautiful celluloid finish, with nickel plated brass supply pipe to floor for connection to ⅜-inch iron or lead pipe. Tank is connected to bowl with 2-inch nickel-plated elbow flush pipe.

The Glen Ellyn outfit can be arranged to fit into a bathroom 6 by 6 feet. Easy-to-follow instructions for installing included with every outfit.

NOTE: If waste pipes on bathtub and lavatory are wanted for iron pipe connection, order 81 F 5114 and 81 F 5116, and add $1 extra to prices below.

For the Home Without Running Water

$40.85 Complete Cash Price

In the dead of winter, with a blizzard raging outside and snow piling against the window, you'll have many occasions to be glad that you installed this convenient, low-priced Bathroom Outfit. It is designed to meet every need of the home which is without running water—and the convenience and comfort it brings would be cheap if the price were twice as much.

Every town has on its outskirts many homes which are without running water. For such homes, and for farm homes, this Bathroom Outfit is indeed a big convenience. Owners of summer cottages find in this set a most satisfactory solution of their toilet and bath problems. And the outfit may be had on small monthly payments—easy and convenient.

Chemical Closet. Heavy steel, gray enameled outer case with 6-gallon galvanized removable container, height 16 inches, diameter 16 inches. Polished mahogany finished seat with hinged lid. Six 12-inch lengths of 3-inch vent pipe; two 3-inch vent elbows; wall collar and chimney reducer for vent pipe, all enameled gray. Outfit includes toilet paper holder and one roll of toilet paper; also one gallon of chemical—enough to last four to six months. The outfit is easy to install—requires no water or plumbing; simply set it in place where vent pipe can be connected.

Portable Steel Bathtub is heavy gauge, galvanized, enameled white inside and painted blue outside. All joints double seamed and soldered; supported by heavy cast iron legs. The 2½-inch white enameled hardwood rim around top affords a hand-grip and makes it easy to move about. Has drain and overflow pipe with stopper. Can be drained with pipe or rubber hose through wall or floor. Length of tub, 5 or 5½ feet.

Tank and Heater are two separate units. One-gallon kerosene burner has improved circular wick; well braced stand is heavy cast iron; water tank of heavy gauge galvanized steel, enameled blue. Holds about nine gals. When tank is removed, heater can be used as stove.

Wash Stand and Basin. Light weight strong steel, white enameled. Basin, soap dish, three-quart pitcher, mirror, towel rack and shelf to hold combs and brushes. Height, 30½ inches; basin diameter, 13 inches.

For Easy Payments Use Order Blank on Page 623. Shipping weights: 220 and 230 pounds. See "Estimated Total Freight Charges" at left.

Easy to Install 55th Anniversary Specials $5.00 Down

Glistening White Porcelain Lavatories

Easy to Install

Do it yourself. Any handy man can install Ward's Closets and Lavatories. We furnish easily understood instructions for doing this work. This will save you plumbers' bills.

Manufacturers make only one grade of enamelware, but in the manufacture of it is poor quality or the casting is rough and the enamel does not go on smoothly. This merchandise they call "seconds" or "culls" and it is offered by some dealers at low prices. All Ward's enamelware has one primer coat and several coats of heavy porcelain enamel. All manufacturers of high-grade enamelware make their enamelware like this. Every piece of enamelware sold by Montgomery Ward & Co. is guaranteed first grade or "A" quality—the finest possible to manufacture.

The Dudley Round Front Apron Lavatory

$7.45 Without Fittings

Why be without the convenience and comfort of a modern white porcelain enameled Lavatory when you can have all the advantages for so little money? One piece heavy cast iron, white porcelain enameled. No cracks or corners to collect dirt. Size, 16 by 19 inches with 6-inch back. Oval bowl, 11 by 14 inches. Latest type quick-compression faucets with china handles lettered "Hot" and "Cold." All fittings solid brass, heavily nickel plated. Trap for 1¼-inch lead pipe. If waste trap is wanted for iron pipe connection, order 81 F 5114, 50¢ extra. All lavatories are furnished with chain stay and concealed wall hanger. Shipping weight, 95 pounds.

Practical, Sanitary and Modern

Best Quality at One-Half The Usual Retail Price

WARD'S High Grade, Modern, Sanitary Plumbing Equipment offers you an opportunity to provide your family with conveniences and comforts that no home should be without. It might surprise you to know that a small investment of about $125 will give you a complete modern bathroom outfit consisting of tub, lavatory and toilet, a fine porcelain lined kitchen sink, and all necessary fittings and piping.

An outfit of this kind, if purchased locally, would cost you about $200, and the plumber would charge you about $75 for installing it. If you buy from us, we show you how to do the work yourself, so that your total saving is about $150.

Easy Payments On Complete Plumbing Systems

The Altona $19.65 Complete

Washdown Style

Ward's Big Value Closet Outfit

The Madison

All White Closet Outfit

The Syphon Jet Closet Outfit in this beautiful white combination of sanitary white vitreous china and white celluloid is the same as is used in the very best homes. It flushes quickly and thoroughly and is almost noiseless in operation. Our price is about half what dealers ask for the same outfit.

The Tank is pure white vitreous china. With the latest flushing mechanism, fitted with white china lever. Has nickel-plated brass offset flush pipe with slip joint couplings and supply pipe to floor with flange, threaded for ⅜-inch iron pipe connection.

The Bowl is also white vitreous china of the syphon jet type which is almost noiseless in its flushing action with nickel-plated brass floor screws and washers.

The Seat is all white celluloid covered or beautiful mahogany finish; solid brass, nickel-plated bar hinge.

Shipping weight, 130 pounds. See "Estimated Total Freight Charges" at right.

181 F 830—With white celluloid covered seat..... $29.75
181 F 837—With mahogany finished seat..... 27.75

With White Porcelain Enameled Cast Iron Tank

Same as above, except with tank.

181 F 838—With white celluloid covered seat..... $30.95
181 F 839—With mahogany finished seat..... 28.95

This popular Washdown Style Closet Outfit is not quite as silent in operation as the Syphon Jet, but is more commonly used because of the lower cost. It is just as well made and as handsome in appearance as similar outfits costing one-third more than we ask.

The Tank is of finest quality white vitreous china with the latest flushing mechanism, fitted with white china handle, nickel-plated slip joint elbow flush pipe from tank to bowl, and ⅜-inch supply pipe to floor with flange, threaded for ⅜-inch iron pipe connection.

The Bowl is of the latest washdown type made of the finest quality white vitreous china, with nickel-plated brass floor screws and washers.

The Seat is of fine quality and fitted with heavy brass, nickel-plated bar hinge.

Shipping weight, complete, 120 pounds. See "Estimated Total Freight Charges" at right.

181 F 820—With mahogany finished seat..... $21.65
181 F 826—With genuine white celluloid covered seat..... 23.45
181 F 327—Same as 181 F 820, except with white porcelain enameled cast iron tank..... 23.15
181 F 828—Same as 181 F 827, except with genuine white celluloid covered seat..... 25.25

By replacing the vitreous china tank with a substantial Composition tank we are able to offer you this fine washdown style outfit at a real saving.

The Tank is made of a special composition with a beautiful white celluloid finish. It is light in weight and easy to install. Not affected by quick change in temperature. Complete with the latest flushing mechanism, fitted with white china lever. Has nickel-plated brass flush pipe with slip joint coupling and supply pipe to floor for ⅜-inch iron pipe connection.

The Bowl is white vitreous china of the improved washdown style with nickel-plated floor screws and washers.

The Seat is well made and carefully shaped; finished in Mahogany; brass nickel-plated bar hinge. Shipping weight, 130 pounds. See "Estimated Total Freight Charges" below.

181 F 870—Improved washdown type. Complete as shown.. $19.65
181 F 880—Same as above, except has syphon jet bowl. Bowl is almost noiseless in its flushing action. Complete..... 24.95

On all the Closet Combinations we furnish iron pipe connections on supply pipe, without extra charge.

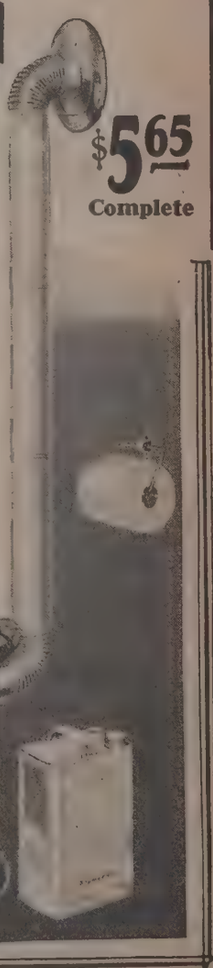
Sanitary-Odorless-Easy to Install No Running Water Needed

Windsor *Chemical Closet*



$5.65 Complete

FINE for country homes, summer cottages, homes, resorts, camps, churches, schools or wherever running water and sewer are not available. Can be used in any home. Easy to install in a curtained corner of bedroom, clothes closet or any convenient place where ventilator pipe can be connected.

For Health and Comfort

Why endure longer the inconvenience and the discomfort of an unsanitary outhouse? The Windsor Chemical Closet brings to your home one of the most necessary modern conveniences. It is easily installed as it requires neither plumbing nor running water. Every member of the household will appreciate it, especially the children and those of the family who, because of ill health or advancing years, should be spared unnecessary exposure. In time of sickness, in winter months, or on cold rainy days you will appreciate the great advantage of the Windsor Indoor Chemical Closet. Chemical is quick in action.

Well Made—Will Last for Many Years

Heavy steel outer case beautifully gray enameled. Height, 16 inches; diameter, 16 inches. Inner removable container of six-gallon capacity is of heavy gauge galvanized steel. Polished mahogany finished seat with hinged lid. Seven 12-inch lengths of 3-inch vent pipe; two 3-inch vent elbows; wall collar and chimney reducer for vent pipe; all enameled to match case. Also toilet paper holder, and one roll of toilet paper. One gallon of chemical with directions, enough for four to six months included. Shipping weight, 35 pounds.

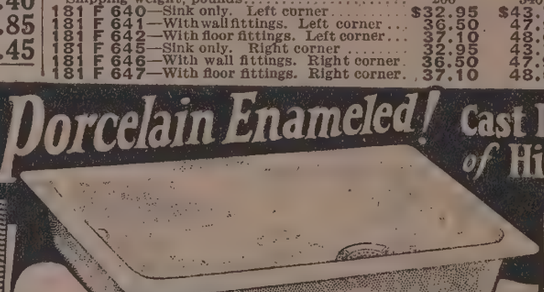
Porcelain Enameled! Cast Iron Sinks of High Quality



$4.95 18 by 30 inches

SAVE $2 to $3

Sanitary—Easy to Keep Clean

DO NOT confuse this high grade Porcelain Enameled Sink with ordinary painted cast iron sinks often sold at about these prices. This is a first grade A-1 quality sink, suitable for almost any kitchen. Particularly good for use with pitcher spout pump or can be installed with built-in drainboard and back. Also excellent for use in garage or shop. Anyone can install it.

All the Features of Higher Priced Sinks

Made with flat rim. Smoothly finished casting, glistening white porcelain enameled inside, painted outside. Round sanitary corners, both top and bottom. Complete with nickel-plated strainer, bolts and trap collar for either 1¼-inch or 1½-inch lead trap. If wanted for 1¼ or 1½-inch iron pipe, order Combination Coupling 81 F 6687 and add 25¢ extra. Traps 481 F 6868 and 481 F 6869, shown on Page 559, may be used with these sinks.

The "Walton" Roll Rim Bathtub with Legs

We are selling an "A" Quality Porcelain Enameled Cast Iron Bathtub 30 inches wide, with legs, for less than most retail dealers pay.

This tub is standard in every way—23 inches high to the top of rim, 17½ inches deep inside and 30 inches wide over the rim. Rim is porcelain enameled, 3 inches wide. Furnished with Regular or Ideal fittings and the outside finished with one coat of white paint or with ivory white finish. At the left we tell you what Regular and Ideal fittings include, and also describe our Ivory white finish. All supply connections are threaded for ½-inch iron pipe, waste connections are for 1½-inch lead pipe. For iron pipe waste connections for Regular fittings order 81 F 5116, 50¢ extra, or if wanted for Ideal fittings, 81 F 5117, 50¢ extra. See "Estimated Total Freight Charges" at left.

For Homes Without Running Water

Complete Outfit $28.85

Combination Tub *and* Kerosene Water Heater

Comes to You Ready to Use

For comfort, health and sanitation, this outfit is ideal for homes with or without plumbing.

Bathtub is big and roomy. Notice its shape—designed same as all high-grade enameled tubs. Do not confuse with other tubs which are short at bottom and tip easily. Tub, heater and tank are separate units. Heater is safe and economical, and may be used in kitchen or laundry. Tub may be purchased without heater. Extra heavy gauge galvanized steel tub, glistening white enamel finish inside and blue outside. Has 2½-inch white enameled hardwood rim around top affording positive hand grip for light weight in moving about. Easy to drain with ordinary piping or garden hose. Overflow pipe and stopper included. Two holes in back of tub for supply pipe connections if running water is used. Can be stood on end, in closet or corner. All joints double seamed.

The heavy gauge galvanized steel water tank is blue enameled to match tub, and holds nine gallons. Nickel faucet and two handles on sides. Kerosene burner produces a blue flame. Fuel tank holds one gallon. Absolutely safe—no soot, smoke or odor. Stand is heavy cast iron enameled black; well braced. **See "Estimated Total Freight Charges" above.**

"I have a Letter from a Stove Manufacturer"

C. W. Nord
Manager
Stove Dept.

Duffy-Trowbridge Stove Mfg. Co.
ESTABLISHED 1882 CAPITAL $300,000.00
Hannibal, Missouri Oct. 2, 1926.

Mr. C. W. Nord,
Manager Stove Department,
Montgomery Ward & Co.

Dear Mr. Nord:

I am sorry you were out of town when I called last week. In your absence, I spent several hours in the display room looking over your models for next Spring and I want to tell you unqualifiedly it is the finest looking, best made, most modern and complete stove line I have ever seen.

I have been in the stove business all my life, yet I've never seen better stoves at any price. The high quality you always demand in Windsors certainly justifies your position as the Largest Stove Store in the world.

Having nothing better to do while in Chicago, I also visited several department and furniture stores and after comparing their stove line -- coal, wood, gas, kerosene, gasoline and combinations -- with yours, I came away thinking, "Why does anyone ever buy a stove elsewhere than at Ward's?"

For thirty years we have made stoves for your Company, and we have always tried to give you good, honest, carefully made merchandise; yet, just looking at that most complete line of beautiful Windsor Stoves -- and I am mighty glad there were several of our own make in it -- made me feel we must do better than ever before if we wish to continue playing our part in Windsor Progress.

With best wishes for your continued success, I am,

Yours very sincerely,
DUFFY-TROWBRIDGE STOVE MFG. CO.,
A. Trowbridge
President.

He Has Never Seen Better Stoves at Any Price!

As Manager of the Stove Department of Mont gomery Ward & Co., I have received hundreds o letters from customers, telling of their delight a the splendid construction, the fine appearance an the special features of Windsor Stoves. And, o course, such letters are a constant source of satis faction to me.

But I want to show you a letter—the letter repro duced at the left—which I have received from stove manufacturer. Mr. Trowbridge is a life-lon stove man. He represents a company with forty-fou years of experience in manufacturing fine stoves.

When he says, *"I've never seen better stoves a any price,"* he speaks as an expert who knows th merits and advantages of every stove made.

A customer's comparison is made with one o two other stoves in a hardware or furniture store Mr. Trowbridge's statement is made with ful knowledge of the stove market.

And I want you to know that it's mighty gratify ing to us to have Mr. Trowbridge say, "The hig quality you always demand certainly justifies you position as the Largest Stove Store in the World."

I speak for the whole Stove Department when say that you who have made us the World's Larg est Stove Store, can safely count on a continuanc of that same high quality, no matter what Windso Stove you select. And the prices will always sav you money.

C. W. Nord
Manager, Stove Departme

Honest Prices for Honest Quality Have Made Ward's the Largest Stove Store in the World

Windsor Prices Don't Measure Windsor Quality

If you want to judge Windsor Quality on the basis of price, you should add at least 40 per cent to our quotations. Why? Because the dealer must include in his prices three profits and three sets of expense—his own, the wholesaler's, and the manufacturer's. Windsor Stoves are made to our order, with dies, molds, and other equipment which we own, from metal which we ourselves frequently buy at lowest prices when the market is away down. There is no wholesaler's profit, and the manufacturing cost is reduced—as a result, you save 40 per cent at Ward's.

Windsor Features Save Labor and Fuel

Perhaps you'll wonder where we got all the ideas for the many exclusive Windsor features. Every year we interview hundreds of housekeepers in their own homes. Many Windsor features are suggested by them, drawn from their own experiences.

Stoves built high enough for easy cleaning underneath; oven thermometers; the famous Windsor cyclonic lid; the non-scorch lid; the hot blast damper top; the Super Giant Wickless kerosene burner with the fireless cooking hole—these are some Windsor features which save time, labor and fuel.

Windsor Quality Second to None

No matter how much you pay for a stove, you ca not buy better quality, longer service, nor finer finis than we offer you on Windsor Stoves.

Windsor porcelain enameled stoves have the sam high, lustrous finish found on other stoves selling f much higher prices. Two coats of enamel on the ca iron stoves and three or four coats on the steel stov insure fine appearance and permanent beauty.

Highest quality materials are used in every step manufacture. You'll say, with Mr. Trowbridge, "I never seen better stoves at any price."

All Letters Printed by Permission

Triplex Oil Range
"The best stove I have ever used"

"I have boiled, fried, and baked muffins, cakes, and bread with my Triplex Oil Range and will say it is the best stove I have ever used. The Triplex Range is just the right height from the floor. I do not have to stoop to cook. The oven is a splendid baker. The fireless cooking holes are surely fine—I put my meal on to cook and percolate my coffee on a fireless hole. I have a cool, odorless kitchen and cook a lovely meal in half the time than if I used a wood range."

Mrs. H. J. Puckett,
Youngblood, Ala.

"They are $35 here in Versailles"

"I received my Range and am more than pleased, and like it better every meal I cook on it. A friend asked if I paid fifty dollars, and was surprised when I said it cost only $27.02. They are $35 here in Versailles.

"My mother-in-law received her stove from you at the same time I received mine and is well pleased with it."

Mrs. D. Satterwhite,
Versailles, Ky.

"We saved $35 to $40 on one of your Windsor Ranges"

"We saved $35 to $40 on the Renown Windsor Range we purchased from you. It is a fine baker, fine looker, and a fuel saver. At the same time we purchased one of your laundry stoves which can't be beat. We heat our four rooms very comfortably with the two stoves and have had some very cold weather.

"We keep fire all night in both easily and only use from 3 to 5 scuttles in 24 hours, in both stoves. Beat that in any stove if you can."

C. C. Haven,
Big Rapids, Mich.

Our Stove Guarantee

We unreservedly guarantee that any Windsor Stove or Range bought from us will be satisfactory to you in every respect—price, quality and service. They are built of first class materials by competent workmen, and are guaranteed to be of the highest quality. There are no "seconds," no "culls." We guarantee safe delivery. Should any imperfections, due to faulty materials or construction, develop during the life of any Windsor stove or range, we will correct the fault to your satisfaction or return the full amount paid, including transportation charges.

Extra Large Cooking Top, Oven and Broiler
Special Rustproof Drawer for Utensils

When we built the New Windsor De Luxe Gas Range we created a range that will give lifelong service, satisfaction, and the utmost in cooking and baking comfort. As an offering of the Largest Stove Store in the World, whose policy is "Satisfaction Guaranteed or your Money Back," we have made the De Luxe Windsor our finest Gas Range. Not only do we guarantee it to give satisfaction but we guarantee it to be faultless in construction, quality and operation. It is the finest gas range money can buy and we are proud of it. Read below about the special features we have designed and placed in this range, which are fully illustrated at the right. This will explain why the De Luxe Windsor is the finest gas range that money can build or buy.

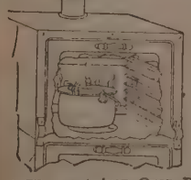
Some of the Features of the De Luxe

A—Furnished with or without Windsor Gas Oven Heat Regulator described below. Must be ordered with range. Cannot be ordered separately. B—Body made of genuine Armco Iron covered with white porcelain enamel. Easy to clean and rust-resisting. Solid body construction. C—Porcelain enamel makes cleaning easy. Wipe with a damp cloth. D—Flush front and doors with bulged or cushion type door panels. No uneven surfaces to catch cloth while wiping. E—All door hinges are concealed; flush finish makes cleaning easy. F—Oven and broiler door handles are white porcelain. G—Accurate oven thermometer helps to regulate your baking. H—Extra large oven. Size, 16 in. wide, 20 in. deep and 14 in. high. I—Oven and broiler linings are speckled porcelain enameled. Easily cleaned. This finish makes linings rustproof and adds to life of range. J—Heavy cast iron oven bottom and boiling lid (described below). K—Two oven racks. You can bake at various heights by simply changing position of racks. L—One large loop style oven and broiler burner. Flame is easily adjusted—heats both oven and broiler. Broiler size, 16 inches wide, 20 inches deep and 10 inches high. Excellent for toasting or for broiling steaks. N—Broiler pan and rack is adjustable to any height for either slow or fast broiling. O—Roomy warming shelf. Keeps food warm until ready to serve. P—Oven top and back guard makes convenient place for holding dishes. Q—White porcelain enameled splasher back and side. Splatterings easily wiped off with damp cloth. R—Extra large cooking surface and end shelf. Measurements: 20¾ in. deep, 22¼ in. wide without end shelf. 25¼ in. with end shelf. Height, 34 inches. S—Top grates are ground coat porcelain enamel finish, on Model "A" only. Specially constructed for easy cleaning. T—Nickeled manifold of sturdy construction connected to body—no brackets to make cleaning difficult. Handier to operate gas levers. U—Full length pipe connection from manifold to back of stove, concealed within burner box compartment. V—Two Giant Star burners, for large and quick cooking requirements. W—Two regular back star burners. X—One simmering burner for simmering, stewing or keeping things warm. Y—All burners are ground coat porcelain enameled finish, on Model "A" only. Removable for cleaning. Z—Lighter furnished free (illustrated below). AA—Wilder Rustproof steel drawer for pots and pans. BB—White porcelain enameled clean-out pan catches drippings.

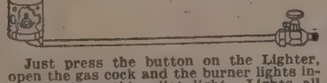
Features of All Highest Priced Gas Ranges Found on Windsors



All Windsor Gas Ranges Have Cast Iron Oven Bottoms

The cast iron Oven Bottom lasts much longer and is stronger and more satisfactory than the ordinary steel bottom. It absorbs the heat more slowly and distributes it more evenly, resulting in better roasting and baking. Another feature is the cooking hole in the center of the oven right over the burner. Just remove the lid and set your cooking vessel directly over the flame. All cooking odors go up the chimney instead of into the house. A convenient lighting hole near the front makes the oven easy to light. These are two of the features that make our Windsor Gas Ranges so universally popular.

Windsor Lighter



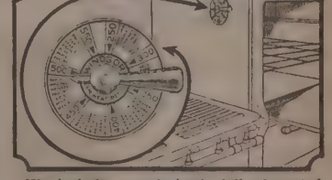
Just press the button on the Lighter, open the gas cock and the burner lights instantly from this pilot light. Lights all burners except oven. All gas ranges shown on this page are equipped with this lighter. All other gas ranges (except Gas Rangette shown on Page 562 and Gas Cookers shown on Page 565) are fitted with manifolds threaded and plugged to accommodate this lighter. If ordered with the range, order No. 168F400 and add $1.35 to the price of the range. Shipping weight, 1 pound.

168 F 400 –
Lighter with range $1.35
68 F 401—Lighter separately. Can be shipped by parcel post $1.75

Windsor Gas Oven Heat Regulator

You can do better cooking and baking, save hours of your time and an immense amount of hard work, with the Windsor Oven Heat Regulator on your gas range. It does away with all uncertainty, takes the guess work out of baking, and saves gas. Your range equipped with it offers the cleanest, safest and easiest method of cold pack canning. It is so simple to use that even a child can operate it. The necessary degree of heat required to prepare certain foods, is marked on the dial. Simply turn the dial handle to the required heat degree mark. Light the gas, let the oven heat up for ten to fifteen minutes –always necessary when the oven is cold; then put your food in. Inasmuch as the heat in the oven is then automatically controlled to stay at exactly that temperature, you can leave the kitchen for other duties or rest until it is time to take the food out.

After many long and varied tests had proved that the cheaper regulators offered were not good enough for Ward's customers we designed this almost human device, and are offering it to you for such a price that there is no right of comparison with those regulators that are sold at a price lower than the Windsor.



We include a cook book full of tested recipes which also gives you complete instructions for its use. It has been tested and approved by Good Housekeeping Institute.

All the Windsor Gas Ranges except cookers, the Windsor Gas Range with built-in Kitchen Heater, and the Windsor Bungalow Gas Range, can be equipped with the Windsor Oven Heat Regulator. It must be ordered with the range as it is built in and concealed in the stove at the factory.

Greater Values in Beautiful Gas Ranges

Windsor Gas Rangette

Burns Natural or Manufactured Gas

State Which Type Wanted When Ordering

$11.45 Sold for Cash Only

Many people will prefer the Windsor Gas Rangette because they have small kitchens and must save all the space possible. Others find three standard burners and an oven sufficient for their needs. The white porcelain enameled panel in the oven door adds to the attractiveness of the cooker. The three-burner cooking top is 27½ inches wide and 15 inches deep. It has one Giant and two single Star burners. The oven is 16 by 12 by 11 inches and meets the requirements of average families. The oven is scientifically constructed and bakes perfectly. Requires floor space 28 by 16 inches. Stove is 30 inches high over all. Burns natural or manufactured gas.

Shipping weight, 90 pounds. Estimated Total Freight Charges for 150 miles, 50¢; 300 miles, 55¢; 500 miles, 88¢. Read Page 306.

All Season Gas Ranges-Very Practical

A Popular Combination For Coal, Gas or Wood

We have taken our well known Full Porcelain Enameled Windsor Gas Range and added a special kitchen heater section: A combination which permits you to burn coal, wood or gas separately or at the same time. Convenient also for disposing of kitchen waste. This arrangement has proved very popular as it is an ideal stove for year round use. On warm summer days you can use the gas range and have a cool kitchen. On cool days the coal section will warm up the chilled air in your kitchen. Pay cash or use our easy payment plan of $5 down and $5 a month.

Specifications of the Combination Gas-Coal-Wood Ranges

Gas Range. Choice of highly polished solid cooking top or open grates, 18¼ by 20½ in., 35 inches high; four 8-inch cooking holes (1 Giant Star and 3 regular burners). Oven, 16 by 19½ by 12 inches; lined with Toncan rustproof metal. Cast iron oven bottom with lighter hole and cooking lid. Broiler, 7 inches high, size, 16 by 19½ inches. White porcelain enameled broiler pan. Burns natural or manufactured gas only. State which type wanted when ordering.

Kitchen Heater. Polished cooking top, 10¼ by 20½ inches, 35 inches high, two 7-inch cooking holes. Hot blast damper top. Fire box has duplex grates for burning hard or soft coal and wood; also has gas kindler; size for coal, 17½ by 7½ by 7½ inches; takes 18-inch wood with end linings removed; 6-inch pipe in rear of the kitchen heater to which gas oven and cooking top flue pipes are connected.

Entire Range. Size of body over all: Height, 48 inches, width, 47 inches, depth, 27 inches. Occupies floor space 48 by 30 inches. Cooking top: Width, 28½ inches; depth, 20½ inches.

White Enameled Parts. Back guard; high shelf, oven top, splasher back and side, outside body side, outside kitchen heater side, inside kitchen heater body side, burner box bottom, right hand burner box side, cushion style oven and broiler door panels, fire door panel, drip pan and broiler pan.

Gray Enameled Parts. Four legs; oven and broiler front, and kitchen heater front.

Nickeled Parts. Back guard corners, shelf bracket, oven and broiler door frames, body band, ash door, fire door frame, manifold pipe (plugged for lighter) and air mixer caps.

Shipping weight, 370 pounds. Estimated Total Freight Charges for 150 miles, $1.54; 300 miles, $1.86; 500 miles, $3.08. Read Page 306.

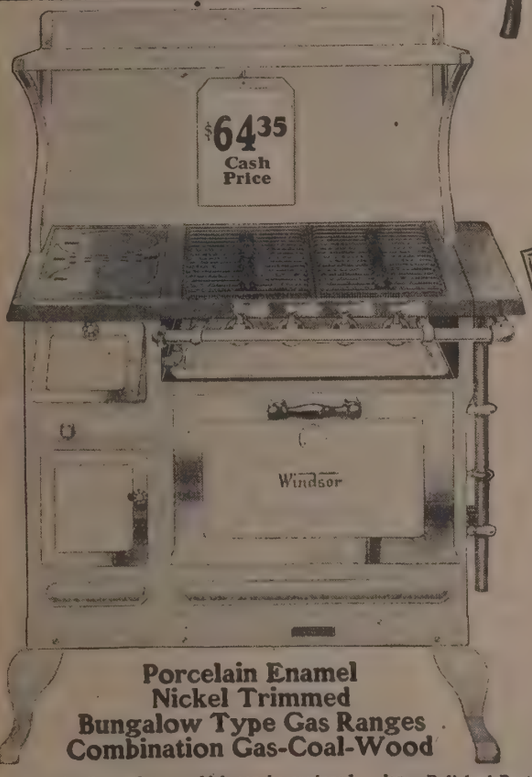
Plain Finish

Model "B"—Plain Finish

The same Combination Gas Range with built-in Kitchen Heater as the Full Porcelain Enameled Model "A" shown above, except in finish. Furnished only with closed tops and with oven heat regulator. We have taken off most of the enameled parts so that the price is extremely low. The quality is just the same, however, as the absence of the enameled parts in no way detracts from it. We have left the oven, broiler and firedoor panels, splasher back and side, cleanout and broiler pans white porcelain enameled because they are the parts that need cleaning most frequently. They also add to the appearance giving a striking combination of shiny black Japan and pure gleaming white. All other specifications are the same as Model "A". For prices see column on left side of page.

Special Features—Included Free

A two-piece Sectional Lid shown at the left and the grate shown at the right are included with Models "A" and "B," with Closed Top, also Bungalow with Closed Top. Convenient for placing different size utensils directly over the fire for quick cooking.



Porcelain Enamel Nickel Trimmed Bungalow Type Gas Ranges Combination Gas-Coal-Wood

Large broiler and oven which can be equipped with oven heat regulator. Kitchen heater has gas kindler and can be furnished with water front if desired. Furnished with either open top gas grates or closed top with lids.

Size of oven, (for gas only) 18 by 19½ by 12 inches. Cast iron oven bottom with center lid and lighter hole. Kitchen heater top, 10½ by 21¼ inches. Gas cooking top, open or closed styles, 21¼ by 21¼ inches (3 regular and one Giant Star Burners). Entire cooking top including end shelf, 35 by 21¼ inches. Height over all, 48 inches. Height of cooking top from floor, 33¼ inches. Fire box, 17½ by 7½ by 7½ inches. Takes 18-inch wood, with end linings removed. 6-inch pipe in rear of heater section to which gas oven and cooking top flue pipes are connected. Floor space, 38 by 27 inches.

Nickeled Parts: Back guard corners, shelf brackets, manifold pipe (plugged for lighter) air mixer caps, oven door handle posts, fire, ash and oven door frames. White Porcelain Enameled Parts. Back guard, high shelf, splasher back, cleanout pan, broiler pan, fire, ash and oven door panels.

Ward's Biggest Gas Stove Bargain
Lowest Priced Range in America

A Wonderful Saving for You

Here is an excellent opportunity for you to get a high-grade, plain japan finish Gas Range at the lowest price ever offered anywhere by anybody for such quality. Take advantage of this exceptional offer and place your order with us today. We have eliminated all fancy trimmings in order to make it America's Biggest Bargain, but remember that the quality and workmanship are just the same as those in our highest priced stoves. This range can be equipped with our Windsor Lighter described on Page 561. Burns natural or manufactured gas only. State which type desired when ordering. Sold for Cash only.

Specifications of Windsor Cabinet Range

White porcelain enameled splasher back and oven and broiler door panels—cushion type. All other parts are baked on black japanned finish. The body is of long lasting, rust-resisting Armco Iron. All other parts are high-grade cast iron. The oven bottom is cast iron insuring even heat distribution and has a cooking hole with removable lid in center. This is an ideal feature for cooking odorous food such as cabbage in the oven. Fumes and cooking odors all escape up chimney and the kitchen is always fresh. Oven size; 16 by 19½ by 12 inches. Equipped with removable improved style top grates. Pans and kettles cannot tip on cooking top as on old style round grates. Broiler is 7 inches high and has a plain drip pan. All burners can be removed easily for cleaning. Cooking top, 22 by 20 inches, 32 inches from floor, is equipped with three regular and one Giant Star burner. Dimensions over all: 41½ inches wide, 49¾ inches high, 24¾ inches deep.

Shipping weight, 205 pounds. Estimated Total Freight Charges for 150 miles, 90c; 300 miles, $1.09; 500 miles, $1.80. Read Page 306.

The Biggest Laundry Stove Value on the Market Today

$5.45

Laundry Stove

Four-Hole Size

Look where you may, you cannot buy so good a Laundry Stove elsewhere at such a low price. Yet, not a single detail in the high quality and fine workmanship of this popular four-hole Windsor has been sacrificed in making this bargain price. We had them built at a rock bottom cost by placing a large order when work was slack in the foundry. This type of stove usually sells for about $8.15. The saving is yours. A variety of combinations with ovens in 2 and 4-hole sizes gives you a big selection from which to choose.

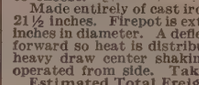
Made entirely of cast iron. Height to cooking top 21½ inches. Firepot is extra heavy ribbed and 12½ inches in diameter. A deflector forces flame and heat forward so heat is distributed evenly. Fine quality heavy draw center shaking grate. Shaker handle operated from side. Takes 6-inch pipe.

Estimated Total Freight Charges same as on stove at right.

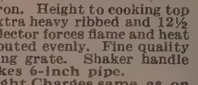
168 F 900—Four-hole size. Cooking top, 20½ by 21 inches; four 8-inch lids. Shipping weight, 80 pounds. **$5.45**

168 F 915—Two-hole size. Cooking top, 13½ by 20½ inches; pouch feed; two 8-inch lids. Shipping weight, 65 pounds. **$5.15**

Shipped from our Baltimore store or Gadsden, Ala., whichever is nearest you



This illustration shows the 4-Hole Cooking Top with which the Windsor Laundry Stoves shown here are equipped. Has four 8-inch lids. Size of top, 20½ by 20 inches.



The 2-Hole Cooking Top has only two 8-inch lids but has a pouch feed for feeding fuel into fire box when you have boiler on stove. Size of top, 13½ by 20½ inches.

$7.95

With Or Without Drum Oven

Drum Oven Type 2-Hole Size

We offer here another handy combination of the Windsor Laundry Stove with the poplar Type Drum Oven. With this outfit you can do perfect baking at the same time you are doing your washing. Oven is of steel and constructed with an outer jacket or drum in which the heat passing up the stove pipe circulates completely around the oven. Size, 12¼ inches wide and 19 inches long. Size oven inside, 9 by 18 inches. Takes baking pans up to 8 by 17½ inches. Oven can be purchased separately if desired. Stoves are the 168 F 900 and 168 F 915 shown at left.

Estimated Total Freight Charges for 150 miles, 50¢; 300 miles, 53¢; 500 miles, 88¢. Read Page 306.

168 F 918—Four-hole size with drum oven. Shipping weight, 92 pounds. **$8.25**

168 F 917—Two-hole size with drum oven. Shipping weight, 77 pounds. **$7.95**

168 F 906—Drum oven only. Fits any 6-inch stovepipe. Shipping weight, 12 pounds. **$2.95**

It Burns Coal Wood Gas 3 Ovens Coal Oven Gas Oven Gas Broiler

The New Conquest Windsor TRADE MARK

The Finest Cast Iron-Combination Range Ever Built Blue or Gray Porcelain Enameled or Plain Finish

If it were possible to build a better combination range, Ward's would sell it. The Windsor Combination Coal-Wood-Gas Range is the best year round stove that money can buy. It is a complete coal or wood-burning range with a full size oven and four cooking holes. Also four gas burners (one Giant) and an elevated gas Broiler and Gas oven (described below at the left) which can be used as a warming closet when you are using the coal range. Yet this combination range is so compact that it only takes the space of an ordinary coal range—and you get the use of two ranges for practically the price of one. At times every housekeeper needs extra cooking space. The Windsor Combination will give you that. Besides, you can save time by putting the slow-cooking foods on the coal-wood section and then cook the foods which need a fast, extra hot fire on the gas range section. When you use the coal fire in winter to heat the kitchen, the coal oven is always ready for baking. In summer the gas oven is most convenient.

Specifications of the Conquest Windsor Combination

Body. Made of heavy cast iron. All castings are strong, well finished and accurately fitted. Takes 7-inch pipe.

Firebox. Has duplex grates and cast linings; soft coal or wood or hard coal duplex grates and brick lining for hard coal. Size for coal, 15½ by 7½ by 7 inches. Takes 18-inch wood with end linings removed.

Ovens. A very good baker. Coal oven, 18 by 16½ by 12 inches. High gas oven and broiler, 18 by 14 by 10 inches.

Cooking Top. Polished on blue and gray enameled stoves; plain black on nickel trimmed stove. Coal top, 4-hole size, 23 by 24 inches. Gas top, 4-burner size, 17 by 24 inches. Coal top includes two Cyclonic lids, one Non-Scorch lid, one three-piece Sectional lid, and a Hot Blast damper Top. These are regular exclusive Windsor features and are fully illustrated and described on Page 573. Height to cooking top, 32 inches. Entire height of stove, 64 inches.

168 F 316—Water Front. Can be used with range boiler if you have a water pressure system in your home. Ship. weight, 25 pounds. Extra . . . **$5.50**

Blue or Gray Porcelain Enamel Finish

Blue or Gray Porcelain Enameled Parts. High gas oven front; broiler front; body left end; body main front; body right end; gas top bracket; side base strips and front base strip. All door panels, splasher back broiler pan and clean-out pan are white porcelain enameled which is very easy to keep clean.

Nickeled Parts. All door frames, thermometer rings, high oven brackets, left end damper, ash door, ash catch, firedoor, cleanout, oven door hinge box, manifold pipe and four legs.

Shipping weight, 610 pounds. Estimated Total Freight Charges for 150 miles, $2.68; 300 miles, $3.23; 500 miles, $5.37. Read page 306.

Plain Finish Nickel Trimmed

The Plain Windsor Combination Range is just the same as the Blue or Gray Enameled models, except we have left off the blue or gray porcelain enameled parts to make the price low and we have trimmed this range with nickel and white porcelain enamel. Cooking top is not polished.

Nickeled Parts. All door frames, thermometer rings, left end damper clean-out door, oven door hinge box, gas fittings, ash catch, fire and ash doors, oven front legs, front base strip, and high closet brackets. White Enameled Parts. All door panels, splasher back, catch pan under gas cooking top, broiler pan and gas cock handles. All other specifications and the water front are the same as quoted for the Enameled Combination Range. Shipping weight, 610 pounds. Estimated Freight Charges same as on stove at left.

A Windsor Cook Book Containing Pictorial Review Tested Recipes Included Free With Each Windsor Gas Range

Large Convenient Oven and Broiler

The coal oven, the gas oven and the broiler are entirely separate from each other. The coal oven is at the side of the fire box, while the gas oven and the broiler are elevated. Only the most expensive ranges have these drop-type doors forming convenient shelves when open. The front of the doors are flat, not a bolt head shows. Cast bottom with separate boiling lid in gas oven.

Finest All Cast Iron Cook Stoves—Very Special Prices

High Quality—Julian Windsor—Very Attractive

The high quality, attractive appearance and exceptionally low price make the Julian Windsor one of the greatest cast iron cook stoves on the market today—the best that is possible to produce. Scientifically constructed and of the best materials. It will give dependable service for a long time. **For Easy Payments Use Order Blank on Page 623.**

Has the Exclusive Windsor Cooking Top Features

Highly polished nickel towel bar. Black japanned reservoir covers and right end panel. Pouch feed door and entire cooking top black. Firedoor panel, oven door panel and reservoir panel are white porcelain enameled. Cooking Top. Size, 40 by 22 inches, including reservoir. Entire height, 30¼ inches. Two cyclonic lids, one non-scorch lid, one sectional lid (all 8-inch), and a hot blast damper top (illustrated on Page 575). Firebox, 16½ by 8½ by 5 inches. Takes 18-inch wood with end linings removed. Duplex grates. Burns any kind of fuel. Oven, 18 by 15½ by 12 inches. Two oven doors—one on each side. Ash Pan. Size, 11¼ by 11 by 2½ inches. Reservoir. A Brand New Idea in Stove Construction

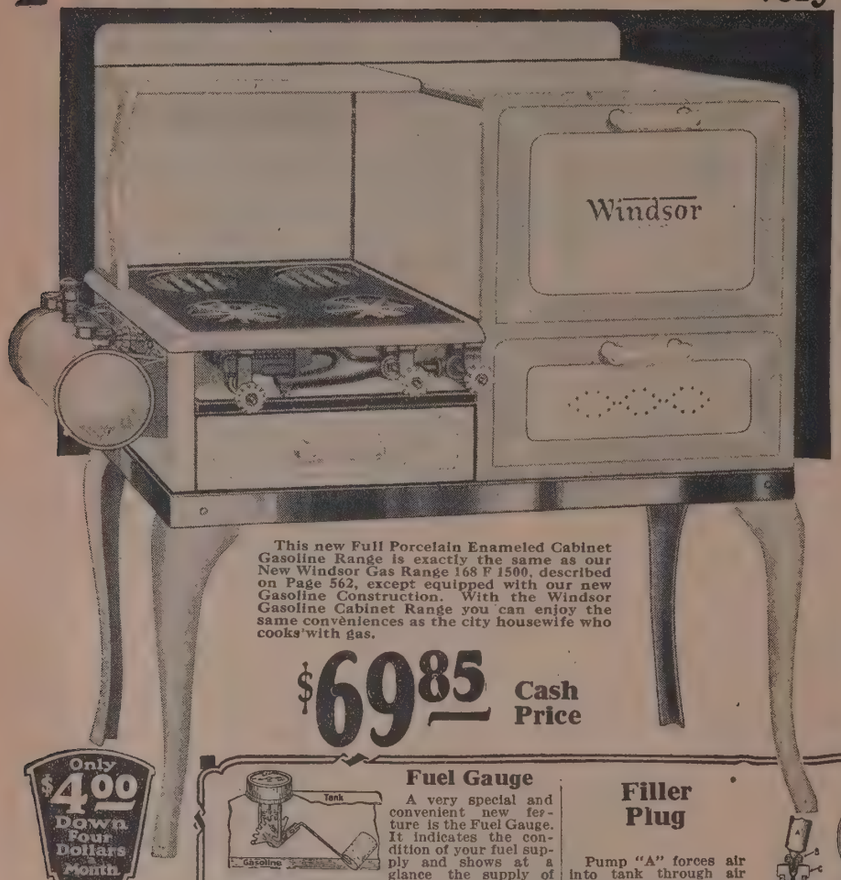
Very Special Features—New Attractive Models

Windsor Gasoline Ranges

TRADE MARK

The Very Latest Development of the Largest Stove Store in the World—

THE Largest Stove Store in the World is now offering the very latest developments in high-grade Gasoline Ranges. All new models, many special features and very simple construction and operation—combine to make the Windsor Gasoline Ranges the very finest ever offered anywhere. Brand new simple construction built into a variety of new models is in keeping with our policy of always being the most progressive store. Our customers are the first to benefit from any improvement in the stove line as we offer it to you as soon as we are convinced that it will be dependable and satisfactory in every way.



This new Full Porcelain Enameled Cabinet Gasoline Range is exactly the same as our New Windsor Gas Range 168 F 1500, described on Page 562, except equipped with our new Gasoline Construction. With the Windsor Gasoline Cabinet Range you can enjoy the same conveniences as the city housewife who cooks with gas.

Very Special Features for Your Convenience

In designing this new line of Windsor Gasoline Ranges we kept in mind all features which would make this stove easy to operate, offering you a choice of models which will do your cooking and baking quicker and easier. All models have the connections and special fittings on the outside of stove body so that the operation is simple and easy. Fuel and air gauges are in plain view. Gasoline gives a hotter cooking heat than any other fuel and consequently will do your work in less time and with less bother.

An alcohol generator bottle with wick and flame spreader holds flame completely around generator—takes only 2 or 3 minutes to start cooking fire. After generator is hot, master burner can be lighted by turning control valve. Any or all of the burners can be lighted at the same time after generation is started. Each burner has separate valves for independent control. Valves can be removed for cleaning. Fuel tank has many features which are highly convenient. They are fully described below in panel in center of page.

Specifications of the Cabinet Gasoline Range

The body construction finish, oven and utensil drawer are exactly the same as our Full Porcelain Enameled Windsor Gas Range fully illustrated and described on Page 562. The gasoline tank is finished in gray japan, baked on. The cooking top size, 20½ by 22 inches has the famous Windsor Triplex heat collectors and wrought iron key plates—two burners supply the heat for four cooking holes. (See description of Triplex Features on Page 570.) Oven has a large 3-bar burner which distributes heat evenly to all parts of oven and broiler. Oven has cast iron bottom, the same as described at bottom Page 561. Fuel tank has all the features described below and holds one gallon. Generator and principle of operation is the same as described below for all models shown on this page.

Shipping weight, 250 pounds. Estimated Total Freight Charges for 150 miles, $1.10; 300 miles, $1.33; 500 miles, $2.20. Read Page 306.

Prices of Range

Easy Payment Price	77.50

Fuel Gauge

A very special and convenient new feature is the Fuel Gauge. It indicates the condition of your fuel supply and shows at a glance the supply of gasoline you have in your tank. The principle is the same as that of the gasoline gauge on the ordinary automobile gasoline tank. If you watch the gauge you'll never be troubled by having your fuel supply give out in the middle of the preparation of a meal.

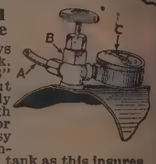
Filler Plug

Pump "A" forces air into tank through air plug "B" thereby putting the proper air pressure in tank. Plug screws in quickly. Entire plug "C" screws off and provides opening for filling tank with gasoline.

Generator

Generator has fixed orifice at end through which needle point protrudes when generator valve is screwed in all the way. Keeps opening free from dirt and carbon deposits. Whole generator element can be removed for cleaning or for replacing orifice or needle point.

Air Gauge and Shut-Off Valve



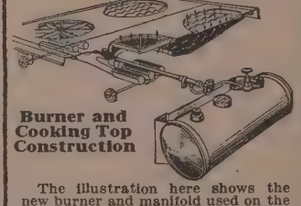
Air gauge "C" shows pressure in tank. Shut-off valve "B" enables you to shut off gasoline supply which flows through pipe "A" to generator tube. Permits easy cleaning. Also convenient when filling tank as this insures all burners being out, which means absolute safety.

A Windsor Cook Book Containing Tested Pictorial Recipes, Air Pressure Pump and Alcohol-Generating Lamp furnished FREE with All Windsor Gasoline Stoves. Complete instructions also included.

Cash Price Complete With Oven $38.85

Generating Lamp

Alcohol Wick Lamp for heating generator. Wick "C" throws flame on generator "A." Spreader holds flame completely around generator. Smothering cap "B" extinguishes flame.



Burner and Cooking Top Construction

The illustration here shows the new burner and manifold used on the New Windsor Gasoline Ranges. The cast iron burners set on top of the manifold and fit tightly. They can be lifted off at any time for cleaning. The cast manifold, if flooded with gasoline due to burner not being generated before gasoline supply is turned on, has a petcock at the lowest point for draining. Illustration also shows the famous Windsor Triplex Construction—one burner heats two cooking holes by means of a patented heat collector which carries the heat usually wasted to the rear cooking holes, where it is used again. The heavy individual wrought iron key plates are removable.

Cash Price Complete With Oven $29.15

Sold for Cash Only

The New Triplex Double Capacity Model

The New Windsor Gasoline Burners with the famous Triplex heat collectors and large canopy give you triple use of the heat and twice as many cooking holes as any other 3 or 4 burner stove. This model combines all the improved features of the well known Triplex construction with the new and simple gasoline construction. Will enable you to do all your cooking and baking quickly, economically and safely as the heat from the new gasoline burner is steady and clean. The Triplex Windsor Gasoline Stove can be bought on our Easy Payment Plan—$4.00 Down and $4.00 a Month.

Specifications of Triplex Model Gasoline Range

Cooking top has wrought iron key plates and angle iron frame. Size 34½ and 45 inches wide by 20 inches deep. Height from floor 34 inches. Finish of stove is baked-on shiny black japan and gray japan in dull velvety finish. Entire height of stove 59 inches. Gasoline tank holds one gallon of gasoline. Has pressure and fuel gauges and safety filling cap. Shelf in canopy folds back when oven is in use. Canopy takes 6-inch stove pipe. Burners are cast iron with brass fittings and polished control knobs. Three-burner stove has one master burner at end and two auxiliary burners which are dependent on master burner. Four-burner stove is the same except that it has an extra auxiliary burner. Gray Parts: body, ends, tank and fittings, canopy back; all other parts are black japanned finish. Legs are of sturdy construction solidly connected to body and sturdy cooking top, equipped with wrought iron key-plates. Oven is the Windsor Endoor described fully on Page 570. Size of cooking top: Three-burner: 20 by 34½ inches; four-burner 20 by 45 inches. Complete with pump, alcohol generating lamp and instructions. Shipping weights: with oven—three-burner, 150 pounds; four-burner, 175 pounds. Estimated Total Freight Charges for 150 miles, 79¢; 300 miles, 84¢; 500 miles, $1.41. Read Page 306.

New Low Priced Windsor Gasoline Range

For those who want a plain model Gasoline Range at a low price we are offering the high shelf and leg tray type shown here. It has the same dependable, safe gasoline construction as the two other models shown on this page and will give you the same excellent cooking and baking service. Read all we have to say on this page concerning the New Windsor Gasoline Ranges. The same construction details, except the Triplex feature, all illustrated and described above, apply to this model, also.

Specifications of Low Priced Gasoline Range

Cooking top of heavy pressed steel construction finished in baked-on black japan. Height from floor 34 inches. Finish of stove is baked-on shiny black japan and gray japan in dull velvet finish. Gray body ends, legs, tank and high shelf back, balance of parts are black finish. Entire height of stove 59 inches. Gasoline tank holds one gallon. Made especially strong. Has pressure and fuel gauges and safety filling plug. Roomy high shelf with back guard. Burners are cast iron with brass fittings and polished control knobs. Three-burner stove has one Master burner at end and two plain burners which are dependent on master burner. Four-burner stove is the same except that it has an additional dependent burner at one end. Legs are of sturdy construction connected to sturdy body and cooking top. Oven is our 168 F 751 which is fully described on Page 568. Size of cooking top: Three-burner, 17 by 34 inches; four-burner, 17 by 44½ inches. Has 8-inch cooking holes.

Complete with pump, alcohol generating lamp and instructions. Shipping weights: Three-burner 57, 75 and 95 pounds; four-burner 78, 100 and 120 pounds. Estimated Total Freight Charges for 150 miles, 65¢; 300 miles, 85¢; 500 miles, $1.16. Read Page 306.

Immense Price Reductions

For Year Round Cooking With Built-In Kitchen Heater

~ Another Big Bargain ~

Fine Windsor Cabinet Kerosene Ranges

TRADE MARK

Our Windsor Combination Coal-Wood-Kerosene Range in a plain black or in a full porcelain enamel finish—one of the greatest accomplishments in the history of stove manufacturing—is now being offered at prices lower than ever before. You get two fine ranges combined into one, at immensely reduced prices. At these special low prices no one need be without a fine combination range for her kitchen. **Use our easy payment plan, if desired—only $4 down and $4 a month.**

The Ideal Kerosene Range For Year Round Use

All the features that make Windsor Stoves the leading values in America are built into these combinations. The Windsor Super-Giant Automatic Wickless Burners with the patented Triplex Heat Collectors enable you to use the heat two times.

Cast Iron Cooking Top—Big Firebox

This is the only Combination Coal-Wood-Kerosene Stove in America that has an angle iron frame and cast iron cooking top. These features make it the most rigid stove you have ever seen and are two of the best features ever developed for a coal-wood-kerosene range. The entire cooking top of all models shown in this page are made with heavy cast iron key plates, which, with the angle iron frames, makes them as rigid as a cast iron coal range. The firebox is as big and durable as on our best coal and wood ranges. It is 18½ by 8 by 8 inches and takes 21-inch wood. Six-inch pipe collar is directly behind coal-wood section. This coal section gives plenty of kitchen heat in winter and is handy for disposing of papers and kitchen waste the year round—and provides two holes for cooking. If more cooking space is needed, simply touch a match to the asbestos kindlers of a Super-Giant Automatic Wickless Burner.

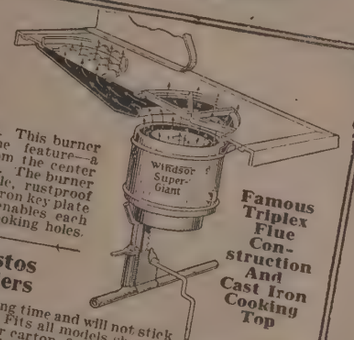
Super-Giant Automatic Wickless Burner

The largest and most powerful burner we have ever sold. It produces an intensely hot blue flame that is economical, clean and without smoke or odor. This burner also has the flame-within-a-flame feature—a small flame burns directly up from the center with a larger ring of fire around it. The burner bowl is of seamless, indestructible, rustproof drawn brass. The everlasting cast iron key plate with patented flue construction enables each Super-Giant burner to heat two cooking holes.



Famous Triplex Flue Construction And Cast Iron Cooking Top

Asbestos Kindlers

Will last a long time and will not stick in the burner. Fits all models shown on this page. Shipping weight, per carton, 8 ounces.
68 F 317—Carton of 6 ..... 75c

Model "B" Full Porcelain Enameled

The actual sizes and dimensions of Model "B" Full Enameled Combination Kerosene-Coal-Wood Range are exactly the same as for the Model "A" plain finish described above at left. The only difference is in the extent of the enamel finish. This is a full porcelain enameled stove. **White Enameled Parts:** Back guard, oven top, high shelf, splasher back and side, oven door panel, entire outside right and left sides, entire inside of both burner boxes, burner drums and clean-out pans. **Gray Enameled Parts:** Entire main front, front guards with dials and four legs. **Nickeled Parts:** Back guard corners, high shelf bracket, coal-wood ash and fire doors, thermometer ring, and oven door frame. Entire cast iron cooking top is highly polished making it easy to clean.

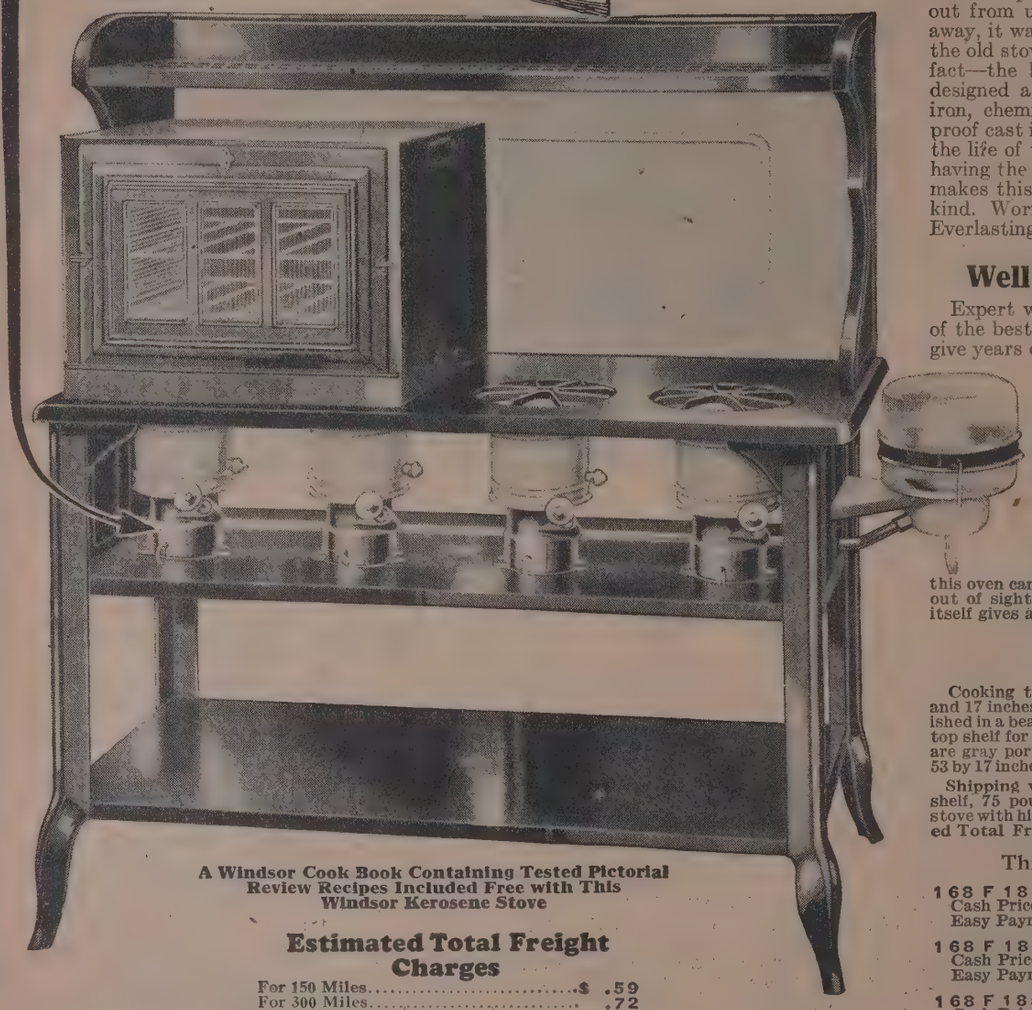
The most important discovery in years. The Windsor **Everlasting Cast Iron Wick Burner Kerosene Stove**—a brand new idea, exclusively developed and exclusively offered by the Largest Stove Store in the World. In keeping with our policy of being the most progressive mail order house, we have originated this new idea, incorporated it in a fine kerosene range, and are now offering it to our customers as the best improvement ever made on this type stove and at prices that are remarkably low. We have extended our **easy payment plan of $4 down and $4 a month,** to this new stove—giving you the privilege of paying as you use the stove.

Only $4.00 Down, Four Dollars per Month

For Easy Payments Use Order Blank On Page 623



The Burner Is the Life of the Kerosene Range

In the past, when the burners of your kerosene stove wore out from use or rusted out during the winter when stored away, it was necessary to buy a set of new burners or discard the old stove entirely and buy a new one. Just because of this fact—the burner being the life of the oil stove—we have designed a new burner, with the main body of heavy cast iron, chemically treated against rusting. This heavy rust-proof cast iron and brass construction will triple or quadruple the life of the stove and the cost is no more than for a stove having the old type burners. The take-apart inner brass body makes this burner easy to clean without using a tool of any kind. Worn out wicks cannot possibly stick in these Windsor Everlasting Cast Iron Burners.

Well Built—Attractive Appearance

Expert workmanship is used throughout to make this one of the best constructed kerosene stoves on the market. Will give years of satisfactory service due to the new construction features. Strongly made of heavy rolled steel and is very rigid. Stands solidly on the floor.

A Wonderful Cooker and Baker

With the large baking oven illustrated, the New Windsor Cast Iron Burner Kerosene Stove will take care of all your baking needs. The oven is our 168 F 751 (fully described at bottom of page). It is about the size of the average coal oven and bakes and roasts perfectly. It sits over two cooking holes and uses the heat from two burners. A convenient feature is the fact that it is portable. When your baking or roasting is finished, this oven can be taken off the stove and put in the pantry or elsewhere, out of sight and out of your way. The large capacity of the range itself gives ample cooking space for the average family.

Specifications

Cooking top is 33 inches from the floor, 34 and 44½ inches long and 17 inches wide. Stove is constructed of a high grade of steel. Finished in a beautiful combination of gray and black japan baked on. Has a top shelf for utensils, also a leg tray for flat irons and pans. The drums are gray porcelain enameled. Takes floor space 42½ by 17 inches and 53 by 17 inches. Entire height, 58 inches. Oven illustrated is our 168 F 751.

Shipping weights: 3-burner stove only, 60 pounds; stove with high shelf, 75 pounds; complete, 95 pounds; 4-burner stove only, 80 pounds; stove with high shelf, 105 pounds; complete, 125 pounds. See "Estimated Total Freight Charges" at left.

Automatic Flame Within a Flame Burners
No Wicks—Less Expense
Windsor Automatic Wickless Oil Ranges

IN days gone by, the housekeeper had to do her cooking and baking in summer in a hot, uncomfortable kitchen—an unpleasant, exhausting task. Then the oil stove was invented. In spite of the fact that the first oil stove was a crude affair, it gave the housekeeper a cool, airy kitchen; relieved her of carrying coal and wood; did away with dirt and trouble of carrying out ashes. The *Windsor Automatic Kerosene Range* is the very latest development in the perfection of oil burning ranges. In addition to overcoming every fault of the early oil burning stoves, Ward's Windsor kerosene ranges have many additional new features to increase their efficiency and beauty.

Powerful—Economical—Easy to Operate

These automatic wickless kerosene ranges burn a gas formed by a mixture of vaporized kerosene and air. One gallon of kerosene is mixed with hundreds of cubic feet of air, to provide you a clean, inexpensive fuel that is very efficient. The asbestos lighting ring, which helps generate this gas, lasts a long time. The burners have the flame-within-a-flame feature, which insures powerful heat, fully described in center of the page. These burners are very easy to take apart and clean—no tools are needed—simply remove a metal pin with your fingers. Because clean burners use less fuel and prevent trouble, this easy-to-clean feature is a decided advantage.

$22.30 Sold for Cash Only

Stove, Shelf and Oven Complete

Same as model shown above except the end shelf and leg tray are left off, the burner drums are baked black japan instead of porcelain enamel; it has regular size burners only, a narrower cooking top and is equipped with high shelf instead of canopy.

Dimensions. Entire height, 53 in. Four-burner: Length over all, 53 in. Depth, 14 in. Cooking top, 31 in. high, 14 in. wide and 45 in. long. Three-burner: Length over all, 43 in. Depth, 14 in. Cooking top, 31 in. high, 14 in. wide and 35 in. long. Uses Asbestos Kindlers No. 68 F 315 shown in center of page. Oven illustrated is our 168 F 751 described on Page 568.

Windsor Automatic Wickless Oil Stove Features

1. Wickless flame-within-a-flame burners give intense heat. (See full description below.)
2. Easy-to-clean burners. Simply remove metal pin with fingers and burner can be taken apart. A very great help, as clean burners give more heat; also save on fuel.
3. Udylite finish of regular burners and brass Super-Giant burner used in these Automatic Wickless oil stoves make them rust resisting and give much longer service.
4. Easily moved handles aid you in regulating heat.
5. Guaranteed unbreakable grates. We will replace any broken grate free of charge. Joined in center so the smallest utensil will not tip.
6. Glass oil tank—kerosene supply is always visible. Avoids delays.
7. Sturdy, rigid construction. Made of the best grade of steel suitable for oil stoves.
8. Attractive yet practical color combination of black and blue japan finish, baked on.

Automatic Wickless Burners

The most powerful short chimney automatic wickless burner we know of. Has the flame-within-a-flame feature—a small flame burns directly up from the center with a larger size ring of fire around it, insuring powerful heat. The blue flame is of tremendous volume, clean, smokeless, odorless and intensely hot. The Super-Giant burner bowl is of seamless indestructible drawn brass; the regular burners are of drawn steel with Udylite rust-resisting finish; the quick lighting asbestos kindlers cannot stick to them. Dial on front tells you how to operate. The regular size burner is shown at right; the Super-Giant is shown below.

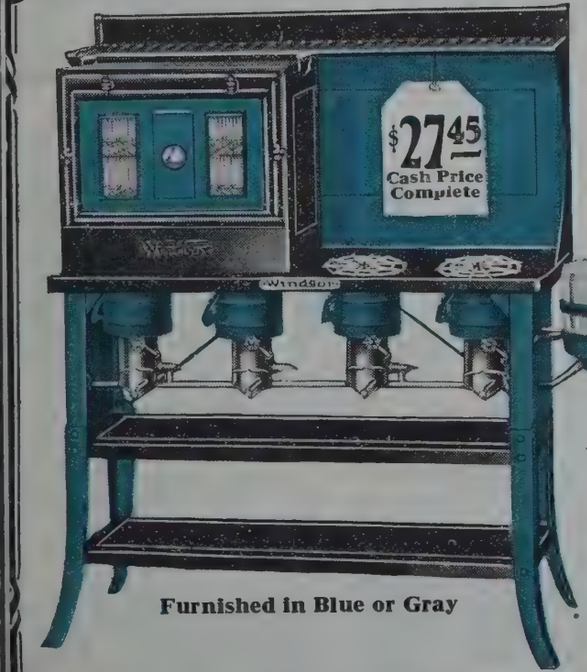
Popular Short Chimney Wick Oil Stove



Furnished in Blue or Gray

$4.00 Down Four Dollars A Month

For Easy Payments Use Order Blank on Page 623

The Windsor Quick Action Kerosene Wick Range has been one of our most popular oil stoves for many years. Changes in design and conveniences have been made, but fundamentally this Windsor Quick Action is the same. It has been helping our customers everywhere solve their stove problems. Its popularity is so widespread because of its reliability and expert performances over a long period of continued usage. It can be purchased in blue or gray baked-on japanned finish. Either color with the combination of black japanned parts makes a very attractive appearance.

Simple to Light and Operate

The Quick Action Windsor is equipped with the Windsor short chimney blue flame wick burner fully described in panel at right. In design and construction it is very similar to other short chimney wick burners. Simple to light and operate. Made of heavy rolled steel, unusually rigid. Burner drums are blue or gray porcelain enameled. Burner tubes are a bright brushed brass finish. Oven illustrated is our 168 F 755 shown on Page 568. It is a large portable type about the size of the average coal range oven. It bakes and roasts perfectly. You can also use any of the other ovens shown on Page 568. Height to cooking top, both 3 and 4-burner sizes, 32 in. Occupies floor space 43½ and 53 by 17 inches. Size of Cooking Top: 3-burner, 33½ by 17 in. 4-burner, 45 by 17 in. Order extra wicks from the panel at right and you will always have a new one handy. Estimated Total Freight Charges for 150 miles, 65¢; 300 miles, 85¢; 500 miles, $1.16. Read Page 306.

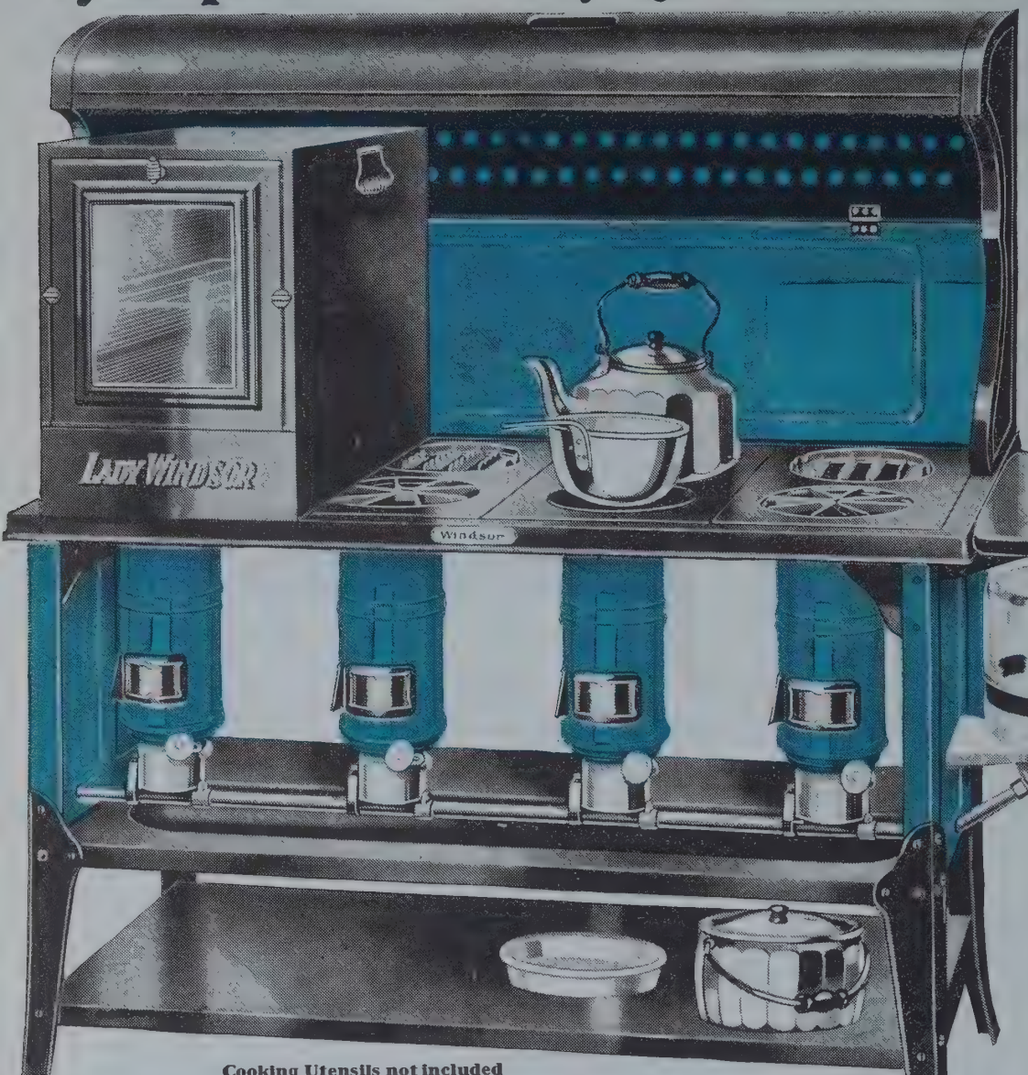
"My Triplex Cost Only ½ What a Stove Here Would Cost-



A Beauty in Every Respect"

Irving Shepard, Skaneateles, N.Y. *Writes*

"Our Stove came in good condition. I brought it home and set it up. And to say that I am more than pleased is putting it mild. It is doing good. Baker burner burns but one-half the fuel the old stove burned. It is a beauty in every respect. We will take trouble to show it to others. Costs only one-half what a stove here would cost not one-half as handsome and not better in any form."

Irving Shepard,
Skaneateles, N. Y.

Fully Guaranteed

We guarantee that the Windsor Triplex is the best kerosene range ever made—regardless of name or price. The exclusive Windsor Triplex burner principle and key plate top construction is something that has never been equaled in oil stove construction because it gives you double efficiency from every gallon of oil.

We are willing that you make any comparisons you wish. Put the Windsor Triplex to the hardest tests you know of. We know it will pass them all. However, if you are not satisfied, write us for shipping instructions and your money, together with all transportation charges, will be refunded.

Windsor Cooking Features Found in No Other Stove

TRADE MARK

The New Improved Windsor Triplex Kerosene Range will do more cooking at one time than any other kerosene stove—it will do it in less time and with less kerosene. These amazing results are made possible by the patented flues and Super-Flame burner (described below) whch is, we believe, the hottest burner ever used on any kerosene stove—which can be used to heat two cooking holes, front and back, at one time. The New Improved Windsor Triplex is the handsomest, sturdiest and most efficient kerosene range you can buy anywhere regardless of name or price.

Wrought iron cooking top is of proper height, so a woman of average height can cook without stooping, Much more durable, rigid, sanitary and handsome than the sheet steel tops with which ordinary kerosene stoves are equipped. The long chimney Super-Flame wick burners give intense concentrated heat the instant they are lighted (see description below). They are safe, clean and economical—no smoke, soot or ashes.

On the Triplex Windsor kerosene range you can cook two vessels of food with the heat of one burner or you can cook and iron at the same time with one burner because the Super-Flame burner provides heat for two cooking holes at the same time. These exclusive and practical features cost you nothing extra, because we sell this fine Windsor Triplex with double the capacity of ordinary kerosene stoves at less than the price such stoves usually sell for.

Exclusive Windsor Improved Triplex Features

End Shelf Folds Up Easy to Fill Tank

This convenient end shelf can be folded up out of the way as shown in the illustration at the left, for easy access to the tank when it needs refilling. Or it can be removed entirely. The large capacity tank, holding 5 quarts, is of heavy glass so that you can see at a glance the condition of your fuel supply.

So Simple Anyone Can Light and Operate It

One Flame Heats Two Cooking Holes

Each Triplex Super-Flame Brass Wick Burner heats two cooking holes with one flame; it reduces your fuel cost one-half. The flame heats the hole directly above it, and the surplus heat usually wasted is carried by our patented flues back to the second cooking hole. This is the same principle used in all coal-wood stoves. One burner does the work of two.

Canopy Carries Away Cooking Odors and Heat

The Wrought Iron Sectional Cooking Top illustrated here, partly cut away, shows clearly that it is of heavy wrought iron and not like the thin pressed steel tops used ordinarily on oil stoves. The canopy has a hinged warming shelf and can be connected to chimney with ordinary 6-inch stovepipe, to carry away cooking odors and surplus heat.

Windsor Endoor Oven For All Your Baking Needs

A full size portable Oven of polished steel which occupies only half the width of the ordinary oven. Bakes prfectly with the heat from only one burner. In a number of tests this oven has baked biscuits within 17 minutes from the time the burner was lighted. Size, 12½ inches wide by 18 inches high by 20 inches deep. Class panel in door. Fully lined with corrugated tin and asbestos to hold the heat. Removable rustproof wire shelf. Can be removed from stove when not in use.

Popular Long Chimney Wick Burner

This long chimney wick burner, a very popular type, gives cooking heat the instant it is lighted. It is an intense concentrated heat that is easily regulated. The burner tubes of seamless drawn brass are practically rustproof and indestructible. The other parts are of the best grade of steel. The cotton wick shown below requires very little care, but it should be occasionally wiped with a cloth. The blue flame can be immediately changed to give slow, quick, intense or simmering heat as desired, by simply turning the wick raiser hand wheel. It is safe, clean and economical—no smoke, soot or ashes.

Windsor Blue Flame Long Chimney Kerosene Ranges

TRADE MARK

Equipped with New Improved Instant Heat Burners

Kerosene Stoves are becoming the most popular stoves for year round kitchen use. They are cheaper to operate and easier to keep clean. They cook and bake well; enable you to do your work quicker and help you to keep your kitchen cleaner and cooler. The Windsor Blue Flame Long Chimney Kerosene Range is a very beautiful stove; it is a quick cooker and baker and will give long service. It can be had in either a combination of blue and black, or gray and black japan finish. The blue or gray have a soft, glossy finish, the black a shiny jet color both very durable and easy to keep clean. **For easy payments use Order Blank on Page 623.**

Long Chimney Blue Flame Burner

The Long Chimney Brass Wick Burner is one of the best kerosene burners made; needs but little care, is ready to use the instant it is lighted, gives an intense heat and therefore does the work required of it in the shortest possible time. It is the same powerful burner we use on our Triplex Windsor which is shown on opposite page. (Read full burner description in lower right corner.) It lights with the touch of a match and requires only the occasional cleaning or replacing of a wick. Burns with an intensely hot, bright blue flame that is both odorless and smokeless.

Choice of Blue or Gray Finish

Cooking top is 34 inches from the floor, 34 ½ and 45 inches long and 17 inches wide without end shelf. Stove is made of a good grade of steel. Width of end shelf 9 inches. Finished either in a beautiful blue or gray and black japan baked on. Has a large canopy with convenient shelf for keeping dishes warm. (See triplex canopy description on opposite page.) Has also a leg tray for flat irons and pans. The drums are blue or gray porcelain enameled. Takes floor space 42 ½ by 17 inches and 53 by 17 inches. Height over all, 59 inches. Oven illustrated is our 168 F 952 which is fully described on page 568. It is a fine roaster and baker. Takes same wicks as quoted with Triplex on opposite page. Shipping weights: Three-burner; stove only, 57 pounds; stove with canopy, 82 pounds; complete, 107 pounds. Four-burner; stove only, 78 pounds; stove with canopy, 108 pounds; complete, 133 pounds.

Windsor Blue Flame Long Chimney Kerosene Range

Has a blue and black japanned finish. It is similar to the Model shown above, having exactly the same burner, which is fully described on opposite page. However to offer you a lower price, we have left off some of the expensive trimmings, such as the leg tray and end shelf and have used a high shelf in place of a canopy. Burners drums are black japanned finish. The oven illustrated is our 168 F 751 shown on Page 568. Stove is 59 inches high over all; cooking top is 34 inches high, four-burner size is 45 inches long by 14 inches deep. Three-burner size is 34 ½ inches long by 14 inches deep. Uses Triplex Long Chimney Wicks listed on opposite page. Shipping weights: Three-burner stove only, 45 pounds; stove with high shelf, 65 pounds; complete, 85 pounds. Four-burner stove only, 55 pounds; stove with high shelf, 80 pounds; complete, 100 pounds.

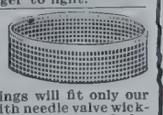
Low Priced Wickless Oil Stoves

Needle Valve Wickless Burner

This Burner, used on the wickless Kerosene Stoves shown here, is our lowest priced but is just as efficient as the others when heated and burning at full height. It has a screw valve and a fixed oil level permitting only one height of flame. After opening valve it is necessary to wait about a minute, then tip back the drum and light the asbestos ring. In a few minutes the flame will burn above the top of the perforated tubes. After it is hot, this burner will cook just like the other burners. It simply takes a little longer to light.

Asbestos Lighting Rings



These Lighting Rings will fit only our oil stoves equipped with needle valve wickless burners which are shown here. Order an extra carton. Shipping weight, per carton, 8 ounces.
68 F 301—Carton of 6 ..... 50¢

$8.95 Cash Price Three-Burner

Windsor Leg Type Wickless Kerosene Stove

During the hot summer months, housewives find that cooking on a large range makes the kitchen uncomfortably warm. In this smaller stove they have found much relief. No fires to kindle, no ashes to haul and above all the kitchen is not overheated. It will save fuel, time and labor. Because of its light weight it may be moved easily to the basement, wood shed or attic. With this stove we recommend using one of the portable Windsor Ovens shown on Page 568. Finished in beautiful combination of black and blue japan; blue bottom, back, ends and tank; black top, burner drums and legs. Cast iron grates. Burners and rings described above are used. Length, three-burner size, 31 inches; four-burner size, 41 inches; height, 29 inches; width, 14 and 17 inches wide. Uses 68 F 301 Asbestos Kindlers listed at left. Shipping weights: 35 and 50 pounds.

168 F 1809—Three-Burner $ 8.95
168 F 1808—Four-Burner 11.95
Shipped from Baltimore or Cleveland, O., whichever is nearest you

Portable Wickless Kerosene Stove

Place this beautiful Windsor Kerosene Stove, in a combination of blue and black japanned finish on a box or table in the kitchen or on the back porch, and cook in comfort all summer long. With one of our Ovens, shown on Page 568 you can use it also for your baking. The black top, blue bottom, back and ends are made of pressed steel. Blue tank and black burner drums. Cast iron grates. Depth, 14 inches; height, 10 inches. Widths, 22 and 31 inches. Tank holds 3 quarts. Uses 68 F 301 asbestos kindlers listed above. Can be shipped by freight or express only.

168 F 1817—Two-burner. $5.45
Shipping weight, 23 pounds.
168 F 1818—Three-burner. 6.95
Shipping weight, 27 pounds

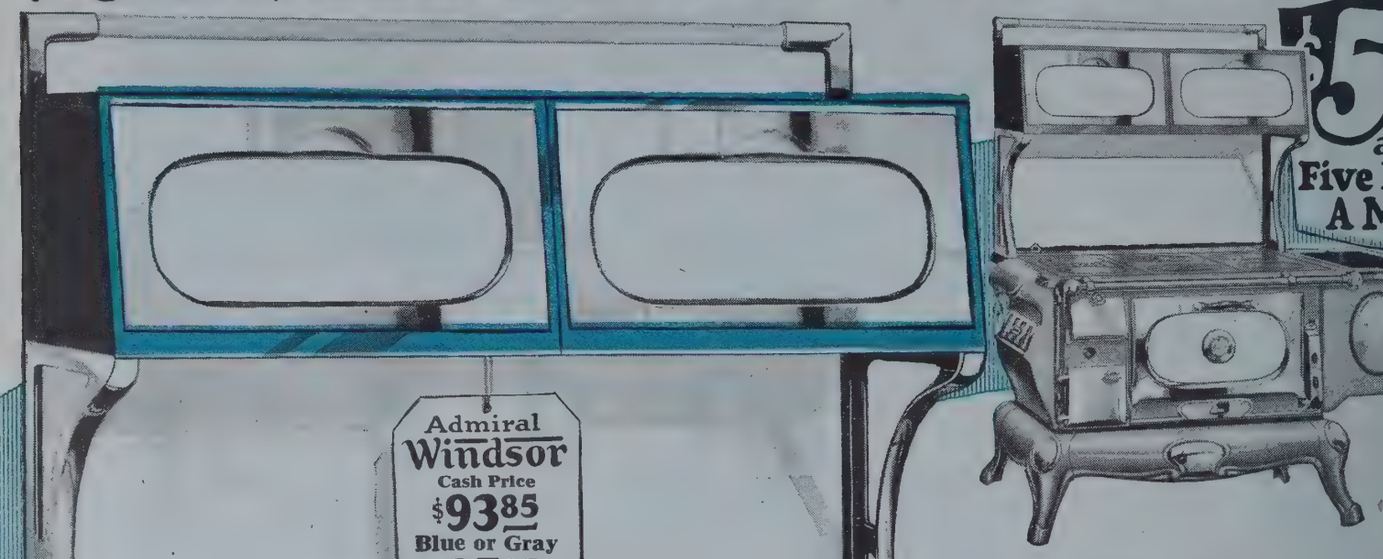
The Finest and Largest Cast Iron Range We Have Ever Offered Our Customers



Highly Polished Cooking Top At No Extra Cost to You

Your Choice of Blue, Gray or Walnut Porcelain Enamel

The Admiral Windsor is sold in either Blue or Gray Porcelain Enamel—also the beautiful Grained Walnut Porcelain Enamel—a new and popular finish. Either of these finishes is easy to keep clean and will harmonize well with the furnishings of any kitchen.

For Easy Payments Use Order Blank On Page 623

Guaranteed in Every Detail

Quality—Construction—Operation

We absolutely guarantee the quality and construction of the Admiral Windsor Range—just as we do every stove we sell. Our Windsor Ranges have features found in no other ranges, regardless of price. You can buy the Admiral Windsor for cash or on small monthly payments of $5 each. If ordered on easy payments, Use Order Blank on Page 623.

We are proud to offer you this big, beautiful Admiral Windsor Range. It is our largest, heaviest and best range at a price you will be unable to duplicate elsewhere. Thousands of satisfied customers write us each year that they saved from 25 to 50 per cent by buying the Admiral Windsor. Selling in enormous quantities and taking the entire output of the factory, makes it possible for us to bring down the price to a figure actually less than the usual wholesale price for a range of equal weight, size and quality. The porcelain enamel parts in either blue, gray or walnut finish, the polished cooking top and extra high base make the Admiral Windsor easy to keep clean and a source of constant cooking and baking enjoyment. You also get the exclusive Windsor Cooking Top Features (described in panel at right) found on no other ranges except those offered by Ward's. Has a big firebox that will burn any kind of fuel and an extra large, scientifically constructed oven that will take care of the largest baking.

Specifications of Admiral Windsor

Body. Extra heavy, high-grade cast iron. All joints machine fitted to hold heat. Takes 7-inch pipe. Cooking Top. Highly polished, turns gunmetal blue when heated. Size 49 by 26 inches, including reservoir. Two Cyclonic, one Non-Scorch, two regular and one Reducing Lids; all combination 8 and 9-inch lids, either size vessel fits opening perfectly. Hot Blast Damper Top. Height, 32½ inches. Entire floor space, with reservoir 51 by 33 inches; without reservoir, 45½ by 33 inches. Oven. Unusually large; 20 inches square, 13 inches high. Nickeled drop door with white porcelain enameled panel with accurate heat indicator. Firebox. Size, for coal, 18 by 9 by 5½ inches. Burns 24-inch wood with end linings removed. Fire Back Guaranteed for Ten Years. Strong duplex grates for burning hard or soft coal or wood. Ash and fire doors, full nickel plated. Warming Closets. Convenient and roomy, 23 inches deep with drop doors down. Porcelain enameled front with nickeled oval door frames and white porcelain enameled panels. Heavy nickeled brackets. White porcelain enameled splasher back and top rail. Reservoir. Hand made of heavy pure copper, tinned on the inside. Will not rust or leak. Heats by contact and holds 28 quarts. Sanitary Base. The base strips are almost 8 inches from the floor—enabling you to sweep, mop and clean under the stove with ease. Also provides ample room for box of kindling wood or coal.

Shipping weights: With reservoir, 610 pounds; without reservoir, 570 pounds. Estimated Total Freight Charges for 150 miles, $2.68; 300 miles, $3.23; 500 miles, $5.37. Read Page 306.

Exclusive Windsor Cooking Top Features

Every Admiral Windsor Cooking Top has two Cyclonic Lids; one Non-Scorch Lid; one Sectional Lid; two heavy, regular combination lids, 8 and 9-inch warp-proof and crack-proof, and Hot Blast Damper Top.

Cyclonic Lid

These Lids are constructed underneath so heat is whirled around and retained under the cover before passing into the flue. They heat quicker, stay hotter and reduce your fuel bill about one-fourth.

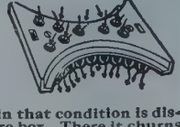
Non-Scorch Lid

Enables you to cook cereals and thick vegetables without scorching. Can also be used as a stewing or simmering lid or just like a regular lid. A very convenient feature.

Sectional Lid

Made in three sections. By taking out one or two sections, different size vessels can be placed directly over the fire for quick cooking—a feature every housekeeper will appreciate.

Hot Blast Damper Top



One of the finest improvements ever made in any range. The air is drawn in through the openings in the damper, is super-heated and in that condition is discharged into the fire box. There it churns up all the smoke, soot and carbon and holds it on the fire until every bit of heat value is used up. Gives a quicker, hotter fire, easily regulated uniform heat and saves fuel.

Amazon Windsor

The Amazon Windsor is the same cast iron range that is described on the opposite page. The only difference is in the finish and nickel trimmings. We have left off the enameled body parts to make the price lower. **White Porcelain Enameled Parts** High closet door panels, oven door panel and splasher back. **Nickeled Parts:** Back guard corners, high closet door frames, high closet brackets, towel bar, ash door, fire door, oven door frame, reservoir panel, nickel inserts on four legs and front base strip. The cooking top is polished—turns gunmetal blue when heated. Shipping weights: With reservoir, 610 pounds; without reservoir, 570 pounds.

Advance Windsor

For many years people who have preferred a range built on plain, simple lines, have ordered the Advance Windsor and have found it to be a dependable, substantial range in every way. In spite of its low price, it is as carefully built and of as fine materials as our highest priced ranges. All it lacks is the fancy trimmings.

Specifications are just the same as for our Admiral Windsor described on opposite page. The only difference is in the finish. It has a black cooking top, and fewer nickeled trimmings. The towel bar and fire and ash door knobs are the only nickeled parts. Shipping weights: With reservoir, 610 pounds; without reservoir, 570 pounds.

The Enduring Windsor—Made in the East

For Eastern Users

The **Enduring Windsor Range**—another Eastern made stove—is similar to the Eastern Windsor shown on Page 575, except it is larger and of heavier construction. Instead of having a single mantel and two tea shelves, it has a plain two-mantel high shelf.

These stoves are exceptionally large, with cooking top and oven spacious enough to prepare the largest meals or do the largest baking that is every necessary in the average home. The Enduring Windsor can be bought on our easy payment plan of only $5 down and $5 a month. If ordered on easy payments use Order Blank on Page 623.

Specifications of the Enduring Windsor

Body. Solid cast iron of good quality. All castings ground off smooth and carefully finished and fitted. Floor space 29 inches deep by 55½ inches wide. **Takes 6-inch pipe.**

Firebox. Equipped with duplex grates for burning soft coal, dock ash grates and brick linings for hard coal; or special type fire box for wood only. Size for coal, 16 inches long by 7 inches wide by 7 inches deep; for wood, 23½ inches long. 8 inches wide, 7 inches deep.

Pouch Feed. Large, spacious, feeds coal to fire box opening.

Hearth. Large hearth or ash collector with large ashpan.

Cooking Top. Black finish. Full 6-hole size. Lids are 8 inches in diameter. One 3-piece sectional. Size of top with reservoir, 49½ inches wide by 29 inches deep; without reservoir, with end shelf 44 inches wide, 29 inches deep. Height to cooking top from floor, 32¼ inches.

Oven. Exceptionally large oven, size 20 by 20 by 11½ inches high. Swinging door is fitted with kicker for opening the door easily. Outside shelf at bottom of oven is 29½ inches wide and 6 inches deep. Easily controlled damper.

Double Shelf Mantel. Stove has Mantel with 2 shelves. Upper shelf, 35 inches wide, 12 inches deep. Lower shelf, 35 inches wide, 7½ inches deep. Height of Mantel overall, 23½ inches. Convenient for keeping foods warm.

Reservoir. Made of copper. Holds 24 qts. Built in damper control.

Nickeled Parts. High shelves, outside rims, cooking top rim, reservoir front rim, hearth rim, and oven shelf rim.

Shipping Weights: With reservoir, 540 pounds; without reservoir, 500 pounds.

268 F 993—**Water Front.** For heating water in range boiler if you have water pressure in your home. Ship. weight, 15 pounds. Extra.... ....**$5.50**

Made without Reservoir

The Enduring Windsor can be purchased in two styles—with reservoir or without reservoir. This small illustration shows it without reservoir. It is exactly like the model shown above in design, size, finish, trimmings, etc., except for length. The entire width of the Enduring Windsor without reservoir and with end shelf is 50 inches. The end shelf makes a convenient place to set pans and kettles to keep them warm after taking them off the hot fire. Prices and article numbers given at left.

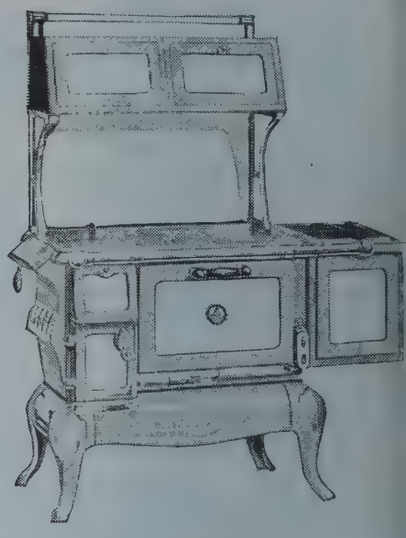
Polished Cooking Top No Extra Charge



Mr. Peterson Writes:

"The Coronet Windsor we recently purchased from you is giving excellent satisfaction. It is a fine baker and cooker in every way. In fact, we never saw such a neat lady-like looking stove with so much business in it. The amount of coal it uses is surprisingly small—and the saving in fuel will soon pay for the stove."

George C. Peterson,
Avoca, New York.
Printed by Permission

Read Our Special Stove Guarantee Page 560

Three Porcelain Enamel Finishes All Very Beautiful

You, too, will agree with Mr. Peterson that the Coronet Windsor is the best looking medium size Porcelain Enameled Cast Iron Range you ever saw. You have your choice of a handsome Turquoise Blue or soft French Gray or the new Grained Walnut—all exceptionally beautiful and attractive in appearance.

The porcelain enamel is as easy to clean and as sanitary as a china dish.

This is just the range you have always dreamed of—your kitchen will look so bright and shining with this full enameled Windsor Range in it. A range you will be glad to own and proud to show to your neighbors.

The Coronet Windsor meets every demand of the modern exacting housekeeper. It is more than simply a "cook stove," as a range was commonly called in the old days. It is, as the housekeeper insists her range shall be, an attractive, convenient and excellent baking and cooking range. It is medium size—just right for your kitchen, yet roomy enough to take care of all your cooking needs.

Sanitary Base. Base strips are almost 10 inches from the floor, enabling you to sweep, mop and clean under the stove with ease. Also provides ample room for a box of kindling, wood or coal.

Honest Quality-Honestly Priced

By the Largest Stove Store in the World

Just compare this Range with any other stove of the same size, and you will say it is the greatest value you ever saw. Read everything we have to say concerning this stove, and notice its many features. Compare it with those offered elsewhere. You will find that there isn't another stove on the market that has as many practical labor and fuel-saving devices. Best of all notice the low price. Our price to you is actually lower than the usual wholesale prices for a stove of this quality.

Ward's easy payment plan makes it a simple matter for you to put this fine range in your home at once. Only $5 with your order brings it to you ready to use. You can enjoy its convenience while you pay for it in small amounts. When taking advantage of our easy payment plan, **use Order Blank on Page 623.**

Specifications of Coronet Windsor Range

Extra High Cooking Top

The cooking top of the Coronet Windsor has been increased to 32½ inches high. This eliminates bending and stooping in order to stir and taste your foods, and keeps the steam and heat from your face. This is another advantage of Windsor Ranges which makes them so popular.

Specially Constructed Oven

The oven is arranged so it has a constant circulation of live, even heat on all sides. With the sliding damper and oven thermometer to regulate the heat there is no danger of poor results in baking. With the Coronet Windsor you are assured of lifelong cooking and baking comfort.

Exclusive Windsor

Every Windsor cooking top has two Cyclonic Lids, one Non-Scorch Lid, one Sectional or Reducing Lid, two Heavy warp-proof and crackproof Regular Lids, and Hot Blast Damper Top—all illustrated and described here and on opposite page.

Cyclonic Lid

The Cyclonic Lids are ribbed in such a way that the heat is whirled around and retained under the cover longer before passing into the flue. They heat quicker and stay hot longer, with less fuel.

Non-Scorch Lid

The Non-Scorch Lid enables you to cook thick vegetables and cereals without danger of having them burn. Can also be used for stewing and simmering or just like a regular lid.

The Eastern Windsor—Made in the East

Guaranteed to Give Complete Satisfaction

The Eastern Windsor Range, that good old reliable hearth range which has been used for so many years in sections of the East, is now offered at lower prices than ever before. Sturdy, convenient, well built and long lasting; it is the type of range people buy because it can be used for years with great satisfaction. Constructed of high grade cast iron it will give years and years of honest service. For real cooking and baking satisfaction, the Eastern Windsor is unquestionably one of the best ranges made. It can be bought for cash or on our easy payment plan. You need this range NOW—and can bring it into your home for only $5. If ordered on easy payments use Order Blank on Page 623.

Eastern Windsor Range With Reservoir

The Eastern Windsor Range can be purchased in two styles, with reservoir or without reservoir. This small illustration shows it with reservoir. It is exactly like the model shown above without reservoir, in design, size, finish, trimmings, except for length. It does not have an end shelf. The entire width of the Eastern Windsor with reservoir and without end shelf is 51½ inches. The reservoir is well made of solid copper. Will not rust. It can be used as a warming shelf upon which to set hot kettles or pans when you wish to take them off the hot fire and still keep them warm. It is extra large, holds 20 quarts. Prices and article numbers given at right.

Windsor Medium Size Cast Iron Ranges of Long Wearing Quality

Challenger Windsor Uses Water Front Described On Opposite Page

Sanitary Bases

The Ranges shown on this page have the Sanitary Base feature—base strips are raised almost 10 inches from floor, enabling you to sweep, mop and clean under the stove with ease.

At Bargain Prices!

Our best Medium Size Cast Iron Ranges include all the special features found in the Coronet Full Enameled Range, shown on opposite page. Read the description of the Coronet and you will know all about the Challenger and Crescent. They are made of the same high-grade materials. If ordered on easy payments use Order Blank on Page 623.

Specifications of Challenger And Crescent

The Challenger Windsor shown at the left is the same in all specifications as the Coronet Windsor shown on opposite page, except that it is not full porcelain enameled and has a rust-resisting galvanized iron reservoir tank instead of copper tank. The back guard, high closet door panels, splasher back and oven door panels are white porcelain enameled. They are parts that need cleaning more frequently so are enameled to make cleaning easier and also add beauty to the stove. We also put on enough nickel trimmings to add to its attractiveness. The nickeled parts are back guard corners, high closet door frames, high closet brackets, towel bar, ash door, fire door, ash catch, oven door frame, oven hinge box, reservoir panel, two front legs, and front base strip. Cooking top is polished.

The Crescent Windsor, shown at the right, has a firebox 16 by 7¾ by 5½ inches. Burns 20-inch wood. Either duplex grates cast linings for soft coal and wood, or hard coal duplex grates and brick linings for hard coal. Cooking top is finished black. Size, with reservoir, 45 by 24 inches. Size without reservoir but with end shelf, 36½ by 24 inches. Reservoir is made of galvanized iron. Holds 20 quarts. Oven is 18 by 17½ by 12 inches. The high closet door panels, splasher back and oven door panel are white porcelain enameled. The towel bar is nickeled. All other parts are plain black finished. Other specifications are the same as those of the Coronet Windsor.

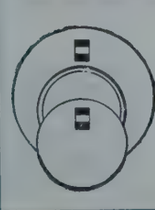
Cooking Top Features—



Sectional Lid

Made in two sections. By taking out one section different size vessels can be placed directly over the fire for quick cooking—a feature every housekeeper will appreciate.

Hot Blast Damper

The air is drawn through the openings in the damper, superheated, and in that condition discharged into the firebox. There it churns up all the smoke, soot and carbon and holds it on the fire until every bit of heat value is used up. Gives quicker, hotter fire, easily regulated uniform heat, and saves fuel.

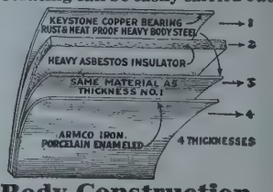
Your Choice of Blue, Gray Or Grained Walnut Enamel

Brighten up your kitchen with the beautiful porcelain enameled Royal Windsor Range. It brings life and color into any home. The smooth, rounded enameled surfaces and the polished cooking top are easily cleaned. With a choice of Blue, Gray, or Grained Walnut, an attractive color scheme in kitchen decorating can be easily carried out.



KEYSTONE COPPER BEARING RUST & HEAT PROOF HEAVY BODY STEEL
HEAVY ASBESTOS INSULATOR
SAME MATERIAL AS THICKNESS NO. 1
ARMCO IRON, PORCELAIN ENAMELED
4 THICKNESSES

Special 4-Ply Body Construction With Famous Armco Iron

The **Royal Windsor** body consists of four thicknesses as shown in illustration above. Nos. 1 and 3 are sheets of genuine Keystone Copper Bearing, heavy body steel, rust and heat-proof. No. 2 is a sheet of ⅛-inch insulating asbestos. These are riveted together. No. 4 is a sheet of Armco Iron, porcelain enameled, which is bolted on the outside. This construction makes the most satisfactory and durable steel range body we have ever seen.

The **Royal Windsor Range** is extremely well made, the product of a factory specializing in the manufacture of steel ranges for nearly sixty years. It will outlast the ordinary light steel range many years. In fact, with proper care, it will last practically as long as the average cast iron range. You will be greatly pleased with the service of the Royal Windsor. It is the finest and most attractive steel range ever made, regardless of price.

Recommended for Its Most Attractive Appearance and Its Exceptional Quality

Beautiful—Sanitary—Easy to Clean

The **Royal Windsor** is full porcelain enameled either blue, gray or Grained Walnut.

In order to make the Royal Windsor Range the nest and most attractive steel range on the arket today, we have given particular attention its design and trimmings. All the porcelain ameled panels are of the bulge cushion type. hese give the Royal Windsor a distinctive, artistic ppearance. It also makes the panels far easier to ean and keep clean because they are slightly ounded with no corners to collect dirt and dust. ll you need to do is to go over the porcelain ameled parts occasionally with a damp cloth and wipe the polished cooking top with an oiled cloth. How much easier this is than the back breaking job of cleaning the old fashioned range, where you blacked and scrubbed and brusned with little noticeable improvement for your efforts. It only takes a few minutes. This means more time for sewing, reading, visiting or whatever you like best to do.

Place the Royal Windsor in your home and give it a trial. You take no chances. Our complete guarantee of "Satisfaction or Your Money Back" protects you. You can either pay cash or use our **Easy Payment Order Blank on Page 623.**

Specifications for the Royal Windsor

Body. All parts are tightly fitted together so o heat is wasted. Made of the very best steel. ee illustration and description of special body onstruction shown above. **Takes 7-inch pipe.**

Cooking Top. Highly polished, turns gun-etal blue when heated. A regular Windsor ature without additional cost to you. Size, 25½ 45¾ inches with reservoir, 25½ by 40 inches ithout reservoir but with end shelf. Made of eavy cast iron. Two Cyclonic lids, one Section-l lid and one Non-Scorch lid, all 8-inch size. Two guiar 9-inch lids on right-hand end. Hot Blast amper Top (see description below). Height to ooking top, 32⅛ inches.

Oven. Extra large and roomy. Size 20 by 20 by 3 inches. Made of specially treated steel and opper. Heavy and rust-resisting. A quadruple cross sectional brace on bottom of oven keeps it level. Drop door has an accurate heat indicator.

Firebox. Size, 18 by 8 by 6 inches. Duplex grates for burning soft coal and wood or hard coal; duplex grates and brick linings for hard coal. Takes 20-inch wood with end linings removed. Specially designed ventilated fire box. Fire back guaranteed ten years.

High Closet. Large and roomy with concealed hinges. Not a bolt head shows.

Sanitary Base. Has four cast iron nickeled legs with heavy porcelain enameled front and side steel base strips. Base strips are almost 9 inches from the floor, enabling you to sweep, mop and clean under the stove with ease.

Reservoir. Made of pure copper tinned on inside. Holds 32 quarts; heats by contact.

Size Over All. Height, 62 inches. Lengths, 50 and 44½ inches. Depth, 32 inches. Occupies floor space 50 by 32 inches and 44½ by 32 inches.

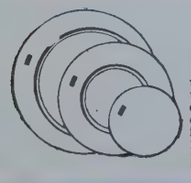
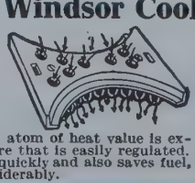
Exclusive Windsor Cooking Top Features



Sectional Lids

Made in three sections. By taking out the removable sections different size utensils can be placed directly in contact with the fire—a convenient feature every housewife will appreciate.

Hot Blast Damper Top



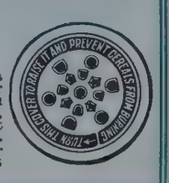
The air is drawn through the openings in damper, superheated and in that condition discharged into the fire box. There it churns up all the smoke, soot and carbon and holds it on the fire until every atom of heat value is extracted. Gives a quicker, hotter fire that is easily regulated. Causes oven to heat uniformly and quickly and also saves fuel, thereby reducing your fuel bill considerably.

Cyclonic Lid

The Cyclonic Lids are ribbed in such a way that the heat is whirled around and retained under the cover longer before passing into the flue. They heat quicker and stay hot longer than ordinary lids, thus saving fuel.

Non-Scorch Lid

This Non-Scorch Lid, a very convenient feature for your kitchen, enables you to cook thick vegetables, soups and cereals without danger of having them burn. Can also be used for stewing and simmering, or just like a regular lid.



Who Can Offer More—

Size-Beauty-Convenience at Such Low Prices

Backed by Ward's, the Largest Stove Store in the World

Extra Large Size Steel Ranges

In size, design, quality and workmanship the Regal Windsor Range and Reliance Windsor Range shown here are exactly like the Royal Windsor described on the opposite page. The only difference is the color and extent of the nickel trimmings and enamel finish. Instead of being full enameled they are enameled only in such places as need cleaning most frequently. These stoves are extra large steel ranges with body made of two thicknesses of genuine Keystone Copper Bearing Steel with a sheet of asbestos between them, which is heat and rust-resisting.

The oven is in the center so that you get a constant circulation of live heat completely around it. Either can be fitted with a water front, described on opposite page, for heating water in range boiler where there is a water pressure system in your home.

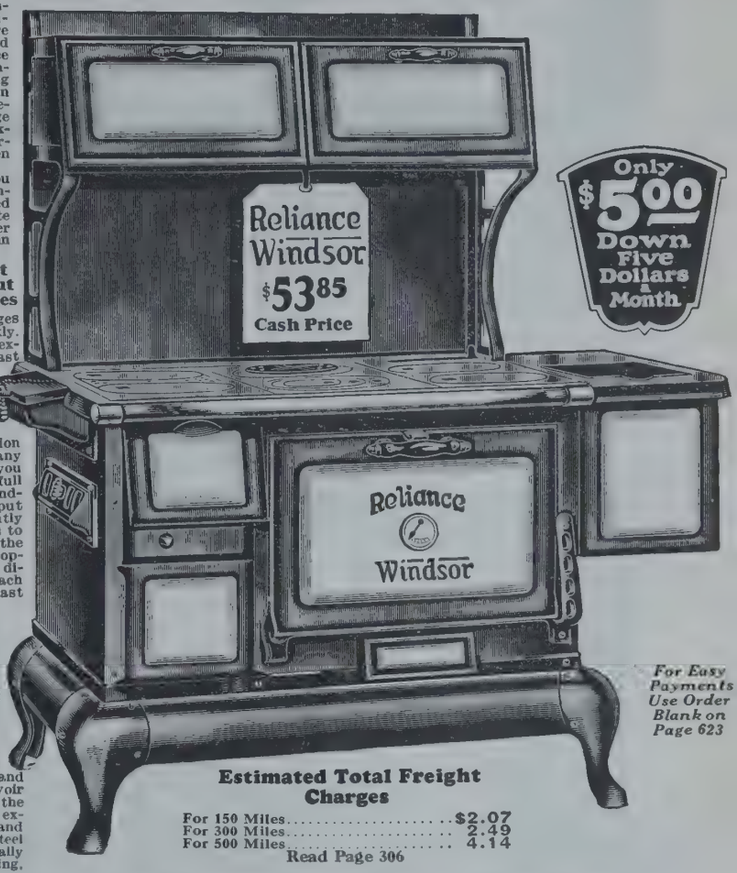
Important Facts About Steel Ranges

1. Steel Ranges heat up quickly. 2. Are less expensive than cast iron ranges. 3. Be sure to judge the weight of steel, quality of materials and reputation of the company selling it if you are to get full value for your money. 4. Windsor Steel Ranges are well put together. The parts are tightly fitted and there are no leaks to waste your fuel and shorten the life of your range. 5. With proper firing according to the directions supplied with each range, your steel range will last for years.

The Regal Windsor

High closet door panels, splasher back, ash-door panel, firedoor panel, oven door panel, reservoir panel and front base strip are all white porcelain enameled. All door and reservoir panels are of the bulge cushion type which adds greatly to the beauty of the range. Cooking top is highly polished.

Nickeled Parts. High closet front and brackets, all door frames, back rail corners, reservoir and cleanout frames, oven hinge box, towel bar and two front legs. Rust-resisting, galvanized iron reservoir tank, capacity, 32 quarts.



The Reliance Windsor

The Reliance Windsor Range is a plain finished steel range, with white porcelain enameled high closet door panels, oven door panel, ash and firedoor panels, clean-out door panel and reservoir panel. Specifications are exactly the same as the Royal Windsor described on the opposite page except cooking top is black, has no towel bar and does not have as many enameled parts. The steel body is made of two layers of Keystone specially treated steel and copper which is rust-resisting, riveted together, with heavy asbestos between.

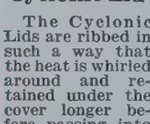
Your Choice of Blue or Gray Porcelain Enamel

Also the New Grained Walnut Porcelain Enamel

Three beautiful finishes—blue, gray or grained walnut—to add cheer and beauty to your kitchen. The easy-to-keep clean porcelain enamel is the best obtainable and can be kept as clean and sanitary as a china dish. These extra heavy porcelain enameled parts, built over a regular steel range body, make this really two ranges in one and give double wear, strength and service.

Exclusive Windsor Cooking Top Features



Fuel Saving Cyclonic Lid

The Cyclonic Lids are ribbed in such a way that the heat is whirled around and retained under the cover longer before passing into the flue. They heat quicker and stay hot longer with less fuel.

Hot Blast Damper Top

One of the finest improvements ever made in any range. The air is drawn through the openings in the damper, super-heated and in that condition discharged into the fire box. There it churns up all the smoke, soot, and carbon and holds it on the fire until every bit of heat value is used up. Gives quicker, hotter fire.

Non-Scorch Lid

The Non-Scorch lid enables you to cook cereals and thick vegetables without danger of having them burn. Can also be used for stewing and simmering or as a regular lid.

Sectional Lid

Made in two sections. By taking out one or two sections, different size vessels can be placed directly over the fire for quick cooking; a feature every housekeeper will appreciate.

The All Cast Iron Front Gives Added Life

The Splendid Windsor Full Porcelain Enameled Range is the greatest value in a steel range on the market today. We never before have seen such an attractive high grade steel range at such a low price. It is well made with an all-cast iron front for added life and has so many attractive features that you will be more than satisfied with its appearance as well as its excellent baking and cooking qualities. Pay cash or use Easy Payment Order Blank on Page 623.

Uses Little Fuel

A steel range heats very quickly, therefore very little fuel is needed. The Splendid is more economical of fuel than the average steel range because all joints are carefully fitted and electrically welded so no heat escapes. Also the heavy body retains the heat much longer. Customers tell us the saving in fuel is surprising and that the saving really pays for the stove, especially in these days of high fuel prices.

Extra Heavy Body

We have taken a regular steel range body and made a set of easy-to-keep-clean porcelain enameled steel and cast iron parts to fit over it. It has the thickness and weight of two ordinary steel ranges. The entire front of the range, the part that receives the hardest usage, is entirely covered with beautiful porcelain enameled cast iron parts; the two ends are porcelain enameled, rust-resisting Armco Iron.

Large Roomy Oven

We have made the oven of the Splendid Windsor extra large. In fact it is the largest oven we know of in a range of this size. It is 18 inches wide, 20 inches deep and 12½ inches high, and is equipped with an accurate oven heat indicator which makes baking easier. This big oven and the quick baking qualities of the Splendid Windsor mean you can do a large baking satisfactorily in a short time.

Specifications of the Splendid Windsor

Body. Porcelain enameled parts fit over the steel body. The entire front of the range—that part that receives the hardest usage—is entirely covered with cast iron parts, porcelain enameled; the two ends are porcelain enameled Armco iron, giving the body extra thickness, weight and durability. This is the heaviest medium sized steel range we know of. Occupies floor space 36 and 44 by 33 inches. Read facts about steel ranges on Page 573. Entire height, 62 inches. Takes 7-inch pipe.

Cooking Top. Highly polished; turns gunmetal blue when heated. Height, 33 inches. Size, without reservoir, 35 by 25 inches; with reservoir, 42 by 25 inches. Has two fuel saving Cyclonic lids, one Non-Scorch lid, one Sectional lid, two regular lids and hot blast damper top. The lids are all 8-inch.

Oven. Extra large for this size range—18 inches wide, 20 inches deep and 12½ inches high. A very quick baker. Drop door has nickeled frame, white porcelain enameled panel and heat indicator with nickeled thermometer ring.

Firebox. Equipped with duplex grates and iron linings for burning wood or soft coal or duplex hard coal grates and brick linings for hard coal. Size for coal, 17½ by 7 by 5½ inches. Burns 20-inch wood with end linings removed. Fire and ash doors nickeled.

Pouch Feed. Extra large door. Very convenient for feeding coal, broiling, toasting, etc.

Sanitary Base. Has four nickeled legs. Front and side base strips are enameled. Base strips are almost 9 inches from floor.

High Closet. Has nickeled drop doors with concealed hinges, set in porcelain enameled front. White porcelain enameled splasher back, top rail and door panels.

Reservoir. Made of pure copper, tinned on the inside. Holds 20 quarts. Heats by contact. Reservoir panel is nickeled.

Shipping Weights: With reservoir, 440 pounds; without reservoir, 400 pounds.

The Success Windsor

The Success Windsor Range is the same as the Splendid Windsor shown on opposite page except for finish. Has rust-resisting galvanized iron reservoir tank. The high closet door panels, splasher back, and oven door panel are **white porcelain enameled.** The back guard corners, high closet front and door frames, high closet brackets, towel bar, fire and ashdoor, front base strip, two front legs, clean-out door, oven door frame, thermometer ring and oven door hinge box are nickeled. Cooking top is highly polished. Takes 6-inch pipe. Can be furnished with water front which is described on opposite page.

Shipping Weights: With reservoir, 400 pounds; without reservoir, 365 pounds.

Style of Fire box	Article Number	With Reservoir Cash	With Reservoir Time	Style of Fire box	Article Number	Without Reservoir Cash	Without Reservoir Time

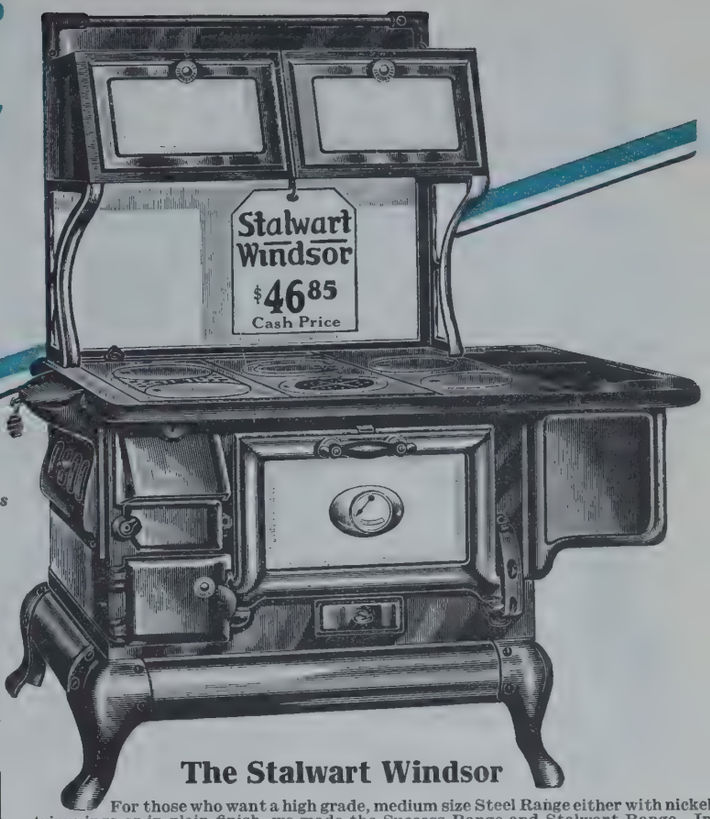
Hard Coal	168 F 1146	58.85	65.85	Hard Coal	168 F 1147	54.85	60.85



The Stalwart Windsor

For those who want a high grade, medium size Steel Range either with nickel trimmings or in plain finish, we made the Success Range and Stalwart Range. In the description of the Splendid Windsor on opposite page we say: "We took a plain steel range and covered it with porcelain enamel and nickel parts." The Stalwart Windsor is the "Plain steel range," and the Success is the same range with the addition of a few nickel trimmings. For detailed measurements refer to Splendid Windsor on opposite page.

By using fewer and less expensive trimmings, we are able to offer you a very substantial saving on both the Success and Stalwart Windsors. You can buy on easy payments, or pay cash and make a further saving, as our cash price is still lower. For easy payments use Order Blank on Page 623.

The Stalwart Windsor

The Stalwart Windsor Range shown above is the same steel range shown on the opposite page, except without the enamel parts and nickel trimmings. It is entirely plain finished except for the white porcelain enameled high closet door panels, splasher back and oven door panel. As they are the parts that need cleaning most frequently we have enameled them to make cleaning easier. It has a plain finish cooking top, no towel bar, and rust-resisting galvanized iron reservoir tank. Takes 6-inch pipe. Can be furnished with water front which is fully described on opposite page.

Shipping weights: With reservoir, 400 pounds; without reservoir, 365 pounds.

You Can't Find a More SENSIBLE Coal Range

The 20th Century Windsor

TRADE MARK

Amazingly Different – Successful – Brand New Features of Convenience

Modern Throughout—Elevated Baking Oven—Roomy Utensil Compartment—Polished Cooking Top—With or Without Built-In Quick-Heating Water Front and 20-Gallon Tank, Which Gives You Running Hot Water All the Time.

Another Windsor exclusive idea—the most modern development in Coal Ranges—the **20th Century Windsor**—a radical departure from the old type with oven below the cooking top, which made it necessary to stoop to open and close your oven door. Highly successful and so different that you will never go back to the old type once you have used the **20th Century Windsor.** All latest approved methods of construction have been used to make it an unusually efficient cooker and baker. The roomy compartment below which serves as a warming oven and as a place to keep kitchen utensils, is a convenient feature. The large copper reservoir tank with faucet heated by the Built-In Water Front gives you hot running water all the time, **without requiring a water pressure system.**

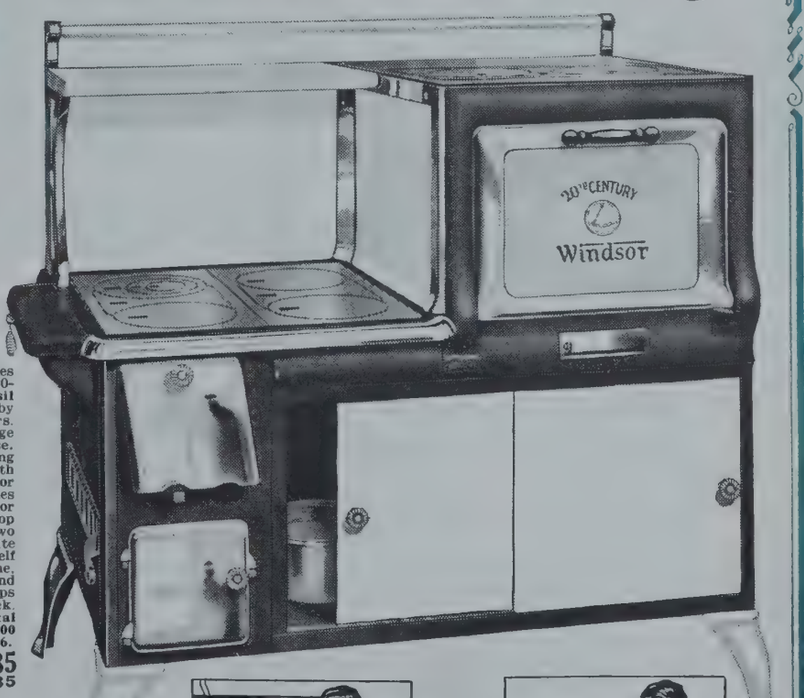
Without Hot Water System



Specifications of the Cabinet Range

Body. All parts are tightly fitted together so no heat is wasted. Made of the very best grade of steel and cast iron. Takes 7-inch pipe.

Cooking Tops. Size, 22½ by 23 inches. Of heavy cast iron, highly polished. Turns gunmetal blue when heated. Has three regular and one 3-piece sectional 8-inch lid. Additional cooking top space on top of oven, 20½ by 23 inches, has removable key plate with two 8-inch lids, handy for simmering and slow cooking. Also highly polished. **Height to cooking tops, 32½ and 48 inches. Oven.** Extra large and roomy. Of specially treated steel. Size, 20½ inches deep by 18 inches wide by 12 inches high. A quadruple cross sectional brace on bottom of oven keeps it level. Drop door has accurate heat indicator. **Firebox.** Size, 19½ by 8 by 7 inches. Duplex grates for burning hard or soft coal or wood. Takes 20-inch wood with end linings removed. **Utensil Compartment.** Large and roomy. Size, 34 by 20 by 14½ inches. Has two sliding doors. **Pouch Feed.** Extra large for feeding large chunks of coal or wood. **Sanitary Base.** Bottom of stove is 10½ inches from floor enabling you to sweep, mop and clean under the stove with ease. Also allows ample space for box of coal or wood. **Size of Range.** Over all, 51½ inches high, 49½ inches wide, 23 inches deep, takes floor space 50 by 25 inches. **Finish.** Back guard, top shelf, oven door panel, splasher back and side, two front legs and both compartment doors are white porcelain enameled. Back guard corners, shelf bracket, fire door, ashdoor, oven door frame, splasher brackets, cooking top front strip and clean-out door are nickeled. Both cooking tops are highly polished. All other parts dull black.

Shipping weight, 500 pounds. **Estimated Total Freight Charges: For 150 miles, $2.20; 300 miles, $2.65; 500 miles, $4.40. Read Page 306.**

Choice of Blue or Gray Porcelain Enamel Also Nickel and Enamel Trim or Plain Finish

This brand new line of Steel Ranges represents the biggest value in dependable stove construction we have ever offered. Guaranteed to give perfect cooking and baking satisfaction. They are medium size steel ranges—not our best, nor our highest priced—but vastly better than anything offered by any one else at prices as low as these. The body is of best quality steel plate, not quite as thick as our larger, more expensive stoves but such that it will stand up for years under the ordinary everyday use you will give it. Does not have the Windsor Cooking Top features found on our other ranges. Four finishes—a beautiful Blue or Gray porcelain enamel, a nickel and enamel trimmed model or a plain, dull black finished model give you a large selection from which to choose. Pay cash or use our easy payment plan of only $5 down and $5 per month.

Specifications of the Trojan

Body. All parts are tightly fitted together so no heat is wasted. Made of the best steel. See illustration and description of special steel body construction given on Page 576. Entire stove full porcelain enameled except following parts which are nickeled: High closet brackets, door frames, corners, and trimmings; all other door frames; towel bar and reservoir panel frame. Takes **7-inch pipe. Cooking Top.** Size, with reservoir, 22¾ by 43 inches; without reservoir, 22¾ by 36¼ inches. Heavy cast iron. Six regular 8-inch lids specially ribbed to hold heat and prevent warping. Also a fuel-saving feature. Has 2 removable key-plates. Highly polished, turns gunmetal blue when heated. Height to cooking top, 33 inches. **Oven.** Extra large and roomy for this size range. Size, 18 by 18 by 12 inches. Has sanitary baking rack which is removable. Drop door has an accurate heat indicator. Fits tightly against solid frame eliminating heat leaks. **Firebox.** Size, 15 by 7½ by 6 inches. Duplex grates and iron linings for burning hard and soft coal or wood. Takes 20-inch wood with end linings removed. Specially designed ventilated firebox.

Pouch Feed. Large size polished door. Very convenient for feeding coal without removing vessels from top. **High Closet.** Large and roomy with concealed hinges. Not a bolt head shows. **Sanitary Base.** Has four cast iron nickeled legs with heavy porcelain enameled front and side steel base strips. Base strips are 8½ inches from the floor, enabling you to sweep, mop and clean under the stove with ease. **Reservoir.** Of best rust-resisting galvanized iron. Holds 22 quarts; heats by contact. Size over all: Height, 60 inches. Lengths, 46 and 40½ inches. Depth, 30 inches. Occupies floor space 46 by 30 inches and 40½ by 30 inches.

Shipping Weights: With reservoir, 415 pounds; without reservoir, 385 pounds.

The Trophy

Nickel and Enamel Trimmed Range

To meet the requirements of housekeepers who do not choose to pay the additional cost of a full porcelain enameled range we are offering the **Trophy Steel Range.** It is full nickel trimmed and has white porcelain enamel finished parts that need cleaning most frequently. The other parts are black. This combination of black, white and gleaming nickel makes the **Trophy** a very attractive steel range. The **Trophy** is exactly the same as the **Trojan** shown above but is not full enameled. Read the specifications of the **Trojan** and you will know all about the **Trophy.** Can be purchased on our **Easy Payment Plan**—$5 down and $5 per month.

Specifications of the Trophy

Sizes and all other specifications of the **Trophy** are the same as the **Trojan** shown above except for finish. The **Trophy** has white porcelain enameled high closet door panels, oven door panel, fire and ashdoor panels, and reservoir front panel. **Nickeled parts:** High closet front; brackets; door frames and back guard corners; reservoir, front frame, oven, fire, ash and clean-out door frames, towel bar, front base strip and two front legs. Polished cooking top at no extra cost to you—turns gunmetal blue when heated. Water Front is the same as on the Trojan at top of page.

Shipping Weights: With reservoir, 400 pounds; without reservoir, 370 pounds.

$43.50 Cash Price

The Triumph

Plain Finished Range

The Triumph Steel Range, except for a few changes in trimmings, is exactly like the **Trophy range** shown at the left. You are assured the same excellent baking and cooking qualities as no change whatever has been made in structural specifications or dimensions. Almost all the nickel trimmings have been left off. White porcelain enamel appears only on the parts that need cleaning often. The price to you is lower than you will be able to buy such a high quality steel range elsewhere. Read the specifications of the **Trojan Steel Range** above for details of the **Triumph.**

Specifications of the Triumph

Most of the expensive nickel and enamel trimmings have been left off of the **Triumph** in order to make the prices extremely low. This, in no way, affects the quality or construction. The cooking top is black. The high closet door panels, oven door panel, splasher back, reservoir and fire and ashdoor panels are white porcelain enameled as they are the parts that need cleaning most frequently. The high closet front bands are highly polished nickel. All other parts are plain black in a dull finish. Dimensions and Water Front are the same as on the **Trojan** and the **Trophy** shown on this page.

Shipping Weights: With reservoir, 400 pounds; without reservoir, 370 pounds.

Guarantee

We guarantee every SATTLEY Cream Separator to be exactly as represented and to fulfill every claim made for it. We guarantee it to separate cream from milk as completely and deliver the cream in as good condition as any separator made. We guarantee the SATTLEY to wear as well and be as easy to operate and clean as any separator you can buy, regardless of price. We guarantee to replace free of charge, at any time during the life of the separator, any part which proves defective in material or workmanship.

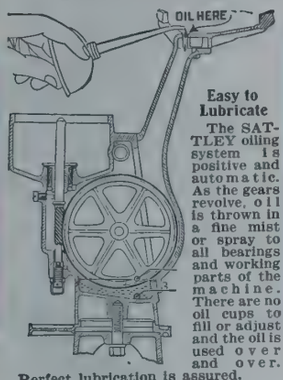
New SATTLEY Royal Blue

Easy to Turn - Easy to Clean - Easy to Buy

MADE in our own factory, the New SATTLEY Royal Blue Cream Separator is sold to you at factory prices, at a saving of from 20 to 40 per cent. Compare our prices with those asked right in your own locality for machines of equal quality and capacity. When you buy at Ward's you pay no in-between commissions—no middlemen's profits. These extra profits go into **your** pocket. Then, too, you have the protection of the strongest guarantee ever written on a cream separator which makes your satisfaction certain.

Don't merely keep your cows—make them keep you. Every day without a SATTLEY means profits lost. The increase in your cream check each month will usually meet the small monthly payments. The duty of a separator is to get all the butter fat. For clean skimming, the SATTLEY Royal Blue acknowledges no superior. It gets all the cream—all the time—from any kind of milk. If you are not satisfied with your dairy profits, try out the SATTLEY. It is oftentimes the difference between loss and profit.

Positive Oiling

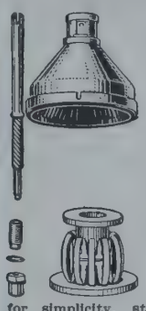


Easy to Lubricate

The SATTLEY oiling system is positive and automatic. As the gears revolve, oil is thrown in a fine mist or spray to all bearings and working parts of the machine. There are no oil cups to fill or adjust and the oil is used over and over.

Perfect lubrication is assured.

Balanced Bowl



Perfectly Balanced Bowl skilfully constructed assures perfect skimming and smooth operation. It spins like a top and will not require frequent rebalancing as is the case with many other styles of separator bowls. Neck bearing of Anti-friction metal. Spindle rests on hardened steel point. Adjustment provided for changing height of bowl. Designed for simplicity, strength, ease of operation, and the kind of results you want.

Crank Registers Speed

A sliding click on crank stops clicking when proper speed is reached.

Easy to Clean

Washing the discs and tinware of the Sattley Royal Blue is simple and easy. There are fewer parts than in most separators. We use great care in the tinning process to make tinware as rustproof as possible. A patented disc rack is furnished, on which discs may be kept together, washed and hung up to dry. In this way each disc is always in its proper place. This simplifies washing the discs. A set of brushes is included for the milk and cream spouts, faucet and bowl parts. No machine could be more simple to clean after using.

Easy to Assemble

Bowl parts easy to assemble. It is but a moment's work to slide the discs into place, put the bowl cover in exact position and tighten the nut. The cream screw is set at the factory for average test cream at milking temperature. This cream screw can be adjusted to give you the test you want in winter or summer from milk rich or lean and the bowl will get all the cream. All discs consecutively numbered, making it a simple matter to replace them properly. The self-balancing bowl is correctly designed, carefully made and will do your work faithfully. Best of all it will give the quality of cream which makes your cream check bigger; the kind your creamery man asks for.

The New Sattley Royal Blue Is the Best Separator We Have Ever Sold

Self-Balancing Bowl. In the SATTLEY, the bowl is accurately balanced at the factory. This, combined with a patented neck bearing, gives a self-balancing bowl. Spins like a top without vibration. Few bowl parts makes it easier to handle when cleaning and increases skimming efficiency. We use only 17 discs in the No. 35 machine, 22 discs in the No. 37 and 30 discs in the No. 39.

Easy Turning. Light-weight bowl, accurately balanced, carefully machined gears and automatic oiling system makes turning easy.

Supply Can. Anti-splash type, heavily tinned, formed with recess in bottom to insure draining all the milk.

Float. Controls amount of milk entering bowl and prevents splashing.

Bowl Nut. Cannot be started on threads until bowl shell is properly assembled.

Neck Bearing and Spring. Self-aligning. Strong spring, easily removed.

Spindle. Special steel, carefully machined for smooth running.

Cream Screw. Located for quick adjustment. Regulates density of cream from any kind of milk.

Gear Guard. Prevents fingers or clothing catching in gears, making it safe to operate.

Discs. No small holes or seams. Smooth surface, easy to clean. Sanitary.

Speedometer Weight. Positive action. Indicates when proper speed of crank is reached.

Worm Wheel. Special composition of bronze for long wear.

Base. Strong, sturdy and sanitary. Open at bottom for easy cleaning.

Long Life. Designed and built to stand long, hard service. Complete with cleaning brushes, bowl rings and full instructions.

SATTLEY Table Separator

Made for family use, restaurants and small dairies. Although smaller in size, it operates on the same principle and just as efficiently as our larger separators.

A quality machine carefully fitted from fine materials. Bowl is self-balancing—absolutely no vibration. Turns easily and skims perfectly. Guaranteed to satisfy you. Sold on easy payments.

Mix Your Own Concrete

Ward's Speedy Mixer Will Save Time and Money on Every Job

$26.75 Complete

Cash Only

Why pay high prices for labor to do your concrete work, when a small investment will enable you to put in your own concrete at about half the cost? Just a few small jobs and this handy Concrete Mixer will have paid for itself. Then, during your slack season you can do odd jobs for your neighbors and add substantially to your income.

With Concrete the First Expense Is the Last

A good Concrete Mixer means more than just a piece of farm equipment. With it you can make fence and anchor posts, drain tiles, foundations, floors for stables, garages and other buildings, tanks, stairways, walls, cisterns, water troughs, silos, fireproof chicken houses, granaries and many other valuable additions to your farm. You can do work during slack times at a cost of perhaps a few hundred dollars that will increase the value of your farm several thousand dollars. Think of the satisfaction and comfort you and your family will get out of these improvements, and the fact that your farm and buildings are modern in every respect. This mixer will provide concrete in any quantity that a farm owner or average contractor will require.

Built for Many Years of Hard Service

Concrete mixers require good heavy castings in the driving gears and drum supports. Only the best grade of close grain gray iron is used for these parts in our mixer. The drum is of 16-gauge sheet steel (about the thickness of a 25¢ piece). Drum is 22 inches deep, 22 inches in diameter at the base and with 18-inch openings for filling. Three mixing blades agitate the batch, give a quick mix and prevent the concrete from sticking to the drum. It will thoroughly mix a wheelbarrow load (two cubic feet) every minute, or about a cubic yard every 15 minutes. Drum tilts either way. Can be loaded or unloaded while drum is in motion. When filling, the opening is only 38 inches from the ground which makes shoveling easy. The frame is heavy angle iron, well braced. The drive pulley is 16 inches in diameter with a 3-inch face and should be run about 125 to 250 revolutions per minute. Any 1½ horse-power engine such as Ward's SATTLEY will run it easily. Small quantities for odd jobs can be mixed by hand power with the handle. Handle furnished. Fine for mixing feed also. Shipping weight, 240 pounds.

287 F 5862—Mixer complete; 2 cubic feet capacity..... **$26.75**
287 F 5867—Mixer, 3½ cubic feet capacity; same as above with larger drum **33.50**

$5.00 Puts This Windmill On Your Farm ~ WARD'S EASY SELF OILING WINDMILL

$41.85 Cash Price

$5.00 Down
Ten Months to Pay

Oil Only Once a Year

All Gears Run in Oil-tight, Dust-proof Gear Case

All gears in this Windmill run in oiltight gearcase, filled through a plug hole in the side with a heavy oil, just like the transmission of an auto. One of these mills has run twenty-three months on the original supply of oil. We guarantee it to run perfectly if oiled once a year.

The gearing works just like the planetary transmission in a Ford. This puts an even, steady pull on both sides of the crankshaft. It is geared 3 to 1, which increases the power 20 per cent over the ordinary 2½ to 1 gear.

Two handy men can easily erect tower and put on the mill in a day. Working head completely assembled in one unit. It is only necessary to bolt the six arms and six fan sections in place, bolt vane in position and hook up governor spring. Only 38 bolts used in assembling. Mill regulated by spring only—no governor weights or gears.

Very powerful—runs easily—the slightest breeze will start it. Compare our prices with those asked locally for self oiling mills. You will find we save you $10 to $20 on the price of the mill, and because you can easily erect it yourself you save an additional $15 to $25—a total saving of $25 to $45. We invite you to order the mill on trial. We will promptly return your money and all transportation charges if you don't agree it is the best windmill value you have ever seen.

Self-Oiling Windmill

Besides the wheel, working head and vane, prices below include tower cap for wood or steel tower and truing spider for attaching to four-post tower. Tower, pump rod, and platform not included.

287 F 5112—8-Foot Mill. Ship. wt., 324 pounds. Easy Payment Price: Only $5 with order and $4.35 a month. Use Order Blank on Page 623. **$48.50**

Shipped from Columbus, Ohio

Where the work is light and a smaller mill can be used, we recommend our 6-foot mill with open gearcase. Shipping weight, 250 pounds.

287 F 5101—Cash Price: Full amount with order..... **$25.75**
Easy Payment Price: Only $5 with order and $2.47 a month. Use Order Blank on Page 623 **29.75**

Shipped from Factory near Milwaukee, Wis.

A sixteen-page instruction book fully illustrated, explaining every detail of erection is included.

The heavy ribbed main casting, made in one piece, is one of the strongest ever put in a windmill. The wheel, made of heavy gauge galvanized iron, is extra strong. It has six sections, which means added power. Most mills have only five sections.

Every shaft or moving part has a double bearing lubricated from a reservoir of hard grease. A dependable brake, designed to cut ice or sleet.

The crankshaft is of forged steel carefully turned and finished. All bearings are of copper hardened anti-friction metal, die cast and easily renewable.

The Pitman bar has a straight lift. Adjustable to any speed between 30 and 40 strokes per minute in a 20-mile wind.

See Page 552 for windmill pumps.

Steel Windmill Tower

Tower can be built up section by section making it unnecessary to assemble on ground and lift by heavy tackle as most other makes. Angle iron uprights are cut in 10-foot lengths with girts every 5 feet. Price of tower includes anchor posts, ladder and heavy wood platform 40 inches square. No. 1 tower has 2-inch angle iron uprights and is suitable for 6-foot and 8-foot windmills. No. 2 tower has 2½-inch uprights and is best for 10-foot windmills.

Estimated Freight Charges per 100 pounds on windmills and towers: For 300 miles, 53¢; 500 miles, 88¢; 750 miles, $1.32. Read Page 306.

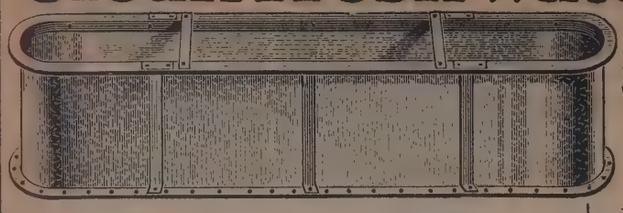
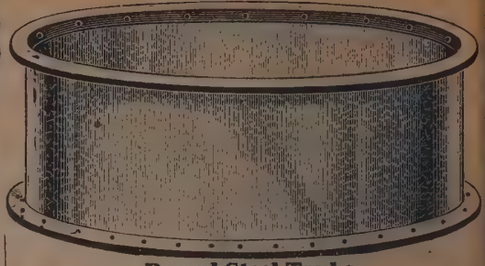
Clean Fresh Water Makes Healthy Stock



First Quality STOCK TANKS

Galvanized-Rust Resisting-Sanitary



Fresh, clean water is a cheap fat-producer either in stock feeding or dairying. Provide plenty of it. Ward's Smooth Tanks are of heavy rust-resisting 20-gauge galvanized steel, reinforced with heavy angle iron edge top, heavy band iron, and angle iron side and cross-braces. Will not warp, rot or crack from frost. Lock-seam construction, carefully soldered. We list here tanks of all sizes, both smooth and corrugated.

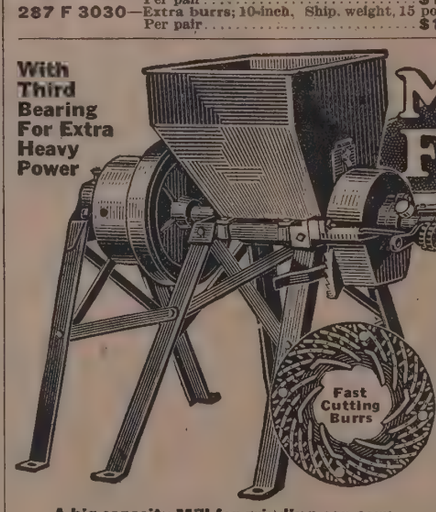
With Third Bearing For Extra Heavy Power

Mammoth Feed Mill



$32.85

You Save About $15

A superior, extra heavy Mill with third bearing—not to be confused with cheaper grinders on the market. Frame is of angle steel, heavily braced. Grainboard fits into hopper, directing grain into burrs when grinding grain only. Break pins protect burrs from stones or bolts. Relief lever throws burrs apart instantly. Ball bearing end-thrust. Extra heavy flywheel, 15½ inches in diameter. Has handy lever for regulating flow of grain into burrs. Burrs 8 inches in diameter. Pulley 12 by 6 inches. Steel driveshaft 1⅛ inches, with grease oiled babbitt bearing. Height, 40 inches. Table at left shows capacities—these vary with amount of power and kind and condition of grain. Shipping weight, 300 pounds.

Estimated Total Freight Charges for 150 miles, $1.65; 300 miles, $2.04; 500 miles, $3. Read Page 306.

Nursery Stock Guarantee

We guarantee the quality of all Ward's Nursery Stock to be the best and to give complete satisfaction. We will replace free of charge or refund full purchase price only on any trees that prove not true to name. Every shipment contains a certificate from the Nursery Inspector of the state where nursery is located, stating that the stock is in sound, healthy condition and free from disease and insect pests. We guarantee safe delivery and will replace any stock damaged or lost in shipment.

Hardy Northern Grown Nursery Stock

Plant a Garden Orchard and Increase Your Income

Finest Quality Guaranteed

It's surprising how much money can be made every year from just a few fruit trees and plants. Supply your own table with fresh, healthful fruits and vegetables; can or preserve a supply for winter and sell the surplus for cash at nearby markets. Vegetables can be grown between the rows, making your land do double duty in producing the highest priced crops that can be grown.

In buying Nursery Stock, Seeds and Plants from Ward's, you get the best quality possible to produce. You pay less money here and have the advantages of buying stock backed by the complete guarantee shown at left.

Our trees are what are known as "whole root trees," and are grafted or budded. No seedlings here. We guarantee them true to name and free from disease. All are carefully inspected by State Nursery Inspectors. In buying nursery stock, you must depend upon the honesty of the firm from which you buy. Ward's fifty-five years reputation for honest merchandise and fair dealing is your safeguard. Our nurseries keep accurate information covering weather and growing conditions. Shipment is made when weather is favorable in your vicinity and at the nursery.

Strawberry plants

Heavy white rooted plants grown on new soil in WesternMichigan where climatic conditions are ideal. Standard varieties do not bear first year.

Howard No. 17. Large highly flavored, glossy red berry. Maintains size and quality for a long season.

Premier. Beautiful large berries, red clear through. Extra early. Among the best for shipping.

Dr. Burrill. Ripens early and continues for a long period. Classed as mid-season. Deep red.

Senator Dunlap. Best known. Dark red. For many years the best known for table use and canning.

Gibson. Medium early; extremely productive. Rich red fruit. Easily shipped. Good canning berry.

Aroma. One of the best late varieties. Large, bright red. Very firm. Keep well in shipping.

Ward's Special. One of the latest to ripen. Berries very large and firm. Because of the large demand, we can supply no more than 250 plants to a customer.

Mastodon. Everbearing. Exceptionally large. Produces heavy crop both in spring and fall. Has created a sensation wherever grown. Our plants are extra quality and healthy. Ship. wts.: 25 plants, 1 lb.; 100 plants, 3 lbs.; 250 plants, 8 lbs.; 1000 plants, 30 lbs. No Orders accepted after May 12.

Prices are only for quantities quoted.

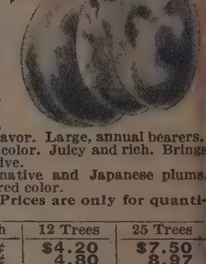
Plum Trees



Very hardy, free from disease and insect pests. Plum trees produce good yields and substantial profits. Our trees are the best of quality and will take on a rapid, vigorous growth right from the start.

Abundance. Large. Rich bright cherry color. Flesh, light yellow, sweet and juicy. Early.

Burbank. Large, mottled red and yellow. Flesh of peculiar but very agreeable flavor. Good bearer.

Wickson. Beautiful trees. Fruit, deep red. Flesh, firm, yellow. Delicious flavor. Large, annual bearers.

German Prune. Purplish blue in color. Juicy and rich. Brings best price on market. Hardy and productive.

Waneta. Combines best points of native and Japanese plums. Averages two inches in diameter. Good red color.

No Orders accepted after May 20. Prices are only for quantities quoted. State variety wanted.

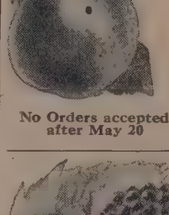
Pear Trees



Ward's hardy Pear Trees are not easily winter killed as they come to you healthy and strong. Whole root trees that make a rapid, vigorous growth, insuring early bearing. In no other fruit that grows can you get the refreshing tang and honeyed sweetness of pears. A good pear tree is a money maker. Your choice of these most popular varieties: Clapp's Favorite, Bartlett, Seckel, Sugar and Keiffer.

Prices are only for quantities quoted.

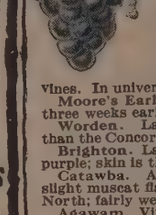
Grape Vines



Grapes will grow almost anywhere and with good care and favorable conditions will yield as much as eight tons of fruit per acre. The present demand for high quality grapes is sure to continue and a good vineyard will prove most profitable.

Concord. Black, luscious fruit that ships well. Hardy, healthy, productive vines. In universal demand.

Moore's Early. Popular black grape. Ripens two or three weeks earlier than Concord.

Worden. Large black grape. Ripens ten days earlier than the Concord of which it is a seedling. Delicious flavor.

Brighton. Large broad clusters of fruit that are reddish purple; skin is thin and pulp of spicy flavor.

Catawba. A great wine and table grape. Clear red; slight muscat flavor. Ripens after Concord. Does well in North; fairly well in the South.

Agawam. Vine a strong grower. Fruit in large bunches of red or amber color. Skin is thick and pulp has aromatic sweet taste.

Niagara. Leading white grape for home or market. Large bunches of fruit. Tough skin that carries them to market well. Very tender and sweet.

Diamond. Bears sweet and rich flavored grapes, greenish white at first, becoming yellowish at full maturity. Very hardy and productive.

Beautify Your Home Surroundings
With Choicest Trees, Shrubs, Hedges and Flowers

Beautiful Flowering Shrubbery

A few well placed Shrubs not only enhance the beauty of your home surroundings, but constantly increase the value of your property. The beauty of shrubbery and flowers and the pleasure they give more than offset the small mounting of labor required to care for them.

Ward's shrubs are as good as money can buy. They are guaranteed to please you in every way, and to be strong, healthy plants true to name. Don't be misled by lower prices elsewhere. Quality should be your first consideration.

287 F 2451—Althea or Hibiscus (Rose of Sharon). Grows upright and compactly to height of 8 to 12 feet. Blooms heavily. White, red or pink flowers. Size, 18 to 24 in., 45¢ 2 to 3 ft., 54¢

Prices quoted are for each shrub. State size and color.

Finest Quality Ornamental Hedges

Extra Heavy, Bushy Limbed Plants

Hedge Plants serve many purposes—they are useful as an ornamental border for the lawn, as a shrubbery group in landscaping or as an attractive fence. Neatly trimmed or flowering hedges are necessary to any plan for beautifying home surroundings.

Our hedge plants are full size, healthy Number 1 plants that grow quickly and develop into a strong, thick hedge—not lining out stock such as are usually sold at lower prices. You cannot afford to waste your time on poor quality plants. Set the plants one foot apart.

California Privet. Bright green, smooth foliage. Half evergreen. Stands severe pruning. Easily shaped. Not hardy in northern sections. One of our most popular hedges.

Amoor River North Privet. Similar to California Privet, but hardier and foliage not so lustrous. A very fast and upright grower. Forms a solid green wall and is easily shaped by trimming.

Barberry, Japanese, A beautiful hedge. Foliage, brilliant green in summer and crimson in fall. Branches are loaded with scarlet berries. Very popular in all sections. Each plant.....24¢

Shipping weights: 12 plants, 3 pounds; 25 plants, 4 pounds; 50 plants, 6 pounds.

87 F 2372—	10-pound sack	2.35

White Clover Seed

Used to great extent in lawn mixtures, also for covering bare spots in lawns or for sowing where ground has a tendency to be damp. White clover adds to the beauty of a lawn and is helpful in keeping out dandelions and other undesirable weeds. Grows well in poor soil, forming a close dense mat. Will stand close clipping.

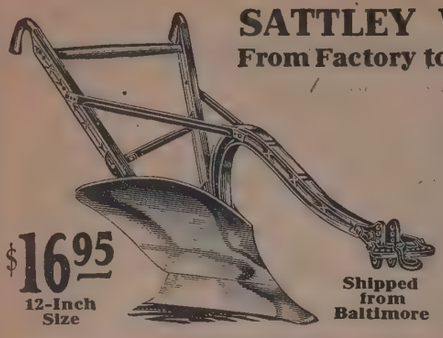
Better Values in Tillage Tools

SATTLEY Walking Plows
From Factory to You Means Low Prices



$16.95 12-Inch Size

Shipped from Baltimore

The quality of SATTLEY Tools has satisfied buyers and users for over seventy years. The name alone guarantees dependable tillage service for years to come. In case of needs for repairs, any one of our seven stores can supply you promptly.

All Plows have heavy steel beams, bent up in the throat to avoid choking. Handles braced to beam and bottom. Double shin moldboard; hardened, soft center steel moldboard and share. Steel frog and heavy flat steel brace between moldboard and landside. Renewable chilled heel on landside.

The steel frame bolted securely to the share, moldboard and landside gives strength and rigidity. Share and moldboard of highest grade soft center steel—composed of three layers, each 1/8-inch thick; two outside layers of high carbon steel, the inner one of tough elastic steel; all welded into one piece. This combination gives strength and durability impossible to secure otherwise. See "Estimated Total Freight Charges" on Page 591.

SATTLEY Turf and Stubble Plow. An excellent general purpose plow which gives splendid service in clover sod or grass land.

SATTLEY Stubble Plow. For use in stubble and weedy land. Moldboard has slightly sharper curve, giving it greater pulverizing power.

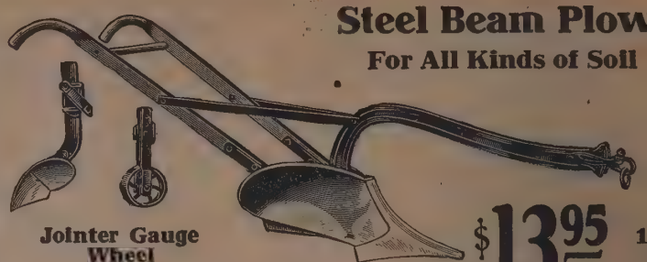
Steel Beam Plows
For All Kinds of Soil



Jointer Gauge Wheel

$13.95 12-Inch Size

On many farms the soil is varied—stony, sod, clay and sandy loam. To get the most out of these farms a general purpose Plow is needed that will turn the soil, regardless of its nature, to the best advantage. This plow was designed for just such utility work. For an unusually low price you get a plow that will serve you well no matter what your plowing needs might be.

All parts made of the best material and the workmanship is finest quality. The rigid construction and well braced bottom reduces the possibility of breakage to a minimum. Moldboards are genuine chilled iron and have a long graceful roll that will scour in practically any soil. The long horn point or share gives a new cutting edge with each new share. Slip heel on landside can be replaced for a few cents when worn out prolonging the life of the landside. All wearing parts can be removed and renewed without changing the adjustment of the plow.

Rigid, well braced bottom. Steel beams of open hearth rolled steel, braced and fastened to bottom with bolts. Curved high to prevent choking. Handle brackets are adjustable. This enables you to set the handles at just the right height and angle to do your plowing with the least effort. Can be furnished with jointer and gauge wheel if desired. See "Estimated Total Freight Charges" on Page 591.

Riding Attachment for Walking Plow

$17.95

Shipped from Baltimore

Can be put on or taken off in a few minutes, giving you the advantage of two types of plows. Equipped with a tilting front wheel. Makes plow run steadily without side draft. May be set for any depth furrow. Levers operate easily; one regulates depth, other levels the plow. Regular plow wheels, 24-inch, with 2-inch oval tires and dustproof hubs. Will work on any right hand steel beam plow 10-inch or larger except sod breakers. Plow not included. Shipping wt., 145 lbs. See "Estimated Total Freight Charges" on Page 591.

187 F 667..... $17.95

Disc Hoe

$13.95

Extra Large Discs Throw Soil In or Out

Practical and efficient. Especially good for hilling potatoes. The big 20-inch steel discs are adjustable to throw dirt either toward the plants or away from them. Can also be adjusted for different widths of rows.

The seasoned oak frame, sets sufficiently high to allow cultivation after plants are well grown. Steel braced and bolted. Standards are best gray iron, made from charcoal iron. Seasoned oak handles, steam bent, strongly bolted and braced. Are adjustable in height and to allow operator to walk to one side. Ship. wt., 135 lbs. See "Estimated Freight Charges" on Page 591.

287 F 1185..... $13.95

Shipped from Factory near Albany, N. Y.

SATTLEY U-Bar Harrow

$18.75

5/16-Inch Teeth Shipped from Baltimore

Each individual tooth is headed by hand which prevents it dropping out should the clamp become loosened in any way.

The strong heavy construction and the very high grade of steel used makes this harrow one of the most durable on the market. The extra heavy U-bars on each section are held solidly in place by three strong I-beam bars, and the entire section is cross braced. 5/16-inch teeth tempered and headed. The teeth are carefully arranged and spaced on the bars so as not to track. They are held together by specially designed clamps which bolt through the bar. The levers which regulate the slant of the teeth are amply long and conveniently placed to permit easy operation. Hardwood drawbar included. See "Estimated Total Freight Charges" on Page 591.

Article Number	Width of Cut	Sections	Teeth	Shipping Weight	Each
187 F 1322	10 feet	2	60	240 pounds	$18.75
187 F 1325	15 feet	3	90	360 pounds	29.95

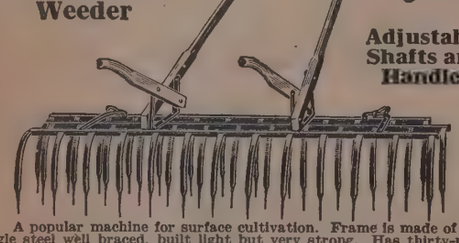
Shipped from Factory near Albany, N. Y.

Climax Steel Frame Weeder

$9.95



Adjustable Shafts and Handles

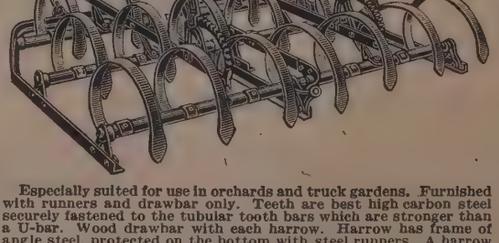
A popular machine for surface cultivation. Frame is made of angle steel well braced, built light but very strong. Has thirty-nine teeth so arranged that the teeth do not track. Each tooth is fastened with a separate clip, so that it can be removed. By removing some of the teeth the weeder can also be used as a cultivator in rows of vegetables, etc. Adjustable shafts and handles; thirty-nine teeth; 7½-foot cut. Teeth are ⅜ inch, half oval with round points, and made of good quality spring steel; height, about 18 inches. Shipping weight, 95 pounds. See "Estimated Total Freight Charges" on Page 591.

287 F 1036—Complete..... $9.95

Shipped from Factory in Southern New York, or Atlanta, Ga., whichever is nearest you.

Spring Tooth Harrow

$22.95



Especially suited for use in orchards and truck gardens. Furnished with runners and drawbar only. Teeth are best high carbon steel securely fastened to the tubular tooth bars which are stronger than a U-bar. Wood drawbar with each harrow. Harrow has frame of angle steel, protected on the bottom with steel runners. A harrow built to withstand the roughest kind of service. A popular pattern, widely used. See "Estimated Total Freight Charges" on Page 591.

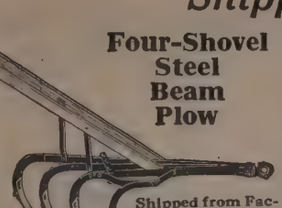
Southern Tools For Southern Farms

Shipped from Factory near Atlanta, Georgia

Four-Shovel Steel Beam Plow



$5.95

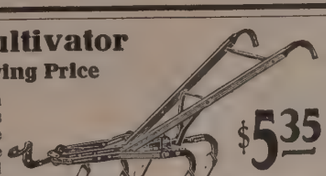
Shipped from Factory near Atlanta, Georgia

Handy in many different ways both on the farm or in the truck garden. Equipped with three-inch double point reversible shovels. Can easily be converted into a three shovel plow as front standard is detachable. Has adjustable expanding and contracting beams. Shipping weight, 55 pounds.

287 F 889 ..... $5.95

Five-Tooth Cultivator

At a Money-Saving Price



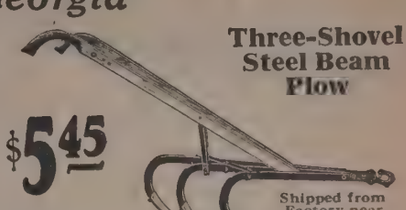
$5.35

Shipped from Factory near Atlanta, Georgia

The variety of uses for which this Five-Tooth Cultivator is adapted makes it a very valuable implement on the farm or in the truck garden. No finer tool made for weeding and putting the soil in finest condition for good crops. Economical, too, because the shovels, 2½ inches wide, are reversible. Extra long and high frame insures steady running and prevents clogging. Braces hold it rigid at all points, whether expanded or contracted. Shipping weight, 47 pounds.

287 F 865 ..... $5.35

Three-Shovel Steel Beam Plow



$5.45

Shipped from Factory near Atlanta, Georgia

Very useful and economical. Well made of high-grade material, nicely finished and painted. Cultivates full distance between rows of corn, cotton, tobacco, beans or any crop planted in rows.

Equipped with one hole, oval faced blades, 5 by 7 inches. Beams adjustable to different widths. Crossbar for connecting beams is attached by stirrup bolts. Ship. wt., 47 lbs.

The SATTLEY Reversible Harrow

High Quality at a Low Price

$37.65 8-Disc

Shipped from Baltimore

Especially adapted for orchard and vineyard cultivation, and for cultivating crops planted in wide rows.

The gangs may be changed quickly to throw dirt in or out. Gangs may be moved in or out quickly, and locked rigidly in position on back bar of frame. For hilling or ridging, inner ends of gangs may be raised and lowered.

The discs are spaced approximately 6 inches apart, each gang being fitted with two wood bearings and hard oil grease cups. The heavy flat-bar frame forms a complete triangle, the tongue passing through it and clamped solidly in place at rear of frame by steel loop at base. May be equipped with tongue truck same as furnished with regular disc Harrow No. 955. Estimated Freight Charges per 100 pounds: For 150 miles, 44¢; 300 miles, 53¢; 500 miles, 88¢. Read Page 306.

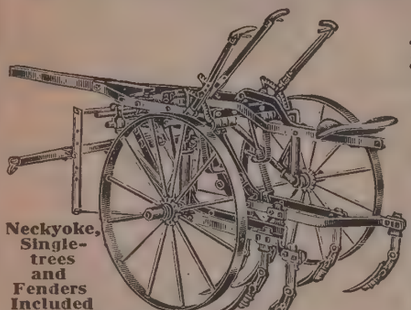
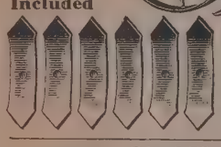
SATTLEY Pivot Axle Cultivator



Neckyoke, Single-trees and Fenders Included



$48.75 6-Shovel Pin Break

An improved pivot axle, both wheels and gangs are connected rigidly and direct to a movable gang bar in front. Pressure on either pedal shifts this easy gliding bar and with it the gangs and wheels. A boy can handle it easily. Suitable for use on side hill or in crooked rows. Gangs may be spread or closed instantly, by means of special crank; special lever for balancing cultivator or leveling gangs; gangs raised or lowered separately; gangs always run parallel to shovel, cutting full width; the no-wobble, no-twist double beam gangs; fold over seat rail; pivot bearings fitted with hard oil cups; high 42-inch wheels; 2 1/2-inch concave tires; long sleeve bearings removable and replaceable; telescoping axle for 32 to 44-inch tread; hard oil cups on axle bearings; strength to spare in every part. Shipping weights: 430, 490, 420, 470, 440 and 490 pounds. Estimated Freight Charges per 100 pounds: For 150 miles, 44¢; 300 miles, 53¢; 500 miles, 88¢. Read Page 306. Shipped from Baltimore, Md.

Adjustment Under Frame for Changing Center Pressure

Standard and bearing Box in one piece, extra strong. Discs ground to knife edge. Maple bearings—the kind that wear longer, producing less friction than any others. Bumper gangs, powerful frame. Oscillating scrapers. Seat spring double. Gangs adjustable. A harrow that will give you satisfaction under all conditions.

Like all SATTLEY implements, SATTLEY disc Harrows are strongly built of high grade materials in our own factory—in the same way and with the patterns originally used by the Sattley brothers. We have made only such changes as necessary to keep this line up-to-date with the requirements of the times.

Gangs of bumper type relieve bearings of all end thrust. Oscillating springs steel scrapers never break loose. Inner ends of gangs may be raised or lowered to meet different soil conditions. Triangular steel frame with double bar back provides extreme rigidity. The wide wood bearings are fitted with hard oil cups. Tongue truck relieves horses of tongue whipping. Extra strong stub pole. Neckyoke not included. Estimated Freight Charges per 100 pounds: For 150 miles, 44¢; 300 miles, 53¢; 500 miles, 88¢. Read Page 306.

Best quality standard weight duck, straps are extra heavy and double riveted. We guarantee every canvas to be first-class in every way and to fit perfectly, provided you give correct information when ordering. A comparison will show Ward's low prices give you a very substantial saving. Our prompt 24-hour service insures quick delivery.

Always state size and name of binder, manufacturer's number and size of canvas, and whether for platform or upper or lower elevator.

How to Order Binder Canvases

Under the name of your binder in the tables below, you should easily find the correct canvas for your particular model. The manufacturer's numbers and styles given here correspond to those printed on the canvas received with the machines. If the sizes or the number cannot be found on the old canvas, use a cord to measure around the rollers to find the length, and measure from outside to outside of the canvas guides for the width. The measurements given are from buckle to end of strap. We do not make special size canvases to order, and furnish only canvases listed below.

Shipping weights: Platform Canvases: 6-foot, 13 pounds; 7-foot, 15 pounds; 8-foot, 16 pounds. Elevators: upper and lower, 10 pounds each. Adjusters: 2 pounds each.

Explanation of Price Tables

Under the name of the binder you use, you will see such abbreviations as U.E., L.E., ADJ. 6-ft.

U.E. means Upper Elevator
L.E. means Lower Elevator
Adj. means Adjuster
6-ft. means 6-foot Platform

Read "How to Order" at left before ordering. All canvases can be shipped by parcel post.

Ball Bearing Pit Scales

Standard Full Capacity Beam

This type is preferable where it is necessary to have platform level with surrounding ground or if it is impossible to build approaches. We furnish everything needed except platform and timbers.

Entire weight is carried on foundations at bottom of pit. Wall and frame do not have to be as heavy as on scales that hang from frame. Frame and floor the same for five, six and eight-ton sizes. Joists and bearing plank will vary according to capacity.

$63.15

This Scale has five levers and will carry more than rated capacity. Easily set up from plain building plans and instructions included. Requires pit 28 inches to 49 inches deep.

Estimated Freight Charges per 100 pounds: 500 miles, $1.00; 750 miles, $1.50; 1000 miles, $2.00. Read Page 306.

Money Saving Equipment for Gardeners and Truck Farmers

Garden Seeder and Cultivator

A Time and Labor Saver

$16.75 Complete

A Labor Saving Tool Needed in Every Garden

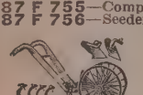
May be used as Hill and Drill Seeder or as Double or Single Wheel Cultivator. Sows any kind of seed in rows or hills 4 to 24 inches apart. Brush force feed, does not injure seed. Capacity, 2 quarts. Operator can tell instantly when hopper is empty.

Sturdy hardwood handles are adjustable to suit operator. Wheel, 16 inches in diameter with 1¼-inch tire. Malleable iron frame with angle steel arch. By removing two bolts the seeder becomes a single or double wheel cultivator, rake, plow or hoe as desired. Wrench is included.

Hoes, shovels and plows are high grade tool steel polished and lacquered so as to scour in any kind of soil. Shanks are malleable iron.

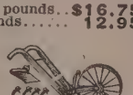
One of the most convenient and most complete seeders you can buy. Savesa great deal of time and labor during seeding time. We do not believe you can equal this quality at anywhere near this low price.

187 F 755—Complete outfit. Shipping weight, 60 pounds.. **$16.75**
187 F 756—Seeder only. Shipping weight, 50 pounds..... **12.95**



As Double Wheel Cultivator

As Hill and Drill Seeder



As Single Wheel Cultivator

Chicago Jr. Cultivator

Keeps Your Garden Free from Weeds

With one of these all round Garden Tools you can have a garden free from weeds with very little effort. Can be used as hoe, plow, rake and weeder. Cultivates on both sides of the row at the same time until plants are 22 inches high. Has two steel wheels, 16 inches high; 1½-inch tires. Strong hardwood handles.

Included is a full outfit of tools. The two plows are for breaking, furrowing, covering, marking and hilling. The two new style 7-inch knife edge steel scuffers are the smoothest working tools ever attached to a garden cultivator. Their thin fast cutting edges are easily pushed through the toughest soil, and the blades, being fastened at the sides, do not pile up the soil in a furrow like the old style sweeps. They mulch the soil better than any other tool. Two 5-tooth high carbon spring steel rakes for cultivating work, also furnished. Can be used for cultivating between rows when hilling. They are a big improvement over the separate teeth usually furnished. Any of the teeth may be removed, giving a wide range of adjustment. Two plates for adjusting the distance between the two tools in use and two leaf guards are included.

$6.45

An exceptional bargain at this low price. Ship. wt., 30 lbs. Can be shipped by freight or express only.
187 F 760—Complete with all attachments. **$6.45**

Handy Garden Tools

Handy Cultivator

$4.95

Durable and handy for the gardener. By placing wheels on inside of arch, a single wheel effect is obtained enabling cultivation between rows. Arches are 16 inches high. Wheels, 15½ inches in diameter with 1¼-inch tires. Knuckle joint holds tools rigidly in place. Furnished with one pair of curved point 8½ inch high carbon steel onion hoes or with a pair of plows and rake teeth gangs.

187 F 776—With Onion Hoes only. Ship. weight, 30 lbs.... **$4.95**

187 F 779—Complete with two each of Hoes, Plows and Rake Gangs. Ship. weight, 35 lbs.. **$6.90**

Garden Seeder

$8.95

Sows all seeds in exact line and at proper depth. Will sow: asparagus; beets; beans; carrots; cabbage; celery; cauliflower; chicory; corn; cucumber; endive; kale; lettuce; leek; mangold; okra; onions; parsnips; peas; parsley; pepper; rice; radish; rape; spinach; sage; savory; salsify; turnip; tomato; apple; pear; melon; tobacco, and flower seeds. Easily adjusted for different seeds. Sows from continuous to 18 inches in the row.

Steel construction. Less complicated than most drills. Diam. of wheels: front, 15 inches; rear, 13 inches; 2½-inch tires. Equipment consists of one iron agitator and one brush agitator for tender seeds; regulating seed plate and two row markers and wrench. Shipping weight, 40 pounds.
187 F 775—Complete..... **$8.95**

Garden Hoe

$2.98

Light and easy to handle in the garden. Nothing better for killing weeds. You can cover several times as much ground as by the old method of hand hoeing.

Wheel 15½ inches in diameter with 1¼-inch tire. Hoes are well finished and will scour perfectly in any kind of soil. Handles proper length for easy operation.

Comes equipped with onion hoes only or with rake teeth and plow.
187 F 777—With Hoes only. Ship. wt., 20 pounds..... **$2.98**
187 F 780—Complete with two Hoes, three Rake Teeth and Plow. Shipping weight, 23 pounds.. **$3.85**

Steel and Wood Beam Plows

Extra Share Included

$6.25 $4.65

187 F 1135—Drill without press wheel. **16.95**

Complete Hay Carrier Outfits
for End or Center Hoist Barns

For new barns or improving the old ones. Ample equipment of the finest quality is included with our complete outfits to fit any style barn—and our price means a considerable saving for you.

Steel Track Outfit. Includes Hay King carrier, either fork or sling type, double angle steel track, one 25-inch double harpoon fork or three 5-foot slings, three floor hooks, three-knot passing pulleys, hanging hooks, rafter brackets and rope. Track in 10-foot lengths; two 5-foot pieces to each outfit to break joints. Five feet extra track for end-loading barns.

Wood Track Outfit. Includes Hay King carrier either fork or sling type, one 25-inch double harpoon fork, three 5-foot slings, three floor hooks, three or four-knot passing pulleys. Hanging hooks, rafter brackets and rope. Track not furnished—should be used with 4 by 4-inch timbers.

Both outfits contain enough rope, track, brackets, etc., to fit most barns. To determine length of rope required on end-hoist barns, see diagram and measure barn from 1 to 2, 2 to 3, 3 to 4, and twice 4 to 5. On center hoist from 1 to 2, 2 to 3, 3 to 4, and twice 4 to 5. Additional rope or other equipment will be found listed below. For ⅞-inch rope instead of ¾-inch add, per foot 1½¢.

Estimated Freight Charges per 100 pounds: For 150 miles, 44¢; 300 miles, 53¢; 500 miles, 88¢. Read Page 306.

Binder Twine
First Quality
Write Us for Prices

Tested for STRENGTH and GUARANTEED
Genuine First Quality Manila ROPE

2¼¢ A FOOT
Half-Inch Size

Positively guaranteed to be made of pure, genuine, long fiber manila. Only the strongest and longest wearing fibers are used—no jute, sisal, or other substitutes generally found in "Hardware Manila" and other lower grades of rope. Specially lubricated to prevent excessive wear by friction and to increase its weather-resisting quality. For hay carriers use three-strand ¾ or ⅞-inch, with ⅝-inch for trip rope. Our ¼-inch manila rope makes the finest clotheslines.

Strength or capacity is based on U. S. government standards. A safe working load is one-third of the breaking strength given. When you buy locally by the pound you often pay twice as much a foot without knowing it. Our prices are per foot, but as we also give the weight you can easily figure the price per pound. For example, our ¾-inch rope figures 25¢ a pound in 100-foot lengths. We can furnish any length up to 1200 feet in one piece.

187 F 3704 . . $23.85

Insulated Side Walls Extra Large Egg Trays and Central Heating Tube

Hot Water Heat—Rustproof Copper Pipes

We are so sure you will be well pleased with a Dependable Incubator, that we make you this special offer: Order one today, look it over when you receive it and compare it with other incubators selling for half again as much. Try it out. If after 30 days you are not thoroughly satisfied with it in every way and with the saving in price you have made, then you may write us for shipping instructions and we will return your money, including transportation charges both ways.

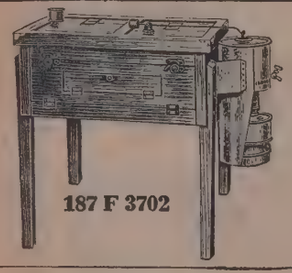
Take No Chances with Valuable Setting Eggs

An incubator that will constantly produce big hatches of strong, healthy chicks, must first of all be properly designed. Ward's Dependable incubator has been scientifically designed by men who know what results YOU have a right to expect from an incubator. The materials used, the heating plant—in fact, every feature of the Dependable has been designed with but one ultimate purpose in mind—to consistently hatch strong, healthy chicks.

Guaranteed to Satisfy You

If you are raising chickens you owe it to yourself to have the best incubator you can procure—the Dependable. You cannot afford to take chances with an expensive setting of eggs in a poorly constructed incubator; for one good hatch of strong, healthy chicks will more than pay the difference in cost between a good machine—the Dependable—and a poor one.

The Dependable is a time-tried incubator. It has been sold for years by Ward's. There are thousands of Dependable incubators now in use by well satisfied customers in every part of the country. It has hatched millions of chicks—big lively chicks—the kind which sell at good profits in the early market.



187 F 3702

DEPENDABLE 150-Egg Capacity

One door; one egg tray, 22⅝ by 25 inches; 2-inch heavy copper heating pipes. Ship. wt., 105 lbs. Size, 30½ in. long; 28 in. wide; 31 in. high.

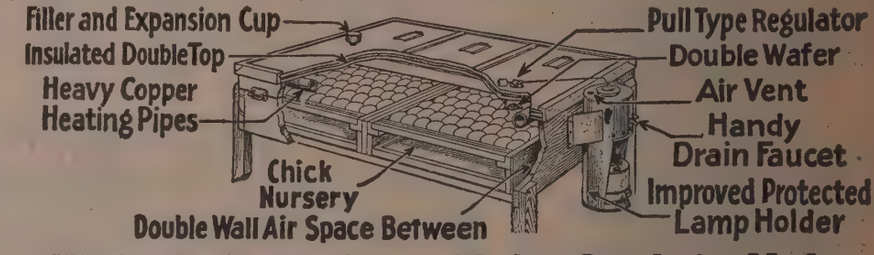
187 F 3709 $89.85



We Invite Comparison with Any Incubator Made

The Dependable case is genuine California redwood and red cedar perfectly free from knots and flaws. Our chief reason for using this lumber is that it will absorb less odor than other wood, allowing the incubators to be reset immediately after a hatch which could not otherwise be done. The legs are strong hardwood.

Double Top. Kiln dried lumber. Outer layer, 1 inch thick, glued at joints. Inner layer, ½ inch thick. Between is a layer of insulating material. Outer corners protected with nickeled corner pieces.

Double Walls. Outer wall of kiln dried lumber. Inner wall of ½-inch redwood with insulation between. Only clear lumber used.

Bottom. Of 1-inch kiln dried lumber, firmly glued together. Strong hardwood legs.

Hot Water Heat. The best substitute for nature's way. Insures even temperature under all conditions.

Heating System. Heavy gauge copper pipes extend around upper edge and through center of egg chamber, insuring even heat distribution. Pipe corners are rounded—not mitered, insuring perfect water circulation. Heavily soldered at all seams. An important feature is the seamless brass tubing or copper pipe, which extends from lamp chamber through center of the middle hot water pipe and projects through opposite side of incubator. When thermostat closes damper, a portion of the heat, instead of escaping from drum which heats main boiler, passes through the full length of this tube, thus heating the water in radiating system and quickly bringing the temperature back to the proper degree.

Heat Regulation. Damper is controlled by very sensitive double wafer thermostat. Pull type regulator. Far superior to old "push" type commonly used in low priced incubators.

Ventilation. Air is taken in from bottom through properly located ventilating holes. Burlap bottoms in chick trays prevent direct draft on eggs. Adjustable vents in top of incubator make it easy to regulate ventilation.

Moisture. The perfect circulation makes sand trays or moisture pans unnecessary.

Airtight, Lightproof Doors. Heavy hinges with compression fasteners insure tight joints. Each door contains small glass window covered by hinged wood door which can be opened to read thermometer without exposing eggs to cold air. Keeps egg chamber dark.

Finish. Presents a handsome appearance in rich mahogany.

Egg Trays. Well constructed, will not sag. The 150 and 250-egg sizes allow 3¾ square inches per egg, the larger sizes, 3⅓ square inches per egg. This compares with 3½ square inches or less in the average low-priced incubator. Slot at front of each egg tray for chicks to drop into nursery.

Expansion Tank. Connected to back end of heating system. Takes care of expansion and contraction of water and allows air to be forced from heating system. This gives more uniform temperature.

Lamp. One-piece, drawn lamp bowl with filler cap and vent. Will not leak. Safety "Sun Hinge" burner. Mica window in chimney. Fits in fireproof galvanized shield. Four larger sizes have twin wick burners.

High-grade thermometer, egg tester and instruction book with each incubator.

Shipped from Our Baltimore Store

Ward's DEPENDABLE Jr. 80 Egg Incubator

Rustproof Copper Pipes

$10.75

Hot Water Heat

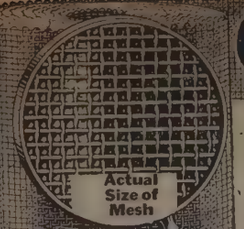
For those who want a small reliable incubator, we recommend our 80-Egg Dependable Jr. Occupies but little space and has short legs so it can be set on a bench or table.

Built on exactly the same principle as the larger Dependables, with the exception of the chick tray which is unnecessary in a small incubator.

The heating system is of heavy rustproof copper pipes. Good quality lamp especially adapted for this machine. Burns ordinary kerosene and has safety "Sun Hinge" burner. Maintains a steady, even temperature that insures a successful hatch. Egg tray is 14 by 18½ inches, beautifully finished in red mahogany. Only the best of materials used throughout. An exceptional bargain at our low price. Shipping weight, 43 pounds.

187 F 3701 . . . . . $10.75

Cel-O-Glass Replaces Glass for Hundreds of Uses



Light, Flexible, Transparent, Unbreakable, Inexpensive

The best glass substitute made. Wire mesh coated with a clear, waterproof, transparent substance which will not rub or peel off, dry up or become brittle. It combines the best qualities of glass and wire cloth—withstands rain, sleet and snow—is unaffected by extreme heat or cold. Cel-O-Glass cannot rust and should not be confused with ordinary coated cloth materials.

One-Fifth the Weight of Glass

For storm doors, poultry house lights, sleeping porches, and barn or garage windows, Cel-O-Glass is better than glass. It admits health-giving, ultra-violet rays of the sun which do not penetrate glass. It serves excellently for scratch sheds, hotbed sashes and cold frames, as it is only about one-fifth the weight of glass and has a longer life provided ordinary care is taken and the frames stored away under shelter when not in use. Cel-O-Glass is not recommended as a permanent roofing.

No special tools are needed to replace broken windows and glaze new sashes with Cel-O-Glass. You can cut it with ordinary scissors and being flexible it is easy to handle. Cel-O-Glass is more economical than glass as it costs less and requires no replacement on account of breakage. If you desire, samples will be sent free upon request.

Cel-O-Glass is furnished in sheets 36 inches wide. Shipping weight, per foot, 4 ounces.

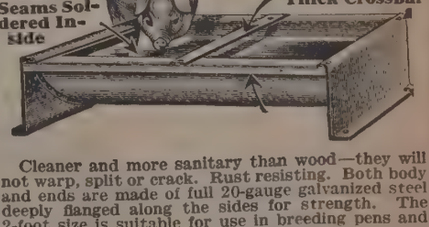
Galvanized Hog Troughs

Heavy Double Thick Crossbar



67¢ Heavy Seams Soldered Inside

Cleaner and more sanitary than wood—they will not warp, split or crack. Rust resisting. Both body and ends are made of full 20-gauge galvanized steel deeply flanged along the sides for strength. The 2-foot size is suitable for use in breeding pens and farrowing houses. The 4, 6 and 8-foot sizes are popular for yards. For longer troughs, put two shorter ones together. Heavy cross bars one foot apart prevent hogs crowding into troughs. Rounded bottom. Height, 6 inches; width, 11 inches. The 2-foot troughs can be shipped by parcel post.

Article Number	Length	Ship. Weight	Each
487 F 3300	2 feet	7 pounds	$ .67
187 F 3301	4 feet	14 pounds	1.35
187 F 3302	6 feet	18 pounds	2.19

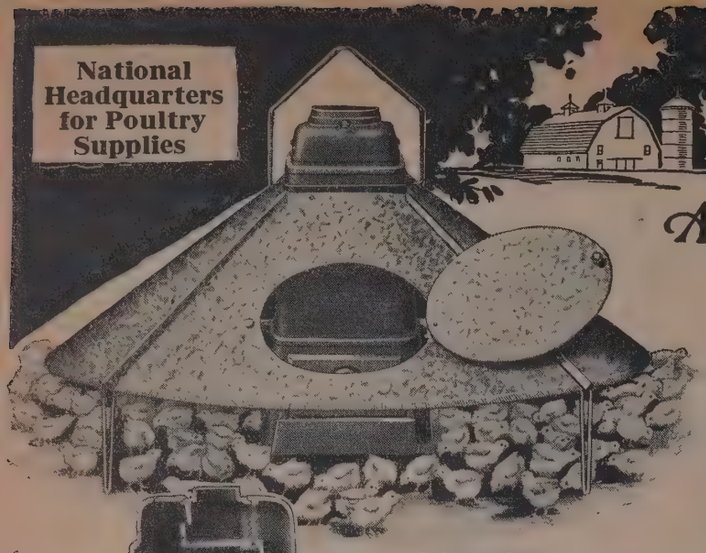
$9.95 Without Heater

National Headquarters for Poultry Supplies

It's the Chicks You Raise that Pay the Profits



A New Colony Stove Brooder Makes Chick Raising Easy

This New, Improved Coal Burning Brooder is, without doubt, the greatest bargain offered poultry raisers. Although it has many patented exclusive features, our price is lower than most other brooders without these desirable features.

A Colony brooder quickly pays for itself in chicks saved. Its evenly distributed, soft, gentle heat keeps chicks healthy and vigorous. Your profits depend on the chicks you raise, and you cannot afford to experiment with cheap, untried types of brooders. Thousands of our customers are using the New Colony stove brooder with remarkable success.

Why You Should Buy a New Colony

1. Patented By-Pass with automatic check and damper draft holds fire longer, with less fuel than other type stoves. 2. Removable baffle plate permits easy and frequent cleaning of soot from pipe and stove. 3. Stove castings and canopy much heavier than other makes of same capacity. Compare our weights with others.

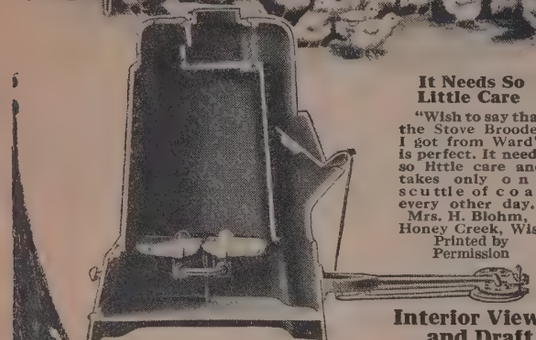
The most important feature in this New Colony stove is the patented by-pass control, with automatic combination check and damper draft. It automatically controls the draft so that without your giving any further attention to the stove than to regulate the thermostat, it continues to burn properly and to maintain a regular, even, proper temperature under the canopy. You do not have a roaring fire one minute, and the next minute a low fire.

In addition, our patented Baffle Plate allows quick, easy cleaning of the soot from stove and pipes. It is easily removed and can be lifted out through coaling door. A blow on the pipe causes all soot to drop into the fire below.

It Needs So Little Care

"Wish to say that the Stove Brooder I got from Ward's is perfect. It needs so little care and takes only one scuttle of coal every other day." Mrs. H. Blohm, Honey Creek, Wis. Printed by Permission

$13.25
500-Chick Size



Interior View of Damper and Draft Control

This inside view of stove shows our patented By-Pass with combination check and damper draft, which are automatically controlled by thermostat. When fire becomes too hot the thermostat expands, closes the draft and automatically opens by-pass, allowing the air from the ashpit to pass up by-pass instead of through the fire. As the temperature under hover cools, thermostat contracts, closing by-pass and opening the draft, thus giving almost human control of the heat under varying weather conditions. This device gives greater efficiency and requires less attention and fuel than any other type of stove.

High in Quality and Efficiency—Low in Price

Stove. Good grade of cast iron, carefully inspected and well painted. Extra heavy firepot. Rocker type grates. Fireproof base can be set on plank flooring. Can be placed in any room with stovepipe outlet. Takes ordinary 4-inch stovepipe. Is from 10 to 15 pounds heavier than any other brooder stove on the market of the same capacity. This assures you of longer service and greater satisfaction.

Regulation. Double wafer thermostat automatically opens and closes both damper draft and check.

Fuel. Burns any kind of good, clean coal—pea-size semi-anthracite, hard or soft coal. Hard coals are best as they burn longer. Takes little fuel.

Sanitary. Impossible for coal gas to reach chicks or for foul air to accumulate.

Hover. Heavy galvanized steel which is about 16 per cent heavier than the steel used in hovers on other makes of brooders. Throws heat evenly from above. Chicks quickly learn to regulate their comfort. No crowding. Provided with cord and pulleys for raising and lowering.

Grates. Rocker type, heavy castings. Free burning. Self cleaning.

Self Feeding. Coal goes in door at top and feeds automatically. Spread of firepot at base prevents clogging. One filling will usually operate stove for 24 hours.

Ashpit. Large and easily accessible for cleaning through door in canopy. Handle furnished for rocker grates.

287 F 3894—500-chick size. With 42-inch canopy. Shipping weight, 98 pounds. **$13.25**

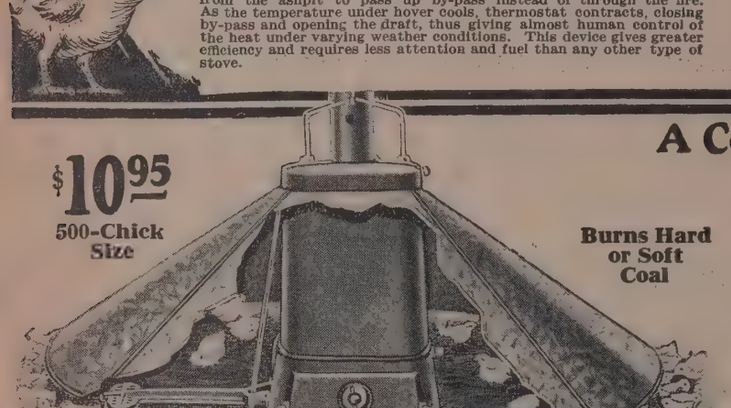
A Colony Brooder Gives a Soft, Gentle Heat ~ Evenly Distributed

$10.95
500-Chick Size



Burns Hard or Soft Coal

This Colony Brooder is built along the same lines of the New Colony described above except that it does not have the patented by-pass with automatic check and damper draft control. Requires occasional adjustment of draft for maintaining uniform heat under canopy.

Has automatic damper and hand operated control in ashpit door, similar to other makes of brooders. Burns either hard or soft coal. Costs but little to operate as it uses only a small amount of fuel.

Canopy is heavy, rust resisting galvanized steel and can be raised or lowered for cleaning by means of cord and pulleys. Uses ordinary 4-inch stove pipe. Upper part of stove is magazine for coal. One filling will operate the stove fifteen to eighteen hours.

Sanitary—Simple—Safe—Compare Our Prices

Provides an abundance of clean, pure heat. No poisonous fumes accumulate to kill your chicks. Gives your chicks the protection of a mother hen's wings. Very simple in construction and easy to operate. Nothing to wear out and with proper care will last for many years. Safe in operation and can be set on plank floor without danger of fire. At the price we ask for this brooder, you cannot afford to be without one. It will more than save its cost in one season. Fully guaranteed to give satisfaction in every respect.

Practical Equipment Economically Priced

At Last! A Self-Regulating Oil Burning Brooder

Here, at last, is a brooder that takes complete care of itself. Poultry supply manufacturers have for years experimented with automatic Oil-Burning Brooders, but it has remained for Ward's engineers and poultry experts to develop the first successful brooder of this type—and here it is. Entirely automatic in operation. All you have to do is fill the tank, light the burner and regulate the thermostat; then you do not have to go near the brooder again until the kerosene has been consumed. Actual tests show that one gallon of kerosene burns at the required temperature for over twenty-four hours when the outside temperature is below 50 degrees.

This automatic regulation is accomplished by means of a thermostatic heat control which raises and lowers the flame and maintains the heat under the canopy at a regular, even temperature—and at exactly the proper temperature for best brooding results. Other types of oil burning brooders on which the flame is regulated by hand, require constant watching. We consider this the greatest and most important development in oil-burning brooders that has ever been made.

$11.75
300-Chick Size

Lower in Price Than Most Hand Operated Brooders

Requires No Attention Light It and Leave It

Brooder is first adjusted by handle on the oil reservoir to give the desired height of flame; thermostat is then adjusted by thumb screw to secure an even temperature. It requires no further attention. Just fill the oil reservoir once a day and the brooder takes care of itself. May be used any place where it is protected from drafts. It is no doubt the most simple and easiest to operate of any brooder to be had at any price, yet our price is lower than you pay for most brooders of the hand operated type. Remember it is full guaranteed to be mechanically perfect and to satisfy you in every way. Complete instructions included with each brooder. Easily set up.

487 F 3740—Capacity, 300 chicks. With 32-inch canopy. Shipping weight, 37 pounds..... **$11.75**
187 F 3741—Capacity, 500 chicks. With 42-inch canopy. Shipping weight, 42 pounds..... **$12.85**
187 F 3742—Capacity, 1000 chicks. With 52-inch canopy. Shipping weight, 50 pounds..... **$13.95**

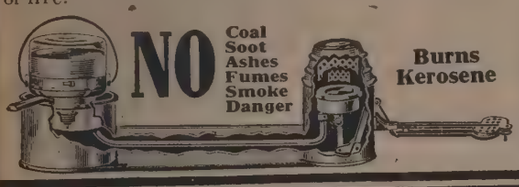
The 300 capacity brooder can be shipped by parcel post. The 500 and 1000 capacity can be shipped by freight or express only.

Shipped from our Baltimore Store

Saves Fuel and Labor—No Smoke—No Fumes—No Danger

With this automatic brooder you can feel perfectly safe in allowing your chicks to remain unwatched for hours at a time. Regardless of temperature changes, the heat remains the same under the canopy. The shape of the canopy deflects the heat so that the temperature at the outer edge is the same as that in the center. This prevents huddling or crowding and keeps the chicks lively and healthy. The thermostat responds instantly to the slightest change in temperature. No foul air to injure the chicks, and no danger of fire.

Canopy is of 26-gauge rust resisting galvanized steel which is about 16 per cent heavier than the average steel used on brooder canopies. Steel legs are attached to canopy to give proper floor clearance. Adjustable damper on top of canopy provides ample ventilation. Saving in fuel will more than pay the additional cost over our hand operated brooder. Actual tests show that one gallon of oil burns twenty-four to thirty-six hours. Burns ordinary kerosene (coal oil).



Perfected Wickless Burner

Heater is all metal construction with gray enamel finish. Wickless burner burns with small flame in center surrounded by ring of blue flame. Consumes little oil and produces no smoke, fumes or gas. Strong and compact, it will give longer service than others costing twice as much.

Height of flame regulated by elevating or depressing oil supply which permits use of rigid one-piece pipe line with no sliding packed joint. Fewer moving parts than in other oil brooders. Bottle stand, burner guard and tube connecting the two are welded together to form one rigid unit. No loose screens or tubes to cover pipe as in other brooders. No exposed pipes.

45¢

Thermostat Wafer

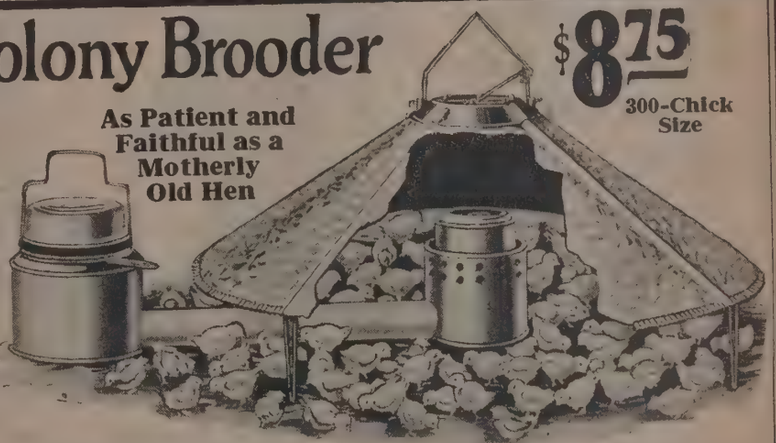
Sensitive Wafer, 3 inches in diameter. It is advisable to have an extra one on hand. Shipping weight, ½ pound. State whether for brooder or incubator.
87 F 3893.....45¢

Happy Home Blue Flame Colony Brooder

$8.75
300-Chick Size

Saves Chicks—Safe and Economical

Thousands are in use in every part of the country. Millions of chicks have been successfully raised with our Happy Home Brooder. It is built similar to the brooder shown above except it does not have the automatic heat control, and is not as saving in fuel consumption. However, it gives an even, gentle heat, makes chick raising easy and is priced exceptionally low. Safe, simple and economical to operate. Consumes only a gallon of ordinary kerosene or coal oil in from 18 to 24 hours. Burner is absolutely fireproof. No chimney required. Brooder can be set in any room or shed that is free from drafts. Gives your chicks ample protection in all kinds of weather. Quickly pays for itself in chicks saved.



Blue Flame Wickless Burner

A new improved type which burns with a small flame in the center surrounded by a ring of blue flame. This consumes the oil fully without producing fumes, gases or smoke. It insures a steady flow of clean, pure air to peak of canopy. It is then deflected down and spreads out beyond the canopy. No danger of flame going out. Burner is adjusted at factory and will not overflow.

Ward's Prices Save You Money

Little Mother Hover

$3.45

Keeps Chicks Healthy and Lively

The latest Improved Little Mother Hover. Improved so it gives a more equal distribution of heat and better combustion to the lamp. Operator can see height of flame through a window in top of heat drum, without lifting Hover. Made of heavy galvanized sheet steel, enameled gray. Removable curtains of heavy cotton flannel. Lamp bowl sets on floor and is protected by wire screen. Metal lamp chimney extends into a conical shaped flue which distributes heat equally over top. The metal chimney and cone shaped flue makes interior dark which keeps chicks more restful. A 12-inch chimney extends from the top which carries off all fumes. Lamp burns kerosene (coal oil) and needs to be filled only every 24 hours. Width, 17 inches. Height to top of chimney, 20 inches. Capacity, 60 chicks. Shipping weight, 9 pounds. Can be shipped by parcel post.

Whitewater Steel Wheel Truck

Only $5.00 Down

Easy Running—Easy to Load

A wide wheel, easy running Truck for general hauling around the farm. Built low for easy loading. Farm wagon style with cross bar tongue. Strongly reinforced at all points of unusual stress—a truck that will give good service year after year.

Axles are made of select quality hickory. Wheels are full forged—spokes forged into hub. Spokes cannot become loose and rattle in hub. Equipped with club bolster stakes and extra heavy hardwood bolsters, sand boards and undergearing.

Order this truck and compare it with the higher priced trucks in your neighborhood. If it isn't the best bargain you have ever seen, send it back and we will refund your money, including all transportation charges.

Specifications

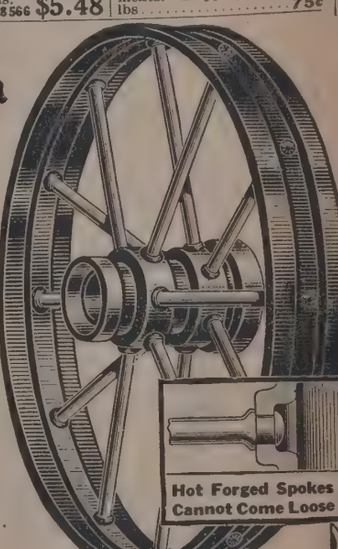
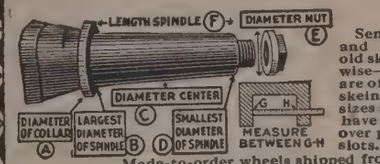
Make a New Truck of Your Old Wagon with DUR-A-BILT Full Forged Steel Wheels



FOR sheer strength and pulling, heavy loads over rough roads and uneven ground they are the longest wearing Wheels you can buy. Spokes cannot come loose and rattle in hub, nor wear off at tire; tires and spokes are extra heavy and of finest all steel construction. Pull easy, do not cut up fields, and outlast wood wheels. Grooved tires are stronger and more suitable for use on plowed ground. Grease-retaining grooves in hubs. Our prices are much lower than retail dealers can offer.



How To Order Steel Wheels

Send us exact measurements (A, B, C, D, E and F) to one-sixteenth of an inch, of your old skeins as indicated at left. Measure crosswise—not from top to bottom, as old skeins are often worn on under side. Measure all four skeins separately—not old wheels. Give exact sizes as we make allowance for play. If you have no calipers, cut pieces of cardboard to fit over part to be measured, and measure across slots. **Allow five to ten days for shipment.**

Made-to-order wheels shipped from factory near Peoria, Ill.

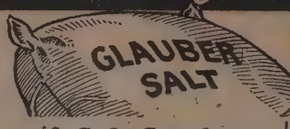
Healthy Stock is Ready For the Market First

Ward's Stock Tonic and Feeds
Endorsed by Thousands of Successful Raisers

Genuine U. S. P. Quality

A pure, high strength Epsom Salt. An effective, mild and cleansing laxative, beneficial in keeping the stock in a healthy condition. The best grade for mineral mixtures.

153 F 192—25-lb. bag.... $1.00
153 F 193—100-lb. bag..... 2.79
153 F 194—Three 100-lb. bags.... $7.98



A Safe Stock Laxative

The pure white Salt free from impurities. Assists nature in keeping the intestinal tract active and healthy. An excellent laxative for stock.

453 F 203— 25-pound bag $ .89
153 F 204—100-pound bag.. 1.98
153 F 211—Three 100-pound bags $5.65

Makes Rich Blood

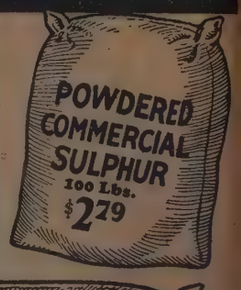
Tones up the system generally, purifies the blood and increases the appetite. Supplies iron to blood. Can be mixed with any kind of feed. High test quality.

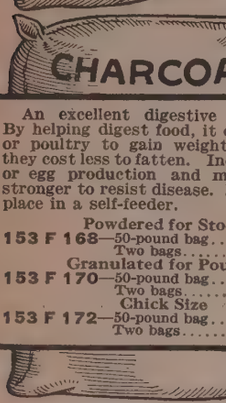
453 F 176— 25-lb. bag.... $ .89
153 F 177—100-lb. bag.... 2.25
153 F 178—400-lb. barrel.. 6.50

A Blood Purifier

Sulphur is used almost universally by successful stock raisers. Makes healthy blood by acting indirectly on secretory and excretory organs. Sulphur should be mixed with all mineral mixtures and may be used with any kind of feed. If used consistently will increase your profits by making stronger, healthier stock. The large purchases we make enable us to give you these low prices.

453 F 445—25-pound bag..... $1.00
153 F 444—100-pound bag..... 2.79
153 F 446—Three 100-lb. bags.. 7.98





An excellent digestive conditioner. By helping digest food, it causes stock or poultry to gain weight faster and they cost less to fatten. Increases milk or egg production and makes chicks stronger to resist disease. For poultry, place in a self-feeder.

Save Two Months' Feeding Make Bigger Profits

Experience in agricultural colleges and on many farms has proved that hogs can be put on the market in six months when a proper mineral mixture is used with any rich proteid feed. Without the mineral eight to ten months are required to produce a hog of like size.

From dozens of formulae we have chosen the one developed at Purdue University. In Ward's Mineral Mixture, chemicals of the best quality are mixed in correct proportions and offered to you at less than it would cost you to buy the chemicals and mix them yourself.

Remember, we are not offering you any mysterious "fattener" but a common sense mixture of beneficial, healthful minerals needed by all livestock. It contains acid phosphate, wood ashes, pulverized limestone, salt, epsom salt and anise.

253 F 7140—100-pound bag..... $ 1.65

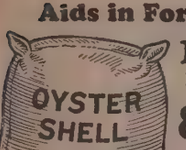
Poultry Profits Can Be Quickly Realized

Aids in Forming Egg Shells



100 Lbs. 80¢

Your profits will be much larger if you keep a trough of Oyster Shells in the poultry yard at all times. They contain a large percentage of carbonate of lime and other shell forming, digestive materials.

199 F 9542—100-lb. bag $ .80
199 F 9542—Three bags 2.30

For a Bigger Yield of Eggs

Pilgrim's Egg Mash is a rich feed containing 18 per cent protein, highly digestible and far superior to most feeds in that it produces an increase in eggs without draining the system of the bird of all its body strength. Also prevents eggs of low fertility and consequently weak baby chicks. Particularly rich in meat scraps. Furnishes a sufficient amount of animal protein and also contains a variety of minerals.

199 F 9534— 25-pound bag..... $..90
199 F 9536—100-pound bag..... 3.40

100 Lbs. $3.40

Less Waste—More Nourishment

Contains all the best ingredients properly proportioned to give best results in feeding. This Scratch Feed gives more nourishment, with less waste, because each ingredient is triple screened and thoroughly cleaned.

199 F 9538—100-pound bag..... $2.58

100 Lbs. $2.58

For Rapid Sturdy Growth

100 Lbs. $3.53

Guaranteed to analyze 18 per cent protein. Will produce rapid growth in young chicks. Correctly balances various meals with meat scraps and minerals.

199 F 9533—100-lb. bag 3.53

The Early Market Pays!

Keep in the Lead Right from the Start

Starts Growth Quickly

This baby chick food is composed of the six most essential ingredients to assure rapid growth, namely: dried buttermilk, fish meal, double ground oats, wheat middlings, corn meal and bone meal. Contains 14 per cent protein.

199 F 9551—25-pound bag. $1.05
199 F 9559—100-lb. bag.. 4.10

Makes Strong Chicks

Consists of fine cracked wheat, pat groats, fine cracked corn, Kaffir, milo and millet and contains no grit. If you want your chicks to be strong and healthy, you will make no mistake by ordering this feed.

199 F 9537—100-pound bag..... $2.70

99 Per Cent Lime Carbonate

It will pay you to keep Shell Grit before your poultry at all times. Carbonate of lime is very necessary for the forming of shell, while the hard, sharp silicate grit is an important digestive requirement of fowls.

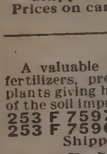
For A Velvety Lawn
For Luxuriant Flowers
For Early Vegetables

100 Pounds $4.79

There is positively no offensive odor to this Lawn and Garden Grower, yet it contains 16 times as much plant food as fresh manure and four times as much as pulverized sheep manure. Its nitrogen is available much more rapidly than that of manure; part of it is taken up at once and it supplies a constant ration during the season. It is richer in phosphorus which gives beautiful flowers and bumper vegetable crops. Finally its liberal supply of potash promotes growth of root crops and bulb flowers. As necessary to a good lawn or garden as the seed. 6-8-6 formula.

453 F 7500—25-pound bag $1.59
453 F 7501—50-pound bag 2.69
153 F 7502—100-pound bag 4.79

Kills Poultry Lice, Roaches and Moths



33¢ A Pound

Recommended by the U. S. Department of Agriculture for the extermination of noxious insects and vermin. Especially good to free poultry from lice. Use it about your poultry houses and yards and raise healthier poultry that will pay bigger profits and require less care. Will also protect your home from roaches, ants, flies, fleas, mice and water bugs, and your clothing from moths. Simply use as a dusting powder in places where the pests are likely to be found. As fine a grade as can be had and Ward's low price saves you money.

The Highest Quality At Low Prices

The Beekeepers' Supplies offered here are all standard and first quality. They are accurately made and fit perfectly. All parts are interchangeable with those you are now using. They come from one of the largest and most progressive factories in the country. You can secure no better quality anywhere.

The only difference between the bee supplies you will receive from Ward's and similar goods purchased elsewhere, is that our prices are much lower. We make this saving for you by placing contracts in October, so the manufacturer can build the goods during the dull season. Then we make all shipments to our several houses in car load lots. In addition to the saving you have the protection of Ward's guarantee.

Wax Foundation

CORRECT ANGLE EASILY DRAWN INTO FULL COMB
ALL WORKER COMB REDUCES DRONES
Guaranteed Pure American Beeswax

Ward's low prices on first quality Wax Foundation saved money for thousands of Bee Keepers last season. In anticipation of a greater demand this year we have purchased large quantities and had them made up during a dull factory period thereby getting a big price concession which is reflected in our low selling price. It pays to provide plenty of good foundation. Use full sheets. The bees will respond by devoting more energy to storing honey. Foundation sold in two qualities—Medium Brood for brood frames and Thin Super for extracting frames, and sections.

Pure Beeswax—Clear Color—Guaranteed

Weed Process Foundation made of Pure American Beeswax with sharp angle cells, most easily worked up by the bees. Order by grade and size. Packed in paper containers, safe delivery guaranteed. Not sold in less than 1-pound lots. Ship. wts.: 1-pound package, 2 pounds; 5-pound package, 7 pounds.

Medium Brood. 7⅞ by 16¾ inches, 7 to 8 sheets per pound.

Famous Adjustable Collars

You'll Find This Low Price Only at Ward's

$4.98 — 17, 18, 19 Inch

THIS nationally popular Adjustable Collar was designed by one of the largest harness and collar makers in America and it has never before been offered by any mail order house or retail store at these special low prices. It is used by thousands of farmers and has proved one of the best adjustable horse collars ever made. It enables your horses to pull heavily every day and stay on the job when needed most.

A big feature of this collar not found on the buckle or billet collar, is that it can be adjusted to three full, perfect fitting sizes, 1 inch apart. See picture at right showing the adjustments. The simple, practical adjustment throws the draft in the right place on the horse—the strain comes on the lower part of the shoulder but not on the shoulder joint. An inch one way or the other means sore shoulders which usually develop into fistula. This collar can be adjusted easily by anyone to place the strain in exactly the right place. Back and rim stuffed with finest quality rye straw and covered with buff, split cowhide. The face has hair pocket and covered with good quality black collar leather. Extra wide welt. Outer seams are thong stitched and machine sewed. Rim seam thong stitched. Draft, about 18 inches. Below we list five more popular styles in this collar and each has the same excellent features as on the collar described above. Shipping weight, each, about 9 pounds.

595 F 2450—State size wanted.

Adjusts to	Each	Adjusts to	Each
17, 18, and 19 in..	$4.98	20, 21, and 22 in..	$5.45

How to Order

Read This Before Ordering Horse Collars

If you have an old horse collar that fits, give the inside length in inches from top (A) to bottom (B)—see illustration at right. If you have no collar of right size, measure horse's neck, using stick or gauge made of laths as shown in lower illustration. The measurement in inches from E to F will be size collar required. Follow either of these methods and we can supply you collars which will fit your horses correctly. The draft is the circumference at D and C. Choose the style collar having draft desired. Wide draft means more comfort and pulling power for your horse. General Ordering Instructions on Page 304.

"They are A No. 1 and Better than Catalogue says" J.L. Rushlow Hardewick, Vt.

A Harness a Man Can Be Proud Of

"I can say in a few words what I think of Ward's harness. They are A No. 1 and better than the catalogue says.

"I have been buying from Ward's for over twenty years. Everything in the house and half the farm tools came from Ward's.

"My horses, with Ward's harness on and hitched to a Whitewater wagon, make a rig any man can be proud of. I can't speak too well of the harness."

$62.95 Cash Price

Ward's Popular Heavy Farm and Teaming Harness

Into this sensible, superior Harness we have put more strength than you actually need. That is simply the result of setting out to build a harness as good as it could possibly be made. There's the finest of bark tanned steer hide, the finest of workmanship and rigid inspection at every stage of the work to be sure of an honest dependable job. The extra quality, the extra amount of pull and wear is your insurance against a broken trace or strap when you are up against a tough stubborn job. Because, in the traces, in every strap—there is strength beyond what you need.

We say we have used nothing but the best bark tanned steer hide. More than that we use only the back of the hide—the only part fit for our kind of harness. Absolutely no "stag" leather finds its way into any of Ward's harness.

Every Strap Guaranteed

Every strap is as wide and thick as it should be.

Adjustment is simple and easy in all kinds of weather. No stiff unwieldy leather, the sort you get in "Cheap" harness. And when you buy from Ward's you pay no more for this fine dependable set than you would for a good harness elsewhere—not one cent more for unquestionably high quality and years of trouble free, dependable service.

30 Days Trial. Send for the harness in the regular way enclosing the small down payment. As soon as you receive it put it to work on your team. Give it every test you choose. Then if you are not satisfied that it is a better harness than you have ever seen for the money, write for shipping instructions. If you decide to keep it you may pay the balance in cash or in small monthly payments of $5.00.

See the four additional styles below, each exactly like the large harness above except for changes in hitch-up.

For Horses Weighing Up to 1700 Pounds

Bridles. Have 2-inch folded ring crown; 1-inch short Cheeks; ¾-inch bit straps; combination doubled and stitched front and winker braces; cup shaped blinds; round side reins with ⅞-inch check-up straps.

Lines. Are 1⅛ inches by 18 feet with sewed and riveted laps. Safety buckles and flat spring snaps on ends. Outside check doubled and stitched; 30 inches at center buckle. **Traces.** Are 1½-inches by 6 feet; three-ply leather, two-row stitched; 1¾-inch and 2-inch traces are 3-row stitched; six-link heel chain sewed in; made for bolt hames. Belly band billets are 1¼ inch. **Pads.** Double and stitched harness leather, 5¼ inches wide, swell shaped; 1½-inch layer with dees; 1½-inch market straps to buckle into bellyband billets. Bridges riveted on. **Belly Band.** Heavy fold 1⅞ inches wide with 1¼-inch layer, two-row stitched with leather loops. **Back and Hips.** Three-ring style; 1⅛-inch hip straps to buckle into lead-ups; divided back straps to hames 1⅛-inch; rump safe and scalloped safes under trace carriers.

Breeching. Heavy fold 2½ inch with 1½-inch layer; 1⅛-inch leadups with scalloped safes; 1-inch double side straps with snaps on ends; 1-inch lazy straps with wide leather liner, buckled on. **Breast Straps.** Are 1½ inch with reinforced loops and roller snaps. **Martingales.** Are 1½ inch double and stitched around front end with buckles; sewed at end with ring in loop; ⅞-inch sliding collar straps. **Hame Straps.** Are 1 inch by 21 inches.

Hames. U. S. Hame Co. new improved tubular steel, with 2-inch brass ball top. If 1⅛-inch by 20-foot lines are wanted instead of regular size add 60¢ extra. Collars and hitch reins not included.

Shipping weight, per set, 85 pounds.

A Money Saving Investment

A most popular style Harness on Eastern Farms. Where could you buy such a fine set of harness, other than Ward's, for at least one-third more than the price we ask? Every strap in this harness is given the most thorough inspection before being assembled. Also the hardware is the finest obtainable.

Then to show our customers what we really mean, that we use best of leather obtainable in our harness, we offer this harness to you on 30 days' Trial. First order this set in the regular way, enclosing the small down payment. Try it for 30 days and if then you decide that it is not worth the money, write us for shipping instructions. If you decide to keep it you may pay the balance in cash or in small monthly payments of $5.00.

FIVE DOLLARS Down and $5.00 a month

For Horses Weighing Up to 1600 Pounds

Where The Work is Most Severe You Will Find Metal-to-Metal in Use

You know that a strap of good bark tanned steer hide seldom breaks from pull or strain. But no matter how fine the leather—it can't stand constant seesawing on a metal ring or dee. Only metal can resist that sort of wear.

At every point where there is great strain and where leather would ordinarily rub against metal we have used the Metal-to-Metal loop. So there is metal-to-metal for **wear** and the best of bark tanned steer hide for **pull**—a combination that will stand by you for a span of years equal to your working lifetime.

Easy Adjustment in Any Weather

All strapwork is cut from the choicest parts of select steer hides. You'll find no "stag" leather in any of Ward's harness. After years of use it will be plump and pliable, easy to handle and still fit for the strain of long hard pulls.

You know what a job it is to adjust old style harness when your fingers are numb from cold. Ward's Metal-to-Metal harness is adjusted as easily in zero weather as in summer. Our improved strap holder, gripping snugly without slipping, makes adjustment easy and simple. A slight lift breaks the grip. You don't have to twist and struggle and work yourself out of patience..

Guaranteed Free from Defects. Should any defect develop during the entire life of the harness we will correct it to your satisfaction without expense to you.

Thirty Days Trial. Send for the harness in the regular way enclosing the small down payment. Put it on your team and use it for 30 days. If you decide to keep it, small monthly payments of $5 each soon pays for it. And if you pay cash, you will make a still greater saving. Then if you are not absolutely satisfied we will return every cent you have paid—including transportation charges. Below you will see four more styles in this same quality harness.

The New Way and the Old Way

At the right you see how leather gives way when it slides and seesaws in a metal ring. Note at the left how we protect the leather with a metal loop which fits inside the strap—no wear whatever on the leather. This feature triples the life of the harness.

FIVE DOLLARS Down and $5.00 a month

An exceptionally heavy set of Harness very popular in rough, hilly country. Although an Eastern style, our increasing sales prove its growing popularity in all sections. It is built for the hardest work and will stand the most severe strain of heavy hauling. In order to prove to our customers that we sell only best grade Harness, we are offering this set of harness to you on trial for thirty days. A small payment of $5 will put it on your team. When you receive it use it as you would your old harness. If at the end of thirty days you do not think it is the best harness you have ever had at our price, return it to us and we will refund all your money, including transportation charges. If you decide to keep it a small monthly payment of $5 soon pays for it, and if you pay cash you will make a still greater saving.

Ward's Most Popular Team Harness

When we say "This is our most popular Team Harness," we are telling you that even though our other fine sets are big sellers, the total sales of this set alone outstrips them all. Every strap and buckle is guaranteed to give the best of service. Only bark-tanned select steerhides are used. There is not one strap of stag leather in any of Ward's harness. Breakdowns, always costly in time and money, make "cheap" harness come high in the end. Order this set on thirty days trial. Place it alongside of any you may choose, and you will readily see why it is our most popular team harness. Team owners in all parts of the country are enthusiastic over the dependable, trouble-free service it gives.

30 Days Trial

We are so sure that you will be satisfied with this fine set that we are going to offer it to you for trial on your own team on your own farm for thirty days. Only $5 down will bring it to you. You are to be the sole judge as to its quality. If you decide to keep it, small monthly payments of $5 each will soon pay for it. But if at the end of this period you are not satisfied, we will gladly refund your money and all transportation charges. You will be pleased, too, when you see how comfortably it fits your horses and how snappy it makes them look.

Lowest Prices Ever Made on This Set

Due only to the fact that we were able to reduce manufacturing costs, are we able to sell this excellent Harness at such a low price. Note the sturdy construction of the harness in the large illustration and the three other popular styles at the right. Each strap and piece of hardware is thoroughly inspected before leaving the factory insuring you of positively A-1 quality and workmanship in every detail. All of Ward's harness is securely sewed with the finest quality Irish Linen thread. Prices are per set—for two horses.

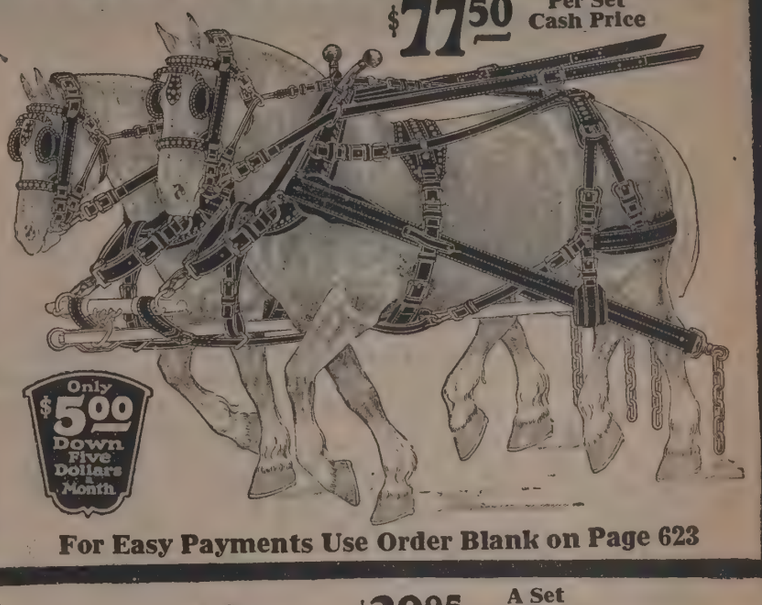
Stronger-Longer-Harder Pulls

No Better Harness was Ever Sold at this Price

Ward's Best, Fancy Team Harness

$77.50 Per Set Cash Price

THERE isn't a single piece of equipment on your farm any more important than your harness. "Cheap" harness can never be anything more than an experiment. This guaranteed set we believe is one of the best ever sold at this price. In comparing it with any other, keep in mind the fact that 1¼-inch strapwork is used and no "STAG" leather whatsoever. The hardware is the finest we could buy and the stitching is of the finest quality Irish Linen Thread. In addition to lowering the price on this harness we have made it possible for you to buy it on 30 days trial. $5 will put it on your team. Order a set of this harness and compare it with any harness selling at this price. If when you receive it you do not think it better than any set you have ever seen for the money, return it and we will refund all your money including transportation charges.



For Horses Weighing Up to 1800 Pounds

Bridles. Have 2-inch folded ring crown with 1¼-inch layer; 1-inch short cheeks; ¾-inch bit straps; 1-inch heavy double nosebands, combination double and stitched front and winker braces. Concord tapped shaped blinds; buckled throat latch; round side reins; 1-inch check up straps. Has brass spots.

Lines. Are 1⅛ inches by 18 feet with reinforced sewed and riveted laps. Buckle and billets on ends. Outside check. Doubled and stitched 30 inches at center buckle. If 1⅛ inches by 20 feet lines are wanted instead of regular size add 60 cents.

Traces. Are 6 feet long, three-ply leather (1¾ or 2-inch, 3-row stitched) double capped copper riveted; 1-link heel chain sewed in; made for bolt hames; bellyband billets are 1½-inch. Wide scalloped safe with brass spots.

Pads. Double and stitched harness leather. 5 inches wide; swell shaped; 1½-inch layer with dees; 1½-inch market straps to buckle into bellyband billets. Japanned (black) bridges, riveted on. Brass spots.

Bellybands. Heavy folded about 2 inches wide with 1½-inch layer, two-row stitched with leather loops.

Back and Hip Straps. Three ring style; 1¼-inch hip straps to buckle into lead-ups; rump safe and scalloped safes under trace carriers.

Breeching. Heavy fold 2½-inch, with 1½-inch layer, 1¼-inch lead-ups with scalloped safes; 1¼-inch double side straps with snaps on ends; 1-inch lazy straps with wide leather liner buckled on.

Breast Straps. Are 1¾-inch with reinforced loops where straps attach to rings on hames. Have heavy roller snaps and roller buckles; leather loops.

Martingales. Are 1¾-inch double end stitched around front end, sewed at end with new style dee in loops; heavy safes; 1-inch sliding collar straps.

Hame Straps. Are 1-inch by 21 inches; roller buckle with leather loops.

Hames. U. S. Hame Co. tubular steel with brass long spot. 2-inch brass ball top, and brass line ring.

Prices are per set—for two horses.

Shipping weight, 85 pounds.

MOTOR ROBES WEAVE

For snug comfort on cold days, fine appearance and long wear, choose this All Wool Robe. Use it for a couch or davenport cover in the home, on the veranda or sleeping porch. Take it along on camping, hunting and fishing trips; and splendid of course as the ideal steamer rug or blanket, or for the automobile. The pattern is most attractive—a rich handsome plaid on a deep blue background with red, green, purple and white stripes. Ends are finished with a deep four-inch fringe; sides have a strong neat selvage. Size, 56 by 80 inches. Actual weight, each, about 4 pounds 8 ounces.

95 F 3806—Each..... $6.95

95 F 4188—Per pair..... **30¢**

Clip Your Stock for Your Profit Their Comfort

Lakeside Sheep Shearing Machine

95 F 4013

95 F 4014

$19.50 Complete

You get more wool by using this Machine, because it shears evenly over the entire sheep. Figure what 8 to 20 ounces more wool per sheep would mean from your flock and see how much you would save. The machine leaves no "second cuts" in the wool—the fiber is taken off evenly. This makes your wool worth much more at market.

Substantially constructed. Turns easily and at uniform speed—clips clean and fast. Rustproof gear case. Consists of tripod, two-piece upright, gear head and handle and flexible jointed arm shaft for sheep shearing. Complete, including four razor steel plates and 2 combs. Shipping weight, complete, 50 pounds. Can be shipped by parcel post.

495 F 4012—Sheep Shearing Machine. Complete..... **$19.50**

95 F 4013—Extra Lower Knife Plate. Ship. wt., 1 oz..... **.85**

95 F 4014—Extra Upper Knife Plate. Ship. wt., 1 oz..... **.25**

495 F 4011—Sheep Shearing machine complete with combination clipper for horses and cows. Shipping weight, 50 pounds..... **$23.75**

Complete instructions for operating and sharpening of the blades are enclosed with each machine. Send blades to us by mail and we will sharpen them. Comb and cutter for sheep shearer, per set, 50¢. For horse clipper, per set, 70¢.

Lakeside Horse Clipper

Once you adopt the practice of clipping your stock, you will never be without a clipping machine, and you can rest assured in ordering a Lakeside hand power machine, that you are getting one of the best machines we ever made. Has dust proof gear case. All gears are cut from solid steel and hardened by special heat process. Plates are of razor steel properly hardened. The machine consists of tripod, two-piece upright gear head and handle, coiled shaft with flexible chain and complete cutting head. Height of machine is 42 inches. Length of shaft, 6 feet. Can be shipped by parcel post.

495 F 4010—Horse and Cow Clipping Machine only. Shipping weight, 40 pounds..... **$11.95**

95 F 4016—Horse Clipper Handle, with knives. Ship. weight, 1¼ pounds.. **$3.75**

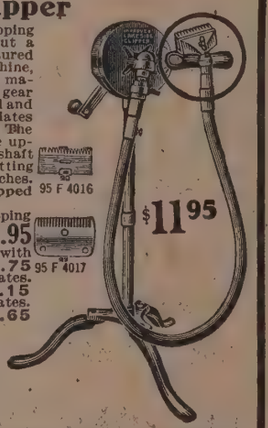
95 F 4018—Extra lower knife plates. Shipping weight, 8 ounces. Each..**$1.65**



95 F 4016

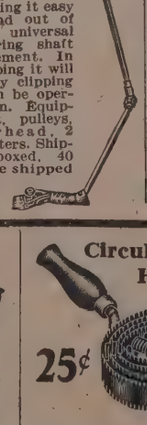
95 F 4017

$11.95

Power Drive Sheep Shearing Attachment

For use where a gasoline engine or electric motor is available. Clutch operates with a handy lever making it easy to throw in and out of gear. Three universal joints in shearing shaft permit free movement. In a few days' clipping it will pay for itself by clipping more wool. Can be operated by one man. Equipped with shaft, pulleys, hangers, shearhead, 2 combs and 4 cutters. Shipping weight, boxed, 40 pounds. Can be shipped by parcel post.

95 F 4025..... **$19.95**

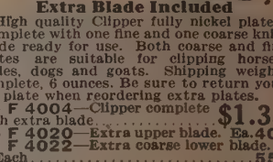


Grinder

For sharpening horse clipping and sheep shearing plates. Shipping weight, 12 pounds.

95 F 4015—Each..... **$5.98**

Horse Clippers



$1.35

Extra Blade Included

High quality Clipper fully nickel plated. Complete with one fine and one coarse knife blade ready for use. Both coarse and fine plates are suitable for clipping horses, mules, dogs and goats. Shipping weight, complete, 6 ounces. Be sure to return your old plate when ordering extra plates.

Česi a Slováci

Můžete nám psáti česky nebo slovensky, když jest to pro vás pohodlnější. Ceským nebo slovenským dopisům a objednávkám věnujeme stejnou pozornost jako anglicky psaným.

Prohlédněte si dobře obrázek a přečtěte si popis v katalogu každého zboží, které objednáváte. Udejte číslo, barvu a velikost a pošlete také peníze na poštovné, když objednávka má býti poslána po poště.

Deutsch

Schreiben Sie uns auf deutsch, falls Sie dies vorziehen. Ihre Aufträge werden mit gleicher Sorgfalt ausgeführt.

Bitte beachten Sie genau Abbildung und Beschreibung der Gegenstände, die Sie bestellen möchten. Vergessen Sie nicht, Nummer, Preis, Grösse und Farbe anzugeben und Ihrem Briefe genug Geld beizufügen, um den Wert der Ware und eventuelle Postgebühren zu decken.

Español

Ud. puede escribirnos en español si le es más conveniente. Contestaremos sus cartas, y sus órdenes, con la misma esmerada atención como si fuesen escritas en inglés.

Suplicamos una cuidadosa atención á las ilustraciones y descripciones de nuestro catálogo. De cada artículo que Ud. ordene, sírvase mencionar el número, tamaño y color en su órden, y envíenos dinero suficiente para cubrir el costo total de las mercaderias, incluyendo franqueo, si su orden es para ser enviada por correo.

Français

Écrivez nous en français si vous le préférez. Vos commandes feront l'objet de nos meilleurs soins. Etudiez bien l'illustration et la description de l'article que vous comptez commander. Indiquez en le numéro, le prix, ainsi que la couleur et les mésures. Ajoutez à votre lettre une somme d'argent suffisante pour couvrir le prix de la marchandise y compris l'affranchissement, si la marchandise devra être expédiée par la poste.

Hollandsch

U kan ons in de Hollandsche taal schrijven, indien dit gemakkelijker voor u is. Alle bestellingen worden zorgvuldig uitgevoerd, onverschillig of deze in de Engelsche of in een andere taal geschreven zijn.

Ieder artikel in onzen catalogus is duidelijk beschreven en geillustreerd. Geef nummer, maat en kleur op den bestelbrief aan en zend ons het totaal bedrag der bestelling, frankeeringskosten inbegrepen, indien de bestelling per post moet worden gezonden.

Italiano

Se ciò Vi riesce più facile, potete scriverci in Italiano anzichè in Inglese. Risponderemo con ugale sollecitudine alle V/e gradite lettere ed i V/i ordini riceveranno, da parte nostra, la medisima attenzione come se fossero scritti in Inglese.

Per ogni articolo che Vi compiacerete ordinarci, Vi preghiamo di volerne studiare prima attentamente la illustrazione e la descrizione che, dello stesso, si fa nel n/o catalogo. Siate ben sicuri di menzionare nel V/o ordine: il **numero** dell'articolo, la **grandezza** ed il **colore** che preferite. Favorirete inoltre rimetterci per intero l'ammontare dell'importo del V/o ordine, più le spese di posta se la spedizione Vi deve essere fatta con questo mezzo.

Norsk

De kan skrive til os paa Norsk, om det falder lettere for Dem. Vi vil svare Deres breve og bestillinger med den samme nøiagtighed, som om de var skrevne paa Engelsk.

Venligst se nøie paa illustrationen og læs forklaringen i katalogen af hver artikel, De ordrer. Opgiv artikel nummer, størrelse og kulør naar bestillinger sendes, og indlæg nok penge til at betale total beløbet af varerne, iberegnet porto, om Deres bestillinger skal sendes pr. post.

Polskie

Można do nas pisywać po polsku. Listy i zamówienia odpowiemy z najdokładniejszą starannością, taksamo jak otrzymujemy zamówienia pisane w języku angielskim.

Uprasza się aby zastanowić się nad każdą ilustracyą i opisem podanem w katalogu. Trzeba podać dokładnie numer, wielkość i kolor rzeczy zamawianej, sumę pieniężną za rzeczy zamawiane włączając także koszta za przesyłkę wraz z zamówieniem.

Portuguez

Podeis escrever-nos na lingua portugueza se os convir mais fazer isso. Daremos ás vossas encommendas a mesma cuidadosa attenção que ellas receberiam se as escrevesseis em inglez. Eimportante que estudeis attentamente no nosso catalogo a illustração e descripção dada n'elle de cada artigo que desejeis encommendar, e que ao tempo de mandar-nos a encommenda nos deis o numero que o artigo traz no catalogo, e tambem o tamanho e a côr. Tamben é preciso enviarnos bastante dinheiro para cobrir o importe total das mercadorias, incluindo o porte, se desejais que enviemos as mercadorias pelo correio.

По Русски

Вы можете писать нам по-русски, если для Вас выгодно.

Ваши заказы будут встречены с таким же вниманием, как если бы они были написаны по-аиглийски.

Изучите картину и описание в каталоге, прежде чем заказать.

В Вашем заказе укажите предмет, номер, меру, цвет и пришлите достаточно денег для покрытия стоимости товаров и почтовых расходов, если Ваш заказ будет прислан по почте.

Suomea

Te voitte kirjoittaa meille suomeksi jos se on teille käytännöllisempi, teidän tilauksenne tulee saamaan saman huolellisen huomion kuin jos ne olisivat Englannin kielella kirjoitettu.

Tarkastakaa huolellisesti kuva ja selvitys hinta luettelossa jokaisesta tavarasta mitä tilaatte Mainitkaa tavaran numero, koko, ja väri, tilauksessanne, ja lähettakää meille tarpeellinen summa rahaa peittämään tavarain hinta, postimaksu siihen luettuna jos tavaranne on lähetettävä postin kautta.

Svenska

Ni kan skrifva på svenska om Ni föredrager det. Vi skola besvara edert bref, och eder rekvisition skall få samma noggranna uppmärksamhet som den skulle ha fått om den varit skrifven på engelska.

Betrakta noga bilden och beskrifningen i Katalogen på hvarje artikel Ni rekvirerar. Angif artikelns nummer, storlek och färg. Sänd oss tillräckligt pengar för varan såväl som också postpängar om en rekvisition skall sändas pr. post.

Breakfast Set

Table and Four Chairs—Unfinished

Paint Them Yourself

$11.95

You can have charmingly individual Kitchen or Breakfast Room Furniture and save considerable too, by choosing this set and decorating it yourself. A very artistic effect can be produced by painting the set in a combination of two or more colors. Clear solid wood, sanded smooth, ready for finishing.

You May Buy Any of These Pieces Separately—If You Wish

Table of Windsor design has convenient drop leaves which, when raised, provide a table top 42 by 36 inches or when lowered, 36 by 20 inches—and the leaves dropped are high enough to clear the chair seats, a convenience you'll certainly appreciate. Each leaf is fastened securely to the top with three hinges. Top has molded edge. Legs of table are far enough apart to permit chairs to slip between them.

Chairs have shaped saddle seats, 16 by 15½ inches; turned legs and spindles, and curved shaped top rail. Two bottom cross stretchers for extra reinforcement. Height of back from seat, 19½ inches. Shipped taken apart to save you freight; easily set up.

166 F 4044—Complete 5-piece set. Shipping weight, 80 pounds. Bargain Price..... **$11.95**

166 F 4045—Table only. Shipping weight, 32 pounds. Bargain Price..... **4.65**

166 F 4046—Chairs, Each. Shipping weight, 12 pounds. Bargain Price..... **1.95**

$4.98 26 Pieces

Genuine **Rogers** Silver Plated

Guaranteed for Ten Years

6 Knives
6 Forks
6 Teaspoons
6 Tablespoons
1 Butter Knife
1 Sugar Spoon

You will usually pay twice as much for this beautifully designed Silverware. Made by Simeon L. and Geo. H. Rogers, famous as makers of fine silverware. A written guarantee with each set.

26 Pieces

Service for Six Persons

Plated with pure silver over a base of solid nickel silver. The Kenilworth is a rich attractive pattern and has a pleasing dull gray finish. The solid handles of the knives are too hard to be engraved satisfactorily. We will engrave any initial on all the other pieces as shown, at 3¢ per letter extra. State initial wanted. Teaspoon pictured about three-quarter actual size.

546 F 3095—Complete 26-piece set. Shipping weight, 4 pounds... **$4.98**

546 F 3098—Same set in chest with drawer. Ship. wt., 6 pounds... **5.98**

546 F 3099—Set of 6 extra teaspoons to match. Ship. wt., 1 lb.. **.75**

Sensational Dinnerware Sale

32 Pieces

$3.98

Service for 6 Persons

Beautiful New Design

One of the Greatest Bargains Ever Offered

A 32-piece Dinner Set in rich coloring and a new shape for less than $4 is certainly a bargain. You would usually pay from $2 to $3 more for this high grade American semi-porcelain Dinnerware—others ask as much for plain white ware. Only because we bought thousands of sets can we offer you such a saving.

The plain shape of this set with the dainty medallion floral design in a rich golden yellow, French blue, soft gray and black combination makes a beautiful setting. Gold band around the edge, and a fine blue tracing on lower rim below the medallions. Four medallions on the plates, platter and vegetable dish and two on the cups, saucers and fruit dishes. Inexpensive and attractive, yet suitable for the everyday use of the family. We guarantee safe delivery. Shipping weight, 27 pounds. Can be shipped by parcel post.

450 F 114—Complete 32-piece Set. Bargain Price.. **$3.98**

Also carried in open stock. Price list enclosed with each set.

32 Pieces

6 Dinner Plates 9-inch size
6 Salad Plates 7-inch size
6 Sauce Dishes
6 Tea Cups
6 Tea Saucers
1 Platter 11 by 8 inches
1 Round Open Vegetable Dish, 8-inch size

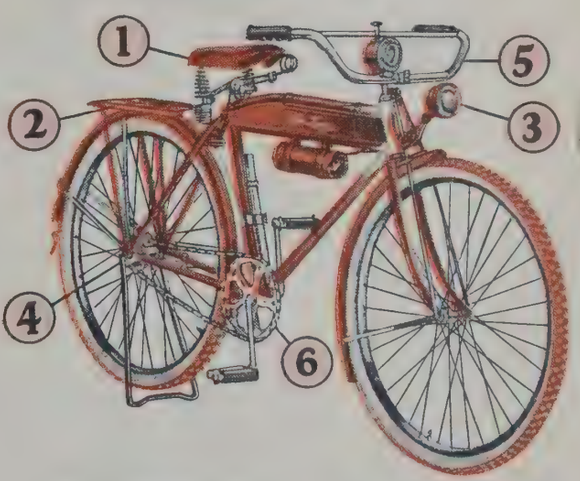
A Message for Boys!

You ought to have this beautiful Bicycle! Look at it; read about it. Read our absolute guarantee. Then compare its features with other bicycles—and compare the price! Show dad how low the price is—and get his signature on the Easy Payment Order Blank on Page 623.

Your Choice of Rich Blue or Golden Brown



1 Wide, comfortable Troxel Motobike Saddle with double compound tempered steel springs.

2 Strong, Substantial Luggage Carrier, enameled to match bicycle. Holds heavy packages.

3 Delta Electric Headlight with polished reflector; lights up the road. Auto type hand horn.

4 Genuine New Departure or Morrow Coaster Brake. Enables you to coast freely or stop quickly.

5 Braced Handle-Bars with long rubber motobike grips molded to fit the fingers.

6 The best roller chain. Sprocket, geared 26 to 10—which is the ideal ratio for motobikes.

Your HAWTHORNE De Luxe Motobike is Ready ~ Fully Equipped

UP and away like a flash on your light running, easy riding Hawthorne De Luxe Motobike! Built like a greyhound for speed and endurance—with the low, racy appearance of a motorcycle. You might easily pay $50 or $60 without getting so much real bicycle quality as this beautiful Hawthorne De Luxe Motobike brings you.

You'll find the motorcycle idea carried out in the strong trussed fork, the big, comfortable Troxel motobike saddle, the streamline motobike tank (for tools) with its hinged door; and the braced handle-bars with long motobike grips—the finest ever!

Your Hawthorne De Luxe Motobike comes ready to ride. It is completely equipped with powerful Delta electric headlight with polished reflector, 1½-volt bulb, battery container, and battery; a red jewel on rear fender reflects the rays from auto headlights approaching from behind; auto type hand horn; fine nickel-plated tire pump; handy adjustable wrench; luggage carrier; and wide-base parking stand.

Fully Guaranteed—Sold on 30 Days' Trial
Easy Payments If You Like—Compare the Value

Hawthorne De Luxe Motobikes must be splendidly built to live up to our guarantee. The frame is 18-gauge one-inch, seamless steel tubing, reinforced at all joints and strongly brazed. Leather-covered, Troxel Motobike saddle, with compound steel springs. Wide, rubber-tread ball-bearing pedals; each tread may be turned over as it wears down—giving you four wearing surfaces. Best roller chain.

Riverside red tread Giant Stud Tires are standard equipment on the Hawthorne De Luxe. Your choice of genuine Lobdell nickel plated, cement type or all steel clincher rims. Lobdell rims are made by compressing a wood rim into a nickel-plated steel shell and are springy and resilient. The tires are securely cemented on.

All-steel clincher rims, enameled gray with white center, take clincher tires, and are built for strength and comfort.

Motorcycle-type mudguards with drop sides and deep center. Weather-proof enamel is baked on and highly varnished. Your choice of rich blue or golden brown, with white head, and white mudguard stripes. Your choice of Genuine New Departure or Morrow Coaster Brakes.

Try the Hawthorne De Luxe Motobike for 30 days. Send your order in the regular way—either all cash or, if you prefer, a payment of only $5 down. **For Easy Payments Use Order Blank on Page 623. Boys under age of 21 must obtain signature of parent or guardian on order blank.** If not completely satisfied after 30 days' trial, write us for shipping instructions and we will return all you have paid, including transportation charges both ways.

Actual weight, fully equipped, 43 pounds. Shipping weight, 67 pounds. **Estimated Total Freight Charges for 150 miles, 69¢; 300 miles, 86¢; 500 miles, $1.17. Express rates about one-half more. Read Page 306.**

Genuine Walnut-Blended Maple Overlays

Illustration above shows close-up view of handsome maple overlay which decorates the fronts of all large pieces in this set.

Big Savings! Genuine Walnut~ A Masterpiece in Design and Sturdy Construction

A BEDROOM SUITE that any woman would be proud to own. There's daintiness in every line of its new design. The rich beauty of the genuine American Walnut is enhanced by delicately shaded overlay panels of Maple and dignified by a fine vein line border. Truly an example of the Tudor style at its best, with all the splendor and sturdiness of Master-Made construction, and a surprisingly low price.

For strength and beauty, five-ply veneer of genuine Walnut is used for the tops of dressers, vanity, chest of drawers and chifforobe, also for the head and foot of the bed. The bow ends of the bed are seven-ply veneer. Fronts and ends of all pieces are also of genuine Walnut veneer. The top drawers of the dressers and chest of drawers are full width, which emphasizes the beauty of their fine striped Walnut fronts, and have three-ply veneer bottoms of genuine Mahogany. A dividing partition gives them the usefulness of two drawers. All other drawers have three-ply hardwood bottoms. All cases have dust-proof bottoms.

Frames, posts and rails of selected hardwood finished to match the Walnut. All mirrors are heavy genuine plate glass. Easy rolling casters on every piece. Oxidized silver pulls. Articles pictured with furniture not included.

Compare Price and Specifications

BOW END BED. Wood side rails and the famous **Wittliff brace** without extra charge. See page 401 for details. **Width, 54-inch (full size) only.** Height of head end, 50 inches; foot end, 31 inches

Organize Your Kitchen for Easier Housework With This Big Roomy Master-Made Kitchen Cabinet

Full 48 Inches Wide-Approved by Good Housekeeping Institute

GRANDMOTHER spent most of her day in the kitchen. When she made pies, dozens of trips were necessary back and forth across the kitchen—to the flour bin, to the pantry for spices, to the cupboard for pie-tins—somewhere else for bread board and rolling pin—endless steps.

How different today in the modern kitchen, organized for convenience, with headquarters in the Master-Made Kitchen Cabinet. There, within easy reach, are flour, spices, tins, rolling pin, bread board, and practically all the other necessities. No wasted steps—no lost motion. And by mid-morning your kitchen work is through.

White Enamel, Gray Enamel or Golden Oak

Three beautiful finishes offer you a wide choice—and if you wish, you may order on easy payments of only $5 down and $5 a month. White enameled window front flour bin holds forty pounds and is easily lowered for filling. Rolling curtain front on center compartment. Glass jars for sugar, coffee, and tea, also five spice jars.

Detachable food chopper block; towel bars; coin tray; bill hooks; three small drawers for recipe cards; three larger drawers for cutlery and linen; metal lined bread box with sliding top; metal racks on doors; roomy cupboard below with sliding metal bottom and wire shelf. Pull out table top of white porcelain enamel gives working space 48 by 37 inches. Height from floor, 32½ inches. Removable cutting board below. Ant-proof casters. Cabinet is 48 inches wide, 27 inches deep, 70 inches high. Groceries and dishes not included.

Shipping weight, 300 pounds. See "Estimated Total Freight Charges" on Page 416. For Easy Payments Use Order Blank on Page 623.
